Victoria Day	Monday, May 21, 2018
Canada Day	Sunday, July 01, 2018
In lieu of Canada Day	Monday, July 02, 2018
Heritage Day	Monday, August 06, 2018
Important College Events	
Open House	October 2017 (TBD)
Faculty Professional Development Day (No Classes)	Friday, November 24, 2017
College Wide Learning Day (No Classes)	Friday, March 16, 2018
Convocation - College is open	May 2018 (TBD)

Important Academic Dates

Summer 2017 Term	Summer classes
Classes begin	Tuesday, July 04, 2017
Last day to add classes	Wednesday, July 05, 2017
Drop deadline*	Friday, July 07, 2017
Last day for payment (late fee of \$100.00 charged on any outstanding balance after this date)	Friday, July 07, 2017
Last day for partial tuition refunds	Wednesday, July 12, 2017
Withdrawal deadline**	Wednesday, July 26, 2017
Summer Term ends	Friday, August 18, 2017
Fall 2017 Term	Full term classes
Classes begin	Tuesday, September 05, 2017

Last day to add classes	Monday, September 11, 2017
Drop deadline*	Thursday, September 14, 2017
Last day for payment (late fee of \$100.00 charged on any outstanding balance after this date)	Thursday, September 14, 2017
Last day for partial tuition refunds	Monday, September 25, 2017
Withdrawal deadline**	Friday, October 27, 2017
Fall Term ends	Wednesday, December 20, 2017
Winter 2018 Term	Full term classes
Classes begin	Monday, January 08, 2018
Last day to add classes	Friday, January 12, 2018
Drop deadline*	Wednesday, January 17, 2018
Last day for payment (late fee of \$100.00 charged on any outstanding balance after this date)	Wednesday, January 17, 2018
Last day for partial tuition refunds	Monday, January 29, 2018
Withdrawal deadline**	Friday, March 02, 2018
Winter Term ends	Friday, April 27, 2018
Spring /Summer 2018 Term	Full term classes
Classes begin	Monday, May 07, 2018
Last day to add classes	Friday, May 11, 2018
Drop deadline*	Wednesday, May 16, 2018
Last day for payment (late fee of \$100.00 charged on any outstanding balance after this date)	Wednesday, May 16, 2018
Last day for partial tuition refunds	Friday, May 25, 2018
Withdrawal deadline**	Friday, June 29, 2018
Spring 16-week Term and Summer Term ends	Friday, August 24, 2018

Dates are subject to review and possible change.

***Drop deadline:** Students who withdraw from their program or course(s) by or before the drop deadline will have their course registration deleted from transcripts. For courses and programs less than 16 weeks in duration, the drop period is 10% of the course or program length.

****Withdrawal deadline:** The last day to officially withdraw from a 16-week course or program without academic penalty and receive a "W" (Withdrawal) grade. After this date, courses will be graded "WF" (Withdraw Fail). For courses and programs less than 16 weeks in duration, the withdrawal deadline without academic penalty is 50% of the course or program length.

Change to Registration	Deadline
Last day to add classes	6% of course or program length
Drop deadline	10% of course or program length
Last day for partial refund	20% of course or program length
Withdrawal deadline	50% of course or program length

Ways to Study

Full-Time: Students registered in at least 60% of a program's full course load by term.

Part-Time: Students registered in fewer than 60% of a program's full course load by term.

Open Studies: An option available for learners who wish to take post-secondary level credit courses, but are not applying to a specific program.

Delivery Methods

Face-to-Face

Courses are delivered in a classroom setting, face-to-face instruction, with regularly scheduled class meetings.

- **Day:** Classes are delivered with day time meeting schedules, Monday – Friday.
- **Evenings:** Classes are delivered with evening meeting schedules, Monday to Thursday.
- **Weekends:** Classes are delivered with weekend meeting schedules.
- **Evening/Weekends:** Classes are delivered with a combination of evening and weekend meeting schedules.

Online

Offered in an online setting. Face-to-face meetings may be required for some programs to complete laboratory components. Online courses are offered two ways:

- **Synchronous (real time)** – Students follow a specific real time class schedule and must be available to log into organized online class meetings or video conferencing. Classes are often synced with a face-to-face delivery, which may be delivered during day, evening or weekend hours depending on the program or course.
- **Asynchronous (anytime)** – Students are not required to participate in regularly scheduled class meetings although there is specific course start, end, and due dates for course work. Online learning is self-directed.

Open Entry/Open Exit (OEE): Students will be assigned a start date depending on their registration date and will be given a set number of weeks to complete the class. Students can complete the courses before their specific end dates.

Hybrid

Uses a combination of face-to-face and online delivery. Online portions may include synchronous and/or asynchronous components

depending on the program and courses.

Distance

Uses a combination of paper, phone, mail, and/or online correspondence for off campus learning.

Delivery Location

- Edmonton Downtown Campus
- Westmount Campus (in Edmonton)
- Wetaskiwin Regional Campus
- Drayton Valley Regional Campus
- Whitecourt Regional Campus
- Online

Other locations may be available.

Delivery Term Start

- Fall Start (September)
- Winter Start (January)
- Spring Start (May)
- Summer Start (July)
- Continuous (Monthly intakes)

GENERAL ADMISSION GUIDE

Office of the Registrar

NorQuest College

Tel: 780.644.6000

Toll-free (within Canada) 1.866.634.7218

Fax: 780.644.6013

To be admitted to NorQuest College, applicants must meet the admission requirements for the program to which they are applying. Specific admission requirements are listed with each program.

For all programs,

- Applicants are accepted on a first-qualified, first-served basis once their application and supporting transcripts/documents have been received and evaluated against their program's admission requirements.
- Admission requirements are subject to change annually. For the specific academic year requirements, see the specific programs for details.
- Program admission requirements for the next academic year will be published in the [viewbook](#) in September of the current year.

Applicant Requirements

- Applicants must be 18 years or older within the first semester of their program or under 18 years of age with a high school diploma.
- If underage, the applicant must demonstrate suitability for the program and have written parental consent.
- Applicants for career programs must be 18 years of age before attending any work or clinical placements to comply with external workplace regulations.
- Applicants must meet all admission requirements as stated under each program. Official transcripts must be submitted to show admission requirements are met.

Student Retention Services is focused on the student experience at NorQuest College. As part of this office, the student navigator is the central point of contact for all applicants and students. Your student navigator is there to answer questions, provide guidance, information, and options to help you make informed decisions about your academic future. You can contact a student navigator by email through student.navigator@norquest.ca or by visiting Room A125, 10215 108 St. NW, Edmonton, AB.

Application Fee

To have your application to a NorQuest College program considered, an application fee is required. The non-refundable, non-transferable \$95 CDN application fee must be submitted along with your application for admission. For international students (both residing in Canada and outside of Canada), the non-refundable, non-transferable application fee is \$150 CDN. Application fees cannot be applied towards tuition. Application fees are paid each time an application is submitted.

Applications for admission from former students with outstanding financial accounts will not be processed until the account has been

paid in full. Application fees received from applicants with an outstanding balance will be automatically applied to their outstanding balance.

Application Fees from Sponsors

We recommend that students pay their application fee first, and then approach their sponsor for reimbursement.

The Office of the Registrar will not accept letters, faxes, or other promissory notes for application fees from sponsors or third-party funders. The only exceptions considered are from the Workers Compensation Board or Advancing Futures.

ApplyAlberta (www.ApplyAlberta.ca)

Take advantage of applying online! ApplyAlberta is the province-wide online application system that enables students to apply to one or more Alberta post-secondary institutions and authorize transcript transfers between participating institutions.

Applicants enter their personal and academic information only once. The information is transferred automatically to each institution to which the individuals choose to apply. Applicants who use ApplyAlberta are not charged a fee for Alberta high school or post-secondary transcripts transferred between post-secondary institutions.

Application Acceptance Dates

NorQuest College will begin accepting applications for programs according to the following schedule. When the first of the month falls on a weekend or holiday, applications will open by noon of the next business day.

Term	Start Date for Acceptance of Applications
Fall	November 1 of the previous year
Winter	March 1 of the previous year
Spring and Summer	July 1 of the previous year

Admission Deadlines

Applications will not be accepted after the start date of a program. You are strongly encouraged to apply well in advance of your desired program start date, as all programs are filled on a first-qualified, first-accepted basis.

International students without a valid Canadian study permit must apply to NorQuest College at least two months prior to the term start date of their program. This time period allows time for the admission process to be completed and for a study permit to be obtained.

- To enter fall term programs, you must apply by June 30.
- To enter winter term programs, you must apply by October 31.
- To enter spring term programs, you must apply by February 28.

Applicants wishing to apply to an online offering of a program should apply at least one month prior to the program start. See [programs](#) for information about start dates.

Once a program has begun or one of the deadlines above has passed, applicants will be directed to apply for the next upcoming term. This is to allow sufficient time for applicants to meet admission requirements and course registration deadlines.

Student Technology Features

MyMail: Your College-Issued Email Address

NorQuest College issues a lifetime college email address to all applicants, which is used as the primary communication vehicle between the Office of the Registrar, applicants, and registered students.

Students are expected to check their college [MyMail](#) account on a regular basis so that they do not miss any communication from the college. Electronic communications sent by the college will be deemed received on the next college business day after the day the message was sent regardless of any error, failure notice, Internet service provider problem, virus, email filters, or auto-reply related to students' email, unless the error or problem originated with the college. Failure to receive or read official college communications sent to the student's college email account in a timely manner does not absolve the student from knowing and complying with the content of the official communication.

MyQuest: Your Online Student Service Centre

Once you apply to NorQuest College, you will be issued a lifetime [MyQuest](#) username and password, giving you access to all of your student account information online anywhere the Internet is available. Features include:

- Viewing your admission checklist and admission status in real-time
- Paying your fees online with a credit card
- Viewing your tuition and fees each term
- Viewing and printing your timetable
- Viewing your grades and printing an unofficial transcript
- Updating your address and contact information
- Printing an enrolment verification report
- Applying to graduate
- Viewing and printing your annual [T2202A tax receipt](#)

STEPS TO ADMISSION

You've made the decision – you're bound for NorQuest College. This process will take you from your decision to Day 1 at school.

Note: there are **2 additional steps for students applying to foundational programs** (Academic Upgrading, English as a Second Language, Apprenticeship Prep, Day Home Provider, Literacy and Essential Skills Pathways, and Transitions to Employment). See Foundational/Preparatory Programming below.

To become a student at NorQuest College, you are required to apply through the admission process outlined below and be admitted to your program of choice. [Open Studies](#) is available to those applicants who wish to take post-secondary level credit courses without applying to a specific certificate or diploma program.

1. Apply, pay the application fee, and submit the admission requirements

1. Visit [Applying to NorQuest](#) to apply online, by mail, or in person at the Office of the Registrar on the main campus or at any of our regional campuses. You can also go directly to [ApplyAlberta](#) and select NorQuest College.
2. Pay the non-refundable application fee.
 - For Canadian applicants, this fee is \$95.
 - For international applicants (both in Canada and outside Canada), this fee is \$150 CDN and is non-transferable to other institutions.*
 - Application fees are required for each program or intake to which you are applying.
 - Open Studies applicants pay a one-time application fee.

Note: applications received without the fee will not be processed. Application fees cannot be applied toward tuition.

3. Submit your admission requirements.
 - If you apply through the [ApplyAlberta website](#), you may have your Alberta high school and Alberta post-secondary transcripts sent directly to NorQuest College.
 - If you apply by mail or in person, you must make arrangements to have your high school and/or post-secondary transcripts sent to NorQuest College directly from the issuing institution. See [Transcripts and Testing](#) for more information. It is your responsibility to ensure we receive the necessary documents.
 - If you completed any of your education outside of Alberta, you will need to arrange for your transcripts to be sent to NorQuest College.
 - If you were educated in a province other than Alberta, consult the [Provincial/Territorial Grade 12 Equivalency Chart \(71K.pdf\)](#) to see whether your academic coursework may be equivalent to what is required in Alberta.
 - If you are an internationally educated student, transcripts/certificates/ELP (English language proficiency) test results must be submitted to NorQuest College. See [International Transcripts](#) for more information.
 - If you are a Canadian citizen or a permanent resident, and

you submit international transcripts/documents for assessment for admission to NorQuest College programs, a \$55 document assessment fee is charged to you at the time of submission. This additional fee must be paid before any assessment of your documents will be conducted. If you submit an international credential course-by-course analysis evaluation, it may exempt you from paying this additional fee if the evaluation is deemed to provide sufficient information to make decisions about your admission. For more information, see [International Credential Evaluations](#).

Complete applications are processed in the order of the date they are received. You are advised to apply well in advance of your desired program start date and submit all supporting transcripts and documentation as quickly as possible. A delay in sending in your admission requirements may affect your acceptance into the program.

Reapplying to NorQuest College

If you have attended NorQuest College in the past and withdrew for any reason, and you now want to resume your studies:

- You are required to reapply and meet current program admission requirements.
- You are required to meet all conditions (if applicable) outlined on your withdrawal form before being considered for reacceptance.
- You may require an appointment with a counsellor or advisor to determine your readiness to return.
- Applications from former students with outstanding financial accounts will not be considered until the account has been paid in full.
- Application fees received from applicants with an outstanding balance will have the fee automatically applied to their outstanding balance.

Open Entry/Open Exit Online Applicants

Open Entry/Open Exit (OEE) online classes allow students flexibility on their start date. Students will be assigned a start date depending on their registration date and will be given a set number of weeks to complete the class.

If you are applying to an Open Entry/Open Exit (OEE) online delivery, your application is valid only for the term to which you have applied. Applications for OEE programs will be accepted for future terms only after the prior term start date has passed.

Monthly intakes

Many OEE classes have monthly start dates. Students can start a class on the first of any month within the advertised start and end dates. Registration and full payment for these classes must be received by or before the 15th of the previous month. The course start date is the first day of any month, except during a term start month – September, January, May – when the term start date will apply.

If you are unable to meet all program requirements by the deadline, you will have to reapply. A new application and application fee will be required. Contact Admissions (admissions@norquest.ca) for more information on the application process.

2. We acknowledge your application

You will receive a welcome email from the Office of the Registrar, which includes your login information for your NorQuest technology accounts.

- **MyQuest**- NorQuest College provides applicants with a secure logon to our online student centre, **MyQuest**, where real-time information on your admission status can be found. You can continually check your **admission status** and update your personal information.
- **MyMail**- NorQuest College uses your college email account as our primary means of communicating with you as an applicant and a registered student.

You will receive an acknowledgement email from the Office of the Registrar to notify you of your status and of any further information or documentation that is required.

- Carefully read all communications from the Office of the Registrar. There will be important information and deadlines requiring your attention.
- Complete and submit the items required to fulfill any admission requirements. Do this as soon as possible.
- Ensure that we have your current address and telephone number.

The Office of the Registrar will assess your transcript(s) to determine whether you meet the admission requirements for your chosen program. If the information provided on transcripts does not allow the Office of the Registrar to determine admission eligibility, you may be asked to provide further information or to have an **academic skills assessment**. It is your responsibility to prove that admission requirements have been met.

Some programs may require additional basic skills assessment testing even if you meet the academic admission criteria. [See your program](#) for detailed requirements.

Reminder: Complete applications are processed on a first-qualified, first-accepted basis. If you apply to a program and do not submit all of your admission requirements by the program start date, you must reapply and pay an application fee to be considered for the next intake.

3. We make a decision on your application

Once steps 1 and 2 are completed, we make a decision regarding your admission. Certificate and diploma program applicants receive their admission decision on a first-qualified, first-accepted basis. If you are accepted into a program, you will receive an email offering you admission into your program of choice and requesting **your tuition deposit**.

To find out the status of your application, visit **MyQuest** and check your application status or contact the Admissions and Transfer Credit Unit in the Office of the Registrar at admissions@norquest.ca.

Applicants who do not meet admission requirements will be advised of the reason and offered assistance in choosing another program, if applicable. Applicants who have not submitted all admission documents by the program start date must reapply and pay an application fee to be considered for the next intake.

Conditional Admission

Conditional admission may be offered if you are currently registered in courses to meet the admission requirements for your program. For conditional admission for meeting academic requirements, you may be registered in the prerequisite courses at any recognized institution. For conditional admission for meeting English language proficiency requirements, you must be registered in NorQuest College courses. To be considered for conditional admission, you need to complete the following:

- Submit proof of your enrolment in courses that are required for admission to your program to the Admissions and Transfer Credit Unit.
- If you are enrolled in the prerequisite courses at NorQuest College, email admissions@norquest.ca to request conditional admission to your program.
- Submit the required tuition deposit (\$200, \$500 CDN for international students) to hold your seat in conditional status. The seat will not be held without the deposit payment. See Step 4 for more information.

Once the Admissions and Transfer Credit Unit verifies that you are enrolled in the required courses, met all other requirements, and paid the tuition deposit, you will receive a conditional acceptance letter indicating the requirements you need to meet before the final requirements submission deadlines. The outstanding item(s) will be shown on your "To Do" list in [MyQuest](#).

Term	Final Requirements Submission Deadline for External Courses	Final Requirements Submission Deadline for NorQuest Courses
2016/17		
Fall 2016	August 1, 2016	August 25, 2016
Winter 2017	December 1, 2016	December 23, 2016
Spring 2017	April 1, 2017	April 29, 2017
Summer 2017	June 1, 2017	June 30, 2017
2017/18		
Fall 2017	August 1, 2017	August 31, 2017
Winter 2018	December 1, 2017	December 20, 2017
Spring 2018	April 1, 2018	May 3, 2018
Summer 2018	June 1, 2018	June 28, 2018

Note: International students may be given an earlier deadline so that requirements can be met in time to apply for a study visa.

Full admission is granted once you have achieved the grades required in the prerequisite courses. In addition, all conditions must be met by the date specified in the conditional admission email, prior to the final requirements submission deadline. If you fail to meet all conditions by the specified due date, your admission will be revoked.

Note: Conditional admission will not be offered to applicants enrolling in Open Entry/Open Exit (OEE) delivery of a program.

Provisional Admission

If you do not meet a certain academic requirement, **provisional admission** may be offered.

- Provisional admission is approved only by a Program Chair and will be considered only close to the start date of a program if seats are still available. Provisional admission is not normally offered in over-subscribed programs where waiting lists of qualified applicants may exist.
- If an applicant is awarded provisional admission, the applicant must satisfy certain conditions including admission requirements, as outlined by the Program Chair, by the date specified in the offer of admission (normally within the first term of enrolment).
- Access to courses, activities, and practicum experiences may be limited until all provisional requirements are met and full admission granted.
- If you are provisionally admitted, but fail to complete all conditions by the specified deadline, you may be withdrawn from your program, and subject to the financial and academic penalties as outlined in our withdrawal procedure.

Note: Provisional admission will not be offered to applicants enrolling in Open Entry/Open Exit (OEE) delivery of a program since OEE education is self-directed.

Visit our [Accepted Students](#) section for more information on your next steps.

4. You accept our admission offer and pay your tuition deposit

A non-refundable, non-transferable tuition deposit or a sponsorship confirmation is necessary for applicants to confirm their attendance in a program and reserve a seat. Tuition deposits may not be deferred to a future term. If you delay your tuition deposit confirmation, you may find all seats filled. You may pay your tuition deposit through your [MyQuest](#) account.

- **Canadian citizen/permanent resident deposit:** Domestic applicants are required to pay a non-refundable, non-transferable tuition deposit of \$200 CDN. The deposit will be applied toward the first term's tuition.
- **International applicant (both in Canada and outside Canada) deposit:** International applicants are required to pay a non-refundable, non-transferable tuition deposit of \$500 CDN towards the first term's tuition.

Full Programs

If you have been offered admission to a program, but the program has been filled before you pay your tuition deposit, you will be placed on a waitlist or may have the option of changing to another delivery method, campus, or program in the same term. There may be additional admission requirements for some deliveries or programs. In order to investigate the option to change delivery method, campus, or program, you must contact the Admissions and Transfer Credit Unit with a written request.

Refusal of Admission

NorQuest College reserves the right to grant or refuse admission to any individual. Former applicants or students who have lost good standing may be denied re-entry, or may have conditions placed on readmission. Applicants have the right to appeal admission decisions; please see [Student Appeals](#).

College Cancellation of a Course or Program

NorQuest College reserves the right to cancel courses or programs for operational reasons. When the college cancels a course or program, all college fees (including application fees) will be refunded.

Admission Process for Foundational and Preparatory Programming:

The following steps apply to Academic Upgrading, English as a Second Language, Apprenticeship Prep, Day Home Provider, Literacy and Essential Skills Pathways, and Transitions to Employment programs.

The admission process for these programs is slightly different. Applicants to these programs should follow these steps:

1. Apply, pay the application fee, and submit the admission requirements as outlined.
2. We acknowledge your application as outlined.
3. Contact a student navigator. Student navigators will assess your eligibility for admission based on current documents or arrange for assessment testing to be done in order to place you in the appropriate program or level. Student navigators can be contacted at:

Tel: [780.644.6130](tel:780.644.6130)

Email: student.navigator@norquest.ca, or

In person: 10215 108 Street NW, Edmonton (Downtown campus) or at any of our regional campus locations (see [Campuses & Maps](#) for information on locations).

4. Have your eligibility for funding determined (if applicable). Applicants who require funding for schooling will discuss options with their student navigator. Funding may include Alberta Works grant funding, band funding, or other 3rd party funding or sponsorship options. For Alberta Works grant funding, the student navigator will complete a funding eligibility assessment.
5. We make a decision on your application. Once the first 4 steps are completed, we make a decision regarding your admission.
6. You accept our admission offer and pay your tuition deposit as outlined. NOTE: for applicants receiving funding or sponsorship, the tuition deposit payment is waived once sponsorship or funding is confirmed.

Notes

- International applicants for preparatory programs who reside outside of Canada will be admitted upon receipt of their application. They will have to meet with a student navigator for placement in the appropriate program or level prior to the program start, once they arrive in Edmonton.
- If you have applied to a preparatory program, such as Academic Upgrading, and learn that you have already completed the requirements for a post-secondary program that you are interested in, you will be given the opportunity to add the program to your application without an additional application fee as long as
 - a. the post-secondary program is available in the same admit term as your current application, and
 - b. there is still room in the post-secondary program at the time of request.

For more information, contact your student navigator.

TRANSCRIPTS

Transcripts

Admission to NorQuest College requires you to submit transcripts from educational institutions at which you have previously studied. Your application cannot be completed until your official transcripts have been received (photocopies are not acceptable as they are not considered official). Once submitted, all transcripts become the property of NorQuest College and will not be released to you nor photocopied for you or anyone outside the college. This is standard practice among Canadian post-secondary institutions and is designed to protect the transcript's authenticity.

- If you completed your education at NorQuest College, you do not need to request a transcript from NorQuest College.
- If you applied online using the [ApplyAlberta](#) system, your Alberta high school and post-secondary transcripts can be sent to NorQuest College electronically. If, for some reason, we do not receive them, transcripts will show as an outstanding item in your "To Do" list on [MyQuest](#). Contact Alberta Education and/or your institution to have them sent to NorQuest. If for any reason, we do not receive transcripts through ApplyAlberta, it is your responsibility to ensure we receive the necessary documents.

To request an Alberta high school transcript, contact:

Alberta Education
High School Transcripts and Diplomas
2nd Floor, 44 Capital Boulevard
10044 108 Street NW
Edmonton, Alberta T5J 5E6
Phone toll-free (only within Alberta): 310.0000
Extension: 780.427.5732
Tel: 780.427.5732
Fax: 780.422.2137
Online: www.education.gov.ab.ca

- If you did not apply online or your educational institution is outside of Alberta, provide an official transcript from each high school and post-secondary institution (college, university, technical institute) you have attended.
 - **Canadian high school transcripts:** transcripts from other Canadian provinces can be obtained by contacting the appropriate board of education in the province in which you attended high school. Ontario high school students can apply for transcripts directly from the high school attended. Official transcripts must be sent directly from the issuing institution to NorQuest College. Check the [Provincial/Territorial Grade 12 Equivalency Chart \(71K.pdf\)](#) to see whether your academic coursework may be equivalent to what is required by NorQuest College.
 - **Canadian post-secondary transcripts:** contact the Office of the Registrar of the institutions you have previously attended and request your transcripts be sent directly to the Office of the Registrar at NorQuest College.

- **International transcripts:** Many post-secondary institutions will send original transcripts directly to Canadian schools upon your request, and may provide them fully translated into the English language. If you attended a post-secondary institution outside of Canada, contact your former school and request your original transcripts, with English translation (if applicable). Request your transcripts to be sent directly to the Office of the Registrar at NorQuest College. In some countries, education documents are not known as "transcripts"; check the [International High School Credentials by Country Chart \(192K.pdf\)](#) to ensure you request the proper documentation. See [International Transcripts](#) for more information.
- If you are a Canadian citizen or a permanent resident, and you submit international transcripts/documents for assessment for admission to NorQuest College programs, you will be charged a \$55 document assessment fee at the time you submit them. This additional fee must be paid before any assessment of your documents will be conducted. If you submit additional documents for evaluation at a later date, you will be required to pay the \$55 fee again. If you submit an international credential course-by-course analysis evaluation, it may exempt you from paying this additional fee if the evaluation is deemed to provide sufficient information to make decisions about your admission. For more information, see International Credential Evaluations below.

Your submitted transcripts must be in English.

- A certified English translation must accompany any transcripts that are in a language other than English.
- Some institutions will provide an English version of your transcripts if you ask for it when you request your transcripts.
- If you need to have your documents translated, see [Document Translation Services](#). Once the documents have been translated, you must submit the originals and the certified translation.

Once your transcripts have been received by NorQuest College, they will appear in your "To Do" list on [MyQuest](#) as received. If your transcripts have already been assessed, this item will no longer appear on your list, as the requirement has been completed.

International Credential Evaluations

Transcripts that have been evaluated by the International Qualifications Assessment Service (IQAS), World Education Services (WES), or International Credential Service of Canada (ICAS) can be submitted to assist the Office of the Registrar with transcript evaluations. NorQuest College reserves the right to provide our own interpretation of the assessments provided and, if necessary, ask for further proof of eligibility for admission.

Skills Testing

Skills testing is an option for many programs for students who do not meet the academic requirements of the program. You will be advised whether skill testing is an option for you and how to book those tests.

Once you have completed skills testing, the [Academic Skills Assessment Centre](#) will provide you the results either in-person or via your [MyMail](#) account.

Applicants whose first language is not English must demonstrate English Language Proficiency as part of the admissions process. ELP requirements for each NorQuest College program are detailed on the program's Admissions Requirements page. For most programs, there are five ways to meet ELP requirements.

1. By completing NorQuest College ESL Intensive coursework that the program has identified as acceptable for meeting ELP.
2. By achieving an acceptable score on an ELP test, such as
 - TOEFL (Test of English as a Foreign Language)
 - CLBA (Canadian Language Benchmarks Assessment)
 - IELTS Academic (International English Language Testing System)
 - CAEL (Canadian Academic English Language)
 - CELBAN (Canadian English Language Benchmark Assessment for Nurses)
 - CELPIP General (The Canadian English Language Test)
 - Other ELP test as deemed acceptable by the Office of the Registrar

For more information about ELP tests and submitting results, visit our [ELP Tests](#) page.

3. By completing high school in Canada. Studies must have been in English at an approved Canadian high school with at least three consecutive years of full-time academic study and completion of Grade 12 English or its equivalent.
4. By completing a recognized post-secondary degree or diploma program in Canada. The program must have involved at least two full years of full-time, consecutive academic study in English.
5. By completing at least three consecutive years of full-time secondary or post-secondary study in English in an [ELP Exempt Countries Chart \(71K.pdf\)](#) or in a recognized institution where the primary language of instruction is English. These studies must include satisfactory completion of Grade 12 English or its equivalent, and cannot include English as a Second Language or Language Instruction for Newcomers to Canada courses.

Note: ELP requirements are part of the admission requirements for NorQuest College programs. Each program also has English academic admissions requirements that are distinct from ELP requirements, and each student must meet both sets of requirements for admission.

WORK, PRACTICUM, AND CLINICAL PLACEMENT REQUIREMENTS

Immunization Requirements

Programs with a work, practicum, or clinical placement may require up-to-date immunization records.

4 Steps to Meeting Requirements:

If you live in the Edmonton and surrounding area:

1. Obtain records for any immunizations that you have received in the past

- Ask your parents. If you received immunizations as a baby, your parents would have been given an immunization book.
- If you received immunizations at NorQuest Health Services, you can call 780.644.6155 and request a copy of your records.
- If you attended school from grades 1 to 9 in Edmonton, Sherwood Park, or St. Albert, call Alberta Health Services at 780.413.7985.
- Check with the local public health unit closest to the school that you attended from grades 1 to 9 if you remember getting immunizations at school.
- If you have worked as a nurse or volunteered at a hospital or nursing home, the occupational health office where you worked would keep copies of the immunization and blood work you had done there.
- Immunize Canada has contact information for all health authorities for every province and territory in Canada. You may visit their website at immunize.ca.

2. Complete your immunizations

- If you live in the Edmonton and surrounding area:
 - a. Make an appointment with the Alberta Health Services Immunization Business Unit at 780.735.0100 and identify yourself as a NorQuest College applicant.

 Alberta Health Services Immunization Business Unit
 Seventh Street Plaza
 North Tower, Suite 440
 10030 107 St. NW, Edmonton, AB
 (1/2 block south of Jasper Avenue on 107 Street near Corona LRT Station)
 - b. Take a copy of your past immunization record and the NorQuest immunization form, which you may download off the NorQuest College website.
 - c. You will have to pay for this service. During this visit, the nurse can advise you of the number of additional visits and costs to complete all the immunizations you need.

- If you live outside the Edmonton and surrounding area:
 - a. You can receive the vaccines required and have the NorQuest immunization form completed at your local health unit.
 - b. You may have to pay for this service.

3. Submit your complete immunization record to NorQuest Health Services

Once your immunizations are completed and they have been signed off by a nurse from the Immunization Business Unit in Edmonton or your local public health clinic, you can submit them to NorQuest Health Services.

Fax your records and completed immunizations record form to 780.644.6151.

OR

Mail or bring your records to:

NorQuest Health Services
 Room A109, 10215 108 St NW
 Edmonton, AB T5J 1L6

4. Have your immunization form assessed by a nurse at NorQuest

A nurse at NorQuest will review the immunization form to make sure all immunizations have been completed. It is the responsibility of applicants waiting for chest X-ray or bloodwork results in the mail, to submit these records to NorQuest Health Services as soon as they are received.

Returning Students and Immunization Records

If you have previously attended NorQuest and submitted immunizations, you need to contact NorQuest Health Services to confirm that the immunizations are still valid. Alberta Health Services requires a TB test to be completed within six months of your program start date, and chest X-rays are valid only if they are completed within one year of your program start date.

Police Information Check

Certain programs require a clear police information check (PIC) if you are going to participate in a clinical or work placement. This document forms part of your official student record.

- The police information check must be clear and must include a vulnerable sector check. When requesting a police information check, ensure that you ask for a vulnerable sector search. It must be clearly indicated on the document that this additional search was completed.
- Edmonton residents can apply for a PIC in person through the Edmonton Police Services, Police Information Check Section, Nexus Business Park, #108, 14315 118 Avenue, Edmonton.
- Applicants living outside of Edmonton can apply for a PIC through their local branch of the RCMP.
- If your police information check is not clear for any reason, it may prevent you from attending your placement and/or obtaining your professional licence. If your PIC is not clear, you will be required to meet with your Program Chair to discuss your options.
- Police information checks do expire, so in order to make sure that your PIC will be valid at the time you attend your clinical/work placement, do not request it too early. Do, however, ensure that you request it in enough time to submit it by your due date. Edmonton Police Service and/or the RCMP can take anywhere from 4 to 12 weeks to complete your police information check. Internet (online) police information checks are not accepted by the college. Please obtain one directly from a local law enforcement agency.
- The original police information check must be submitted to the college. For submission instructions, please refer to the program admission requirements.

Intervention Record Check

If you are a student in the Social Work or Community Support Worker program, Alberta Children and Youth Services Intervention Record Check must be submitted to the Faculty of Health and Community Studies, Human Service Careers Program Office, Room A216, in the NorQuest College Main Building, Edmonton Downtown Campus.

- The intervention record check must meet the criteria specified by the practicum sponsors. At the appropriate time, most likely the term prior to your placement, your practicum faculty advisor will discuss your placement and what is required.
- The intervention check cannot be dated any earlier than six months before your practicum, so do not obtain this document until advised to do so.
- You can apply for this document through Edmonton and Area Child and Family Services Authority located at #1100, 10055 106 St. NW, Edmonton (inside the HSBC building).

ACADEMIC ASSESSMENT

Applicants may be required to write admissions tests:

- To determine whether they have the required academic skills for program entrance
- To determine placement in academic upgrading courses

Academic Assessment for Post-Secondary Programs

If you have not passed courses that are required for entrance into a certificate or diploma program or lack proof that you have completed the courses, you may be able to request an academic assessment (or Admissions may recommend this assessment).

Academic skills testing is a complementary option provided to you as an alternative way to meet admission requirements. It is also an excellent way to verify your current knowledge of the specific subject area to support your success in your program. There is no additional charge for skills testing. In order to be granted admission based on skills testing, you can test a maximum of twice per subject. If you are unsuccessful after two attempts, you will be required to upgrade until you obtain the levels required for that specific program.

Once your official high school and/or post-secondary transcripts have been evaluated, you can:

1. Book a testing appointment with Assessment Services by calling 780.644.6055 or email assessmentexams@norquest.ca. If you are unable to come to Edmonton or one of our regional campuses for testing, ask about testing in your home community.
2. Complete one or more tests (reading comprehension, mathematics, writing, biology, etc.).

If your scores meet admission standards, these may be accepted in place of the published admission requirements.

Note: the Social Work program does not accept academic assessment testing in lieu of academic requirements.

Academic Upgrading/English Language Training Placement Tests

When you apply for [Academic Upgrading](#) or [English Language Training](#) programs, you may be required to complete an academic assessment for placement purposes. The placement assessment tests may include a standardized reading test, essay, and/or mathematics test.

It is not necessary to study for these tests. If you require your academic assessment in an alternative format because of a disability, we will make special arrangements for you. If you are unable to come to Edmonton or one of our regional campuses for testing, ask us about testing in your home community. Your [student navigator](#) will schedule your assessment, and your academic skills assessment advisor will contact you to discuss your results and program plan.

For more information on review materials, go to [Academic Assessment](#).

ENGLISH LANGUAGE PROFICIENCY

Applicants whose first language is not English must demonstrate English Language Proficiency as part of the admissions process. ELP requirements for each NorQuest College program are detailed on the program's Admissions Requirements page. For most programs, there are five ways to meet ELP requirements:

1. By completing NorQuest College ESL Intensive coursework that the program has identified as acceptable for meeting ELP.
2. By achieving an acceptable score on an ELP test, such as:
 - TOEFL (Test of English as a Foreign Language)
 - CLBA (Canadian Language Benchmarks Assessment)
 - IELTS Academic (International English Language Testing System)
 - CAEL (Canadian Academic English Language)
 - CELBAN (Canadian English Language Benchmark Assessment for Nurses)
 - CELPIP (Canadian English Language Proficiency Index Program)
 - Other ELP test as deemed acceptable by the Office of the Registrar

View the [NorQuest College English Language Proficiency Chart - 2017-18 \(271K pdf\)](#). For more information about ELP tests and submitting results, visit our [ELP Tests page](#).

3. By completing high school in Canada. Studies must have been in English at an approved Canadian high school with at least three consecutive years of full-time academic study and completion of Grade 12 English or its equivalent.
4. By completing a recognized post-secondary degree or diploma program in Canada. The program must have involved at least two full years of full-time, consecutive academic study in English.
5. By completing at least three consecutive years of full-time secondary or post-secondary study in English in an [ELP Exempt Country](#) or in a recognized institution where the primary language of instruction is English. These studies must include satisfactory completion of Grade 12 English or its equivalent, and cannot include English as a Second Language or Language Instruction for Newcomers to Canada courses.

Note: ELP requirements are part of the admission requirements for NorQuest College programs. Your program will also have English academic admissions requirements that are distinct from ELP requirements, and each student must meet both sets of requirements for admission.

NorQuest College may require additional English language testing if the college receives contradictory ELP evidence (e.g. low ELP test scores) for an applicant.

INTERNATIONAL STUDENTS

NorQuest College, located in the heart of downtown Edmonton, is a community college serving over 13,500 students each year. Offering post-secondary diploma and certificate programs, NorQuest graduates are prepared for careers in business, health, and human services. Most programs and courses described in our calendar are available to international students.

Since students come from diverse cultural, educational, and social backgrounds, we offer pathway options such as English as a Second Language (ESL), English for Academic Purposes (EAP), Open Studies, and high school academic upgrading for you to reach your educational goals.

The International Student Office is committed to serving the unique needs of our international students. We offer services related to:

- International student advising
- Social activities
- Assistance with personal and cultural transitions
- International student orientation program
- Volunteer opportunities

Known for their community-minded outlook, our students, faculty, and staff make NorQuest a place that prepares graduates to live, work, and contribute to local and global communities. Our graduates are culturally aware, competent global citizens who are valued by employers. After completing our programs, graduates have the opportunity to pursue further studies at other post-secondary institutions.

Edmonton is a safe and friendly city of one million people with hundreds of parks and recreational sites. Edmonton has a lot to offer including a variety of restaurants, galleries, museums, festivals, theatres, sporting events, and recreational activities.

Tuition and Fees

International tuition fees are higher than domestic fees. Book costs, program and supplies fees, and Students' Association fees are the same for both international and domestic students. Each [program](#) indicates the tuition and fees for international students. See [Tuition and Fees](#) for more information. See [Booklists](#) for book costs.

General Admission Information

Applicants must be 18 years of age or older within the first semester of their program. International students must meet the admission requirements for the program to which they are applying before admission will be granted. See [General Admission](#) for details.

It is important that international students obtain health insurance when they travel to Canada and during their stay in Canada. Eligible students will automatically be enrolled in the Students' Association's Health and Dental Plan. Students who have other coverage may choose to opt out of the coverage provided. For more information, please contact the [International Student Office](#).

It is important to apply early as study permits may take several months to obtain.

Application Deadline Dates

International students without a valid Canadian study permit must apply to NorQuest College at least two months prior to the term start date of their program. This time period allows time for the admission process to be completed and for a study permit to be obtained.

- To enter fall term programs, you must apply by June 30.
- To enter winter term programs, you must apply by October 31.
- To enter spring term programs, you must apply by February 28.

International students who reside in Canada and already have a valid study permit are not subject to these deadlines and may follow the timelines in the [General Admission Guide](#).

Applying as an International Student

1. Complete an online application through ApplyAlberta at www.applyalberta.ca or visit the NorQuest website for [other ways to apply](#).
2. Pay the non-refundable, non-transferable \$150 CDN application fee and submit your application.
3. Receive acknowledgement from the college.
4. Submit all required documents, including official transcripts, diplomas, certificates, prerequisite documents, English language proficiency (ELP) results, and other admission requirements, to NorQuest College as soon as possible.
 - For detailed instructions, please read the [Official Transcript Submission Bulletin \(89K.pdf\)](#)
 - For more information about English language proficiency requirements, see [English Language Proficiency](#).
5. Receive an admission decision. An official offer of admission will be issued by NorQuest College once all admission requirements are deemed to have been met.
6. Obtain a study permit or student visa for a program longer than six months. You will also need to use NorQuest College's Designated Learning Institution Number on your application. **NorQuest's DLI number is O18795996622.** Contact the Canadian embassy or consulate in your home country for details. Visit www.cic.gc.ca.
7. Accept NorQuest College's offer of admission and reserve your seat in a program by paying a \$500 CDN non-refundable, non-transferable tuition deposit. Methods of payment include credit card (Visa or MasterCard), certified cheque, bank draft, or money order. (For other payment methods, please email international@norquest.ca.)

Ensure that any required documentation is mailed to:

NorQuest College
Admissions and Transfer Credit Unit
Office of the Registrar
10215 108 Street NW
Edmonton, Alberta, Canada T5J 1L6

Note: NorQuest College reserves the right to grant or refuse admission to any individual. Applicants who are not accepted in a program will be advised of the reason and may be offered assistance in choosing another program.

Cancelling Your Application

Notify the Office of the Registrar if you wish to cancel the consideration of your application. If you cancel your application after you have accepted NorQuest's offer of admission and paid your tuition deposit, note that a refund is not issued for this non-refundable, non-transferable amount. You may be charged an additional fee of \$250 if you do not cancel your application prior to the start of term.

Paying Your Tuition and Fees

Full tuition and fee payment for each term is required by or before the first day of the term. Students with outstanding fees by the 10% (drop period) will be assessed a late fee. See [Tuition & Fees Payment](#).

Refunds and Withdrawals

See the [refund policy](#) for withdrawals that occur after the program start date. See [Withdrawal from a Course or Program](#) for academic penalties that apply, or review the [Withdrawal Chart of Academic and Financial Penalties](#).

International Transcripts

In recognition that some students may have difficulty obtaining or providing original documents during the application process, NorQuest College can offer admission for international students based on true, certified copies of original documents.

- International documents can be sent directly to NorQuest College from the issuing institution. It is the responsibility of the applicant to contact the issuing institution to request that transcripts be sent directly to NorQuest College. NorQuest College does not make any requests on the applicant's behalf.

Mail to: NorQuest College
Admissions and Transfer Credit Unit
Office of the Registrar
10215 108 Street NW
Edmonton, Alberta, Canada T5J 1L6

- True copies of documents must be officially notarized or certified by a lawyer, notary public, commissioner of oaths, or Canadian Embassy Immigration official to verify authenticity.
- True, certified copies of international documents can be scanned

and emailed to admissions@norquest.ca or mailed to the Office of the Registrar.

- Students who submit true, certified copies while applying for admission must be prepared to show their original documents to the Office of the Registrar upon arrival for their studies. Failure to do so may result in the student being withdrawn from the program.
- International documents (originals or officially certified copies) can be submitted in person through our Client Services Centre. The originals will be scanned and immediately returned to you.
- A **certified English translation** must be provided with any documents that are not in the English language. The applicant is responsible for providing the English translations and for paying any costs associated with obtaining certified translations.
- Any documents or copies that are difficult to read due to poor quality will not be accepted.
- In cases where the authenticity of the documents is in question, the Office of the Registrar reserves the right to request that original documents be sent directly to NorQuest College from the issuing institution.

* Scanned documents sent by e-mail are accepted only from international applicants (those who require a study permit). Applicants who decide to use this option for assessment will have to bring originals of their transcript on arrival for their studies.

English Language Proficiency (ELP)

Applicants whose first language is not English must demonstrate English language proficiency prior to full admission. See [English Language Proficiency](#) for more information.

International Student Services

NorQuest College provides services for international students' success. For a list of specific services available to international students, visit [International Student Services](#).

VISITING STUDENTS

Please note that this practice is currently under review and may change. For more information, check with the Office of the Registrar by emailing enrolment@norquest.ca.

NorQuest students visiting other institutions

- A NorQuest College student wishing to take a course at another post-secondary institution must have written confirmation from the appropriate program chair that the course and credits will be accepted in the student's NorQuest program prior to registering at the other institution.
- Upon receipt of the program chair's written confirmation, the Office of the Registrar will provide a permission letter for the student to submit to the host institution specifying the course(s) the student can take.
- Students are responsible for ensuring that NorQuest College receives the official transcript from the host institution once their course(s) are complete.

Students from another institution visiting NorQuest

- NorQuest College provides opportunities to students who wish to take courses while maintaining their student status at their home institution. The credits earned at NorQuest College can be transferred back to the home institution, if approval is received.
- Prior arrangements must be made by the visiting student. A letter of permission from the student's home institution, specifying student contact information and the course or courses the student can take, should be forwarded to NorQuest's Office of the Registrar. If approval is received and a seat is available in the course, the student will be notified with next steps prior to enrolment.
- Visiting students will be subject to all rules and regulations applicable to the students of NorQuest College.
- Visiting students are assessed and pay full tuition and fees to NorQuest College for any courses taken.

OPEN STUDIES

An Open Studies option is available for learners who wish to take post-secondary-level credit courses at NorQuest, but are not applying to a specific certificate or diploma program to attain a credential. All Open Studies students must apply and pay a one-time application fee.

Who could be an Open Studies student?

Open Studies may be right for you if you are:

1. Using Open Studies as a pathway to credit courses:

- Want to take courses to get a head start on your education.
- Plan to apply to a NorQuest program and wish to take courses to obtain transfer credit to reduce your course load once you are in the program.
- Want to study at NorQuest, but not sure which program to take.

2. A general interest/lifelong learner:

- Take classes for your own general interest or personal or professional development.
- Not interested in applying to a program or obtaining any kind of credential from NorQuest right now.

3. A visiting student:

- Currently enrolled in a program at another post-secondary institution but want to take a course at NorQuest because it fits your schedule and/or the course isn't offered at this time by your home institution.

Admission Criteria

New and former students who intend to take Open Studies courses must first apply and pay a one-time, non-refundable, non-transferable application fee. Former Open Studies students can contact Enrolment at 780.644.6000 or enrolment@norquest.ca to inquire if an application fee is required.

Open Studies students are responsible for meeting all prerequisites for individual courses, which will be verified by the Office of the Registrar. Open Studies students are more likely to be successful if they have an English language proficiency level that is appropriate for the program under which their courses are offered.

General Open Studies Requirements

Students may take a maximum of 30 credits in Open Studies before they are required to submit an application for admission to a desired NorQuest program.

Open Studies courses (noted within the program pages of certificate and diploma programs) are open for registration to Open Studies students on the following dates:

Term	Open Studies Registration Date*
Fall	August 1
Winter	December 1
Spring	April 1

*When the first of the month falls on a weekend or holiday, registration will open on the next business day.

- Open Studies students may audit courses with permission from the Program Chair and/or course instructor. All regular audit procedures and financial processes will be followed.
- All courses are subject to availability and may not be offered each term.

How to Apply for Open Studies Courses

1. All Open Studies students must apply online at [ApplyAlberta](#) or submit an application for admission to the Office of the Registrar, and pay the one-time application fee.
2. Once your application has been processed, you will receive an email with instructions about how to complete the registration process. Full payment of tuition and fees is due upon registration.
3. If you intend to take an in-person class, you should register a minimum of 5 working days prior to the start of any class to ensure that the class is not cancelled due to low enrolment and you are able to access all course materials and resources. If you intend to take an online class with a monthly intake, regular Open Entry/Open Exit (OEE) online registration rules apply (see [Registering in Open Entry/Open Exit Online Courses](#)).
4. The standard withdrawal process and schedule applies (see [Withdrawal Chart of Academic and Financial Penalties](#)).

Note:

- If you are applying in person, you may apply and register in Open Studies courses on the same day.
- If you are applying through ApplyAlberta, be aware that there is a processing time for applications. You will be advised by email when you are able to register. Be sure to leave yourself enough time to meet your registration deadlines as they will differ depending on the course.

Course Listings

For a complete current listing of Open Studies courses, please see [Open Studies in Programs & Courses](#).

SERVICES TO STUDENTS WITH DISABILITIES

NorQuest College offers a wide range of services to support students with disabilities. Support services such as academic strategists, sign language interpreters, alternate format, and access to assistive technology can be arranged. NorQuest College supports students with diagnosed disabilities including, but not limited to:

- Learning
- Sensory (vision or hearing)
- Physical
- Speech and language
- Neurological
- Chronic health/chronic pain
- Mental health

If you have a disability, or believe you have a learning disability, it is important that you book an appointment with a student support specialist when you apply to NorQuest College. Potential students with disabilities need to apply a **minimum of three months prior to the start of a term** to ensure that supports are available. Requesting supports after this time may result in your application being deferred to the next semester to allow for coordination of supports.

Student Support Specialists

Student support specialists work with students, staff, and faculty to identify students' strengths and barriers to learning. They develop an individual accommodation plan for each student and work with college employees to create accessible environments.

Sign Language Interpreters

Sign language interpreters are available for students who are deaf to facilitate communication during appointments, strategy sessions, and in the classroom. Arrangements are also made to provide students who are hard of hearing with appropriate accommodations.

Exam Accommodation

Students who require extra time, quiet environment, or exams in alternate format may write exams on the 5th floor in the Testing Centre. Book your exams with the Testing Centre early in the term.

Alternate Format

Materials for courses and exams can be prepared in alternate formats that include, digital audio, large print, and other alternate formats.

Academic Strategists

Academic strategists work with students to address learning challenges and build strengths. Working one-to-one or in small groups, strategists work collaboratively with students to develop an individualized learning strategy tool kit that supports academic success.

Assistive Technology

Assistive Technology (AT) specialists work with students to support them in their use of technology. AT Specialists provide training as well as ongoing technical support for students using voice recorders, text-to-speech software, speech-to-text software, and a variety of other assistive technology tools.

Peer Note Takers

Students requiring a peer note taker will make arrangements with their classroom instructors after meeting with a student support specialist.

Referral for Disability Services

If you are an instructor or counsellor and would like to refer a student that you believe may benefit from the support of Disability Services, complete the form below with the student (also found on the Q). Once the form is complete, give it to the student. The student should book an appointment to see a student support specialist, and then bring the completed form to the appointment. Appointments can be booked at Student Services on the first floor (A125) or at the Learning Support reception on the 5th floor.

- [Referral for Disability Services \(For Instructors and Counsellors\) \(29K.pdf\)](#)
- Download the [Student Guidebook \(231K.pdf\)](#)

INCLUSIVE POST-SECONDARY EDUCATION

Through inclusive post-secondary education, NorQuest College supports students with developmental disabilities so they can realize and achieve their educational and career goals.

Students with developmental disabilities can enrol in programs and attend college courses as auditing students. Instructors, students, classmates, and Inclusion Alberta facilitators work together to create inclusive learning experiences for everyone. Participating students receive support from the on-site Inclusion Alberta facilitator, who also supports students in finding meaningful employment that reflects their career goals.

Inclusive Post-Secondary Education is an agreement between Inclusion Alberta and NorQuest College.

For more information, contact:

NorQuest College
Inclusive Post-Secondary Education
10215 108 St NW
Edmonton, AB, T5J 1L6
780.644.6051
InclusiveEducation@norquest.ca

STUDENT FINANCIAL AID AND SPONSORSHIP

Student Services - Student Navigators

Tel: 780.644.6130
Room A125
Main Building, Downtown Campus

Applicants interested in financial aid to help pay for school should meet with a student navigator to discuss their options after they have submitted their application for admission.

Financial aid approval takes an average of 6 to 8 weeks, so it is advisable to allow enough time to receive funding before classes commence. Payment of fees or a guarantee of funding must be in place in order for admitted students to register in a program or course.

It is the student's responsibility to ensure that his or her sponsor/agency submits a Sponsorship Agreement for Academic Programs (third-party billing) for the payment of tuition, mandatory fees, and other related fees for admission.

NOTE: Students are responsible for fees unpaid by their sponsor.

For more information on funding your education, visit: www.norquest.ca/prospective-students/funding-your-education.aspx

TUITION AND FEES

The current year's total tuition and fees for each program and course are available on each individual program and course page in our [Programs & Courses](#) section.

Tuition fees are established and reviewed on an annual basis through the college's approval process in accordance with provincial tuition fee legislation. All other fees are developed and approved through the college's fee approval process and are reviewed on an annual basis.

A detailed breakdown of the tuition and fees by program or course can be found in the documents below. Tuition and fees for the current academic year are effective as of the fall term. **Note:** 2017/18 tuition and fees documents will be updated in the spring. Check back for updated documents.

- [2016-17 Tuition and Fees \(382K pdf\)](#)
- [2016-17 Course Fees \(813K pdf\)](#)

The following fee categories are assessed to your student account once you are registered in classes. Depending on the campus of attendance, or delivery method of classes, some fees may not apply. See your individual program or course for more information, download the schedules above, or check your [MyQuest](#) accounts for details.

Tuition Deposit

Tuition payers, applicants funded through student loans, and applicants without a confirmed funding agency sponsorship are required to pay a **non-transferable tuition deposit** to hold a seat in a program once admission is offered. The tuition deposit is applied to the first term's tuition.

Prior to July 1, 2017:

- **Domestic (Canadian/Permanent resident) student non-refundable tuition deposit:**\$200 (CDN)
- **International student non-refundable tuition deposit:**\$500 (CDN)

Effective July 1, 2017:

- **Domestic (Canadian/Permanent resident) student tuition deposit:**\$400 (CDN)
- **International student tuition deposit:**\$1000 (CDN)
- Students who cancel their enrolment 30 days prior to the start date of their program are eligible for a 50% refund.

Tuition Fees

Tuition fees, which are fees for instruction, are assessed on a per credit basis for all college programs and are applied based on the program to which the student has been admitted. Refer to the documents below for the tuition and fees schedule for domestic and international students. **Note:** 2017/18 tuition and fees documents will be updated in the spring. Check back for updated documents.

- [2016-17 Tuition and Fees \(382K pdf\)](#)
- [2016-17 Course Fees \(813K pdf\)](#)

Students' Association Fee

The [NorQuest Students' Association](#) establishes the rate for Students' Association fees that are assessed upon registration. These **fees are mandatory**, and due and payable under the same terms and conditions as other college fees.

2016/17:

- **\$59 Students' Association fee** - payable each term by full- or part-time students registered in classes located on-campus at the Edmonton downtown campus or the regional campuses (Wetaskiwin, Drayton Valley, and Whitecourt).
- **\$38.50 Students' Association fee** - payable each term by full- or part-time students registered in online, eCampus at NorQuest, and practicum/work placement classes.
- Students enrolled in a combination of on-campus and online classes will be assessed the on-campus rate of \$59.

2017/18:

- **\$61 Students' Association fee** - payable each term by full- or part-time students registered in classes located on-campus at the Edmonton downtown campus or the regional campuses (Wetaskiwin, Drayton Valley, and Whitecourt).
- **\$39.50 Students' Association fee** - payable each term by full- or part-time students registered in online, eCampus at NorQuest, and practicum/work placement classes.
- Students enrolled in a combination of on-campus and online classes will be assessed the on-campus rate of \$61.

The following students are not assessed the Students' Association fee, nor are they able to access the services provided by the Students' Association.

- Students taking non-credit classes.
- Students enrolled in NorQuest College credit classes that are purchased through an external contract.
- Students auditing classes.

Students who wish to opt in to the benefits provided by the Students' Association may do so by paying the standard fee, outlined above, directly to the NorQuest Students' Association.

Registrarial Fee

A registrarial fee of **\$25 is charged each term** to all full-time and part-time registered students.

This fee covers the following services:

- Credential (certificate or diploma) replacement
- Official transcript reprinting
- Enrolment confirmation letters
- Issuance of a student ID card
- Completion of forms for enrolment verification
- Applying to graduate

These lifetime services will be provided to each current and former NorQuest student, upon request, by the Office of the Registrar.

Program and Supplies Fee (Per Course)

The program and supplies fee covers the cost for materials and supplies that are essential to the completion of a program or course of study and are supplied by the college to the student. Fee amounts vary by course. Refer to [2016-17 Course Fees \(809K.pdf\)](#), which lists each program and supplies fee by course.

Textbook Rental Fees

Textbooks are loaned to students in [academic upgrading programs](#) and [employment preparation programs](#) during a term, and a mandatory book rental fee is assessed to a student's account upon registration. Registered students can pick up their books from the bookstore with a valid NorQuest student ID. Once the term is over, students are responsible for returning their books. If books are not returned, the cost of the books will be charged to the student's account. Please refer to [2016-17 Course Fees \(809K.pdf\)](#), which lists the textbook rental fee by applicable course.

In some programs, students are required to purchase books and supplies. These are available from the [college bookstore](#).

Student Health and Dental Plan Fees

All students who are eligible are automatically enrolled in the **mandatory student health and dental plans** offered by the Students' Association of NorQuest College.

To be eligible students must be full-time and:

- self-funded (including those receiving student loans) or third-party funded
- taking programs at NorQuest College's Edmonton downtown or regional campuses (Drayton Valley, Wetaskiwin, and Whitecourt)
- assessed Students' Association fees and
- registered in an eligible program

Opting Out

Each plan has an annual premium; therefore, opting out of either the health or dental plan must be done prior to the specified deadline and must be accompanied by proof of existing insurance. Students who have paid for the health and dental plan and wish to add on family members may do so by paying the applicable fees directly to the Students' Association.

The deadline to opt out of the health and dental plans is on the last day for payment of term fees. See the [Academic Schedule](#) for dates.

Students who had previously opted out of the health and dental plans but wish to re-enrol in the plan may do so on the anniversary of their opt-out or within 30 days of losing their existing insurance coverage.

Period of Coverage

Coverage	Cost*	Cost per plan (Health plan and Dental plan)	Coverage start and end
2016/17:			
Full-year health and dental	\$346	\$173	Start date of fall term to August 31
8-month health and dental**	\$232	\$116	Start date of winter term to August 31
2017/18:			
Full-year health and dental	\$386	\$193	Start date of fall term to August 31
8-month health and dental**	\$260	\$130	Start date of winter term to August 31

***Note:** Plan fees are payable along with all other tuition and fees at the start of term.

****Note:** Available to students starting full-time studies in the winter term.

Students not eligible for the health and dental plans include:

- part-time, Alberta Works grant-funded, auditing, and students with an Advancing Futures bursary.
- students who begin studies in the spring term; however, students will be automatically enrolled in the plan for the fall term if they have paid Students' Association fees and are enrolled in an eligible program.
- students taking programs at a campus other than Edmonton downtown, Drayton Valley, Wetaskiwin, and Whitecourt
- students who declare Indigenous status; however, they may choose to opt in.

Further Information on Student Health and Dental Plans

More information regarding your student health and dental plans can be found at [Gallivan & Associates Student Networks Student Plan website](#) or by visiting the Student Benefits Plan office, located in the NorQuest Students' Association office, Room A121, Main Building, Downtown Campus.

U-Pass Fees

The U-Pass (or Universal Transit Pass) provides unlimited usage of regular service (excluding special event, contracted, and charter service) from Edmonton Transit System, St. Albert Transit, and Strathcona County Transit during the fall term (Sept 1 to Dec 31) and winter term (Jan 1 to Apr 30) to full-time students of NorQuest College who have been assessed the Students' Association fee and are taking classes within the Edmonton city limits. All eligible students are automatically enrolled in the mandatory U-Pass program offered by NorQuest College's Students' Association.

The cost of the mandatory U-Pass to each eligible student is **\$170 per term** for each of the fall and winter terms in the **2016/2017 and 2017/18** academic year (**\$340 per academic year**).

Students who have a valid CNIB registration, DATS, SCAT, or Handibus

TUITION AND FEES

registration, work for one of the transit services, or have a practicum or class outside of the service area for longer than eight (8) consecutive weeks may be eligible to opt out of U-Pass. Contact the Students' Association for more information.

Students who register after the drop date (last day for payment of term fees - 10% of the term) will not be eligible for the U-Pass. See the [Academic Schedule](#) for the exact dates.

More information regarding the U-Pass program can be found at www.sanqc.ca or by visiting the Students' Association office, Room A121, Main Building, Downtown Campus.

Note: The fall term may begin before September 1 in some academic years. In such instances, students are responsible for their transportation costs for any class days prior to September 1.

Other Fees

Auditing Fees

Fees for auditing a course are 50% of the tuition fee, and the full cost for the program and supplies fee and book rental fee (if applicable). Auditing students do not pay a Students' Association fee or registrarial fee and are ineligible for the health and dental plans and the U-Pass service.

Challenge Exam Fee

The challenge exam fee is 50% of the tuition fee of the course, plus a \$25 administration fee.

Course Extensions

Students enrolled in an Open Entry/Open Exit online course may be granted a course extension.

- Each extension is \$75 and four weeks (28 calendar days) in length.
- Payment is due at the time of the request.
- The extension period begins the day after the original end date of the course.
- Students are allowed a maximum of five course extensions for the duration of their program.
- Students are allowed a maximum of three extensions per course.
- Course extensions are non-refundable and non-transferable.
- Students who have outstanding fees are not eligible for a course extension until all fees are paid.

Course extensions must be requested from the Office of the Registrar a minimum of five business days before the course contract end date. Students are responsible for ensuring that a course extension does not exceed their allotted completion time period for their program.

Incidental Fees

Costs for replacement or duplicates of items that are issued to you as a student of NorQuest College are listed below.

Item	Replacement/ Duplicate Costs
ID card replacement	\$15 + GST
Document evaluation fee (for domestic applicants with international document assessment)	\$55
Replacement of non-credit documents	\$25 + GST
T2202A duplicate or replacement (prior to 2009)	\$15 + GST
Legal requests	\$75 + GST
NSF cheques	\$35
Clinical Practice ID card replacement	\$15 + GST
Change of login for MyQuest/MyMail (subject to review of circumstances)	\$100 + GST
Locker rental fee	\$10 + GST per semester

Non-Cancellation Fee

A non-cancellation fee of \$250 may be applied to a student's account due to non-attendance within the "add period" of the term or session. See [Changes to Registration](#) for further details.

Late Penalty Fee

A late fee of \$100 is applied to a student account if payment is not received according to the college's tuition and fee payment schedule.

Tax Receipts

T2202A tax receipts for the preceding calendar year are available online annually through your MyQuest account by the third week of February.

- Tuition and application fees are eligible; however, tuition fees of less than \$100 are ineligible.
- Students in upgrading and foundational programs are not eligible for a T2202A tax receipt.

The tax receipt lists the amount of tuition paid that can be claimed as an income tax deduction and months of full-time and part-time attendance. Amounts and months are pro-rated for programs or courses that start and end in different taxation years. Note that the taxation year is January 1 to December 31.

See [T2202A Tax Receipt Info](#) for details and frequently asked questions and answers about this topic.

Tuition and Fees for Sponsored Students

If your tuition and fees are being paid by a sponsor other than Alberta Human Services, your sponsoring agency must send confirmation directly to the Office of the Registrar. The college's Sponsorship Agreement form, must be returned to the Office of the Registrar by the sponsoring agency before a seat can be reserved in the program and a student registered in courses. Students who require the Sponsorship Agreement form should contact the Office of the Registrar.

If the Office of the Registrar does not receive confirmation by the first day of classes, you remain responsible for the payment of tuition and related fees. Any fees that are not covered by a sponsor also remain a student's responsibility.

If you have paid fees and the college then receives double payment from the sponsoring agency, you will receive a refund. Other refunds for sponsored students (e.g. due to dropping a course) will be issued directly to the sponsoring agency.

Application Fees from Sponsors

We recommend that students pay their application fee first, and then approach their sponsor for reimbursement.

PAYMENT OF TUITION AND FEES

Students must have funds in place for tuition, fees, books and supplies prior to attending NorQuest College. Tuition and fees are due on or before the first day of the term. See the Payment Deadlines section below for important information about your responsibilities to pay on time.

Check your [MyQuest](#) account to both view and pay for your tuition and fees.

Where and How to Pay

NorQuest College accepts the following payment methods:

- **Online through [MyQuest](#).** Log in and go to Self Service --> Student Centre. Under the Finances heading choose Account Inquiry to see what charges are due. Then select Make a Payment to pay using Interac® Online, Visa Debit, Visa or MasterCard.
- **Online Banking.** Log in to your bank's website and register to make online bill payments. Allow 3 to 4 business days for bank processing. Students may be subject to penalties if funds are received after the payment deadline due to processing times for online banking.
 - Select **NorQuest College - Deposit** for payment of non-refundable tuition deposits
 - Select **NorQuest College - Tuition** for all other tuition and fees
 - Use your 7-digit student ID number as your account number
- **In person.** Pay with debit card (including Visa Debit), cash, cheque, money order, Visa or MasterCard. Visit the cashier in the Office of the Registrar, Room A104, Main Building, Downtown Campus, or any of our regional campuses.
- **By mail.** Send a cheque or money order, payable to NorQuest College. Be sure to include your student ID number. Mail to:
Office of the Registrar
10215 - 108 Street
Edmonton, AB T5J 1L6

Payment Deadlines

Your tuition and fees must be paid **on or before the first day of the term**, regardless of your start date throughout the term. Your registration is not complete until all tuition and fees are paid in full.

In some cases, Alberta Works grant funded students and sponsored students may have their tuition paid after the first day of the term. See below for details.

Penalties for Late Payment

- Students who do not pay tuition and fees on time will be restricted from adding classes, receiving grades or transcripts, and using the library.
- Students with outstanding fees by the 10% point of the term will be charged a late fee of \$100.
- Students who continue to have outstanding fees at the 20% point of the term will lose access to MyQuest and Moodle and be

withdrawn from their program or course. Students who are withdrawn for non-payment remain responsible for all assessed fees.

Alberta Works Grant-Funded Students Tuition and Fee Payments

Students who have been approved for Alberta Works Income Support grant funding will have their tuition and a portion of fees paid directly to NorQuest College; this payment may arrive after the first day of the term.

However, any fees that are not covered by grant funding are due to be paid by the first day of term.

- **Late fee exception:** The late fee will not be charged to Alberta Works grant-funded students prior to the college receiving the first disbursement of grants.

Sponsored Students Tuition and Fee Payments

If your tuition and fees are being paid by a sponsor (not including Alberta Works Income Support), contact the Office of the Registrar to request a Sponsorship Agreement form. Your seat in the program cannot be reserved and you cannot be registered in classes until your sponsor has completed the form to confirm that they will pay your tuition.

If the Office of the Registrar does not receive your sponsor's confirmation by the first day of classes, you remain responsible for the payment of tuition and related fees. Any fees that are not covered by your sponsor are also your responsibility.

If you have paid your fees and the college then receives double payment from the sponsoring agency, you will receive a refund. Other refunds for sponsored students (e.g. due to dropping a course) will be issued directly to the sponsoring agency.

When applying, we recommend that students pay their application fee up front and then approach the sponsor for reimbursement.

Payment for Classes Starting After First Day of Term

Payment for all your classes is due at the beginning of the term, regardless of when your classes start during the term.

- **Late fee exception:** For students who start classes after the 10% point of the term, the late fee will not be charged until the day after classes begin.

Any student taking Open Entry/Open Exit online or Open Studies courses will be required to pay at the time of registration. (See [Open Entry/Open Exit Registration](#) for further information.)

If you register in any courses after the first 10% (drop period) of a

term, you will be expected to pay all assessed tuition and fees at the time of registration. Use [MyQuest](#) to both view and pay for your tuition and fees.

Withdrawal from College for Outstanding Fees

If your full fees are not paid by the 20% point of the term or session, you will be withdrawn from your program or course and will remain responsible for all assessed fees. See the [Withdrawal Chart of Academic and Financial Penalties and Refund Schedule](#) for academic and financial penalties that will apply.

Students who pay their full fees within 48 hours of being withdrawn may request to be reinstated in their courses. These students will be required to pay an additional \$100 reinstatement charge.

Former Students with Financial Holds

Students with outstanding fees must clear their debts with the college before being allowed to re-register or access any college services.

TUITION AND FEES REFUNDS

To be eligible for a refund, you must notify the college in writing of your intent to withdraw from a program or course, and you must meet the criteria described below under "Refund Schedule".

Complete and forward a [Change of Course Registration form \(133K pdf\)](#) (if dropping courses) or Program Withdrawal form (if withdrawing from your program) to the Office of the Registrar. You can also email your intention to withdraw to the Enrolment Unit at enrolment@norquest.ca.

- If a student submits a withdrawal form directly to the Office of the Registrar, the date the form is received and date-stamped is the official withdrawal date for purposes of determining refunds and academic penalties. (See [Withdrawal Chart of Academic and Financial Penalties and Refund Schedule](#).)
- If a college representative submits a withdrawal on behalf of a student to the Office of the Registrar, the effective date of withdrawal is the date the form was signed by the college representative. The college representative may provide a further explanation and recommend a backdated withdrawal. The actual withdrawal date used will be determined by the Office of the Registrar.
- Non-attendance or stopping payment does not constitute notice of withdrawal from a course or program. If a student leaves the college without the completion of a withdrawal notice, the student will not be eligible for a refund and is responsible for any outstanding fees.

Receiving a Refund

If a student is eligible and is no longer a registered student, a refund will be issued to the student within eight weeks of withdrawal.

Active students who withdraw from a course and are entitled to a refund will have any credit balance applied automatically to their next term's fees. If a student is not registered in the next term, a refund will be issued.

Students who have been sponsored by an agency, organization, or Aboriginal band and students who have received a Canada, Alberta, or other provincial student loan will have any refund monies sent directly to their funder.

Refund Schedule

In all cases, once paid, tuition deposits are non-refundable and non-transferable.

1. If you withdraw prior to the start date of your program (assuming you have paid all fees), you are eligible to receive a full refund of fees less your tuition deposit and U-Pass fee (if applicable).
2. If you withdraw from your entire program by or before 10% of the term or session has elapsed, you are eligible to receive a 100% refund of tuition, Students' Association fee, registrarial fee, textbook rental fee (if applicable), and health and dental fee (if applicable), less the tuition deposit, program and supplies fee, the

U-Pass fee (if applicable), and a \$25 administration fee (\$50 for international students).

3. If you withdraw from a course or a program by or before 20% of the term or session has elapsed, you are eligible to receive a 75% refund of tuition less a \$25 administration fee (\$50 for international students). All other fees are non-refundable at this date.
4. No refund is available after the completion of the first 20% of a term or session.

Financial Appeals and Refunds

Consideration for refunds or financial holds may be given when a student can demonstrate that circumstances beyond their control led to financial consequences. The Registrar (or designate) is the authority for the approval of special circumstances.

1. Appeals on refunds should be initiated within 30 days of withdrawal, end of term, or date of drop, whichever is first.
2. Students must complete the student appeal form and submit it to the Office of the Registrar with appropriate documentation to support the appeal.
3. Decisions on appeals, once made by the Registrar, are final.

Tuition, fees, and refunds are assessed in accordance with the college's fee schedule and refund policies. (Please refer to [Tuition & Fees Payment](#) and the [Withdrawal Chart of Academic and Financial Penalties and Refund Schedule](#)).

Refunds for Students Withdrawn from the College

Withdrawal from College for Outstanding Fees

Students with outstanding fees must clear this debt with the college before being allowed to register in a future term. Official and unofficial transcripts, as well as credentials and letter requests will be withheld until fees are paid in full.

Students who have outstanding fees by the 20% point of their term or session without alternative payment arrangements with the college will be withdrawn by the Office of the Registrar from their program or course, and remain responsible for all assessed fees. Academic and financial penalties will be applied as outlined above.

Withdrawal from College for Violation of Policies

Students may be withdrawn from the college for reasons associated with attendance, performance, or behaviour. When a student is withdrawn from a program or course, the official date of withdrawal is the date that the decision is rendered, not the last day of attendance.

The standard refund schedule will apply to students who have been withdrawn from their program or course(s) by the college for disciplinary reasons.

Refunds for a Program or Course Cancelled by the College

The college reserves the right to cancel courses or programs for operational reasons. If the college cancels a course or program, all college fees including application and administration fees are refunded.

WITHDRAWAL CHART OF ACADEMIC AND FINANCIAL PENALTIES AND REFUND SCHEDULE

Please note the following financial and academic penalties for withdrawals before and during the term.

If you withdraw	Academic Penalty	Financial Penalty
On or before the first day of term or session	None	<ul style="list-style-type: none"> • Tuition deposit is non-refundable and non-transferable. • The U-Pass fee, if paid, is non-refundable. • Full refund of all other tuition and fees already paid in full
Up to 10% of term or session	None	<ul style="list-style-type: none"> • Tuition deposit is non-refundable and non-transferable. • The U-Pass fee, if paid, is non-refundable. • Program and supplies fee is non-refundable. • \$25 administration fee (\$50 for international) will be assessed. • 100% refund of tuition, Students' Association fee, Registrarial fee, textbook rental fee (if applicable), health and dental fee (if applicable) already paid in full.
From 11% to 20% of term or session	Grade of "W" (Withdrawal) assigned Grade is not calculated in grade point average (GPA)	<ul style="list-style-type: none"> • 75% refund of tuition less a \$25 administrative fee (\$50 for international students) • All other fees are non-refundable.
Between 21% and 50% of term or session	Grade of "W" (Withdrawal) assigned Grade is not calculated in GPA.	<ul style="list-style-type: none"> • No refund
After 51% of term or session has elapsed	Grade of "WF" (Withdraw/Fail) assigned Grade point value of 0.0 or 0% is calculated in GPA.	<ul style="list-style-type: none"> • No refund

Registering for Classes

All students at the college must be registered in their classes. Students will not be allowed to attend classes unless they have officially registered.

A registered student in good standing is one who:

- has had classes entered into NorQuest College's student information system,
- has been assessed tuition and fees, and
- has paid his or her fees in full. Consult the [Tuition & Fees Payment](#) page for more information.

Steps to Registration

Once you have been admitted and your tuition deposit is paid or your sponsorship has been confirmed, you will then be enrolled in courses through the Office of the Registrar. Course information will be available for you to view via [MyQuest](#).

After you have been registered in courses:

1. your tuition and fees will be assessed.
2. you can request a student ID card.
3. you can buy your books and materials from the bookstore.

Registering in Open Entry/Open Exit Delivery Courses

Open Entry/Open Exit (OEE) Online classes allow students flexibility on their start date. Students will be assigned a start date depending on their registration date and will be given a set number of weeks to complete each class. Students can complete the courses before the specified end date. OEE students are responsible for understanding their course start and end dates at the time of registration. Full payment of tuition and fees is required at the time of registration.

- Many OEE classes have monthly start dates. Students can start a class on the first of any month within the advertised start and end dates. Registration and full payment for these classes must be received by or before the 15th day of the previous month. The course start date is the first day of any month, except during a term start month - September, January, May - the term start date will apply.
- Contact the Enrolment unit in the Office of the Registrar (enrolment@norquest.ca) directly to register.
 - Admitted students can search courses on MyQuest to find OEE session classes.

Changes to Registration

NorQuest College uses standard add, drop, and withdrawal deadlines for all credit programs and courses. While students may initiate a withdrawal from a program or course(s) any time prior to course/program completion, academic and/or financial penalties may be applied. The Office of the Registrar maintains all changes to registration and assigns appropriate academic and financial penalties.

Consult the [Academic Schedule](#) for important dates for changes to registration and the [Withdrawal Chart of Academic and Financial Penalties and Refund Schedule](#).

NOTE: It is the student's responsibility to notify the Office of the Registrar in writing about any changes to his or her registration and to be aware that both academic and financial penalties may apply.

Adding or Dropping Courses and Program Withdrawals

Students can make changes to their class schedule after the start of term; however, there are time limits as to when students can do this without academic or financial penalties.

Certain programs take attendance within the add period of the term and report any student absences to the Office of the Registrar. Students who do not attend classes within the "add period" of the term or session may be withdrawn from their program and the college for non-attendance and may be subject to a \$250 non-cancellation fee. A communication will be sent to the student's college email address or mailing address confirming this action.

Adding Courses

Students can choose to add credit courses to their timetable during the "add period" of the term, which is within the first 6% of the term or session. Usually the last day of this 6% period is the last day of the first week of classes in a 16-week term. Note that this same "add period" also applies to enrolling in a program.

To add a course, complete and sign a [Change of Course Registration form \(I33K.pdf\)](#) and submit it with your payment to the Office of the Registrar. Courses will not be added after the 6% period has elapsed.

Dropping Courses

Students can choose to drop or delete individual courses from their timetable after the first day of term, but it must be done within the "drop period" to avoid academic penalties. The last day to drop a credit course is within the first 10% of the term or session.

To drop a course, complete and sign a [Change of Course Registration form \(I33K.pdf\)](#) and submit it to the Office of the Registrar. Courses dropped during this period have no academic penalty and do not appear on a student's official transcript.

Withdrawing from a Course

After the drop period has elapsed, students may withdraw from any credit course at any time, prior to completion; however, academic and/or financial penalties may apply.

To withdraw from a course, you must notify the college in writing of your intent to withdraw from a course. Complete, sign and submit a [Change of Course Registration form \(133K pdf\)](#) to the Office of the Registrar. Remember to return all outstanding book rentals and materials, or these will be charged to your student account. **Non-attendance is not considered an official notice of withdrawal.**

Normally there are both academic and financial consequences to a course or program withdrawal.

- See [Withdrawal Chart of Academic and Financial Penalties and Refund Schedule](#) for information on financial implications of withdrawal.
- For academic implications, consult the [Academic Schedule](#) or check your [MyQuest](#) account for the latest withdrawal date before an academic penalty will be assigned.

Withdrawing from a Program

Students may withdraw from their program at any time prior to completion. A program withdrawal indicates that the student does not wish to continue his or her current academic relationship with NorQuest College. A withdrawal will result in the student being withdrawn from all courses and the student's status with the college becoming inactive.

To withdraw from a program, you must notify the college in writing of your intent to withdraw. Complete, sign, and submit a [Program Withdrawal form \(42K pdf\)](#) to the Office of the Registrar. Remember to return all outstanding book rentals and materials, or these will be charged to your student account. **Non-attendance is not considered an official notice of withdrawal.**

A student wishing to return to NorQuest following a program withdrawal must reapply to the program, pay the application fee, and meet the admission requirements.

Normally there are both academic and financial consequences to a course or program withdrawal.

- See [Withdrawal Chart of Academic and Financial Penalties and Refund Schedule](#) for information on financial implications.
- For academic implications, consult the [Academic Schedule](#) or check your [MyQuest](#) account for the latest withdrawal date before an academic penalty will be assigned.

College-Initiated Withdrawal

The college has the right to withdraw a student for failure to comply with college policies, including lack of academic progress, academic misconduct, non-academic misconduct, poor attendance, or non-payment of fees.

In the case of a college-initiated withdrawal from a program for disciplinary reasons, the notation "Required to Withdraw" will appear on the transcript.

Withdrawal for Lack of Academic Progress

If a student has no course registrations in his or her program of study for more than one term, the student may be withdrawn from the program due to lack of academic progress. To rejoin the program, the student must reapply and be readmitted.

Current Students Not Attending for a Term

A student who is accepted to a program and is currently attending classes may take the next single consecutive term off and then return to his or her program without reapplying for admission. If courses are not available in the return semester, the student must seek readmission by reapplying and paying the application fee.

If you wish to take a term off, you must ensure that you have dropped all courses for the term you wish to step out of, prior to the start of that term. Until this is done, you will be responsible for all outstanding fees. Any requests made after the term has begun will be subject to the college's withdrawal policy. In addition, you will be responsible for registering in courses for your return term.

NOTE: Only current, active students are permitted to take a term off without having to seek readmission. New applicants who are unable to attend the term they have applied for must reapply and pay an application fee to be considered again. Students who wish to take a term off are still subject to completing their program within the maximum time allotted.

Academic Withdrawal Rules

Withdrawal Period (without academic penalty)

Students who withdraw from individual credit courses by or before 50% of the term or session are assigned a grade of "W" (Withdrawal, without academic penalty), which appears on the official transcript. The withdrawal grade is not calculated in a student's grade point average (GPA).

Withdraw/Fail Period (with academic penalty)

Students who withdraw from individual credit courses after 50% of a term or session will be assigned an academic penalty grade of "WF" (Withdraw Fail), which appears on the official transcript. The "WF" grade translates to a grade point value of 0.0 (4.0 grade scale) or 0% (percentage scale) and is calculated in a student's GPA.

Official Date of Withdrawal

If a student submits a [Change of Course Registration form \(133K.pdf\)](#) or a Program Withdrawal form directly to the Office of the Registrar, the date the form is received is the official withdrawal date for purposes of assessing academic penalty and refunds. If a college representative submits a withdrawal on behalf of a student to the Office of the Registrar, then the effective date of withdrawal is deemed to be the date indicated on the form signed by the college representative. College representatives may also recommend a backdated withdrawal and provide documentation or explanation of the recommendation. The final determination of the effective date of withdrawal is made by the Office of the Registrar.

For the calculation of withdrawals, working days are considered Monday to Friday (excluding holidays). If the standardized add, drop, withdrawal, or withdraw/failed period occurs on a weekend or holiday, the calculation of withdrawals will be the working day preceding the weekend or holiday.

Program Transfers

Students who wish to transfer to another college program must submit an application for admission and an application fee. See the [Admissions Process](#) for further details.

College Cancellation of a Course or Program

The college offers programs and courses in accordance with anticipated demand. In the event that programs or courses are postponed or cancelled, the college provides as much notice as possible to its prospective students. In the event the college cancels a program or course, a full refund will be issued to the student.

Confidentiality of Personal Information

NorQuest College will ensure that a student's right to privacy is respected and that confidentiality of student information is maintained according to the Freedom of Information and Protection of Privacy (FOIP) Act.

The college recognizes its obligation to collect and use only that personal information from students that is required for educational and related purposes and to maintain its security. Students have the right to access their own personal information in their records and also the right to request correction of their personal information. Please see the [Student Records](#) page for more information.

Classification of Students

Admission Status

Applicant: An individual who has submitted an application and paid the applicable application fee to NorQuest College.

International applicant: An applicant who is a citizen or resident of another country and requires a valid study permit to study in Canada.

Once granted admission to a program, applicants will be classified as one or more of the following:

- **Regular applicant:** An applicant admitted to a credit program on the basis of meeting the admission requirements or having satisfied a provision of admission.
- **Conditional applicant:** An applicant conditionally granted admission to a credit program with the understanding that evidence of successful completion of in-progress coursework will be submitted to meet the stated admission requirements before full admission can be offered prior to the start of the program.
- **Provisional applicant:** An applicant provisionally admitted to a credit program with the understanding that certain conditions must be satisfied before full admission can be offered. Applicants must satisfy certain conditions including admission requirements, as outlined, by the date specified in the offer of admission (normally within the first term of enrolment).

Registration Status

A student is defined as an individual admitted and enrolled in any college program(s) or course(s). Upon registration in college credit courses, students are classified as either full-time students or part-time students.

Full-Time Student

For the purposes of the definition of enrolment for agencies such as Citizenship and Immigration Canada or Student Aid Alberta, a student's full-time status is determined for each term. Students registered in 60% or more credits of each program's standard full load by term are considered full-time students.

Learning support advisors may recommend that a student with a disability take a reduced course load, which, for funding purposes and

for services available through the Student's Association, equates to full-time student status.

For the purposes of Revenue Canada, full-time status is determined based on the number of hours of class attendance in a week.

For purposes of enrolment reporting using the Alberta Advanced Education definition, a full-time student is defined as an active student taking at least 60% of the full load for the program during that academic year. The full load is defined as the number of credits required to complete the normal program of study for that year.

Part-Time Student

A part-time student is registered in fewer than 60% of the credits of each program's standard full load by term.

Other Registration Statuses

- **Auditing student:** A student who is permitted to audit courses with the permission of the Program Chair in consultation with the appropriate instructor. A change in status from regular to audit is permitted only within the first two meetings of the class. See [Auditing Fees](#) for further details.
- **International student:** A citizen or resident of another country who is permitted to study in Canada.
- **New student:** An individual who is admitted and enrolled in any credit program and has no previous academic record with the college.
- **Ongoing student:** A student who has not experienced an enrolment break of greater than one term.
- **Open Studies student:** A student who is admitted and enrolled in the Open Studies program to take individual credit courses. Open Studies students are not eligible to receive a certificate or diploma.
- **Program transfer student:** An ongoing student who is changing his or her program and must apply to the new program and pay the application fee.
- **Returning student:** An applicant who has not applied to or attended the college in the 12 months prior to when he or she reapplies to the college. Returning students must reapply and pay the application fee.
- **Visiting student:** A student who is admitted on the basis of a letter of permission from another institution with the intention of transferring NorQuest College credits back to his or her home institution. See [Visiting Students](#) for further details.

GRADING

NorQuest College uses two systems for the reporting of final grades in credit courses. All final grades are reported to the Office of the Registrar.

The following scale applies to credit programs and courses:

Letter Grade (Post-secondary programs)	Grade Point Value (Post-secondary programs)	Percentage (Alberta Education courses/preparatory)	Descriptor
A+	4.0	95-100	Excellent
A	4.0	90-94	
A-	3.7	85-89	
B+	3.3	80-84	Very Good
B	3.0	75-79	
B-	2.7	70-74	
C+	2.3	67-69	Satisfactory / Acceptable
C	2.0	64-66	
C-	1.7	60-63	
D+	1.3	55-59	Pass
D	1.0	50-54	
F	0.0	0-49	

The Alberta Common Grade Scheme became effective September 2002. Courses with a passing grade higher than a 1.0 will show all grades below the designated passing grade as an F.

Other Grades

Grade	Explanation
ADV	Advanced Credit This grade is assigned by the Registrar when transfer credit has been granted for a course successfully completed at another post-secondary institution. "ADV" grades are not calculated within the GPA.
AUD	Audit Students may be allowed to audit courses and will be charged an audit fee as indicated in the calendar. This grade indicates that the student is registered in the course; however, no credit or grade is expected or provided.
AW	Registered as an auditor and withdrew
COM	Complete
CON	Continuing This grade is awarded when a course is not passed or failed, but may be repeated.
INC	Incomplete This grade is assigned in extenuating circumstances and indicates that part of the course has not been completed or evaluated in the time period allotted. The "INC" grade reverts to an "F" after 30 calendar days if no final grade is submitted.
P or F	Pass/Fail This grade is assigned to courses with P (Pass) or F (Fail) as the only grades used.
PL	Prior Learning Assessment Recognition This grade is assigned by the Registrar when prior learning credit has been granted. "PL" grades are not calculated in the grade point average.
W	Withdrawal (Before the academic penalty date) This grade is assigned to courses that the student has withdrawn from after the drop date and before the midpoint of a term or session. A "W" grade is noted on a transcript, but not calculated in the grade point average.
WF	Withdraw Fail (After academic penalty date) This grade is assigned to courses that the student has withdrawn from after the midpoint of a term or session. A "WF" grade is calculated as a 0% or 0.0 in the grade point average.

GPA Calculation

A grade point average (GPA) is a weighted average of a student's grades. GPA is calculated according to the formula using the credits assigned to each course and the grade points received. The calculations used in recording a student's grades are:

- Grade Points = Credits x Grade Point Value if 4.0 grade scale is used, or percentage grade if Percentage Grade Scale is used
- GPA = Total Grade Points/Total Credits taken

See the 4.0 Grade Scale table mentioned earlier for grade point values.

Example:

Course	Grade	Credits Taken	Grade Points	Total Grade Points
HEAS 1000	In Progress	--	--	--
ANPH 1001	B+	3.0	3.3	9.9
ENGL 2550	C-	3.0	1.7	5.1
PSYC 1060	W	--	--	--
SOCI 1000	F	3.0	0.0	0.0
Total		9.0		15.0

Total Grade Points = 15.0, Total Credits taken = 9.0, GPA = $15/9 = 1.67$

Term and Cumulative GPA

NorQuest College calculates a term GPA at the end of each summer, fall, winter, and spring term. The term GPA will appear on the transcript. A cumulative GPA (CGPA) is also calculated and appears on the transcript. The cumulative GPA is the average GPA maintained over all credit courses taken at NorQuest. The cumulative GPA is calculated separately for foundational/academic upgrading courses and post-secondary courses.

Term and Cumulative GPA - Repeated Courses

If a course is repeated, credit for the highest grade will be used in the calculation of the GPA. The college may limit the number of times a credit course may be repeated.

Attendance

Punctual and regular attendance is expected of students. Attendance is mandatory only as a requirement for sponsored students, or when specified in course outlines. Failure to meet stated attendance requirements may result in course failure or withdrawal as determined by instructors and the Program Chair, or in withdrawal from the college.

Auditing Students

NorQuest College provides opportunities for the privilege of registering in a course(s) as an auditor, upon written approval by the Program Chair.

An audited course is not credited toward the requirements of any college credential. There will be no course evaluation, progress report, and no grades calculated towards a grade point average awarded to the student (the grade denoted on the transcript is "AUD"). Participation in the classroom is left to the discretion of the instructor. Some courses may be closed to auditing at the discretion of the Program Chair if the course is oversubscribed or equipment is limited.

Auditing is not allowed in practicum or lab courses and in some designated programs. A change in status from regular to audit is permitted only within the first two meetings of the class. Auditors must adhere to the standard add and drop periods. See [Registration](#) for further details.

Auditing Fees

Fees for auditing a course or program are 50% of the tuition fee, and the full cost for the program and supplies fee and book rental fee (if applicable). Auditing students do not pay a Students' Association fee or student services fee, and are ineligible for the health and dental plans.

Transfer Credit

Course work completed at another accredited post-secondary institution may be equivalent to course work at NorQuest College. Transfer credit will normally be considered for courses in certificate and diploma programs.

To be considered for transfer credit, you must be admitted and make a formal request for assessment of relevant courses. Requests for transfer credit for courses a student is currently enrolled in must be submitted to the Office of the Registrar by the drop deadline.

[Transfer Credit Request forms \(68K pdf\)](#) are available on the college website. Official transcripts from the issuing institution (see [Transcripts & Testing](#) for information on requesting post-secondary transcripts), as well as the [Transfer Credit Request form \(68K pdf\)](#), should be received by the Office of the Registrar **no later than one month prior to the start date of the term** in which the course you are requesting credit for is scheduled. Late requests may incur academic and/or financial penalties.

It is the applicant's responsibility to provide sufficient documentation to prove that transfer credit should be granted. The [Transfer Credit Request form \(68K pdf\)](#) must be accompanied by the complete course syllabus/outline (short calendar course descriptions are not sufficient).

A minimum grade of C- or 60% is required to be considered for transfer credit. The college reserves the right to determine the minimum grade required for transfer credit approval.

The maximum number of courses that may be granted transfer credit is limited to 50% of the credit load of a given certificate or diploma program. Each faculty may consider exceptions. Transfer of courses will be subject to time limitations as up-to-date knowledge and skill are essential to student success. NorQuest College reserves the right to determine these time limits.

Once evaluated, the Admissions and Transfer Credit Unit will convey the decision to the applicant via [MyMail](#).

If transfer credit is granted, this will be noted on your NorQuest College transcript as a grade of "ADV."

Alberta Transfer Guide

Students wishing to transfer from NorQuest College to another post-secondary institution should refer to the Alberta Transfer Guide, published by the [Alberta Council on Admissions and Transfer \(ACAT\)](#).

The guide lists all course and program transfer agreements between post-secondary institutions in Alberta, the Northwest Territories, and Nunavut. The official guide is the online version, available at www.transferralberta.ca.

Alberta Council on Admissions and Transfer (ACAT)

11th Floor, Commerce Place
10155 102 Street
Edmonton, AB T5J 4L5
Tel. [780.422.9021](tel:780.422.9021)

Toll-free: [310.0000](tel:310.0000)
(ext. 780.422.9021)

Prior Learning Assessment and Recognition (PLAR)

Note: This practice is currently under review and may change. For more information, check with the Office of the Registrar.

NorQuest College recognizes prior learning by assigning credits for skills and knowledge acquired through work, non-formal education or training, self-study, or volunteer activities.

If you have acquired skills and knowledge outside the traditional classroom setting that are equivalent to our course outcomes, you may qualify to receive college credits toward a career program.

Contact the Program Chair or assessment coordinator to determine your eligibility.

If you are eligible, the Program Chair or assessment coordinator will provide information on fees and the types of prior learning assessment that may be conducted (challenge exams, portfolio assessments, etc.).

If you are eligible for prior learning assessment, you will be contacted by subject specialists from the program in which you want to register to discuss your next steps in the process. Fees for assessing prior learning may be charged.

For additional information about recognition for prior informal learning, call [780.644.6000](tel:780.644.6000).

STUDENT EVALUATIONS AND FINAL GRADES

The purpose of evaluation is to provide the student, other educational institutions, and future employers with a clear indication of the student's level of achievement in each course completed.

The instructor will make clear at the beginning of the course the manner of evaluation, the passing grade, and the type of grade scale used. The instructor will provide each student with periodic evaluations.

The instructor or department will inform students of the manner and the date on which final grades are made known.

The instructor will submit the final grade for each student to the Office of the Registrar at the completion of each course.

The Office of the Registrar will make the following available to each student:

- Unofficial transcripts, available through [MyQuest](#)
- Official transcripts upon request (see [Transcripts](#) for more information).

Final Examinations/Projects

In courses where final examinations or projects are requirements, students shall be informed of evaluation guidelines, and given sufficient notice of scheduled final evaluations. This procedure governs all college final evaluations or projects worth at least 20% of the course grade.

Each program will determine whether summative evaluations are appropriate for student evaluation (for example, final exams, projects, or skills demonstrations, which constitute cumulative assessment).

Each program will ensure that summative evaluation information is available to students. This information will outline the implications or options related to the following:

- Withdrawal from courses or programs prior to completing summative evaluations
- Challenge of a final exam, project, or demonstration for course credits
- Failure to write final exams (or to complete other summative evaluations) as scheduled
- Provision of exam accommodations for a student with a disability
- Failure of summative evaluations (for example, students may then write supplemental exams)
- Appeal of any aspect of final exams

For any course that includes such evaluations, the following guidelines will apply:

- The course outline will clearly indicate the nature of the summative evaluation (for example, type of evaluation, passing grade, weighting of the exam, project, or demonstration).
- Each summative evaluation will test how well the student achieved the stated learning objectives of the course.
- Students will receive sufficient notice about summative evaluations. Each program will determine how much notice will be provided.
- All summative evaluations are the property of the college and will be stored for 5 months.

Appeals of examination results must be initiated within 5 days of the release of grades.

Appeals of final grades must be initiated within 30 days of the release of grades.

APPLY TO GRADUATE AND REGISTER FOR CONVOCATION

For further information, please visit the Convocation webpage at www.norquest.ca/convocation.

Applying to Graduate

All students who have completed or will complete their program requirements in the current academic year are required to apply to graduate. This action can be done only by using [MyQuest](#) and choosing the Apply for Graduation feature. Once your application to graduate has been submitted, the Office of the Registrar will assess your academic record to determine if the appropriate program requirements have been met.

Credentials will be assessed by the Office of the Registrar only for those who have applied to graduate through [MyQuest](#). Parchments are mailed to your permanent address on file.

Application to graduate requests are limited to the academic year in which your application applies. If you are not successful in achieving your credential, you must reapply to graduate in the next academic year.

For further information on applying to graduate, see [Convocation](#).

Residency Requirement

In order to graduate with a NorQuest College certificate or diploma, students must meet the Residency Requirement of 50%. The maximum number of courses that may be granted transfer credit is limited to 50% of a certificate or diploma program's total course load.

Convocation

NorQuest College celebrates student success! Our annual convocation ceremony is one of the most important events of our academic year, and is the formal ceremony that recognizes students who have earned or will earn their credential. The entire college comes together to create a great experience for our graduates at the Winspear Centre located in downtown Edmonton.

Convocation is normally held in May of each year. All graduates and potential graduates from the fall, winter, and spring terms are invited to attend. The exact date and all information about Convocation will be published on the [Convocation](#) webpage.

Graduate Records

A credential for a program is conferred upon a student once, even if the student successfully completes the program requirements more than one time. The credential will be notated on the official transcript as the earliest program completion only.

Honours Criteria

Post-secondary certificate and diploma programs (excluding employment certificates) recognize the Honours distinction for outstanding academic achievement. The college honours criteria is an overall grade point average of 3.7 or greater, with no courses having been failed or repeated. Honours distinction will be noted on the transcript and parchment of qualified graduates.

NorQuest College creates and maintains the student records necessary to meet administrative and academic needs. We collect, retain, use, disclose, and dispose of all information collected in accordance with related departmental/program business practices, official manuals of the college, provincial/federal legislation pertaining to access to information and protection of privacy, and the following policies and procedures:

- [Protection of Privacy Procedure](#)
- [Access to Information Procedure](#)

Student Records Retention Practice

The official student record is maintained by the Office of the Registrar for a period of three years after final activity (withdrawal, completion, or graduation). Information of a permanent nature is captured on the electronic record and includes transcript information, final grades, withdrawal information, anecdotal information, and, in some instances, final summaries of clinical/work experience/reference documentation. Once the three-year criterion has been met, the electronic record becomes the permanent student record.

Official Student File and Record

The official student file and official student record are under the custody and control of the Office of the Registrar, which is accountable for the management of these records. Additional records relating to students may also exist in academic areas and in personal information banks elsewhere in the college. Original completed student releases, consents, waivers, and other agreements must be sent promptly for placement on the official student file in the Office of the Registrar.

Official Student Transcript

An official transcript of the student academic record is created, maintained, and held under the custody and control of the Office of the Registrar. This is considered confidential information and will not be released without the student's written consent unless required by law.

The official transcript includes the official student name(s) and address, student identification (ID) number, courses, grades, academic standing statuses, and credential(s).

An official transcript is generated and mailed to the student upon graduation from a program. Copies can be obtained upon request from the Office of the Registrar. It is the student's responsibility to ensure that his or her contact information remains current.

Unofficial Transcript

An unofficial list of grades assigned for courses attempted during the current term, including any grades for previous terms, can be generated at any time by accessing [MyQuest](#).

Change of Name and Address

This information is considered confidential and is used only for official college business. Having students' current name, address, and contact information on file with the college is critical to effective college communications with students and alumni.

Change of Name

All name changes must be submitted in writing and accompanied by **at least one** of the following official government-issued identification forms:

- Marriage/name change certificate,
- Valid driver's licence,
- Passport, or
- Citizenship documentation.

Only a current ID document or card will be recognized as valid. An expired ID document or card will not be accepted for a name change.

Change of Address

Students may change their address and telephone number by:

- Using the self-serve option on [MyQuest](#),
- Completing and submitting the Change of Personal Information form to the Office of the Registrar, or
- Mailing a post office change notice to the Office of the Registrar.

Freedom of Information and Protection of Privacy (FOIP)

The Alberta Freedom of Information and Protection of Privacy (FOIP) Act is provincial legislation that applies to all information collected, used, and disclosed by the college as well as all records in the custody or control of the college except those records explicitly excluded by the Act.

The FOIP Act aims to balance the public's right to access records with the individual's right to privacy. The purposes of the FOIP Act are as follows:

- Provide access to much of the recorded information held by public bodies
- Protect the privacy of individuals by controlling the collection, use, and disclosure of personal information
- Allow individuals the right of access to personal information about themselves held by a public body
- Allow individuals the right to request corrections to this information
- Provide access to an independent review of decisions made by public bodies under this Act.

To view the legislation or get official information on the Act, please visit the Alberta Information and Privacy Commissioner at www.oipca.ab.ca.

For more information on FOIP at NorQuest College, you may contact the FOIP coordinator at [780.644.5956](tel:780.644.5956) or at FOIPinquiries@NorQuest.ca.

Personal Information Defined

"Personal information" is defined in the Alberta Freedom of Information and Protection of Privacy (FOIP) Act, s.1(n) as recorded information about an identifiable individual, including but not limited to:

- The individual's name, home or business address, or home or business telephone number
- The individual's race, national or ethnic origin, colour, or religious or political beliefs, or associations
- The individual's age, sex, marital, or family status
- An identifying number, symbol, or other particular assigned to the individual
- The individual's fingerprints, other biometric information, blood type, genetic information, or inheritable characteristics
- Information about the individual's health and health-care history, including information about a physical or mental disability
- Information about the individual's educational, financial, employment, or criminal history, including criminal records where a pardon has been given
- Anyone else's opinions about the individual
- The individual's personal views or opinions, except if they are about someone else

Access to Student Files

In accordance with the FOIP principle that ensures that individuals have a right to see personal information about them, and in an effort to foster openness and accountability with the clients we serve, students may view their student records or portions thereof by making an appointment at the Office of the Registrar. Students requesting access to their entire student record are advised to allow up to 48 hours for retrieval of records. Copies of any documentation requested may be subject to a fee in accordance with the FOIP Act. Please contact the Office of the Registrar for details.

Disclosure of Personal Information

The Alberta FOIP Act contains provisions allowing or requiring public bodies to disclose personal information in their custody or under their control for a range of reasons. Disclosures of personal information without the express prior written consent of the student are sometimes necessary or desirable in the course of conducting college business and directly or indirectly supporting students and the educational experience. Such disclosures occur only where required or permitted by the Alberta FOIP Act. Most releases are governed by provisions found in the FOIP Act Part 2 Division 2 "Use and Disclosure of Personal Information by Public Bodies."

The FOIP Act requires that personal information collected by a public body may be used or disclosed only for the purpose for which it was collected and purposes consistent with that collection. The Act allows you to request that your personal information not be disclosed in certain circumstances. If you do not wish to have your information used for the purposes described in the following examples, please contact the Office of the Registrar.

Examples of disclosure include the following:

- Confirmation of enrolment or completion of or graduation from a particular program offered by NorQuest College (we do not confirm/deny student attendance without proper authorization)
- Attendance at, or participation in, a public event or activity related to a public body, including a convocation ceremony, sporting event, cultural program, club, or field trip
- Receipt of an honour or award granted by or through NorQuest College
- Your membership in a club (e.g. Art Club, Phoenix Players)
- Contact for college research, planning, and follow-up
- Contact for the NorQuest College Alumni Association

Additional student personal information uses and disclosures may occur without the prior written consent of the student, subject to acceptable consistent use standards, emergency and law enforcement situations, information-sharing agreements, participation in common or integrated programs and services, or other agreements that comply with the access and privacy protection provisions of the Alberta FOIP Act.

Public inquiries directly related to the collection, use, and disclosure of student personal information should be directed to the FOIP coordinator.

Privacy and System Protection Responsibilities of Students

Students have responsibilities for privacy and system protection. These responsibilities include, but are not limited to:

- Safeguarding and protecting from unauthorized disclosure any passwords or other unique identifiers assigned to them
- Recovering and securing any assignments, examinations, or other documents made available for return to them
- Treating as confidential any personal information of third parties that might come into their possession during the course of their academic experience or while on practicum placement

Notification of Survey Participation and Disclosures

To facilitate research that supports program and service planning and quality improvement initiatives at NorQuest College and that enhances understanding of Alberta's and Canada's post-secondary educational systems, NorQuest College may release student contact and other personal information to external agencies without prior written consent, but within the allowable provisions of the Alberta FOIP Act. These agencies include Statistics Canada and Alberta Advanced Education.

Surveys that NorQuest College participates in include the Graduate Outcome Survey for Advanced Education, the Enhanced Student Information System (ESIS) Survey for Statistics Canada, and the National Graduate Survey (NGS) for Statistics Canada. Students who do not wish to have their information used for ESIS or NGS are able to ask Statistics Canada to remove their identifying information from the national database.

Further information on the use of this information can be obtained by:

- contacting [Statistics Canada](#);
- writing to the Postsecondary Section, Centre for Education Statistics, 17th Floor, R.H. Coats Building, Tunney's Pasture, Ottawa, K1A 0T6; or
- calling [1.613.951.1666](#) 1.613.951.1666.

OFFICE OF STUDENT JUDICIAL AFFAIRS

The Office of Student Judicial Affairs (OSJA) coordinates the administration of the [Student Judicial Affairs policy](#). The OSJA also provides assistance and advice to students, staff, and faculty involved in dispute resolution.

The Student Judicial Affairs policy and procedures govern student academic and non-academic behaviour, performance, and integrity and provide a means for dispute resolution. The policy and procedures specifically govern dispute resolution procedures in cases involving final grade appeals, academic and non-academic misconduct, and student complaints.

STUDENT RIGHTS AND RESPONSIBILITIES

NorQuest College is committed to maintaining high standards of non-academic conduct and academic performance and integrity, in order to foster a learning environment conducive to the personal, educational, and social development of its students. This commitment is founded upon the principles of fairness, trustworthiness, honesty, respect, and responsibility.

The college expects that its students will be guided at all times by these principles in the work that they submit and the behaviour in which they engage. As members of this learning community, students have both fundamental rights and consequential responsibilities that NorQuest commits to protect and enforce under the provisions of the specific procedures related to this policy for the benefit of the entire college community.

Student Rights

Students have the right to:

- An educational environment that is safe, secure, and conducive to learning, and protects students from discrimination, harassment, indignity, or injury.
- The protection of their privacy according to college policy and privacy legislation.
- Reasonable and legitimate access to statements of college policies and procedures.
- Due process and procedural fairness in any investigation of alleged improper student conduct or alleged violations of college policy.
- Freedom of inquiry, expression, belief, political association, and assembly, provided that they are lawful and do not interfere with the rights of others or with the effective operation of the college or violate college policy.
- Reasonable and legitimate access to college buildings and facilities.
- Membership in an independent students' association, and participation in its governance and activities, subject only to its by-laws.
- Timely and accurate information about the content and requirements of their courses and programs.
- The availability of their instructors for assistance outside of

scheduled class periods at mutually agreeable times and through mutually acceptable modes of communication.

- Reasonable and supervised access to their official student records as contained in their permanent file.
- Consult any written submission for which a mark has been assigned and to discuss the submission with the examiner.
- Request an impartial review of any grade.

Student Responsibilities

Students have a responsibility to:

- Assist in making the college learning community respectful, safe, and inclusive by personally refraining from (and discouraging in others) conduct that threatens or endangers the health, safety, well-being, or dignity of any person(s).
- Exercise their rights and freedoms with integrity, respect for the rights of others, and acceptance of accountability for their words and actions, whether acting individually or as a member of a group.
- Abide by all relevant college policies and participate in related procedures, as required.
- Familiarize themselves with academic regulations, including graduation and program completion requirements.
- Comply with the policies of any employer or host organization where the student is involved in a work placement, site visit, practicum, or clinical placement.
- Respect the property of others, including the college's buildings and facilities.
- Conduct themselves honestly in their academic work and responsibly in their non-academic behaviour.
- Comply with all requirements set out in course outlines, assignments, tests, and examinations.
- Adhere to class attendance policies and notify instructors in a timely manner of unavoidable absences.
- Participate in class activities, as instructed.
- Respect the instructor's right to determine course content, instructional methodology, and evaluation.
- Respect the instructor's right to manage the classroom and to set norms for acceptable behaviour.
- Maintain timely and respectful communication with appropriate

college offices and personnel, whether in-person or through electronic means.

In addition to these rights and responsibilities, students must familiarize themselves with the college's overarching Code of Conduct, as stated in [Board Policy No. 8 - NorQuest College Code of Conduct \(52K pdf\)](#), which applies to all members of the college community.

ACADEMIC MISCONDUCT

NorQuest College is committed to maintaining high standards of academic performance and integrity in order that all students may benefit equally from the opportunity to pursue their education in a learning environment that is characterized by high levels of fairness, trustworthiness, honesty, respect, and responsibility.

It is incumbent upon all members of the NorQuest community to uphold these standards by ensuring that they inform themselves and others of the fundamental importance of these standards.

Academic Misconduct

Academic misconduct may be defined broadly as the giving, taking, or presenting of information that dishonestly aids an individual or group in the determination of academic merit or standing. Common examples include, but are not limited to, plagiarism and cheating.

Examples of Academic Misconduct

Plagiarism is a form of academic misconduct that occurs when someone presents that has been created by another as his or her own work. Specific examples include:

- Presenting in any format the words, ideas, images, or data created by or belonging to someone else as if it were one's own
- Manipulating source material in an effort to deceive or mislead
- Submitting work that contains misleading references that do not accurately reflect the sources actually used

Cheating is a form of academic misconduct that occurs when someone employs an unauthorized means to obtain credit for work submitted; to gain advantage over others in the assessment of academic work; or to assist others in obtaining such advantages. Specific examples include:

- Accessing information from unauthorized sources such as other students or notes in the course of completing an assignment, test, or examination
- Being in unauthorized possession of evaluation materials in advance of their administration
- Collaborating on any project, assignment, or examination without prior permission

For more information on this procedure, contact OSJA@norquest.ca.

NON-ACADEMIC MISCONDUCT

Non-Academic Misconduct

NorQuest College is committed to maintaining high standards of non-academic conduct in order to foster a learning environment conducive to the personal, educational, and social development and well-being of all its students. To this end, the college has identified standards of acceptable conduct that promote the maintenance of a safe, respectful, inclusive, and supportive environment that benefits all students equally.

It is incumbent upon all members of the NorQuest community to uphold these standards by ensuring that they inform themselves and others of the fundamental importance of these standards.

Non-academic misconduct may be defined broadly as any behaviour that:

- Adversely affects the learning of others or the college's educational mission
- Violates civil or criminal statutes
- Threatens the safety or well-being of members of the NorQuest community
- Violates the ethical standards set by professional associations or the workplace standards set by practicum, clinical, or volunteer placement agencies

Examples of Non-Academic Misconduct

Common examples of non-academic misconduct include, but are not limited to, the following behaviours:

- Disruption of the learning environment, including classrooms, laboratories, study areas, the library, and student placement sites
- Exercise of force on any person or property or the threat of such force
- Verbal assault, abusive or offensive language, defamation, discrimination, retaliation, or harassment towards others
- Sexual assault or other sexual harassment
- Dissemination of malicious material that creates a climate that hinders or prevents the full participation of another person or group in the NorQuest community
- Unauthorized entry into, unauthorized use of, or misuse of college property, including facilities and equipment
- Theft of, intentional or careless damage to, or unlawful possession of college property, including its facilities and equipment, as well as the personal property of members of the college community
- Possession or use of any weapon or device that may reasonably be construed to be a weapon, explosives, fireworks, or dangerous chemical, regardless of whether the individual has a licence to possess such items
- Evidence of consumption of alcohol or other substances that impair behaviour or academic performance or adversely affect members of the NorQuest community
- Failure to adhere to college policies or the instructions of a staff member who is enforcing college policy, including refusing legitimate requests to produce identification or refusing to obey

emergency procedures

- Violations of civil or criminal statutes where such violations adversely affect the college's educational mission
- Neglect of safety procedures or intentional creation of safety hazards
- Willful failure to participate in established disciplinary procedures, knowingly violating approved disciplinary sanctions, or failure to comply with legitimate directives from college personnel.

Standards of Classroom Behaviour

The primary responsibility for managing the classroom environment rests with the individual instructor. Students who engage in any prohibited or unlawful behaviour that results in disruption of a class or other supervised academic activity may be directed by the instructor to immediately leave the instructional area until the incident can be satisfactorily resolved. If necessary, Campus Security may be contacted to escort the student from the area and, if required, from the campus itself. Persistent disruptive behaviour may result in a formal allegation of non-academic misconduct under the Code.

Related Information

- [Download the Non-Academic Misconduct Procedure \(280K pdf\)](#)
- [Misconduct Report Form \(112K pdf\)](#)

For more information about this procedure, contact OSJA@norquest.ca.

ACADEMIC GRADE APPEAL

It is of paramount importance that the integrity and accuracy of NorQuest College's learner outcomes be maintained at the highest level possible. To this end, the college employs faculty whose professional training prepares them to make informed judgments regarding student performance. It also provides a grade appeal process that offers students a reasonable opportunity to appeal results of particular academic assessments.

- [Download the Academic Grade Appeal Procedure \(95.8K pdf\)](#)
- [Student Complaint Form \(104K pdf\)](#)

For more information on this procedure, contact OSJA@norquest.ca.

STUDENT COMPLAINTS

Students have a right to lodge a complaint against any college policy or administrative process alleged to be unfair, or against any individual whose actions are alleged to unduly interfere with a student's reasonable and legitimate access to services or participation in appropriate college-related activities, insofar as the complaint is not more appropriately dealt with in other college policies or procedures.

Students have a right to appeal any decision of a hearing panel if that decision was unduly influenced by bias, unfair procedure, or incomplete evidence, and if it can be shown that the outcome of the review might have been substantially affected by any of these circumstances.

- [Download the Student Complaints Procedure \(79K pdf\)](#)
- [Student Complaint Form \(104K pdf\)](#)

If a student believes that there is justification to complain about an unfair college policy, administrative process, or individual behaviour, but is uncertain where to go for support or guidance, the student should contact the Office of Student Judicial Affairs (OSJA) for advice.

For more information about these procedures, please contact OSJA@norquest.ca.

STUDENT APPEALS

The Office of the Registrar is responsible for appeals regarding admissions, enrolment, and financial decisions.

Please refer to the [Office of Student Judicial Affairs](#) for information regarding appeals for academic misconduct, non-academic misconduct, or academic grades.

Admission and Enrolment Appeals

Applicants and students have the right to appeal admission and enrolment decisions and actions taken by college personnel.

The appeal process is to ensure an individual's rights within college policies, procedures, and guidelines. Students have the right to just and equitable treatment, and the right to timely decisions based on due and reasonable process.

Before filing a formal appeal, students and applicants are expected to consult with staff members directly involved and, if required, with supervisory staff in the area of concern. Students and staff are encouraged to seek advice from college counsellors or program chairs to clarify issues and help find a resolution.

In the course of the appeal process, students and staff will be assisted in understanding their rights and responsibilities. In an appeal, students must be able to demonstrate an unforeseen circumstance beyond their control, such as a serious medical condition or dire family circumstance, which has resulted in undue hardship.

If the informal review decision is unsatisfactory to the student, a request for a formal appeal may be made to the Registrar. If the appeal to the Registrar is unsatisfactory, a second appeal may be made to the Vice President, College Services. The appeal to the Vice President is the final level within the college.

Financial Appeals and Refunds

Tuition, fees, and refunds are assessed in accordance with the college's fee schedule and refund policies. (Please refer to [Tuition and Fees Payment](#), and the [Withdrawal Chart of Academic and Financial Penalties and Refund Schedules](#) under [Tuition and Fees Refunds](#) for information about when financial penalties apply).

Students may appeal financial decisions if they can demonstrate that circumstances beyond their control led to the financial consequence. The Registrar (or designate) is the authority for the determination of special circumstances and the adjudication of appeals.

Appeals should be initiated within 30 days of the end of term, date of drop, or withdrawal, whichever is first. A completed [request for financial appeal form \(60K pdf\)](#) and appropriate documentation in support of the appeal should be submitted to the Office of the Registrar. Decisions on financial appeals, once made by the Registrar, are final.

Admissions, Enrolment, and Financial Appeal Decisions

Appeal decisions will normally be rendered within 15 business days of receiving the written appeal, depending on the complexity of the issue.

Student Status During an Appeal

Students whose enrolment has been terminated will not normally be permitted to attend scheduled classes during the time of the appeal process.

Academic Upgrading Programs

- Academic Upgrading
- Continuing Education for Academic Upgrading
- Foundations for Learning
- Youth in Transition

- Face-to-face and online deliveries may be offered
- Downtown Edmonton, Wetaskiwin, Drayton Valley, and Whitecourt campuses

Description

NorQuest College operates as an accredited high school and offers courses that follow the Alberta Education curriculum. As a post-secondary institution, we also offer high school equivalency courses that are accepted by Alberta universities and colleges under the Alberta Council for Admissions and Transfer (ACAT) agreement. These courses prepare you for continued post-secondary studies at all Canadian post-secondary institutions.

Program Overview

Academic upgrading is course-based and provides you with the ultimate flexibility due to the variety of delivery methods and course delivery times that are used.

Before you apply for Academic Upgrading

Our easy checklist will help ensure you have everything you need to make the application process go smoothly and quickly. Download the [Academic Upgrading application checklist \(478K pdf\)](#) to learn more.

Transferability

At NorQuest, you may take either Alberta Education credit courses or NorQuest high school equivalency courses.

- Alberta Education credit courses appear on both the Alberta Education transcript and the NorQuest College transcript.
- High school equivalency courses appear only on the NorQuest College transcript.

Alberta Education Credit Courses

NorQuest College offers Alberta Education credit courses that can be used to attain your high school diploma. Students taking Alberta Education courses at the 30 level must write the Alberta Education diploma exam in order to receive a final grade in the course. The final grade is calculated by blending the class mark and the diploma exam mark. The final grade is recorded on a student's Alberta Education transcript. The NorQuest transcript will state only the final class grade.

NorQuest Equivalency Courses

NorQuest equivalency courses at the 030 level follow the same curriculum as the Alberta Education courses, but students do not have to write the Alberta Education final exam. High school equivalency courses are accepted in lieu of Alberta Education courses for admission purposes by all post-secondary institutions in Alberta.

To ensure this acceptance, all courses are reviewed and approved by the Alberta Council on Admissions and Transfer (ACAT). A listing of all acceptable equivalency courses is published annually. Visit the [TransferAlberta website](#) to view the current list. This guide is used by both Alberta and Canadian post-secondary institutions to evaluate equivalency courses for admission to their post-secondary programs.

Admission Requirements

- Alberta Education high school transcript current within the last five years or NorQuest placement assessment

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band C:

- A minimum CLB 5 in listening and speaking
- IELTS Academic overall score of 5
- TOEFL iBT overall score of 40
- CELPIP General overall score of 5
- Completion of [Listening/Speaking 5000 \(ESLS5000\)](#)/[Listening/Speaking 5100 \(ESLS5100\)](#) and [Reading/Writing 5000 \(ESLW5000\)](#)/[Reading/Writing 5100 \(ESLW5100\)](#) with a minimum of 80%

Credential

After successfully completing specific courses, students will be awarded NorQuest High School Grade 12 Equivalency diploma.

COURSE LISTINGS

- Not all courses are offered each academic year.
- NorQuest College equivalency courses include [English 030-1 \(ENGL3301\)](#), [English 030-2 \(ENGL3302\)](#), [Math 030-1 \(MATH3301\)](#), [Math 030-2 \(MATH3302\)](#), [Social Studies 030-1 \(SOST3301\)](#), [Social Studies 030-2 \(SOST3302\)](#), [Biology 030 \(BIOL3300\)](#), [Chemistry 030 \(CHEM3300\)](#), [Physics 030 \(PHYS3300\)](#), and [Science 030 \(SCNC3300\)](#).

Description

NorQuest College offers pre-high school (grade 9) courses, high school credit courses, and prep courses for entry to MacEwan University during evenings and online to allow you to balance work and life commitments with your upgrading needs.

Program Overview

The decision to return to school can be difficult. Personal and family commitments, work, and financial obligations during the day can seem overwhelming. Taking evening classes may be the right solution for you.

Many courses accept students on a continuous basis throughout the year, so you do not have to wait to start. To get started, we review your transcripts and/or offer placement testing so that you have an accurate assessment of your skills. Contact us today for more information about how academic upgrading courses at NorQuest College can help smooth the way for you.

For specific course availability and registration, see the Course Listing page.

- 12-week program
- Online
- Synchronous delivery for ESL
- Asynchronous delivery through eCampus at NorQuest with continuous intakes from September to May in partnership with Community Adult Learning Programs

Description

NorQuest College has partnered with community adult learning programs (CALPs) to offer college preparatory programming in communities around Alberta. The program offers online courses to rural learners at a reduced tuition rate. Students work at their own pace through online, anytime courses. Approximately 45 hours of instructor-led activities will be provided to you. In addition, 30 hours of face-to-face, tutorial support will be available to you in your own community at the local CALP.

Program Overview

[Find a CALP near you](#)

Note: These courses are delivered via eCampus at NorQuest. Each course is offered at a reduced tuition of \$150 plus fees and books.

For a listing of eCampus real-time and anytime courses, or to register, see [our eCampus page](#).

Admission Requirements

- It is recommended that applicants take a [NorQuest placement assessment](#) to determine the appropriate levels of study.
- See [eCampus](#) for the recommended prerequisite(s) for each course.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band C:

- CLB overall score of 5
- IELTS Academic overall score of 5
- TOEFL iBT overall score of 40
- CELPIP General overall score of 5
- Completion of [Listening/Speaking 5000 \(ESLS5000\)](#)/[Listening/Speaking 5100 \(ESLS5100\)](#) and [Reading/Writing 5000 \(ESLW5000\)](#)/[Reading/Writing 5100 \(ESLW5100\)](#) with a minimum of 80%

Credential

After successfully completing specific courses, students will be awarded NorQuest course credits.

Further Education Opportunities

This program prepares you for further education in post-secondary programs at NorQuest or another institution, or NorQuest Employment Certificate programs.

PROGRAM OUTLINE

Note: These courses are delivered through eCampus at NorQuest. Each course is \$150 plus fees and books. To register, visit [our eCampus page](#) for more information.

- Full-time studies
- Daytime face-to-face classes
- Fall and Winter term starts
- Downtown Edmonton campus

Description

This full-time program focuses on increasing academic and personal communication skills for ESL (English as a second language) youth, ages 17 to 25, who wish to transition into an adult learning post-secondary environment. Youth in Transition offers small class sizes so that students can receive the maximum amount of individualized support from their instructors.

Program Overview

There are no tuition fees for students who qualify for entry.

Admission Requirements

- NorQuest academic skills assessment
- First language other than English

English Language Proficiency Requirement

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band C:

- A minimum CLB 5 in listening and speaking
- IELTS Academic overall score of 5
- TOEFL iBT overall score of 40
- CELPIP General overall score of 5
- Completion of [Listening/Speaking 5000 \(ESLS5000\)](#)/[Listening/Speaking 5100 \(ESLS5100\)](#) and [Reading/Writing 5000 \(ESLW5000\)](#)/[Reading/Writing 5100 \(ESLW5100\)](#) with a minimum of 80%

Progression

Students must attain a pass grade in each course in order to continue in the Youth in Transition program.

Credential

After successfully completing specific courses, students will be awarded NorQuest course credits.

Laddering Opportunities

Upon completion of the Youth in Transition program, students may continue with academic upgrading, an [employment certificate program](#), or other post-secondary education at NorQuest or another Canadian institution.

Employment Certificate Programs

- Apprenticeship Prep
- Day Home Provider
- Literacy and Essential Skills Pathways
- Transitions to Employment

- Certificate
- Full-time studies
- Daytime face-to-face classes

- Fall and winter starts
- 12-week work experience
- Downtown Edmonton campus

Description

The Apprenticeship Prep program is designed to prepare you for the trade entrance exam and entry into one of 45 designated trades. The focus of the program is on upgrading, practical trades training, and facilitated work experience.

Program Overview

The program has two semesters:

- the first semester focuses on essential skills and workplace culture. You will receive instruction in math, science, computers, employability, and practical trades skills, all of which will prepare you to write the Apprenticeship Entrance Exam for levels 1, 2, 3, 4, or 5.
- In the second semester, you will participate in a work experience component.

Career Potential

The Apprenticeship Prep training program will provide the foundation you need to help you increase your knowledge and become a skilled tradesperson.

For more information on related careers, see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

Admission Requirements

- Grade 8 or equivalent in English Language Arts and Mathematics

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band C:

- A minimum CLB 5 in listening and speaking
- IELTS Academic overall score of 5
- TOEFL iBT overall score of 40
- CELPIP General overall score of 5
- Completion of [Listening/Speaking 5000 \(ESLS5000\)](#)/[Listening/Speaking 5100 \(ESLS5100\)](#) and [Reading/Writing 5000 \(ESLW5000\)](#)/[Reading/Writing 5100 \(ESLW5100\)](#) with a minimum of 80%

Progression

Students must attain a pass grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Apprenticeship Prep certificate.

- Downtown Edmonton campus

Description

As a Day Home Provider, you will play an important role in a child's development. This program will teach you about early childhood programming, job presentation skills, and how to run a home-based day home business. If you love children, this will be a rewarding career.

This program is designed for English language learners.

Program Overview

The Day Home Provider program is a 10-month integrated skills program that focuses on both academic skills and occupational skills through the content of early childhood training. This is a hands-on program where students are immersed in activities and learning outcomes related to child care.

Program highlights include the following:

- Supervised observation placements and supervised practicum
- Opportunity to build a personal children's resource collection
- NorQuest College certificate
- Employment networking opportunities
- Strong emphasis on building good communication skills

Students learn about the following subjects:

- Early childhood development
- Nutritional planning
- Safety training and emergency planning
- Best practices for day home providers
- Professional code of ethics
- Running a home-based business

Career Potential

This program will prepare you to become a self-employed day home provider or work in a childcare centre.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

Admission Requirements

- Grade 5 or equivalent in reading and writing
- Police Information Check; must include vulnerable sector check current to within six months prior to program start.*
- Intervention record check (formerly Child Welfare or CWIS check) current to within six months prior to program start

***Note:** Internet (online) Police Information Checks are not accepted by the college. Contact your local law enforcement agency directly to obtain an official Police Information Check. The existence of a criminal record may prevent placement, program completion, and professional licensure and may therefore affect employment prospects. Prospective students who have a criminal record should discuss the

matter with the Program Chair prior to applying for admission.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been complete within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band B:

- CLB overall score of 4
- IELTS Academic overall score of 4
- TOEFL iBT overall score of 32
- CELPIP General overall score of 4
- Completion of [Listening/Speaking 4000 \(ESLS4000\)](#)/[Listening/Speaking 4100 \(ESLS4100\)](#) and [Reading/Writing 4000 \(ESLW4000\)](#)/[Reading/Writing 4100 \(ESLW4100\)](#) with a minimum 80%

Progression

Students must attain a pass grade in each course to progress through the program.

Credential

After successfully completing specific courses, students will be awarded NorQuest Day Home Provider certificate.

Additional Certification

After successfully completing this program, graduates can apply for their Child Development Assistant certification (formerly Level 1) through the Government of Alberta, Human Services.

This program is under review. There are no intakes in 2017-18 academic year.

Description

****This program is under review. There are no intakes in the 2017-18 academic year.****

The Literacy and Essential Skills Pathways program prepares foundational learners to move into employment training programs, further upgrading, or work experience-essential skills certification. Tailored to your career goals, current skill sets, and progress, the program focuses on individual learning plans. You will explore career possibilities and work on improving your essential skills in reading, document use, numeracy, writing, oral communication, working with others, thinking, digital technologies, and continuous learning, as they apply to your career path.

Career Potential

The Literacy and Essential Skills Pathways program prepares you for a career in human vocations such as hospital support work, retail and hospitality, construction and materials handling, or further upgrading leading to post-secondary programming.

Admission Requirements

- Grade 5 or equivalent in reading and writing
- Suitability interview

Note: Admission requirements may be subject to change.

Progression

Students must attain a pass grade in each course to progress through the program.

Credential

After successfully completing this program (workplace portion), graduates will be awarded a NorQuest Literacy and Essential Skills certificate.

PROGRAM OUTLINE

Note: Upon completion of **Term 1**, students will follow one of the six pathways shown on the chart.

- Students in **Upskilling** will be directed to take a selection of the courses noted below. Depending on the individual student needs, this portion will vary from 8 to 32 weeks.
- Students in **Work Experience** will take the work experience course noted below.
- Students who transition into [Academic Upgrading](#), integrated training (Employment Preparation) programs (including [Apprenticeship Prep](#), [Day Home Provider](#), and [Transitions to Employment](#)), follow the program outlines and timelines for these programs.

- 1-year certificate
- Full-time studies
- Daytime, face-to-face classes
- 40-week program

- Fall intake only
- Combination of classroom and work experience
- Downtown Edmonton campus

Description

This 10-month program is designed to provide employment preparation training for adults with mild cognitive developmental disabilities. Our post-secondary setting enables learners to further their education beyond high school to transition to the workforce.

Through a combination of classroom and workplace training, you will acquire marketable skills, training on current equipment and understanding of current practices, and increased self-confidence while receiving ongoing, intensive support and mentoring from college staff.

This program is also known as the **Transitional Vocational Program**.

Program Overview

As described in Alberta Human Services (AHS) Training for Work programs on the [AHS website](#):

Intent

The Transitional Vocational Program (TVP) is a specialized program element under Training for Work. The objective of TVP is to provide eligible individuals with training and guidance that will contribute directly to their ability to obtain employment and establish and maintain independence. Independent living in and of itself is not the desired outcome for TVP.

Transitional Vocational Program is based upon the following premises:

- Persons who are assessed with a mild developmental disability have the capacity to contribute to their own economic and personal sustainability through employment.
- Success in the workplace can be attainable through training that combines living skills, employability skills, occupational skills and work experience.

Policy

Eligible Individuals Specific to Transitional Vocational Program

- To be eligible for TVP, individuals **must** be identified as having a developmental disability. This requirement is unique to TVP. A person with a developmental disability is defined as an individual who is:
 - experiencing significant limitation in intellectual capacity which significantly affects the ability to learn and perform daily living skills.
 - An applicant's intellectual capacity is determined through a formal IQ test that has been administered by a registered psychologist.
 - Limitations in intellectual capacity are defined as a full-scale IQ score of two or more standard deviations below the average IQ of 100. A standard deviation is 15

- points, so two or more standard deviations below the average is an IQ score of 70 or less.
 - experiencing limitation in adaptive skills.
 - Defined by the need for help to perform two or more of the following adaptive skills areas: communication; home living; community use; health and safety; leisure; self-care; social skills; self-direction; functional academics; work.
- Individuals must have the ability to participate in training within a work setting without the assistance of a full-time job coach.
- Individuals must be at least 18 years of age at the program start date.
- Individuals can enter TVP directly upon completion of high school. They are not required to be out of high school for one year (12 months) to be eligible.
- Assets are not used to determine financial eligibility.
- To be eligible for TVP, an individual must meet all other requirements listed under [Eligible Individuals – General](#).

For additional information about Transitional Vocational Programs, visit [Alberta Human Services Employment & Training Programs and Services](#).

Admission Requirements

- History of special education (school records, standardized testing, etc.)
- Admission interview with a NorQuest counsellor
- Able to participate in a group setting
- Able to function independently in class and at the work site
- Ready for employment

Progression

Students must attain a pass grade in each course to progress through the program.

Credential

After successfully completing specific courses, students will be awarded NorQuest Transitions to Employment certificate.

PROGRAM OUTLINE

Course	Title	Hours	Credits

*A Transitions to Employment student may audit a course relevant to employment. The following courses may be substitute for an audited course:

- [Financial Literacy and Numeracy I \(TRAN1001\)](#)
- [Communication Technology \(TRAN1002\)](#)

Availability is based upon the college's ability to accommodate the student's learning needs.

English Language Training Programs

- ESL (English as a Second Language) Intensive
- ESL Intensive Continuing Education
- LINC (Language Instruction for Newcomers to Canada)

- Full-time and part-time studies
- Daytime classes
- 16-week semesters

- Fall, winter, and spring starts
- Face-to-face, online, and hybrid deliveries may be offered
- Downtown Edmonton campus

Description

Is English a second or additional language for you? Do you need a full-time or part-time program in English as a second language to achieve your personal, academic, or professional goals?

Improve your English language speaking, reading and writing skills to prepare for further education or employment. All courses are four months long. Once you apply, free placement testing is available and your program will be tailored to meet your specific needs and level.

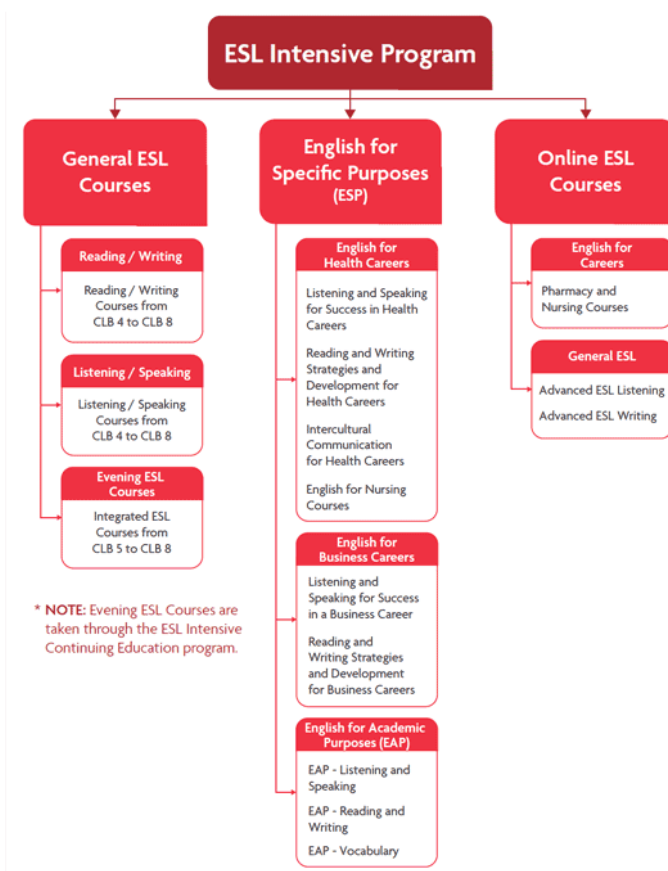

Program Overview

In ESL Intensive, you will learn to

- communicate with confidence in a variety of situations,
- improve your pronunciation, speaking fluency, and grammar,
- expand your vocabulary and use of idiomatic language,
- develop reading strategies and effective writing skills.

Language instruction prepares you for further academic studies and employment. The ESL Intensive program integrates computer instruction into each level. Practice in the language lab will help you improve your language skills. All instructors are professionally trained and experienced in teaching English as a second language.

NorQuest offers career English courses as part of this program. They will help you improve your English language speaking, reading, and writing skills and prepare you for further education or employment in specific health and business careers by teaching you the career-specific vocabulary and language used in those professions.

Code of Ethics and Quality Standards

ESL Intensive students will follow NorQuest College policies and appeal processes. Students may also seek further resolution through the Languages Canada Association.

Career Potential

English skills are required for success and promotion in any job or career in Canada. NorQuest's ESL Intensive program helps you become qualified for more and better jobs. Career specific English classes assist you to acquire the language you need for studies and work in health and business.

Transferability

Students who successfully complete ESL courses at various levels will meet the language requirements for a number of programs at NorQuest College and other post-secondary institutions.

Students successfully completing [Listening/Speaking 8000 \(ESLS8000\)](#) or [Listening/Speaking 8100 \(ESLS8100\)](#) meet the English language proficiency requirement in listening and speaking at Olds College and Lakeland College.

Students successfully completing [Reading/Writing 8000 \(ESLW8000\)](#)

or [Reading/Writing 8100 \(ESLW8100\)](#) or [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) meet the English language proficiency requirement in reading and writing at Olds College and Lakeland College.

Some NorQuest College English for Academic Purposes (EAP) courses may be used for meeting both:

- Academic admissions requirements for NorQuest programs
- English Language Proficiency (ELP) requirements for NorQuest programs

Equivalencies are noted in EAP course descriptions, and ELP requirements are listed under each program.

Admission Requirements

- Placement assessment to determine course level

Progression

Students must make adequate progress in each course to progress through the program.

Credential

After successfully completing specific courses, students will be awarded NorQuest course credits.

LINC (LANGUAGE INSTRUCTION FOR NEWCOMERS TO CANADA)

- Tuition funded by Citizenship and Immigration Canada
 - Full-time and part-time studies
 - Fall, winter, and spring starts
 - Daytime, evening, and weekend offerings
 - Face-to-face, hybrid, distance, and online classes
 - Downtown Edmonton and Edmonton Westmount campuses, rural communities, and online
-

Description

Are you new to Canada? NorQuest College supports students' settlement in Alberta and Canada by offering courses that will help you improve English language skills and develop essential skills.

Our classes range from basic literacy to CLB 8 and include specialized courses such as LINC American Sign Language (ASL), LINC Volunteer, Youth LINC, LINC Hybrid, LINC Online, LINC Saturday Family ESL Literacy, LINC Rural Delivery, and LINC Home Study for eligible students. Our flexible delivery options allow you to study at your own pace and a time of your choice to achieve your educational goals.

Program Overview

We have highly qualified instructors, an extensive LINC library, innovative computer and iPad language labs, and offer a variety of extracurricular activities. Strong learner support services such as student advisors and career and work experience consultants are available to all LINC students via personal appointments, phone, email, Skype, or other messenger tools.

Tuition for LINC is funded by Immigration, Refugees and Citizenship Canada. There are no fees or tuition for eligible students

Career Potential

Students will have the language skills and settlement knowledge necessary to successfully integrate into the Canadian community and pursue further education or career options.

Transferability

The Canadian Language Benchmarks assigned at the completion of the program may be considered for admission purposes to selected programs within NorQuest College and other institutions.

Admission Requirements

- A permanent resident
- All applicants must provide a CLB assessment taken within the last six months. Applicants can be assessed at the Language Assessment Referral and Counselling Centre (LARCC), located at:

Catholic Social Services

10709 105 Street NW
Edmonton, AB

Call [780.424.3545](tel:780.424.3545) for an appointment

Progression

Students must show progress in the Canadian Language Benchmarks (CLB) in each course to advance through the program.

Credential

After successfully completing specific courses, students will be awarded Canadian Language Benchmarks (CLB) and LINC Levels.

Description

Accounting technicians are involved in the day-to-day practical work of accountancy and play a key operational role in producing reliable financial information. They may also perform a wide range of finance roles, from accounts clerk to financial controller and beyond.

Program Overview

If you enjoy working with numbers and are interested in business and finance, this career could be ideal for you.

Graduates from this program will have the basic theory, technical knowledge, computer competencies, and skills to enter the accounting field at an entry-level position. Our program equips graduates to perform financial accounting, budgeting, costing, and tax returns. The work experience component of the program allows you to gain hands-on experience in the field.

Career Potential

Accounting technicians are involved in processing invoices, recording receipts and payments, payroll, bookkeeping, auditing external and internal work, and preparing and checking ledger balances and other monthly and yearly accounts. They also handle company expenses, control budgets, prepare financial transactions, and use computerized accounting systems. Accounting technicians usually work regular weekday hours in a comfortable office environment.

Accounting technicians can work on their own, in a large accounts team, or alongside professional accountants. While they are not accountants, they can perform many of the same functions and are qualified to take accounts beyond the trial balance stage, as well as prepare full financial accounts. There is always a strong demand for these skills in industry.

Self-employed accounting technicians provide a range of accounting services to businesses, which may include advising on budgets and taxation issues, calculating end-of-year accounts, and consultancy.

Graduates of the Accounting Technician certificate program are work-force ready and can be employed in positions such as accounting technician, accounting clerk, bookkeeper, office manager, accounting assistant, payroll administrator, accounts payable/receivable clerk, billing supervisor, and data entry professional. Graduates may find employment in small businesses, government, banking, insurance, manufacturing, health services, not-for-profit organizations, retail, hospitality, and the oilfield and construction industries.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

For other related occupations, use the search feature in ALIS OCCinfo and WAGEinfo.

Transferability

Some course work completed in the Accounting Technician program can qualify for transfer credit towards post-secondary programs such as the NorQuest [Business Administration](#) diploma program, the [Administrative Professional](#) certificate program, or the [Hospital Unit Clerk](#) certificate program. Transfer credits are assessed on a case-by-case basis.

Course work completed at another post-secondary institution may be equivalent to coursework at NorQuest College. A formal assessment will be made to determine whether these courses qualify for transfer credit. Request forms may be obtained from the Office of the Registrar or online. For more information, visit [Transfer Credit](#).

Internal transfer credit may be available from NorQuest's [Hospital Unit Clerk](#) program. A request form is not required for internal transfer credit. Students can contact admissions@norquest.ca to inquire.

Admission Requirements

- 50% in English Language Arts 30-1 or English Language Arts 30-2 or completion of [English for Academic Purposes -Reading and Writing EAP II \(ESLG1898\)](#) with a minimum 50% or equivalent
- 50% in Mathematics 30-1 (Pure Mathematics 30) or Mathematics 30-2 (Applied Mathematics 30) or equivalent*

***Note:** If it has been 10 or more years since you completed mathematics courses (i.e. Math 10, 20, 30 or Math 13, 23, 33), you will be required to complete a [skills assessment](#), take a [challenge exam](#), or complete [upgrading](#) to meet the mathematics requirement for this program.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band E:

- CLBA overall score of 7
- TOEFL iBT overall score of 71
- IELTS Academic overall score of 6.0, no section score below 5.5
- CELPIP General overall score of 7, no section score below 6
- CAEL overall score of 60
- Completion of [Listening/Speaking 7000 \(ESLS7000\)](#)/[Listening/Speaking 7100 \(ESLS7100\)](#) (or [Listening and Speaking for Success in a Business Career \(ESLG2101\)](#)) and [Reading/Writing 7000 \(ESLW7000\)](#)/[Reading/Writing 7100 \(ESLW7100\)](#) (or [Reading and Writing Strategies and Development for Business Careers](#))

([ESLG2103](#)) with a minimum of 80%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic coursework required for admission to this program.

Practicum/Work Experience Requirements

To be eligible for [Work Experience \(BUSN1295\)](#), students must successfully complete all other Accounting Technician certificate courses.

Progression

Students must attain a pass grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses and achieve a minimum 2.0 grade point average.

Credential

After successfully completing specific courses, students will be awarded NorQuest Accounting Technician certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Delivery

Information for online delivery students

The Accounting Technician certificate program is available online in an anytime online delivery method.

Students may take up to six Accounting Technician certificate courses through Open Studies. After that point, if you wish to continue with additional courses, an application is required and all admission requirements for the program must be met.

- 16-week courses
- Credential must be completed within five years of program start date
- Each course will take approximately 10 hours per week of time commitment to complete readings and homework in order to finish each course within 16 weeks. Take this into consideration when planning your course schedule. We do not offer extensions on assignments, tests or courses
- Learning material is delivered online and through textbooks with instructor assistance by email
- Attendance may be required for labs and workshops held at the Edmonton Downtown Campus
- Course exams must be completed at authorized proctored sites
- Includes one month of work experience totaling 150 hours with an employer in your geographic location
- Students are responsible for finding their own work experience location. A career advisor will conduct site visits, supervision, and evaluation
- You must have prerequisite and corequisite as listed in the academic calendar (course listing)

- 8-month post-diploma certificate
- September start

- Hybrid delivery with online and face-to-face evening and weekend classes at Edmonton Downtown campus

Description

The Addictions Recovery Practitioner post-diploma certificate program provides health and human services professionals with the knowledge and skills to work with clients experiencing substance use and concurrent disorders. The program is offered in a flexible combination of online courses and live classroom instruction on evenings and weekends. The program emphasizes acquisition of applied skills and best practices in direct client care, advocacy, ethics, and work with families and communities. The program builds upon students' previous training and experience, and graduates are equipped to meet client and employer needs in a range of relevant settings.

Career Potential

The Addictions Recovery Practitioner program will provide a viable career pathway for those entering the field of Addictions. Graduates of the Addictions Recovery Practitioner may pursue further education at the bachelor's and master's level, in areas such as social work, addictions, mental health, program administration, management and/or research.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

Admission Requirements

- a diploma or degree in the human services or health field from a college or university in Canada or abroad

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band F:

- CLBA overall score of 8, no section score below 7
- CELPIP general overall score of 8, no section score below 7
- TOEFL iBT overall score of 84, with no section score below 21
- IELTS Academic overall score of 6.5, no section score below 6.0
- CAEL overall score of 60, no section score below 60
- Completion of [Listening/Speaking 8000 \(ESLS8000\)/Listening/Speaking 8100 \(ESLS8100\)](#) and [Reading/Writing 8000 \(ESLW8000\)/Reading/Writing 8100 \(ESLW8100\)](#) with a minimum 80%
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following are not required for admission purposes, but will be required before you attend your [Community Service Learning \(MHAD1010\)](#) course.

- Completion of [Alberta Health Services \(AHS\) Information & Privacy training online learning module](#) and submission of signed Confidentiality and User Agreement on the last page of the module.
- Documentation of up-to-date immunizations. [Download the immunization form and instructions \(456K.pdf\)](#).
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student Practicum with a human service organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements. See [Edmonton Police - Police Information Check](#) for complete information on obtaining your City of Edmonton police information check.

*Note: Internet (online) police information checks are not accepted by the college. Please contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Progression

Students must attain a pass grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Addictions Recovery Practitioner certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

- 5-month certificate, including 1-month work experience
- Face-to-face full-time studies at Downtown Edmonton campus in fall and winter terms

- Asynchronous online delivery with intakes in September, November, January, and March

Description

The Administrative Professional certificate equips students with the skills and knowledge to become an effective office professional. Students will learn essential office skills such as basic accounting, office management, organizational politics, software applications, business communication, and event management.

Program Overview

Today's administrative professionals are often the voice and face of the company. They must be dynamic and able to actively lead the crucial day-to-day functions of an organization. They are able to make decisions, multi-task, solve issues, understand technology, communicate effectively, and operate an efficient office, no matter what the type of industry.

Students will explore innovative trends and practices while acquiring the skills and knowledge relevant to current and future industry needs. Our focus on a high standard of applied education prepares you to be in high demand for quality employment.

This program is offered in a unique, fast-tracked format that gives you the opportunity to achieve a career in less than a year. Students complete classroom studies in just four months and then move on to one month full-time work experience.

Career Potential

Graduates of the Administrative Professional certificate program find employment in the public and private sector, in small business, government, banking, insurance, not-for-profit organizations and the retail, hospitality, oilfield, and construction industries.

NorQuest graduates find careers in rapidly evolving administrative support roles that include data analysis, event planning, office coordination, and communications. They can also be employed in positions such as corporate executive assistant, bookkeeper, billing and invoice clerk, and customer service associate.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

Transferability

Some course work completed in the Administrative Professional certificate program can qualify for transfer credit towards post-secondary programs such as the NorQuest [Business Administration](#) diploma program, [Accounting Technician](#) certificate program, or [Hospital Unit Clerk](#) certificate program. Transfer credits are assessed on a case-by-case basis.

Course work completed at another post-secondary institution may be equivalent to course work at NorQuest College. A formal assessment will be made to determine whether these courses qualify for transfer credit. Request forms may be obtained from the [Office of the](#)

[Registrar](#). For more information, visit the [Transfer Credit](#) page.

Internal transfer credit may be available from NorQuest's [Hospital Unit Clerk](#) program. A request form is not required for internal transfer credit. Students can contact admissions@norquest.ca to inquire.

Admission Requirements

- 50% in English Language Arts 30-1 or 50% in English Language Arts 30-2 or completion of [English for Academic Purposes -Reading and Writing EAP II \(ESLG1898\)](#) with a minimum 50% or equivalent
- 50% in Mathematics 10C or 50% in Mathematics 20-3 or equivalent*

***Note:** If it has been 10 or more years since you completed Mathematics courses (i.e. Math 10, 20, 30 or Math 13, 23, 33), you will be required to complete a [skills assessment](#), take a [challenge exam](#), or complete [upgrading](#) to meet the mathematics requirement for this program.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band E:

- CLBA overall score of 7
- TOEFL iBT overall score of 71
- IELTS Academic overall score of 6.0, no section score below 5.5
- CELPIP General overall score of 7, no section score below 6
- CAEL overall score of 60
- Completion of [Listening/Speaking 7000 \(ESLS7000\)](#)/[Listening/Speaking 7100 \(ESLS7100\)](#) (or [Listening and Speaking for Success in a Business Career \(ESLG2101\)](#)) and [Reading/Writing 7000 \(ESLW7000\)](#)/[Reading/Writing 7100 \(ESLW7100\)](#) (or [Reading and Writing Strategies and Development for Business Careers \(ESLG2103\)](#)) with a minimum of 80%

***Note:** meeting the ELP requirements does not exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

To be eligible for [Work Experience for Administrative Professionals \(BUSN1184\)](#), students must successfully complete all other Administrative Professional certificate courses.

Progression

Students must attain a pass grade in each course to progress through the program. To qualify for graduation, students must:

- pass all courses,
- maintain an overall GPA of 2.0, and
- achieve a keyboarding speed requirement of 45 net words/minute.

It is suggested that students commence the program with a minimum typing speed of 25 net words per minute.

Graduation Requirements

To qualify for graduation, students must pass all courses and maintain an overall GPA of 2.0.

Credential

After successfully completing specific courses, students will be awarded NorQuest Administrative Professional certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Delivery

Information for online delivery students

The Administrative Professional certificate program is available online in an anytime online delivery method.

Students may take up to six Administrative Professional certificate courses through Open Studies. After that point, if you wish to continue with additional courses, an application is required and all admission requirements for the program must be met.

- 16-week courses
- **Important:** This online program takes a minimum of nine months to complete (eight months of courses and one month of work experience).
- Credential must be completed within five years of program start date
- Each course will take approximately 10 hours per week of time commitment to complete readings and homework in order to finish each course within 16 weeks. Take this into consideration when planning your course schedule. We do not offer extensions on assignments, tests or courses

- Part-time self-paced study

- Continuous monthly starts
- Online delivery, face-to-face clinical practice

Description

This post-diploma, advanced certificate program prepares licensed practical nurses (LPNs) with the knowledge and skills for a specialized career in orthopaedics. The program consists of two theory courses, one lab course, and a clinical practice. Learners will further their understanding of anatomy and physiology in relation to orthopaedics and orthopaedic radiology, assessment, and trauma. The curriculum includes specialized orthopaedic procedures, including casting.

Career Potential

Upon successful completion of this program, you will be prepared to work in an emergency department, cast room, and orthopaedic patient care area.

Admission Requirements

- Active registration with a college for licensed practical nurses
- Applicants will require a minimum of two years current acute care employment as an LPN
- Informal interview with the program instructor

Note: The admission requirements listed above may be satisfied by submitting a letter from your employer stating that the requirements have been met and are up to date.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

Practicum/Work Experience Requirements

The following is not required for admission purposes, but will be required before you attend the clinical practice.

- Successful completion of all prerequisite courses.
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.
 - [\(WHMIS\) Workplace Hazardous Material Information System \(XBUS1017\)](#) certificate current within 3 years.
 - [Basic Life Support \(BLS\) for Health-Care Providers \(XHLT1200\)](#) certificate current within 1 year.
 - [It's Your Move \(XHLT1070\)](#) certificate current within 1 year or alternative injury prevention course.
 - [Human Bloodborne Pathogen Exposure \(XHLT1023\)](#) certificate current within 3 years.
- Up-to-date immunizations. Download the [immunization form and instructions \(1.7MB pdf\)](#). For a list of program-specific immunization requirements, download the [Immunization Requirements for Advanced Education in Orthopaedics for LPNs \(24K pdf\)](#). Take your completed immunization form to the NorQuest Health Services Office in A109.
- Clear police information check; must include vulnerable sector search. (Health-care agencies require students doing clinical practice to submit a police information check.)* Submit the

original to the Office of the Registrar on the main floor of the main NorQuest College building.

- Read the [HSPNet information sheet](#) and sign the appropriate [HSPNet consent form](#) for Advanced Education in Orthopaedics for LPNs. Submit the signed form as indicated below.
- Complete [Alberta Health Services \(AHS\) Information & Privacy training](#) online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.

Submit required certificates and forms listed above (unless otherwise indicated) using one of the following methods:

- by email to ClientServRep_Health@NorQuest.ca,
- by fax to 780.644.6529, or
- to the customer service representative in your program area (Room A630, B102, or E220).

The admission requirements listed above may be satisfied by submitting a letter from your employer stating that the above requirements have been met and are up to date.

***Note:** Internet (online) police information checks are not accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Progression

Students must attain 80% in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses. After successfully completing this program, graduates will be awarded a NorQuest Advanced Education in Orthopaedics for LPNs certificate and an orthopaedic pin.

Credential

After successfully completing specific courses, students will be awarded NorQuest Advanced Education in Orthopaedics certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Delivery

Delivery methods for this program include:

- Online delivery/face-to-face clinical
- Self-paced study
- Tutorial help from an instructor

- 5-day full-time workshop
- Preceptored full-time 300-hour clinical practice (possibly completed in your own community).
- Continuous intakes

- Two-year diploma with accounting, human resources management, and management specializations
- Face-to-face full-time studies at Downtown Edmonton campus in fall and winter terms
- Asynchronous online delivery with intakes in September and November

Description

Whether you have well-defined goals such as becoming an accountant, an entrepreneur, a business operations manager, or a human resources professional, the Business Administration diploma program provides a strong foundation for any business career you might choose. Students will explore innovative trends and practices while acquiring the skills and knowledge relevant to current and future industry needs. NorQuest's program integrates practical learning experiences with unique content for a truly different business program. The practical and intensive training throughout the program helps our graduates become in-demand job candidates.

Program Overview

There are four specializations for the Business Administration program. All specializations provide a flexible and dynamic core understanding of business fundamentals with a wide assortment of job opportunities:

- **Accounting specialization**- with focused accounting courses in the second year.

Graduates with an accounting specialization have an aptitude for numbers and enjoy problem solving. They are able to look at the overall big picture while determining the bottom line. They are prepared to work with companies in financial, computerized tax, and cost accounting areas.

- **Human Resources Management specialization**- with focused HR courses in the second year.

Graduates with a human resources (HR) management specialization will know how to improve a corporate culture and increase employee productivity. They will be confident in creating performance management policies, employing effective hiring and retention practices, reviewing and recommending employee compensation packages, creating hiring selection criteria, and applying employment law.

- **Management specialization** - with focused entrepreneurship or business operations courses in the second year.

Graduates with a management specialization are becoming increasingly important to business in our competitive economy due to their strategic planning and analytical skills. They assist companies in integrating planning and development strategies using problem-solving techniques and consensus building. Leadership, marketing, and financial information is also studied.

- **Entrepreneurship focus:** for students who are interested in starting a business of their own or who wish to help a newly formed business grow. It provides a thorough understanding of what is required to start and maintain a sustainable venture. Students will acquire the tools necessary to identify

opportunity, assess entrepreneurial potential, produce a business plan, organize, promote, and finance a business, and prepare a marketing and sales structure.

- **Business operations focus:** for students who are interested in how businesses supply, produce, and distribute goods and services in the most efficient and profitable way possible. Students will learn how to plan, control, and optimize business systems and techniques to deliver projects on time and on budget. Learning how to assess and improve productivity throughout an organization will make these graduates a valuable asset to any organization.

• General Studies

Student may elect not to have an area of specialization. These students would take the common first year courses, and then choose 10 additional courses out of all Year 2 courses offered.

Note: students must have appropriate prerequisite courses as required.

Career Potential

Graduates of the Business Administration program may find employment in the private or public sector, in small business, government, banking, insurance, not-for-profit organizations, retail, hospitality, oilfield, and construction industries.

Accounting graduates may find careers as accounting technicians, accounting clerks, bankers, business analysts, bookkeepers, audit administrators, accounts payable or accounts receivable administrators, office managers, billing supervisors, business managers, credit and collections officers, inventory control officers, payroll accountants, and data entry professionals.

Human Resources Management graduates are able to apply their skills in a variety of career opportunities such as HR generalists, recruiter, HR coordinator, trainer, consultant, HR manager, or compensation/benefits specialist.

Management graduates have a broad understanding of various business concepts and applications, and as such, may find careers as general managers, operations managers, sales managers, account managers, branch managers, or business managers in retail, financial services, insurance, human resources, not-for-profit, sales, or marketing industries.

- **Entrepreneurship** graduates may want to start their own business or help build new businesses, but their training can be applied to any industry. With their entrepreneurial skill and strong, general business foundation, they can focus on the bigger

picture. Graduates may also find work as marketing coordinators, project managers, business administrators, product managers, or sales account managers.

- **Business operations management** graduates will possess a highly transportable set of skills applicable to a variety of service and manufacturing industries, in both business improvement and supply chain roles. Project management, business analysis, purchasing, improvement specialist, quality control, and consulting roles would be examples of potential career paths.

For more information on related careers, see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#) is available for many occupations in the business administration area, and can vary dependent on specific role and industry. Be sure to check out the many career options available.

Transferability

Internal transfer credit may be available from NorQuest's [Administrative Professional](#), [Accounting Technician](#), and [Hospital Unit Clerk](#) programs. A request form is not required for internal transfer credit. Students can contact admissions@norquest.ca to inquire.

Course work completed at another post-secondary institution may be equivalent to course work at NorQuest College. A formal assessment will be made to determine whether these courses qualify for transfer credit. Request forms may be obtained from the Office of the Registrar or online. For more information, visit the [Transfer Credit](#) page. Challenge exams and prior learning assessment and recognition (PLAR) are also available for all courses.

Many professional organizations and post-secondary institutions recognize and provide credit for the Business Administration diploma.

Admission Requirements

- 50% in English Language Arts 30-1 or English Language Arts 30-2 or completion of [English for Academic Purposes -Reading and Writing EAP II \(ESLG1898\)](#) with a minimum 50% or equivalent
- 60% in Mathematics 20-1 (Pure Mathematics 20) or Mathematics 20-2 (Applied Mathematics 20) or equivalent, or 50% in Mathematics 30-1 (Pure Mathematics 30) or Mathematics 30-2 (Applied Mathematics 30) or equivalent*

***Note:** If it has been 10 or more years since you completed mathematics courses (i.e. Math 10, 20, 30 or Math 13, 23, 33), you will be required to complete a [skills assessment](#), take a [challenge exam](#), or complete [upgrading](#) to meet the mathematics requirement for this program.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band E:

- CLBA overall score of 7
- TOEFL iBT overall score of 71
- IELTS Academic overall score of 6.0, no section score below 5.5
- CELPIP General overall score of 7, no section score below 6
- CAEL overall score of 60
- Completion of [Listening/Speaking 7000 \(ESLS7000\)](#)/[Listening/Speaking 7100 \(ESLS7100\)](#) (or [Listening and Speaking for Success in a Business Career \(ESLG2101\)](#)) and [Reading/Writing 7000 \(ESLW7000\)](#)/[Reading/Writing 7100 \(ESLW7100\)](#) (or [Reading and Writing Strategies and Development for Business Careers \(ESLG2103\)](#)) with a minimum of 80%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Progression

Full-time students must pass four out of five courses each term and maintain an overall average of D+ (GPA 1.3) or higher to automatically progress in the program. If you do not achieve a term grade point average of 1.3, you may be permitted to continue on a probationary basis with the permission of the department.

If you are a full-time student in the program and you fail two courses in a semester, you will be placed on contractual departmental probation for the following semester. Failure to meet the probation requirements may result in forced withdrawal from the full-time program for one full semester. Readmission to the program will be subject to departmental review.

If you are a full-time student in the program and you fail three or more courses in any one semester, you will be required to withdraw for one full semester from the full-time program. Readmission to the program will be subject to departmental review.

Graduation Requirements

To qualify for graduation, students must pass all courses and maintain an overall GPA of 2.0.

Credential

After successfully completing specific courses, students will be awarded NorQuest Business Administration diploma.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

*[Prep for Employment \(BUSD1011\)](#) and [Co-op Experience \(BUSD1012\)](#) are **optional** and are not required to graduate with a Business Administration diploma. See the Program Requirements section for eligibility for [Co-op Experience \(BUSD1012\)](#).

- One-year certificate with 4 specific community specializations
- 150 hour practicum (4 weeks)
- Fall and winter term starts

- Full-time, face-to-face studies at Downtown Edmonton campus
- Full-time, hybrid at Wetaskiwin campus (Indigenous Peoples specialization only)

Description

This exciting certificate program provides graduates with generalist skills to work in a variety of frontline human service settings. Students will have the opportunity to focus their training in one of four unique communities:

- Indigenous peoples
- Immigrants/refugees
- Individuals with disabilities
- Older adults

Program Overview

You will take courses designed to provide you with knowledge and skills to support the growth and development of individuals and families and to build stronger communities. The Community Support Worker program is your gateway to employment in a human service agency or to further training in related careers.

Career Potential

Graduates of this program will find employment in such front-line human service-delivery settings as Indigenous child and family service agencies, street work organizations, group homes, emergency shelters, immigrant settlement agencies, ethno-specific community service organizations and organizations that provide personal/in-home supports to the disabled and senior citizens.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGFinfo salary info](#)

Admission Requirements

- 55% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band E:

- CLBA overall score of 7
- TOEFL iBT overall score of 71
- IELTS Academic overall score of 6.0, no section score below 5.5
- CELPIP General overall score of 7, no section score below 6
- CAEL overall score of 60
- Completion of [Listening/Speaking 7000 \(ESLS7000\)](#)/[Listening/Speaking 7100 \(ESLS7100\)](#) and [Reading/Writing 7000](#)

([ESLW7000](#))/[Reading/Writing 7100 \(ESLW7100\)](#) with a minimum of 80%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following is not required for admission purposes, but will be required before you attend the practicum.

- A current (within six months of practicum commencement) police information check and a child protection intervention record check must be submitted to the Faculty of Health and Community Studies office prior to beginning the practicum. Program representatives will assess the results of these checks to determine whether they meet the criteria of the practicum sponsors.

Note: Internet (online) police information checks are NOT accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and may therefore affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Progression

Students must attain a pass grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Community Support Worker certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

PROGRAM OUTLINE

Courses may be adjusted within the terms specified. A final schedule will be provided to learners during registration.

Students have the choice of one of four areas of practice specializations: Indigenous peoples, immigrants/refugees, individuals with disabilities, and older adults.

Courses marked with (O) are available as [Open Studies](#) courses.

- 8-month certificate full-time, 12 months part-time
- 2 practicums (one in each term)
- Full-time daytime and part-time evenings and weekends deliveries

- Face-to-face in Edmonton
- Hybrid delivery in Drayton Valley and Wetaskiwin
- Fall, winter, and spring term starts available

Description

The Early Learning and Child Care certificate program prepares graduates to provide quality child care in a wide variety of settings and to plan appropriate activities for the children in their care. Knowledge of child development, family dynamics, play, and program planning will equip you to support the healthy development of children through child-centred learning experiences.

Career Potential

Graduates of this program have diverse opportunities to provide child-care services in Edmonton and many regional communities. The child-care field is considered to be an above-average growth profession with increasing annual demand for employees.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

Admission Requirements

- 50% in English Language Arts 30-1 or English Language Arts 30-2 or equivalent; OR
- successful completion of the GED, with a standard score of 520 in Language Arts: Reading and Writing; OR
- successful completion of [Written Communication \(COMM1007\)](#)

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band F:

- CLBA overall score of 8, no section score below 7
- CELPIP general overall score of 8, no section score below 7
- TOEFL iBT overall score of 84, with no section score below 21
- IELTS Academic overall score of 6.5, no section score below 6.0
- CAEL overall score of 60, no section score below 60
- Completion of [Listening/Speaking 8000 \(ESLS8000\)](#)/[Listening/Speaking 8100 \(ESLS8100\)](#) and [Reading/Writing 8000 \(ESLV8000\)](#)/[Reading/Writing 8100 \(ESLV8100\)](#) with a minimum 80%
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work (or GED or [Written Communication \(COMM1007\)](#)) required for

admission to this program.

Practicum/Work Experience Requirements

The following is not required for admission purposes, but will be required before you attend the practicum placement:

- Police information check; must include vulnerable sector search, both dated to within 60 days of the start of the practicum. (This process can take two to four weeks to complete.) The results of these checks must be submitted to the program area. *Program representatives will assess the results of these information checks to determine whether they meet the criteria of the practicum sponsors.

***Note:** Internet (online) police information checks are not accepted by the college. Contact your local law enforcement agency directly to obtain official police information checks. The existence of a criminal record may prevent placement, program completion, and professional licensure and may therefore affect employment prospects. Prospective students who have a record should discuss the matter with the Program Chair prior to applying for admission. It is **strongly** recommended that police information/vulnerable sector checks be obtained prior to the start of the program.

Progression

Students must attain a pass grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses with an overall GPA of 2.0 or higher.

Credential

After successfully completing specific courses, students will be awarded NorQuest Early Learning and Child Care certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Additional Certification

Graduates of the certificate program are eligible for [Child Development Worker certification from Alberta Human Services](#) (formerly referred to as Level 2).

Courses marked with an (O) are available as [Open Studies](#) courses ONLY for students in the evening and weekend program schedule below.

Evening and weekend program schedule

Learners in the part-time deliveries of the program will follow this program structure:

Fall 2017

- [Child Growth and Development \(ELCC1000\)](#)
- [Introduction to Early Learning and Child Care \(ELCC1002\)](#)
- [Written Communication \(COMM1007\)](#)

Winter 2018

- [Play \(ELCC1006\)](#)
- [Guiding Children's Behaviour \(ELCC1008\)](#)
- [Basic Computer Skills \(COMP1003\)](#)

Spring 2018

- [Literacy \(ELCC1007\)](#)
- [Interpersonal Relationships and Communications \(COMM1008\)](#)

Note: Learners will select their course(s) each term from the courses available in the term. The length of their program varies depending on the course load of their choice. Practicum ([Practicum I \(ELCC1015\)](#) and [Practicum II \(ELCC1025\)](#)) and practicum seminars ([Appropriate Practice in Child Care \(ELCC1010\)](#) and [The Role of the Educator in ELCC Settings \(ELCC1020\)](#)) for evening/weekend students may be taken in any term in consultation with the program area.

- Certificate
- Daytime, evening, online, and workplace classes
- 21 weeks full-time, 28 weeks part-time, 8 or 12 months workplace delivery

- Fall, winter, and spring starts
- Learn in the workplace: monthly admission, excluding January

Description

NorQuest College's Health Care Aide program is among the largest in Canada and prepares you to be a part of a health-care team in a variety of different settings, providing a high level of front-line care to clients in need of assistance. NorQuest College is licensed to deliver the Health Care Aide Government of Alberta Provincial Curriculum.

Career Potential

Upon successful completion of the program, you will be prepared to work in continuing care institutions, home care agencies, group homes, assisted or supportive living, day programs, specialized care centres and programs, acute care hospitals, and private care.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

To research your career, you may complete a [Career Investigation Report](#).

Admission Requirements

- Minimum of English Language Arts 10-1 (or provincial equivalent), or successful completion of NorQuest academic assessment.

Note: International documents will NOT be accepted to meet the admission requirements. Applicants with international documents will be required to write the NorQuest academic assessment.

Health Care Aide Workplace Education delivery applicants only:

- All program admission requirements listed
- Must be currently employed as a front-line caregiver in a participating agency

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band E:

- CLBA overall score of 7
- TOEFL iBT overall score of 71
- IELTS Academic overall score of 6.0, no section score below 5.5
- CELPIP General overall score of 7, no section score below 6
- CAEL overall score of 60

- Completion of [Listening/Speaking 7000 \(ESLS7000\)/Listening/Speaking 7100 \(ESLS7100\)](#) (or [Reading and Writing Strategies and Development for Health Careers \(BHCA1101\)](#) or equivalent) and [Reading/Writing 7000 \(ESLW7000\)/Reading/Writing 7100 \(ESLW7100\)](#) (or [Listening and Speaking for Success in Health Careers \(BHCA1100\)](#) or equivalent) with a minimum of 80%

Practicum/Work Experience Requirements

The following is not required for admission purposes, but will be required before you attend the practicum.

- Successful completion of all prerequisite courses.
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.
 - [It's Your Move \(XHLT1070\)](#) certificate current within one year.
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student/Instructor Placement with a healthcare organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements. Submit the original to the Office of the Registrar on the main floor of the main NorQuest College building.*
- Up-to-date immunization record. Download the [immunization form and instructions \(456K pdf\)](#). For a list of program-specific immunization requirements, download the [Immunization Requirements for Health Care Aide \(34K pdf\)](#).** Take your completed immunization form to the NorQuest Health Services office A109.
- Complete [Alberta Health Services \(AHS\) Information & Privacy](#) training online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.
- Read the [HSPNet information sheet](#) and sign the appropriate [HSPNet consent form](#) for Health Care Aide. Submit the signed form as indicated below.
- N95 Mask Fit testing as arranged by the program and done by NorQuest Health Services; current within two years.

Submit required certificates and forms listed above (unless otherwise indicated) using one of the following methods:

- by email to ClientServRep_Health@NorQuest.ca,
- by fax to 780.644.6529, or
- to the customer service representative in your program area (Room A630, B102 or E220).

***Note:** Internet (online) police information checks are not accepted by the college. Contact your local law enforcement agency directly to

obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

****Note:** Immunization requirements:

- For regional part-time delivery students, up-to-date immunizations must be completed and a record submitted **two weeks prior to entry into the program**.
- For full-time, all other part-time, and online delivery students, up-to-date immunizations must be completed and a record submitted **two weeks prior to the first clinical practice**.

Progression

Students must attain a pass grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Health Care Aide certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Delivery

Full-time Delivery

- 21-week program
- Face-to-face daytime classes, Monday to Friday
- Instructor-led classes, labs and practicum
- Downtown Edmonton campus

Part-time Delivery (Edmonton)

- Part-time face-to-face evening classes
- Monday, Tuesday, Wednesday, and Thursday evenings from 5:30 pm to 9:00 pm at the Edmonton Downtown Campus
- Instructor-led classes, labs and practicum
- 28 weeks, which includes two practicums totalling 200 hours of instructor-supported clinical practice are Monday to Friday full-time days

Online Part-time Delivery

- Learning material delivered online and through accompanying textbook
- 28-week paced course study online
- Instructor assistance by email
- Course exams completed online
- Mandatory attendance in labs and workshops at the downtown

Edmonton Downtown Campus only, which may required students to travel

- Includes two practicums totaling 200 hours of instructor-led practicum within the greater Edmonton area, or instructor-supported practicum in a facility in your geographic location outside of the greater Edmonton area with an assigned clinical mentor
- Site visits, supervision, and evaluation done by a NorQuest instructor.

Workplace Education

- This option is offered throughout Alberta in partnership with continuing care and home care employers.
- Paced study is combined with tutoring and practice opportunities with your employer.
- Monthly start dates are available, excluding January.
- Students have choice of eight months or 12 months to complete the program.
- Students are able to combine work and school by studying at home and practising your skills at work.
- Students interested in this program must consult their employer.

PROGRAM OUTLINE

Course	Title	Hours	Credits
Term 1 - 21 weeks			
HLTH2011	Working Safely and Effectively as a Health Care Aide	40:5:0	3
HLTH2012	Communication in the Health-Care Environment	21:9:0	2
HLTH2006	Structure and Function of the Human Body - Health and Chronic Illness	39:0:0	3
HLTH2013	Providing Client Care and Comfort	28:35:0	4
HLTH2004	Health Care Aide Integrated Practicum I	0:6:34	1
HLTH2014	Meeting Complex Care Needs	17.5:23.5:0	3
HLTH2002	Assisting with Medication Delivery	6:12:0	1
HLTH2015	Special Activities for Diverse Clients	47:2:0	3
HLTH2010	Health Care Aide Integrated Practicum II	0:12:148	5

Description

The Health Care Aide PLAR (Prior Learning Assessment and Recognition) is a certification process for individuals who have directly related work experience in the past three years, but do not currently have a certificate that is recognized in Alberta.

[Strategies and Development for Health Careers \(BHCA1101\)](#) or equivalent) and [Reading/Writing 7000 \(ESLW7000\)](#)/[Reading/Writing 7100 \(ESLW7100\)](#) (or [Listening and Speaking for Success in Health Careers \(BHCA1100\)](#) or equivalent) with a minimum of 80%

Program Overview

This would include:

- Individuals who have been working as a nursing attendant or personal support worker, but do not have a certificate currently recognized in Alberta.
- Other candidates may include nurses or nursing attendants trained in another country who have experience in geriatric care and believe they have the skills and knowledge to meet the standards for a NorQuest [Health Care Aide](#) certificate.
- Licensed Practical Nurses (LPNs) with their continuing care theory and practicum may also apply.

When you begin the process, you will receive an individual learner plan for self-study and skills assessment to achieve the level of proficiency required for the Health Care Aide certificate.

Contact the Faculty of Health and Community Studies at 780.644.6370 to request your HCA PLAR application.

Admission Requirements

- Minimum of English Language Arts 10-1 (or provincial equivalent) or successful completion of NorQuest academic assessment.

Note: International documents will not be accepted to meet the admission requirements. Applicants with international documents will be required to write the NorQuest academic assessment.

- 600 hours of experience in the last three years as a healthcare worker, documented with a proof-of-employment letter from the employer(s).

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band E:

- CLBA overall score of 7
- TOEFL iBT overall score of 71
- IELTS Academic overall score of 6.0, no section score below 5.5
- CELPIP General overall score of 7, no section score below 6
- CAEL overall score of 60
- Completion of [Listening/Speaking 7000 \(ESL7000\)](#)/[Listening/Speaking 7100 \(ESL7100\)](#) (or [Reading and Writing](#)

Self-Assessment

Once you have applied, you must complete a self-assessment to determine whether you qualify for a PLAR assessment in any or all of the [Health Care Aide](#) courses. Each PLAR student must complete at least one full course as a student. A PLAR instructor will meet with you to identify your present knowledge and skill level and to determine whether the PLAR process is right for you.

The PLAR process consists of two parts:

Part 1:

1. Complete a self-assessment of your current knowledge and skills.
2. Submit an original transcript directly to the Office of the Registrar showing successful completion of Grade 10 English Language Arts, or pass the reading comprehension exam.
3. Meet with a PLAR instructor to review your self-assessment and determine whether you have the theory and skills needed to obtain your NorQuest [Health Care Aide](#) certificate through the PLAR process.

Part 2:

1. If recommended for the PLAR process, you will be issued an individual learner plan for self-study. The learner plan will outline the knowledge and skills that the PLAR instructor feels that you need to acquire, study, and practice in order to achieve the level of proficiency required for the [Health Care Aide](#) certificate.
2. Your learning plan will include a mandatory “in residence” course, [Structure and Function of the Human Body - Health and Chronic Illness \(HLTH2006\)](#).
3. You will achieve a passing grade in the theory exam for each course.
4. You will achieve a “satisfactory” mark in the skills assessment for each course that has a lab skills component.

You must succeed in both theory and skills in order to complete the PLAR process. The lab skills assessments are done at NorQuest College, Edmonton Downtown Campus. Assessments are done by NorQuest HCA instructors.

Credential

After successfully completing specific courses, students will be awarded NorQuest Health Care Aide certificate.

PROGRAM OUTLINE

For complete course descriptions, see the Health Care Aide program pages.

Program courses, tuition, fees, start dates, length, delivery methods, and locations vary dependent on individual learner plan.

- 16-week certificate, including 4-week practicum
- Full-time, face-to-face and online studies starting Fall and Winter

- Evening/weekend part-time hybrid delivery (September to June)
- Part-time online with monthly start dates

Description

Hospital unit clerks play a vital role in managing the information flow in hospital nursing units. Obtain your certificate in just four months, including a four-week practicum.

Career Potential

There are many opportunities for employment in the growing field of health care. Students may work in acute care hospitals, extended care facilities, and private medical offices.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

Transferability

Course work completed at another post-secondary institution may be equivalent to course work at NorQuest College. A formal assessment will be made to determine whether these courses qualify for transfer credit. Request forms may be obtained from the Office of the Registrar or online. For more information visiting the [Transfer Credit page](#). Challenge exams are also available for some courses.

Internal transfer credit may be available from NorQuest's [Administrative Professional](#), [Accounting Technician](#), and [Business Administration](#) programs. A request form is not required for internal transfer credit. Students can contact admissions@norquest.ca to inquire.

Admission Requirements

- 60% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent
- 50% in Mathematics 10C or Mathematics 10-3 or equivalent*

***Note:** If it has been 10 or more years since you completed mathematics courses (i.e. Math 10, 20, 30 or Math 13, 23, 33), you will be required to complete a [skills assessment](#), take a [challenge exam](#), or complete [upgrading](#) to meet the mathematics requirement.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English Language Proficiency (ELP) prior to admission. ELP must have been completed within the 2 years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band F:

- CLBA overall score of 8, no section score below 7
- CELPIP general overall score of 8, no section score below 7
- TOEFL iBT overall score of 84, with no section score below no section score below 21

- IELTS Academic overall score of 6.5, no section score below 6.0
- CAEL overall score of 60, no section score below 60
- Completion of [Listening/Speaking 8000 \(ESLS8000\)/Listening/Speaking 8100 \(ESLS8100\)](#) and [Reading/Writing 8000 \(ESLW8000\)/Reading/Writing 8100 \(ESLW8100\)](#) with a minimum 80%
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following is not required for admission purposes, but will be required before you attend the practicum.

- Successful completion of all prerequisite courses.
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.
 - [\(WHMIS\) Workplace Hazardous Material Information System \(XBUS1017\)](#) current within 3 years
 - [Human Bloodborne Pathogen Exposure \(XHLT1023\)](#) current within 3 years
 - Recommended but not required: [Basic Life Support \(BLS\) for Health-Care Providers \(XHLT1200\)](#) current within 1 year
- Keyboarding speed of 45 wpm as verified in [Keyboarding \(BUSN1165\)](#)
- Complete [Alberta Health Services \(AHS\) Information & Privacy training](#) online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include a vulnerable sector search if older than 18 years of age. It should specify the purpose of the police information check as "a Student/Instructor Placement with a healthcare organization". More than one police information check may be necessary during the length of your program in accordance with practicum requirements*. Submit the original to the Office of the Registrar on the main floor of the main NorQuest College building.
- Up-to-date immunization record, including Hepatitis B. Download the [immunization form and instructions](#) (PDF). For a list of program-specific immunization requirements, download the [Immunization Requirements for Hospital Unit Clerk](#) (PDF). Take your completed immunization form to the NorQuest Health Services Office-A109.
- Read the [HSPNet information sheet](#), then download and sign the appropriate [HSPNet consent form](#) for the Hospital Unit Clerk program. Submit the signed form as indicated below.

Submit required certificates and forms listed above (unless otherwise indicated) using one of the following methods:

- by email to ClientServRep_Health@NorQuest.ca,
- by fax to 780.644.6418, or
- to the customer service representative in your program area (Room A630, B102, or E220).

***Note:** Internet (online) police information checks are NOT accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Progression

Students must attain a passing grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Hospital Unit Clerk certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Delivery

Full-Time Face-to-Face Delivery

- Instructor-led classroom
- Monday to Friday 8:00 am - 4:00 pm

Full-Time Online Delivery

- Paced self-study
- Full course load during first 12 weeks

Part-Time Hybrid Delivery

- Combination of about 50% paced self-study online and about 50% instructor-led classroom time
- Courses are completed one at a time over 42 weeks (September - June)
- Instructor-led classes are held on Tuesday and Thursday evenings 6:00 pm - 9:00 pm

Part-Time Online Delivery

- Continuous monthly start dates
- Online self-study via Open Entry Open Exit (OEE) delivery
- Students have 16 weeks to complete each course. The student decides how many courses to take at one time.
- Students register for each specific course before the 15th of the month to begin the course on the 1st of the following month.
- Not all courses in the program are available in this delivery mode.

PROGRAM OUTLINE

Course	Title	Hours	Credits
Term 1 - 16 weeks			
BUSN1152 (O)	Medical Terminology	60:30:0	6
BUSN1156 (O)	Business Communications Skills for Health-Care Professionals	45:0:0	3
BUSN1190	Administrative Health-Care Procedures	60:30:0	6
BUSN1194 (O)	Introduction to Software Applications	45:30:0	5

BUSN1154	Medical Orders	45:0:0	3
BUSN1192	Medical Applications	15:30:0	3
BUSN1161	Practicum for Unit Clerks	0:0:150	3

Courses marked with (O) are available as [Open Studies](#) courses.

MEDICAL DEVICE REPROCESSING TECHNICIAN

- 29-week certificate
- Full-time hybrid studies (online, and 2 evenings and Saturday face-to-face weekly)
- Winter and Spring starts
- Downtown Edmonton campus

Description

The Medical Device Reprocessing Technician program prepares skilled graduates to enter the workforce to perform the critical work of sterilizing, packaging, and storing surgical and medical instruments.

Career Potential

Graduates of this program have opportunities to work in the medical device reprocessing departments of hospitals and health providers. The medical device reprocessing field is growing steadily with an increasing demand for well-trained technicians to work in the health industry.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

Admission Requirements

- 60% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band F:

- CLBA overall score of 8, no section score below 7
- CELPIP general overall score of 8, no section score below 7
- TOEFL iBT overall score of 84, with no section score below 21
- IELTS Academic overall score of 6.5, no section score below 6.0
- CAEL overall score of 60, no section score below 60
- Completion of [Listening/Speaking 8000 \(ESLS8000\)](#)/[Listening/Speaking 8100 \(ESLS8100\)](#) and [Reading/Writing 8000 \(ESLW8000\)](#)/[Reading/Writing 8100 \(ESLW8100\)](#) with a minimum 80%
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following are not required for admission purposes, but will be

required before you attend the practicum placement:

- Successful completion of all prerequisite courses
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.
 - [\(WHMIS\) Workplace Hazardous Material Information System \(XBUS1017\)](#) current within 3 years
 - [Human Bloodborne Pathogen Exposure \(XHLT1023\)](#) current within 3 years
- Complete [Alberta Health Services \(AHS\) Information & Privacy training](#) online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.
- Up-to-date immunization record (including Hepatitis B). Download the [immunization form and instructions \(PDF\)](#). For a list of program-specific immunization requirements, download the [Immunization Requirements for Medical Device Reprocessing Technician \(34K pdf\)](#). Take your completed immunization form to the NorQuest Health Services office A109.
- Read the [HSPNet information sheet](#) and sign the appropriate [HSPNet consent form \(pdf\)](#) for the Medical Device Reprocessing Technician program. Submit the signed form as indicated below.
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include a vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student/Instructor Placement with a healthcare organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements.* Submit the original to the Office of the Registrar on the main floor of the main NorQuest College building.

Submit required certificates and forms listed above(unless otherwise indicated) using one of the following methods:

- by email to ClientServRep_Health@norquest.ca,
- by fax to 780.644.6418, or
- to the customer service representative in your program area (Room A630, B102, or E220).

***Note:** Internet (online) Ppolice information checks are not accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Progression

Students must attain a passing grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Medical Device Reprocessing Technician certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Additional Certification

Upon completing the theory and practicum components, graduates will be prepared to write the Medical Device Reprocessing Technician certification exam through the Canadian Standards Association. This association is the Canadian certifying body that issues the certified medical device reprocessing technician credential.

PROGRAM OUTLINE

Course	Title	Hours	Credits
Term 1 - 15 weeks			
ANPH1003	Introduction to Anatomy and Physiology for MDRT	45:0:0	3
BUSN1156 (O)	Business Communications Skills for Health-Care Professionals	45:0:0	3
HLTH1100	Surgical Instrument Processing I	45:30:0	5
HLTH1101	Surgical Instrument Processing II	45:15:0	4
Term 2 - 14 weeks			
HLTH1102	Practicum for MDRT	0:0:500	8

- 8-month post-diploma certificate
- January start
- Includes 120-hour practicum placement

- Hybrid delivery with online and face-to-face evening and weekend classes at Edmonton Downtown campus

Description

The Mental Health Recovery Practitioner post-diploma certificate program provides health and human services professionals with the knowledge and skills to work with clients experiencing mental health and concurrent disorders. The program is offered in a flexible combination of online courses and live classroom instruction on evenings and weekends. The program emphasizes acquisition of applied skills and best practices in direct client care, advocacy, ethics, and work with families and communities. A key component of the program is work in labs and practicum. The program builds upon students' previous training and experience, and graduates are equipped to meet client and employer needs in a range of relevant settings.

Career Potential

The Mental Health Recovery Practitioner program will provide a viable career pathway for those entering the mental health field. Graduates of the Mental Health Recovery Practitioner program may pursue further education at the bachelor's and master's level, in areas such as social work, addictions, mental health, program administration, management and/or research.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)- you may find other related occupations by searching for mental health, social work, occupational therapy, etc.
- [ALIS WAGEinfo salary info](#)

Admission Requirements

- a diploma or degree in the human services or health field from a college or university in Canada or abroad

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band F:

- CLBA overall score of 8, no section score below 7
- CELPIP overall score of 8, no section score below 7
- TOEFL iBT overall score of 84, no section score below 21
- IELTS Academic overall score of 6.5, no section score below 6.0
- CAEL overall score of 60, no section score below 60
- Completion of [Listening/Speaking 8000 \(ESLS8000\)](#)/[Listening/Speaking 8100 \(ESLS8100\)](#) and [Reading/Writing 8000 \(ESLW8000\)](#)/[Reading/Writing 8100 \(ESLW8100\)](#) with a minimum 80%
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following are not required for admission purposes, but will be required before you attend your [Community Service Learning \(MHAD1010\)](#) or [Practicum Placement \(MHRP1003\)](#) courses.

- Completion of [Alberta Health Services \(AHS\) Information & Privacy training online learning module](#) and submission of signed Confidentiality and User Agreement on the last page of the module.
- Documentation of up-to-date immunizations. [Download the immunization form and instructions \(456K pdf\)](#).
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student Practicum with a human service organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements. See [Edmonton Police - Police Information Check](#) for complete information on obtaining your City of Edmonton police information check.

*Note: Internet (online) police information checks are not accepted by the college. Please contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Progression

Students must attain a pass grade in each course to progress through the program.

Credential

After successfully completing specific courses, students will be awarded NorQuest Mental Health Recovery Practitioner certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

- Two-year diploma program
- Full-time studies

- Fall intake
- Two 4-week practicums

Description

Our nationally accredited Pharmacy Technician program thoroughly prepares graduates for this fast-paced and highly respected occupation. As a regulated pharmacy technician, you will be involved with dispensing prescriptions, preparing compounded medications and sterile products, repackaging pharmaceuticals, managing inventory, and providing patient care. The two four-week practicums give you the opportunity to apply your knowledge and skills in both community and institutional pharmacy settings.

Program Overview

Student Success

Students are more likely to be successful in this program if they:

- are detail-oriented and can function effectively in stressful situations
- can multi-task and problem-solve effectively
- have access to a computer and basic computer skills
- have good written and verbal communication skills
- have good vision and manual dexterity and can stand and sit for extended periods of time.

Applicants are requested to review the job requirements listed below and assess their ability to fulfill the demands of the occupation of pharmacy technician.

Note: computer skills are an asset for those entering the program.

As a pharmacy technician, you must be able to:

- work shifts and weekends
- stand and sit for extended periods of time
- use your knees, back, and arms to move objects that weigh up to 10 kilograms
- have good manual dexterity and vision, which are essential for some tasks
- function effectively in stressful situations
- multi-task and problem-solve
- perform all skills independently
- work collaboratively with other health-care professionals
- communicate effectively in written and verbal form with patients, colleagues, and other health care professionals.

Additional Program Details

NorQuest's pharmacy technician lab provides students with practical, hands-on training in compounding, sterile product preparation, repackaging, inventory management, and dispensing. In the lab, students have the opportunity to use technologies currently employed by those working in the profession, including Laminar Airflow Hoods (LAH), Kroll® computer software, and automated dispensing cabinets.

Our state-of-the-art simulation lab prepares students to work

collaboratively with other health-care professionals as part of an interdisciplinary team.

For more information on becoming a Registered Pharmacy Technician in the province of Alberta, visit the [Alberta College of Pharmacists website](#).

Accreditation

The Pharmacy Technician diploma program of NorQuest College has been awarded the status of Full Accreditation by the Canadian Council for Accreditation of Pharmacy Programs (CCAPP) for a five-year term, from July 2012 to June 2017.

This accreditation standard means that graduates are eligible to sit the entry-to-practice Pharmacy Examining Board of Canada (PEBC) Qualifying Examination and may go on to become regulated technicians under the [Alberta College of Pharmacists](#).

Career Potential

Pharmacy technicians work in hospitals, community pharmacies, pharmaceutical companies, and insurance companies.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

For more information on becoming a registered Pharmacy Technician in the Province of Alberta, visit the [Alberta College of Pharmacists website](#). To research your career, you may complete a [Career Investigation Report](#).

Transferability

The following courses have university transfer credit:

- [Interpersonal Communication for Health-Care Professions \(COMM1011\)](#)
- [Therapeutic Communication for Health-Care Professions \(COMM2011\)](#)
- [Scientific and Technical Writing \(ENGL2510\)](#)
- [Health Education: Individual Health and Wellness \(HEED1000\)](#)

Diploma program graduates are eligible for block transfer credit into the following post-secondary programs:

Athabasca University

- Bachelor of Health Administration (up to 42 credits)
- Bachelor of Professional Arts Human Services (up to 30 credits)
- Bachelor of Science (Post Diploma) in Human Science (30 credits)

NAIT

- Bachelor of Technology in Technology Management

Thompson Rivers University (Kamloops, BC)

- Bachelor of Health Science (up to 57 credits)
- Bachelor of General Studies (up to 60 credits)

Additional credit transfer agreements with various institutions are currently in negotiation. Please visit [Transfer Alberta](#) for the most up-to-date information.

Contact the Allied Health Careers department (780.644.6396) for suitable electives and to confirm that your course(s) have transferability. University-level courses from another post-secondary institution may be considered for transfer credit.

Admission Requirements

- 60% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent
- 60% in Mathematics 30-1 (Pure Mathematics 30) or Mathematics 30-2 (Applied Mathematics 30) or equivalent*
- 60% in Biology 30 or equivalent
- 60% in Chemistry 30 or equivalent
- High school diploma or equivalent

Up-to-date immunizations and a clear police information check are not required for admission; you may, however, be required to produce copies of immunization records and a clear police information check (with vulnerable sector search) prior to participating in field trips and other experiential learning opportunities.

***Note:** If it has been 10 or more years since you completed mathematics courses (i.e. Math 10, 20, 30 or Math 13, 23, 33), you will be required to complete a [skills assessment](#), take a [challenge exam](#), or complete [upgrading](#) to meet the mathematics requirement for this program.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language or you were educated outside of Canada, you must provide proof of English language proficiency (ELP) prior to admission. Language proficiency test results must meet the National Association of Pharmacy Regulatory Authorities (NAPRA) Language Proficiency Requirements. ELP must have been completed within two years prior to application to the program.

- Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band G:
 - TOEFL iBT overall score of 91, no score below 23 in speaking, 25 in writing, 22 in reading, and 21 in listening
 - IELTS Academic overall score of 6.5, no section score below 6
 - MELAB overall score of 81, no score below 3+ in speaking, 80 in writing, 83 in reading, and 80 in listening
 - CanTEST no score below 4.5 in speaking, 4.0 in writing, 4.5 in reading, and 4.5 in listening
- Graduation from approved Canadian high school, with at least

three consecutive years of full-time academic study and satisfactory completion of Grade 12 English or its equivalent. The high school's language of instruction must be English. A General Education Diploma (GED) is not acceptable.

- Successful completion of a recognized Canadian undergraduate degree program at a post-secondary institution where the language of instruction is English.

Note: As the above language proficiency standards are established by the Alberta College of Pharmacists (ACP) and the NAPRA, no other evidence of ELP, including completion of NorQuest coursework or other studies in English outside of Canada, will be accepted. Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following are not required for admission purposes, but will be required before you attend your practicum:

- Successful completion of all prerequisite courses
- Successful completion of a pre-practicum assessment (written and practical)
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.
 - [Basic Life Support \(BLS\) for Health-Care Providers \(XHLT1200\)](#) certificate current within 1 year
- Complete [Alberta Health Services \(AHS\) Information & Privacy training](#) online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.
- Up-to-date immunizations. Download the [immunization form and instructions \(456K pdf\)](#). For a list of program-specific immunization requirements, download the [Immunization Requirements for Pharmacy Technician \(34K pdf\)](#). Take your completed immunization form to the NorQuest Health Services office A109.
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student/Instructor Placement with a healthcare organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements. Submit the original to the Office of the Registrar on the main floor of the main NorQuest College building.*
- Read the [HSPNet information sheet](#), then download and sign the appropriate [HSPNet consent form](#) for the Pharmacy Technician program. Submit the signed form as indicated below.

Submit required certificates and forms listed above (unless otherwise indicated) using one of the following methods:

- by email to ClientServRep_Health@NorQuest.ca,
- by fax to 780.644.6529, or
- to the customer service representative in your program area (Room A216, B102, or E220).

***Note:** Internet (online) police information checks are not accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Progression

Students must attain a pass grade in each course to progress through the program. Due to space restrictions in labs, students who are completing the program on a full-time basis will be given priority over part-time students if class capacity is an issue.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Pharmacy Technician diploma.

Graduates of the NorQuest College Pharmacy Technician Diploma program will be recognized as eligible to write the Pharmacy Examining Board of Canada (PEBC) Qualifying Examination. Successful completion of the PEBC examination is necessary for registration as a pharmacy technician.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Delivery

- Instructor-led classroom and lab-based learning. Classes and labs are held in Edmonton at the downtown campus and may be scheduled between the hours of 8 am to 6 pm.
- Two four-week practicum rotations are full-time and shifts may be scheduled on weekends or evenings. All efforts are made to place students in the greater Edmonton area if desired, but students may be required to travel to other locations in the province of Alberta to complete the practicum requirements.

PHRM2202	Institutional Practicum	0:0:160	5

Courses marked with (O) are available as [Open Studies](#) courses.

Choosing an Elective in the Pharmacy Technician Diploma Program

Electives, or cross-over domain options, are provided to enhance or specialize the student's learning in their post-secondary program. Students in the Pharmacy Technician program are strongly advised to take [Therapeutic Communication for Health-Care Professions \(COMM2011\)](#). Students may, however, choose any [University Transfer](#) course from NorQuest College. Students may also apply for [transfer credit](#) for approved post-secondary work completed at another institution. It is the student's responsibility to ensure that electives are approved for their program of study, and that they are complete prior to clinical placement. Any questions about options can be directed to the Associate Chair or Chair.

Additional note: [Pharmaceutical Calculations \(PHRM1001\)](#) and [Pharmacy Law and Ethics \(PHRM1002\)](#) are only open to currently practising pharmacy technicians who wish to refresh their skills.

PHYSICAL THERAPY ASSISTANT

- Two-year diploma program
- Full-time, on-campus fast-track delivery of 16 months to have graduates enter the workforce sooner
- Alternate pace delivery - 28 months

- Full-time, face-to-face Fall intake
- Online intakes in September, January, and May with face-to-face labs
- Two 6-week practicums

Description

The Physical Therapy Assistant diploma program prepares you with the theoretical knowledge and therapeutic skills needed to assist patients in overcoming physical injury or disability. Includes two six-week practicums in physical therapy settings.

The fast-track delivery of 16 months of full-time study has graduates enter the workforce sooner. The alternate pace delivery of 28 months provides reduced course load to facilitate work and life balance and specific learning needs.

Program Overview

If you enjoy helping people and want a career assisting patients to overcome physical injury or disability, this diploma program could be for you. Our program prepares you with the theoretical knowledge and therapeutic skills needed to begin your challenging career as a physical therapy assistant. You may assist with treatments and exercises, monitor patients, and perform other tasks as required. The two six-week practicums give you the opportunity to apply your knowledge and skills in physical therapy settings. The NorQuest College Physical Therapy Assistant diploma program offers cross-over domain options to better prepare graduates to work in a multidisciplinary setting.

Applicants are requested to review the job requirements listed below and assess their ability to fulfill the demands of the occupation of physical therapy assistant.

As a physical therapy assistant, you must be able to:

- Work shifts and weekends
- Be on your feet for extended periods of time
- Use your knees, back, and arms to assist clients
- Lift 30 pounds
- Manage time and resources in a busy work setting
- Communicate and collaborate effectively in a team
- Enjoy working with people

Career Potential

Upon successful completion of the program, you will be prepared to work as a physical therapy assistant in rehabilitation hospitals, acute care centres, physical therapy clinics, continuing care centres, special care facilities, schools, and home care programs.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

To research your career, you may complete a [Career Investigation Report \(pdf\)](#).

Transferability

The following program courses have university transfer credit:

- [Interpersonal Communication for Health-Care Professions \(COMM1011\)](#)
- [Therapeutic Communication for Health-Care Professions \(COMM2011\)](#)
- [Scientific and Technical Writing \(ENGL2510\)](#)
- [Health Education: Individual Health and Wellness \(HEED1000\)](#)

Diploma program graduates are eligible for block transfer credit into the following post-secondary programs:

Athabasca University

- Bachelor of Health Administration (up to 42 credits)
- Bachelor of Professional Arts Human Services (up to 30 credits)
- Bachelor of Science (Post Diploma) in Human Science (30 credits)

NAIT

- Bachelor of Technology in Technology Management

Thompson Rivers University (Kamloops, BC)

- Bachelor of Health Science (up to 57 credits)
- Bachelor of General Studies (up to 60 credits)

University of Calgary

- Bachelor of Community Rehabilitation

Additional credit transfer agreements with various institutions are currently in negotiation. For the most recent and up-to date information on transfer agreements, refer to the [Alberta Transfer Guide](#).

Admission Requirements

- 50% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent
- 50% in Mathematics 10C (Pure Mathematics 10 or Applied Mathematics 10) or equivalent*
- 60% in Biology 30 or equivalent

Up-to-date immunizations and a clear police information check are not required for admission. However, you will be required to produce copies of immunization records and a clear police information check (with vulnerable sector search) prior to participating in field trips and other experiential learning opportunities.

***Note:** If it has been 10 or more years since you completed Mathematics courses (i.e. Math 10, 20, 30 or Math 13, 23, 33), you will be

required to complete a [skills assessment](#), take a [challenge exam](#), or complete [upgrading](#) to meet the Math requirement for this program.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band F:

- CLBA overall score of 8, no section score below 7
- CELPIP general overall score of 8, no section score below 7
- TOEFL iBT overall score of 84, with no section score below no section score below 21
- IELTS Academic overall score of 6.5, no section score below 6.0
- CAEL overall score of 60, no section score below 60
- Completion of [Listening/Speaking 8000 \(ESLS8000\)](#)/[Listening/Speaking 8100 \(ESLS8100\)](#) and [Reading/Writing 8000 \(ESLV8000\)](#)/[Reading/Writing 8100 \(ESLV8100\)](#) with a minimum 80%
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following are not required for admission purposes, but will be required before you attend your practicum:

- Successful completion of all prerequisite courses, including written and practical exams
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.
 - [Basic Life Support \(BLS\) for Health-Care Providers \(XHLT1200\)](#) certificate. For the duration of your practicum, you must hold BLS for Health Care Provider's certification that has been completed within the last 12 months.
 - [It's Your Move \(XHLT1070\)](#) certificate for the duration of your practicum, you must hold It's Your Move certification that has been completed within the last 12 months.
- Complete [Alberta Health Services \(AHS\) Information & Privacy training](#) online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.
- Up-to-date immunizations. Download the [immunization form and instructions \(456K pdf\)](#). For a list of program-specific immunization requirements, download the [Immunization Requirements for Physical Therapy Assistant \(34K pdf\)](#). Take your completed immunization form to the NorQuest Health Services office A109.

- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student Practicum with a healthcare organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements. Submit the original to the Office of the Registrar on the main floor of the main NorQuest College building.*
- Read the [HSPNet information sheet](#), then download and sign the appropriate [HSPNet consent form](#) for the Physical Therapy Assistant program. Submit the signed form as indicated below.

***Note:** Internet (online) police information checks are not accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Submit required certificates and forms listed above(unless otherwise indicated) using one of the following methods:

- by email to ClientServRep_Health@NorQuest.ca,
- by fax to [780.644.6529](tel:780.644.6529), or
- to the customer service representative in your program area (Room A216, B102, or E220).

Progression

Students must attain a pass grade in each course to progress through the program.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Physical Therapy Assistant diploma.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

PROGRAM OUTLINE

Cross-over domain options may be taken at any time during the program.

Please note: Delivery marked as "Varies" is a September start date 28-month alternate pace delivery.

- Hybrid delivery at Edmonton Downtown, Westaskiwin, Drayton Valley, and Whitecourt campuses
- Online classes have labs at the Edmonton Downtown campus

Description

To meet Alberta's growing needs in health care, the demand for licensed practical nurses (LPNs) is increasing. NorQuest's program, one of the largest in Canada, will prepare you to become a professional practical nurse educated to give high-quality care to clients in a variety of health-care settings.

Program Overview

Student Success

Students are more likely to be successful in this program if they:

- are physically and emotionally able to manage workplace demands.
- have access to a vehicle to travel to complete their clinical practice.
- have access to a computer and internet, and basic computer skills.

It is recommended that prospective students attend an information session prior to applying. See [Events](#) for upcoming Program Info Nights.

It is also recommended that students not work at outside jobs during the full-time Practical Nurse program.

Applicants are requested to review the job requirements listed below and assess their ability to fulfill the demands of the occupation of practical nurse.

As a practical nurse, you must be able to:

- Work shifts and weekends
- Be on your feet for extended periods of time
- Use your knees, back, and arms to move clients who have minimal body strength
- Function effectively in stressful situations
- Perform all skills independently

Students are required to travel to various locations in order to complete their clinical practice. Within the timeframe of the program, every effort is made to accommodate students in clinical practice placements. Access to a vehicle may be required.

Refer to the [College of Licensed Practical Nurses of Alberta website](#) for more information about becoming a Licensed Practical Nurse.

Program Options

Full-Time Delivery

- Instructor-led classroom
- Instructor-led clinical practice for [Nursing Practice I: Continuing](#)

[Care Practice \(NPRT1001\)](#), [Nursing Practice II: Acute Care Practice - Medicine \(NPRT2101\)](#), and [Nursing Practice II: Acute Care Practice - Surgery \(NPRT2102\)](#) occurs in Edmonton or surrounding areas.

Days are Monday to Friday, and hours may be between 6:00 am and 10:30 pm.

- Preceptor-led clinical practice courses may be arranged in or close to your own community. These schedules follow the preceptor's schedule and may include day, evening, or night shifts on any day of the week, including weekends and holidays.
- Regional full-time face-to-face delivery is also offered at the Dickensfield (Edmonton) campus.

Part-Time Evening Delivery

- Self-paced study plus weekly evening instructor-facilitated sessions for theory and lab courses
- Instructor-led clinical practice for [Nursing Practice I: Continuing Care Practice \(NPRT1001\)](#), [Nursing Practice II: Acute Care Practice - Medicine \(NPRT2101\)](#), and [Nursing Practice II: Acute Care Practice - Surgery \(NPRT2102\)](#) occurs in Edmonton or surrounding areas. Shifts are 12 hours in length on Saturdays and Sundays.
- Preceptor-led clinical practice courses may be arranged in or close to your own community. These schedules follow the preceptor's schedule and may include day, evening, or night shifts on any day of the week, including weekends and holidays.

Online Delivery

The PN online option provides a flexible option for students to take the theory portion of the Practical Nurse program at their own pace and in their own location subject to their individual course end date. Students can work at an accelerated rate (take up to three courses at once) or can take one course at a time depending on their personal situation and learning goals. This PN online learning option removes the barriers of physical location. It has the flexibility to enable learners to integrate other aspects of their lives such as work and family commitments and still advance their career goals. Students have up to five years to complete the Practical Nurse online program.

Dedicated instructors are available to support and guide learners as they work through PN online courses to acquire the nursing knowledge, nursing skills, clinical judgment, and communication skills required to become a proficient practical nurse.

The Practical Nurse online program provides interactive online learning experiences, open practice labs, nursing labs, and clinical orientation designed to meet online student needs. Students must travel to Edmonton for the nursing labs and instructor-led clinical practice courses.

This program has five main components:

- University transfer courses (online)

- Nursing theory courses (online)
- Lab courses (online, with approximately 10 non-consecutive lab days at NorQuest College)
- Three instructor-led clinical practices in the Edmonton area
- One preceptor-led clinical practice, in your community and/or surrounding area, if available. These schedules follow the preceptor's schedule and may include day, evening or night shifts (eight, 10 and 12 hours) on any day of the week, including weekends and holidays.

Program Notes for Online Learners

- Self-paced study (theory course work that you may complete in your own home).
- You may register in up to three courses in any term.
- Courses start monthly, excluding June, July, and August.
- You have up to five years to complete the program.
- You must successfully complete [Anatomy and Physiology I \(ANPH1001\)](#) and [Anatomy and Physiology II \(ANPH1002\)](#) prior to official admission to the online delivery Practical Nurse program.
- Open lab practices are offered in Edmonton; all lab skill assessments must be completed in Edmonton.
- Clinical practice for [Nursing Practice I: Continuing Care Practice \(NPRT1001\)](#), [Nursing Practice II: Acute Care Practice - Medicine \(NPRT2101\)](#), and [Nursing Practice II: Acute Care Practice - Surgery \(NPRT2102\)](#) occur in Edmonton or surrounding areas. Days are Monday to Friday, and hours may be between 6:00 am and 10:30 pm.
- The final clinical practice course, [Nursing Practice III: Comprehensive Practice \(NPRT2200\)](#) (NPRT 2003/2004 for students who began their program before September 2015), is preceptored and may be arranged in or close to your own community. The times for this course follow the preceptors schedule and may include day, evening or night shifts on any day of the week, including weekends and holidays.
- Instructors are available for help via email or by telephone.
- Required course print materials, skills videos, and course outlines are available through Moodle, NorQuest's online learning management system. Skills practice kits are available from the [NorQuest College bookstore](#).

Hybrid Delivery

The hybrid delivery provides students with an opportunity to take the Practical Nurse program by attending online real time theory classes, working through course content online and through self-study, attending nursing skill labs, and participating in clinical practice. The program follows a paced term delivery model.

- Offered at regional campuses: Drayton Valley, Whitecourt, Wetaskiwin, and Edmonton main campus
- Instructor-led online classes which can be followed in real time via NorQuest's learning management system
- Instructor-led face-to-face labs
- Three instructor led clinical practice courses, occurring within campus surrounding areas. These schedules may include days or evenings (eight or 12 hours)
- Final clinical practice course is preceptored and may be arranged in or close to your own community. These schedules follow the

preceptor's schedule and may include day, evening and/or night shifts (eight, 10 and 12 hours) on any day of the week, including weekends and holidays.

Practical Nurse for Health Care Aides - Online Delivery

This program prepares the individual who has acquired a Health Care Aide certificate to become a professional practical nurse, educated to give high-quality care to clients in a variety of health-care settings. Students are eligible to challenge two designated courses once they have been accepted into the program: [Health Education: Individual Health and Wellness \(HEED1000\)](#) and [Communications for Nursing \(NCOM1000\)](#).

Career Potential

Practical nurses find jobs in acute care hospitals, continuing care centres, community care settings, client homes, clinics, or doctors' offices.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

To research your career, you may complete a [Career Investigation Report](#).

Transferability

Diploma program graduates are eligible for transfer credit and may qualify for admission into the following post-secondary programs:

NorQuest College

- [Advanced Education in Orthopaedics for LPNs](#)

Athabasca University

- Bachelor of Nursing: Post LPN

MacEwan University

- Bachelor of Applied Human Service Administration
- Post-basic Operating Room Program for LPNs

NAIT

- Bachelor of Technology in Technology Management

Thompson Rivers University (Kamloops, BC)

- Bachelor of Health Sciences
- Bachelor of General Studies

For the most recent and up-to-date information on transfer agreements, refer to the [Alberta Transfer Guide](#).

Admission Requirements

Practical Nurse Face to Face applicants

- 60% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent
- 60% in Biology 30 or equivalent
- 60% in Mathematics 20-1 (Pure Mathematics 20) or 70% in Mathematics 20-2 (Applied Mathematics 20) or 50% in Mathematics 30-1 (Pure Mathematics 30) or 60% in Mathematics 30-2 (Applied Mathematics 30) or equivalent (Grade of 60% in [Prep for Practical Nurse Math Foundations \(MATH1524\)](#))*

***Note:** If it has been 10 or more years since you completed Mathematics courses (i.e. Math 10, 20, 30 or Math 13, 23, 33), you will be required to complete a [skills assessment](#), take a [challenge exam](#), or complete [upgrading](#) to meet the Math requirement for this program.

It is strongly recommended that students take the following courses prior to entering the program:

- [Introduction to Composition \(ENGL2550\)](#)
- [Anatomy and Physiology I \(ANPH1001\)](#)
- [Anatomy and Physiology II \(ANPH1002\)](#)
- [Introduction to the Study of Society \(SOC1000\)](#) and
- [Psychology for Health-Care Professionals \(PSYC1060\)](#)

You will receive advanced standing in the Practical Nurse program upon successful completion of these courses. These courses can be taken as [Open Studies](#) courses at NorQuest College.

Practical Nurse Online applicants:

- All admission requirements noted for face-to-face applicants
- A minimum of C- (60%) in [Anatomy and Physiology I \(ANPH1001\)](#) and [Anatomy and Physiology II \(ANPH1002\)](#)

In preparation for the PN Online program, taking ANPH 1001 and ANPH 1002 allows you to experience post-secondary learning and to complete the program within five years. In addition, students must enroll in the compulsory online orientation course at the beginning of the online program.

Note: Our Practical Nurse program has a five-year shelf life regulation on the transfer of any nursing courses, including anatomy and physiology. If you are hoping to receive transfer of credit for anatomy and physiology coursework completed previously at NorQuest, or at another institution, it must meet our five-year shelf life regulation in order to be considered. You will be required to repeat these courses to meet the admission requirements if transfer credit is denied. For more information on our transfer of credit policies, view our [Transfer Credit](#) webpage.

Practical Nurse for Health Care Aides applicants:

- All admission requirements noted for face-to-face applicants
- A minimum of C- (60%) in [Anatomy and Physiology I \(ANPH1001\)](#) and [Anatomy and Physiology II \(ANPH1002\)](#)
- Graduate of an Alberta Provincial Standard Health Care Aide program or equivalent
- Documentary evidence (e.g., a letter from the agency or employer involved) of having completed at least 500 voluntary and/or paid work hours in the health care aide field working as a health care aide.

Note: Our Practical Nurse program has a five-year shelf life regulation on the transfer of any nursing courses, including anatomy and physiology. If you are hoping to receive transfer of credit for anatomy and physiology coursework completed previously at NorQuest, or at another institution, it must meet our five-year shelf life regulation in order to be considered. You will be required to repeat these courses to meet the admission requirements if transfer credit is denied. For more information on our transfer of credit policies, view our [Transfer Credit](#) webpage.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band H:

- IELTS Academic, no score below 7.5 in listening, 6.5 in reading, 7.0 in writing, and 7.0 in speaking
- TOEFL iBT overall score of 94
- CELBAN, no score below 10 in listening, 8 in reading, 7 in writing, 8 in speaking
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Orientation Session for PN Online Students

At the beginning of the online program, students must enroll in the compulsory online orientation course.

Practicum/Work Experience Requirements

Students are required to travel to various locations in order to complete their clinical practice experiences. Within the timeframe of the program, every effort is made to accommodate students in clinical practice placements. Access to a vehicle may be required.

The following are not required for admission purposes, but will be required before you attend the first clinical practice:

- Successful completion of all prerequisite courses
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.
 - [\(WHMIS\) Workplace Hazardous Material Information System \(XBUS1017\)](#) certificate current within three years.
 - [Basic Life Support \(BLS\) for Health-Care Providers \(XHLT1200\)](#) certificate. For the duration of your practicum, you must hold BLS for Health Care Provider's certification that has been completed within the last 12 months.
 - [It's Your Move \(XHLT1070\)](#) certificate current within one year.
 - [Human Bloodborne Pathogen Exposure \(XHLT1023\)](#) certificate current within three years.
- Complete [Alberta Health Services \(AHS\) Information & Privacy training](#) online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.
- Up-to-date immunizations. Download the [immunization form and instructions \(456K pdf\)](#). For a list of program-specific immunization requirements, download the [Immunization Requirements for Practical Nursing \(34K pdf\)](#). Take your completed immunization form to the NorQuest Health Services office A109.
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include a vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student /Instructor Placement with a healthcare organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements. Submit the original to the Office of the Registrar on the main floor of the main NorQuest College building.*
- N95 Mask Fit testing as arranged by the program and done by the NorQuest College Health Services current within two years
- Read the [HSPNet information sheet](#), then download and sign the appropriate consent form for your program:
 - [Practical Nurse - face to face](#)
 - [Practical Nurse - re-entry](#)
 - [Practical Nurse - Evenings](#)
 - [Practical Nurse - Online](#)

Submit the signed form as indicated below.

Submit required certificates and forms listed above(unless otherwise indicated) using one of the following methods:

- by email to ClientServRep_Health@NorQuest.ca,
- by fax to [780.644.6529](tel:780.644.6529), or
- to the customer service representative in your program area (Room A216, B102, or E220).

***Note:** Internet (online) police information checks are not accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should

discuss the matter with the Program Chair prior to applying for admission.

Progression

A minimum grade point average (GPA) of 2.0 is required to be considered in good academic standing and graduate with a Practical Nurse diploma.

Graduation Requirements

To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Practical Nurse diploma.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

PROGRAM OUTLINE

For students starting in Fall term, follow the September structure.

- Term 1 is 16 weeks (fall)
- Term 2 is 16 weeks (winter)
- Term 3 is 8 weeks (spring)
- Term 4 is 16 weeks (fall)
- Term 5 is 16 weeks (winter)

For students starting in Winter term, follow the January structure.

- Term 1 is 16 weeks (winter)
- Term 2 is 8 weeks (spring)
- Term 3 is 16 weeks (fall)
- Term 4 is 16 weeks (winter)
- Term 5 is 16 weeks (spring)

Courses marked with (O) are available as [Open Studies](#) courses.

Nursing clinical practice requirements apply to practicum courses. See Practicum Requirements for more information.

- Diploma
- Refresher for internationally educated nurses also available
- ESL courses available

- Monthly intakes between September and May
- Self-paced, part-time online education
- Lab instruction at Downtown Edmonton campus

Description

If you are a former Canadian-educated practical nurse or internationally educated nurse and wish to regain your licence to work as an LPN, you can achieve your goal through a combination of challenge exams, transfer credit, and part-time online learning with NorQuest College. You have up to five years to complete the Practical Nurse Refresher program and you can start the program at the beginning of fall, winter, and spring terms.

Career Potential

Upon successful completion of the program, you will be eligible for jobs in acute care hospitals, continuing care centres, community care settings, client homes, clinics, and doctors' offices.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

To research your career, you may complete a [Career Investigation Report](#).

Transferability

Diploma program graduates are eligible for transfer credit and may qualify for admission into the following post-secondary programs:

NorQuest College

- [Advanced Education in Orthopaedics for LPNs](#)

Athabasca University

- Bachelor of Nursing: Post LPN

MacEwan University

- Bachelor of Applied Human Service Administration
- Post-basic Operating Room Program for LPNs

NAIT

- Bachelor of Technology in Technology Management

Thompson Rivers University (Kamloops, BC)

- Bachelor of Health Sciences
- Bachelor of General Studies

For the most recent and up-to-date information on transfer agreements, refer to the [Alberta Transfer Guide](#).

Admission Requirements

Admission Requirements for Canadian-educated Practical Nurses

- Graduate of a recognized Practical Nurse program as confirmed by the College of Licensed Practical Nurses of Alberta (CLPNA).
- Submission of a document from the CLPNA or your provincial professional organization if you were registered outside of Alberta, verifying you were a member in good standing or a referral letter from the same organization. Contact the Office of the Registrar, Admissions, at [780.644.6000](tel:780.644.6000) if verification is not available; your academic background may be deemed acceptable.

Admission Requirements for Internationally Educated Applicants

- Graduate of a recognized RN/BSN program in your country of origin
- An original official transcript from your nursing education institution, with translations into English (See [Transcripts & Testing](#) for more information).
- Course descriptions or outlines of the courses you have taken in your nursing program
- Birth certificate and picture identification with your legal name or a passport
- Submission of a document from your country's professional association, verifying that you were a member in good standing. (Contact the Office of the Registrar, Admissions, at [780.644.6000](tel:780.644.6000) if verification is not available; your academic background may be deemed acceptable).

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band H:

- IELTS Academic, no score below 7.5 in listening, 6.5 in reading, 7.0 in writing, and 7.0 in speaking
- TOEFL iBT overall score of 94
- CELBAN, no score below 10 in listening, 8 in reading, 7 in writing, 8 in speaking
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does

NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following are not required for admission purposes, but will be required before you attend the first clinical practice.

- Successful completion of all prerequisite courses.
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.
 - [Basic Life Support \(BLS\) for Health-Care Providers \(XHLT1200\)](#) certificate current within 1 year.
 - [\(WHMIS\) Workplace Hazardous Material Information System \(XBUS1017\)](#) certificate current within 3 years
 - [It's Your Move \(XHLT1070\)](#) certificate current within 1 year
 - [Human Bloodborne Pathogen Exposure \(XHLT1023\)](#) certificate current within 3 years
- Complete [Alberta Health Services \(AHS\) Information & Privacy training](#) online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.
- Up-to-date immunizations. Download the [immunization form and instructions \(456K pdf\)](#). For a list of program-specific immunization requirements, download the [Immunization Requirements checklist \(160K pdf\)](#). Take your completed immunization form to the NorQuest Health Services office A109.
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student /Instructor Placement with a healthcare organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements. Submit the original to the Office of the Registrar on the main floor of the main NorQuest College building.*
- N95 Mask Fit testing as arranged by the program and done by the NorQuest College Health Services current within 2 years
- Read the [HSPNet information sheet](#), then download and sign the appropriate consent form for your program:
 - [Practical Nurse - re-entry](#). Submit the signed form as indicated below.

Submit required certificates and forms listed above (unless otherwise indicated) using one of the following methods:

- by email to CustServRep_Health@norquest.ca,
- by fax to [780.644.6529](tel:780.644.6529), or
- to the customer service representative in your program area (Room A216, B102, or E220).

Note: Internet (online) police information checks are NOT accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and may therefore affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Progression

A minimum grade point average (GPA) of 2.0 is required to be considered in good academic standing and to graduate with a diploma in practical nursing.

Graduation Requirements

A minimum grade point average (GPA) of 2.0 is required to be considered in good academic standing and to graduate with a Practical Nurse diploma. To qualify for graduation, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Practical Nurse diploma.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Additional Certification

Upon completion of the program, you will be prepared to write the Canadian Practical Nurse Registration examination (CPNRE) to obtain a licence to practise nursing in Alberta.

To practice as a licensed practical nurse, you must obtain licensure from the College of Licensed Practical Nurses of Alberta (CLPNA). You must pass the CPNRE to attain active licensure with the CLPNA. Visit the [College of Licensed Practical Nurses of Alberta website](#) for further details on the registration for new graduates.

Electives

PRACTICAL NURSE REFRESHER

Elective options are currently under review for 2017/18. Check back for updates later this year.

Course notes

Courses available as an [Open Studies](#) course for PN refresher are **ONLY**:

[Introduction to Composition \(ENGL2550\)](#), [Health Education: Individual Health and Wellness \(HEED1000\)](#), [Psychology for Health-Care Professionals \(PSYC1060\)](#), and [Introduction to the Study of Society \(SOC11000\)](#)

Clinical requirements apply for [Preceptor-Supervised Clinical Practice-Acute Care Medicine \(NPRT2006\)](#) and [Preceptor-Supervised Clinical Practice-Acute Care Surgery \(NPRT2007\)](#).

Description

Licensed Practical Nurse (LPN) continuing education courses can be applied to your continuing competency profile. These are self-paced online education courses. You can register at any time and you will have 26 weeks to complete each course. A certificate of completion is awarded for each course successfully completed.

For course availability and registration, please see **Course Listings**.

Program Overview

Custom Programming

We will custom-design a workshop for groups of eight or more LPNs to meet your needs. Courses can be presented at NorQuest College, utilizing our labs and classrooms, or on-site in your community. These workshops will focus on the skills and topics important to LPNs at your facility.

Programs

In addition to the courses listed in the Course Listings section, the following programs may also be of interest to LPNs.

- The [Advanced Education in Orthopaedics for LPNs](#) program allows LPNs to expand their scope of practice by learning special orthopaedic procedures. Visit the [Advanced Education in Orthopaedics for LPNs](#) program directly for more information on this continuing education program.
- The [Medical Device Reprocessing Technician](#) program prepares graduates to enter the workforce as Medical Device Reprocessing Technicians. These skilled technicians perform the critical work of sterilizing, packaging, and storing surgical and medical instruments.

Admission Requirements

- Current active or associate LPN registration

PROGRAM OUTLINE

Course	Title	Hours	Credits
XHLT1500	Adult Health Assessment for Nurses	45:15:0	0
XHLT1520	Infusion Therapy for Nurses	45:15:0	0
XHLT1510	Medication Administration: Intramuscular and Intradermal Injections	15:0:0	0
XHLT1530	Pharmacology Therapeutics and Medication Administration	75:15:0	0

More continuing education courses may be added throughout the year.

- Two-year diploma
- Full-time studies
- Daytime classes

- Fall start
- Downtown Edmonton campus

Description

NorQuest College offers an approved and accredited two-year full-time Social Work diploma program with a multicultural focus. As its mission, the program emphasizes the value of human diversity and teaches practice within an anti-oppressive framework that is supportive and empowering. As a social worker, you may have the ability to improve the quality of life for yourself and for others through self-reflection and offering resources, services, and opportunities for your prospective clients. In addition, you will be prepared to create social change through your work and professional activities.

Career Potential

Graduates are employed in government and non-governmental settings in areas such as child and youth protection, addictions counseling, family support, and other related helping disciplines. Graduates can pursue careers that deal directly and indirectly with child neglect, foster care, juvenile offenders, family conflict and individual emotional problems, and may expect to work with individuals, families, groups, and communities.

- [ALIS WAGEinfo salary info](#)

Transferability

Graduates of the program are eligible through a transfer agreement with the University of Calgary, for third-year admission to the University's Bachelor of Social Work (BSW) program.

Course work completed at another post-secondary institution may be equivalent to course work at NorQuest College. A formal assessment will be made to determine whether these courses qualify for transfer credit. Request forms may be obtained from the Office of the Registrar or online. For more information, visit the [Transfer Credit](#) page.

Admission Requirements

- 60% in English Language Arts 30-1 or equivalent
- Documentary evidence (e.g., a letter/letters from the agency/agencies involved) of having completed at least 100 voluntary and/or paid work hours in the human services field (see below).

Internal laddering admission requirements applicable to NorQuest College [Community Support Worker](#) program graduates:

- 55% in English Language Arts 30-1 or equivalent
- Completion of the NorQuest College [Community Support Worker](#) certificate program with minimum GPA of 3.0 (B)

Volunteer/Work Requirements

To be admitted to the Social Work program, you must provide documentary evidence of having completed **at least 100 hours** of volunteer or paid work experience in the human services field. These guidelines describe the types of volunteer or work experience that are acceptable.

You must have worked the 100 hours within the last five years, with one organization. A confidential letter of reference is required from your direct volunteer or employment supervisor on the company/organization's letterhead. The letter must describe the length of time you volunteered or worked and the nature of the work you performed.

This letter must be submitted:

- by email directly from the supervisor to admissions@norquest.ca, or
- by mail directly from the supervisor to the Office of the Registrar, or
- in an envelope that was sealed by the supervisor.

The 100 hours must be completed in a

- healthcare setting,
- work setting that falls under the Health Professions Act (Alberta),
- registered/accredited human services agency/organization, or
- social services agency/organization.

Your work or volunteer hours must include direct contact with clients or patients who may be considered disadvantaged or marginalized, and should focus on the client's psycho-social well being.

Volunteer or work opportunities can often be found in helping agencies, outreach organizations, schools, hospitals, crisis lines, programs for at-risk youth, women's shelters, long-term care facilities, and agencies for people with addictions, homelessness, mental illness, or mental challenges. If you need information on where to find such organizations/agencies, please refer to [Canadian Mental Health Association resource list](#).

The following types of volunteer or work opportunities are not acceptable:

- daycare or babysitting
- fundraising
- high school co-op programs
- office/administrative work

If you have any questions about the suitability of your volunteer or work experience, contact the Admissions unit at admissions@norquest.ca or [780.644.6000](tel:780.644.6000) or the program chair at [780.644.6787](tel:780.644.6787).

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within the two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band F:

- CLBA overall score of 8, no section score below 7
- CELPIP general overall score of 8, no section score below 7
- TOEFL iBT overall score of 84, with no section score below 21
- IELTS Academic overall score of 6.5, no section score below 6.0
- CAEL overall score of 60, no section score below 60
- Completion of [Listening/Speaking 8000 \(ESLS8000\)](#)/[Listening/Speaking 8100 \(ESLS8100\)](#) and [Reading/Writing 8000 \(ESLW8000\)](#)/[Reading/Writing 8100 \(ESLW8100\)](#) with a minimum 80%
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following is not required for admission purposes, but will be required before you attend the practicum.

- A police information check and child protection intervention record search (current to at least six months prior to practicum) must be submitted to the Community Studies Social Work diploma program prior to beginning the practicum. Program representatives will assess the results of these checks to determine whether they meet the criteria of the practicum sponsors.

Note: Internet (online) police information checks are NOT accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Graduation Requirements

Students must pass all courses to qualify for graduation.

Credential

After successfully completing specific courses, students will be awarded NorQuest Social Work diploma.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Additional Certification

Graduates of the program are eligible to apply for the Registered Social Worker (RSW) designation with the Alberta College of Social Workers (ACSW).

PROGRAM OUTLINE

Courses may be adjusted within the terms specified. A final schedule will be provided to learners during registration.

Elective	***		3
Term 6 - 8 weeks			
SOWK2025	Social Work Practicum II	0:0:290	5

Elective: One 3-credit undergraduate [University transfer](#) course (with transferability to University of Calgary) offered at NorQuest College or elsewhere.

Courses marked with (O) are available as [Open Studies](#) courses.

- One-year certificate program
- Fall intake for full-time studies at Edmonton Downtown campus

- Online education intakes in September, January, and May
- 320-hour practicum experience

Description

The Therapeutic Recreation certificate program focuses on the knowledge and skills required to plan, implement and evaluate individual or group therapeutic recreation and social activities. The program includes a 320-hour practicum. Following successful completion, graduates may continue on to the [Therapeutic Recreation Diploma](#) program.

Program Overview

In this program, you will learn how to enhance your clients' quality of life through leisure activities. The program covers the knowledge, skills, and attitudes you will need to work with clients who require recreation therapy.

Both a certificate and diploma are available:

- The **certificate year (Year 1)** focuses on the knowledge and skills required to plan, implement, and evaluate individual or group therapeutic recreation and social activities. Available through on-campus instruction, hybrid delivery, or online education.
- The **diploma year (Year 2)** [Therapeutic Recreation Diploma](#) focuses on the concepts, theory, and practical experiences related to leadership and critical thinking in order to prepare graduates to work more independently. Available through on-campus instruction, hybrid delivery, or online education.

Note: Hybrid delivery may include a combination of workshops, seminars, self-study and/or tutorials.

All NorQuest College Therapeutic Recreation practicums meet the requirements of the Alberta Therapeutic Recreation Association (ATRA).

Therapeutic recreation professionals wishing to meet ATRA standards are welcome to contact the program area to apply for enrolment in individual courses; but are advised to first contact ATRA@alberta-tr.org to determine specific course needs.

Student Success

Students are more likely to be successful in this program if they:

- are physically and emotionally able to manage workplace demands.
- have access to a vehicle to travel to complete their practicum.
- have access to a computer and basic computer skills

Applicants are requested to review the job requirements listed below and assess their ability to fulfill the demands of the therapeutic recreation occupation.

Working in therapeutic recreation, you must be able to:

- Work shifts and weekends
- Be on your feet for extended periods of time

- Use your knees, back, and arms to move clients who have minimal body strength
- Being comfortable in groups of all sizes
- Function effectively independently, on a team, and in stressful situations

Career Potential

Upon successful completion of the program, you will be qualified to work in continuing care, assisted living, hospitals, lodges, and day program settings.

Diploma students are eligible for student membership in the Alberta Therapeutic Recreation Association (ATRA). Graduates from this diploma program are eligible for professional membership in ATRA.

For more information on related careers see:

- [ALIS OCCinfo occupational profiles](#)
- [ALIS WAGEinfo salary info](#)

Please also visit the [Alberta Therapeutic Recreation Association](#) for more information on this career.

Transferability

The following program courses have university transfer credit:

- [Interpersonal Communication for Health-Care Professions \(COMM1011\)](#)
- [Therapeutic Communication for Health-Care Professions \(COMM2011\)](#)
- [Scientific and Technical Writing \(ENGL2510\)](#)
- [Health Education: Individual Health and Wellness \(HEED1000\)](#)

Diploma program graduates are eligible for block transfer credit into the following post-secondary programs:

Athabasca University

- Bachelor of Health Administration (up to 42 credits)
- Bachelor of Professional Arts Human Services (up to 60 credits)
- Bachelor of Science (Post Diploma) in Human Science (30 credits)

NAIT

- Bachelor of Technology in Technology Management

Thompson Rivers University (Kamloops, BC)

- Bachelor of Health Science (up to 57 credits)
- Bachelor of General Studies (up to 60 credits)

University of Calgary

- Bachelor of Community Rehabilitation

THERAPEUTIC RECREATION CERTIFICATE

University of Lethbridge

- Bachelor of Therapeutic Recreation

Additional credit transfer agreements with various institutions are currently in negotiation. For the most recent and up-to-date information on transfer agreements, please refer to the [Alberta Transfer Guide](#).

Admission Requirements

- 50% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent
- 50% in Biology 30 or equivalent

Note: Up-to-date immunizations and a clear Police Information Check are NOT required for admission. However, you may be required to produce copies of immunization records and a clear Police Information Check (with vulnerable sector check) prior to participating in field trips and other experiential learning opportunities.

Conditional or provisional admission may be granted to applicants who are missing admission requirements after satisfying other conditions. See [Admissions Process](#) for more details.

English Language Proficiency Requirement

If English is your second language, you must provide proof of English language proficiency (ELP) prior to admission. ELP must have been completed within two years prior to application to the program.

Acceptable evidence of ELP may be one of the following test scores from NorQuest ELP Band F:

- CLBA overall score of 8, no section score below 7
- CELPIP general overall score of 8, no section score below 7
- TOEFL iBT overall score of 84, with no section score below 21
- IELTS Academic overall score of 6.5, no section score below 6.0
- CAEL overall score of 60, no section score below 60
- Completion of [Listening/Speaking 8000 \(ESLS8000\)](#)/[Listening/Speaking 8100 \(ESLS8100\)](#) and [Reading/Writing 8000 \(ESLW8000\)](#)/[Reading/Writing 8100 \(ESLW8100\)](#) with a minimum 80%
- Completion of [English for Academic Purposes - Reading and Writing \(ESLG1860\)](#) and [English for Academic Purposes - Listening and Speaking \(ESLG1861\)](#) with a minimum 50%

Note: Meeting the English language proficiency requirement does NOT exempt the applicant from meeting the English academic course work required for admission to this program.

Practicum/Work Experience Requirements

The following are not required for admission purposes, but will be required before you attend your practicum.

- Successful completion of all prerequisite courses.
- Successful completion of a pre-practicum assessment (written and practical).
- The following certificates are required. Students are subject to an additional fee at the time of registration to these non-credit courses. A certificate will be awarded upon completion. Submit the certificates as indicated below.

- [Basic Life Support \(BLS\) for Health-Care Providers \(XHLT1200\)](#) certificate. For the duration of your practicum, you must hold BLS for Health Care Providers certification that has been completed within the last 12 months.
- [It's Your Move \(XHLT1070\)](#). For the duration of your practicum, you must hold It's Your Move certification that has been completed within the last 12 months.
- Complete [Alberta Health Services \(AHS\) Information & Privacy training](#) online learning module and submit the signed Confidentiality and User Agreement on the last page of the module as indicated below.
- Up-to-date immunizations. Download the [immunization form and instructions \(456K pdf\)](#). For a list of program-specific immunization requirements, download the [Immunization Requirements for Therapeutic Recreation \(34K pdf\)](#). Take your completed form to the NorQuest Health Services office A109.
- Clear police information check dated within 90 days of the collection date specified by the advisor/navigator; must include vulnerable sector search if older than 18 years of age. Should specify the purpose of the police information check as "a Student Practicum with a healthcare organization". More than one police information check may be necessary during the length of your program, in accordance with practicum requirements. Submit the original to the Office of the Registrar on the main floor of the main NorQuest College building.*
- Read the [HSPNet information sheet](#), then download and sign the appropriate [HSPNet consent form](#) for the Therapeutic Recreation certificate. Submit the signed form as indicated below.

Submit required certificates and forms listed above (unless otherwise indicated) using one of the following methods:

- by email to ClientServRep_Health@NorQuest.ca.
- by fax to [780.644.6529](tel:780.644.6529), or
- to the customer service representative in your program area (Room A216, B102, or E220).

***Note:** Internet (online) police information checks are not accepted by the college. Contact your local law enforcement agency directly to obtain an official police information check. The existence of a criminal record may prevent clinical placement, program completion, and professional licensure and therefore may affect employment prospects. Prospective students who have a criminal record should discuss the matter with the Program Chair prior to applying for admission.

Online Delivery

Students in the Therapeutic Recreation online program will be required to attend an on-campus workshop for assessment of practical skills before starting their practicum experience. Tutorial support is also available.

Progression

Students progress through the program by achieving the prerequisites for each course in each term as outlined in the college calendar. If students are not successful in a course, this may lengthen their time in the program.

Graduation Requirements

To qualify to graduate, students must pass all courses.

Credential

After successfully completing specific courses, students will be awarded NorQuest Therapeutic Recreation certificate.

Honours Criteria

- Overall grade point average (GPA) greater than or equal to 3.7
- The student must not have failed or repeated any courses

Further Education Opportunities

After successfully completing the certificate program, graduates will be eligible for entry to the NorQuest College [Therapeutic Recreation Diploma](#).

PROGRAM OUTLINE

Course	Title	Hours	Credits
Term 1 - 16 weeks

Courses marked with (O) are available as [Open Studies](#) courses.

- One-year diploma program (following successful completion of [Therapeutic Recreation Certificate](#))
- Fall full-time, face-to-face delivery
- Online delivery in September, January, and May with face-to-face labs

- 320-hour practicum experience
- Diploma graduates are eligible to become professional members of the Alberta Therapeutic Recreation Association

Description

Building on the Therapeutic Recreation certificate program, this additional year focuses on the concepts, theory and practical experiences related to leadership and critical thinking you will need to work with clients and enhance their quality of life through leisure activities. The leadership and communication skills you develop will help you encourage clients, who may have cognitive or physical impairments, to participate in activities. This program includes a 320-hour practicum.

Program Overview

In this program, you will learn how to enhance your clients' quality of life through leisure activities. The program covers the knowledge, skills, and attitudes you will need to work with clients who require recreation therapy.

Both a certificate and diploma are available:

- The **certificate year (Year 1)** [Therapeutic Recreation Certificate](#) focuses on the knowledge and skills required to plan, implement, and evaluate individual or group therapeutic recreation and social activities. Available through on-campus instruction, hybrid delivery, or online education.
- The **diploma year (Year 2)** focuses on the concepts, theory, and practical experiences related to leadership and critical thinking in order to prepare graduates to work more independently. Available through on-campus instruction, hybrid delivery, or online education.

Note: Hybrid delivery may include a combination of workshops, seminars, self-study, and/or tutorials.

All NorQuest College Therapeutic Recreation practicums meet the requirements of the Alberta Therapeutic Recreation Association (ATRA).

Therapeutic recreation professionals wishing to meet ATRA standards are welcome to contact the program area to apply for enrolment in individual courses; but are advised to first contact ATRA@alberta-tr.org to determine specific course needs.

Many students choose the Therapeutic Recreation diploma with a goal to complete a degree. See the [Future Opportunities](#) section of this program for information about degree programs and transferability.

Student Success

Students are more likely to be successful in this program if they:

- are physically and emotionally able to manage workplace demands.

- have access to a vehicle to travel to complete their clinical practice.
- have access to a computer and basic computer skills

Applicants are requested to review the job requirements listed below and assess their ability to fulfill the demands of the therapeutic recreation occupation.

Working in therapeutic recreation, you must be able to:

- Work shifts and weekends
- Be on your feet for extended periods of time
- Use your knees, back, and arms to move clients who have minimal body strength
- Being comfortable in groups of all sizes
- Function effectively independently, on a team, and in stressful situations

Career Potential

Upon successful completion of the program, you will be qualified to work in continuing care, assisted living, hospitals, lodges, and day program settings.

Courses marked with (O) are available as [Open Studies](#) courses.

Electives in the Therapeutic Recreation Diploma program

Electives, or cross-over domain options, are provided to enhance or specialize the student's learning in their post-secondary program.

Contact the Allied Health Careers department for suitable electives. University-level courses from another post-secondary institution may be considered for transfer credit. Contact the program chair of Allied Health Careers to confirm that your course(s) may receive transfer credit as a cross-over domain option.

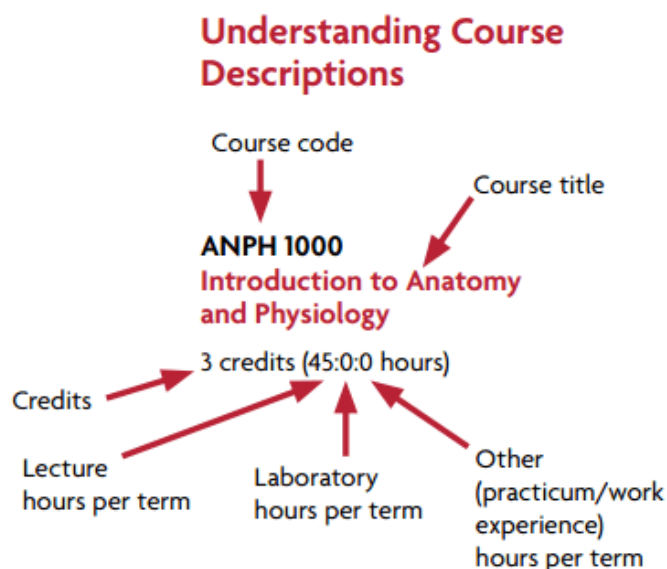

A student may choose any [University Transfer](#) course from NorQuest College. Students may also apply for [transfer credit](#) for approved post-secondary work completed at another institution. It is the student's responsibility to ensure that electives are approved for their program of study, and that they are complete prior to clinical placement.

Note that a student's choice of electives may impact transferability to therapeutic recreation degree programs. Students should consult with the Program Chair for academic advice before selecting options.

COURSE DESCRIPTIONS

The following section is a complete alphabetical listing of courses (by course code) for all NorQuest College programs.

NorQuest College maintains transfer agreements with the selected Alberta institutions; for the most up-to-date listings, please refer to the Alberta Transfer Guide, www.transferalberta.ca.

ABST1000 - Aboriginal History and Culture

3 credits (45:0:0 hours)

Examine the historical foundations of Aboriginal culture. Study the key events and legislative policies that have impacted Aboriginal communities. Learn about both Métis and First Nation history and culture.

ABST1010 - Restorative Justice

3 credits (45:0:0 hours)

Explore issues of justice, punishment, healing, and rehabilitation. Study sentencing circles and the involvement of the victim, offender, and families. Learn about partnerships between communities and formal justice systems, including experiences in alternative dispute resolution. Study the theory and practice involved in alternative methods of conflict resolution and examine the recidivism rates of young offenders.

ABST2200 - Aboriginal Studies 020

5 credits (125:0:0 hours)

Study Aboriginal people from a Canadian and Alberta perspective. Expand your knowledge of policies, legislation, conflict, and cultural change.

ABST3300 - Aboriginal Studies 030

5 credits (125:0:0 hours)

Study contemporary Native history and the ways in which Native society takes part and is influenced by contemporary Canadian and world politics and commerce. Explore the development of pre-contact First Nation societies and Native self-government. Learn about world colonization and its effects on the world's indigenous peoples.

ADDT1000 - Addictions: Strategies for Treatment and Prevention

3 credits (45:0:0 hours)

Learn about addictions and addictive behaviours. Identify indicators for addiction and the strategies for treatment and prevention. Explore major addictions such as drugs and alcohol, eating disorders, and gambling.

ADRP1011 - Concurrent Disorders

2 credits (30:0:0 hours)

Examine the relationship between mental health and substance use disorders. Explore the development in policy, education, awareness, assessment and treatment. Specific issues include the relationship of concurrent disorders to trauma, cultural variations in understanding and responding to mental health and substance use issues, and unique needs of various populations.

ADRP1012 - Pharmacology in Mental Health and Substance Use Treatment

2 credits (30:0:0 hours)

Learn the effects of pharmacology as it relates to the care of mental health and substance use clients. Attitudes and assumptions relating to pharmacology in treatment will also be explored.

ADRP1013 - Substance Use Across the Lifespan

2 credits (30:0:0 hours)

Explore contributing factors, typical ages of onset, and changes in the prevalence, presentation, course, and assessment and treatment of mental health and substance use disorders across the lifespan. Issues and treatment approaches specific to the various age groups will be examined.

ADRP1014 - Supportive Counselling Skills

3 credits (15:30:0 hours)

The course blends theory and practice to integrate communication and interview skills with theoretical models and concepts to provide a framework for client assessment. Through simulation activities, develop a systematic approach to effectively assess and intervene with clients utilizing the Transtheoretical model of change and motivational interviewing.

ADRP1015 - Advanced Supportive Counselling Skills

3 credits (15:30:0 hours)

Build upon foundational helping, interviewing, and assessment skills by focusing on approaches most relevant to substance use and mental health fields. Through simulation activities, refine your skills in the use of addiction assessment instruments, Transtheoretical model of change and motivational interviewing, and be introduced to other therapeutic and peer support approaches.

ADVO1002 - Orthopaedic Pathology and Related Nursing Interventions

16 credits (210:35:0 hours)

Examine major pathology and conditions affecting the musculoskeletal systems and acquire the skills required for clinical practice in the speciality area of orthopaedics.

Prerequisite: ADVO 1101

ADVO1004 - Orthopaedic Pathology and Nursing Interventions

14 credits (210:0:0 hours)

Examine major pathology, orthopaedic conditions, and related nursing interventions.

Prerequisite: ADVO 1101

ADVO1005 - Orthopaedic Specialty Skills

2 credits (0:35:0 hours)

Acquire the skills needed to participate in the clinical practice course Advanced Education in Orthopaedics for LPNs, using skills practice and simulation.

Prerequisites: ADVO 1101 & ADVO 1004

ADVO1101 - Foundations of Anatomy and Physiology for Orthopaedics

6 credits (90:0:0 hours)

Study advanced anatomy and physiology specific to orthopaedics.

ADVO1103 - Advanced Education in Orthopaedics Clinical Practice

10 credits (0:0:300 hours)

Apply your knowledge and skills using the nursing process in the care of orthopaedic clients in cast room and emergency department settings.

Prerequisite: ADVO 1005

AGR3000 - Agriculture Safety

1 credit (25:0:0 hours)

Students recognize and assess hazards and manage the risks of working in agriculture.

AHAN1000 - Adult Health Assessment for Nurses

4 credits (45:15:0 hours)

Enhance your knowledge as a licensed practical nurse and learn theory and procedures based on best evidence for obtaining a health history and conducting a physical examination on a healthy adult. A laboratory component is included in which students apply new theory and practise nursing skills related to obtaining a health history and demonstrating physical assessment skills.

ANPH1000 - Introduction to Anatomy and Physiology

3 credits (45:0:0 hours)

Study the basics of normal anatomy and physiology. The structure and function of each body system is covered, and the relationship between the structure and function of each system is explored. Learn about the interactions of body systems.

ANPH1001 - Anatomy and Physiology I

3 credits (45:0:0 hours)

Study the organization of the human body and the structures and functions of the body systems that provide support and movement, coordination, and regulation. Learn how body systems work together to maintain homeostasis. Terminology used by health professionals will be introduced. In the Practical Nurse program, a final mark of C- is required to progress to PATH 1000.

ANPH1002 - Anatomy and Physiology II

3 credits (45:0:0 hours)

Study the organization of the human body and the structures and functions of the body systems that provide transport and protection; absorption, diffusion, and excretion; and reproduction. Learn how body systems work together to maintain homeostasis. Terminology used by health professionals and theory and principles related to microbiology will be introduced. In the Practical Nurse program, a final mark of C- is required to progress to PATH 1000.

Prerequisite: ANPH 1001

ANPH1003 - Introduction to Anatomy and Physiology for MDRT

3 credits (45:0:0 hours)

In this course, students will study the organization of the human body as it relates to surgical procedures and devices. Students will learn introductory medical terminology and introductory microbiology necessary to perform the tasks of a medical device reprocessing technician (MDRT). As members of the health-care team, MDRTs play a

COURSE DESCRIPTIONS

vital role in providing support to all patient-care services in hospitals and other clinical settings.

ANPH1004 - Functional Anatomy

3 credits (45:0:0 hours)

Learn the essential concepts of functional anatomy including terminology, the movements of joints during various activities, and biomechanical principles.

Prerequisite: ANPH 1000

ASCL1000 - Assisting Clients I

3 credits (0:45:0 hours)

In this hands-on laboratory-based course, you will become familiar with the knowledge and skill procedures you need to safely care for individuals. Learn about the importance of mobility to one's health, as well as the skills required to safely and comfortably meet the client's mobility needs. You will also learn the importance of observation, practice planning, and documenting the care given to the client.

ASMD1000 - Assisting with Medication Delivery for Health Care Aides

2 credits (30:0:0 hours)

Health care aides play a key role in providing clients with quality care. The role of the HCA has expanded to include assisting with medication delivery. Additional skills and knowledge are needed to ensure medication safety. This course prepares HCAs to safely and effectively assist with medications under the supervision of a health-care professional. It provides participants with the confidence to respond and succeed in their expanding role.

BCND1000 - Assisting with Basic Care Needs

9 credits (35:100:0 hours)

Gain an understanding of the basic daily care that clients require. Learn the knowledge and skills related to observing and reporting client care concerns and assisting with activities of daily living.

Prerequisite: FOCC 1000

BCRO1000 - English Reading Essentials: Aboriginal Perspectives

5 credits (125:0:0 hours)

Improve your understanding of parts of speech, grammar, and writing. Enhance your reading comprehension and speed while exploring strategies and improving your ability to retain information. Focus on literature by Aboriginal authors.

Corequisite: ENGL 1902

BCRO1010 - English 10-1 Prep: Aboriginal Perspectives

5 credits (125:0:0 hours)

Study a variety of forms of literature such as short stories, drama, poetry, and non-fiction at the pre-high school level. Learn the steps of the writing process including the use of correct grammar, and use the writing process to develop essays. Study a feature film. There is a strong focus on Aboriginal authors and perspective throughout the course. This course will prepare you for English 10-1.

BCRO1020 - English 10-2 Prep: Aboriginal Perspectives

5 credits (125:0:0 hours)

Study a variety of literature, films, and novels with a focus on Aboriginal authors. Effective reading and writing will also be examined. This course will prepare you for English 10-2 or Employment Preparation programs.

BCRO1050 - Aboriginal Employment Enhancement I

5 credits (125:0:0 hours)

Explore your career potential through investigation, workplace tours, and job shadowing opportunities. Receive mentorship and support from successful Aboriginal leaders in a variety of occupations including business, trades, and health services. Develop employment preparation and job maintenance strategies that maximize your employability, and identify personal and employment skills and competencies required for competing effectively in today's job market. Study effective workplace communication skills and health and wellness management from an Aboriginal perspective. Earn certificates and/or permits that will enhance your marketability in the work force including First Aid, Job Safety, WHMIS, and a learner/drivers licence.

BCRO1055 - Aboriginal Employment Enhancement II

5 credits (125:0:0 hours)

Gain meaningful career-related experience in a chosen workplace environment, while receiving mentorship and support from successful Aboriginal leaders in a variety of occupations including business, trades, and health services. Acquire and develop practical hands-on employment skills customized towards your employment or career goals, while you add work history, references, and experience to your resume. Acquire on-the-job training that will enhance your self-confidence and marketability within the work force. During your employment practicum, you may be placed at more than one site to gain experience within a variety of employment situations. Successful completion of this practicum may lead to offers of employment.

BHCA1100 - Listening and Speaking for Success in Health Careers

5 credits (100:25:0 hours)

This course is designed to enhance students' listening and speaking skills (academic and functional) to prepare them to be successful in a health related program. Students should be at a CLB 6 (IELTS 5.5) or higher.

BHCA1101 - Reading and Writing Strategies and Development for Health Careers

5 credits (125:0:0 hours)

This course is designed to enhance students' reading and writing skills (academic and functional) to prepare them to be successful in the health related program. Students should be at a CLB 6 (IELTS 5.5) or higher.

BHCA1102 - Intercultural Communication for Health Careers

2 credits (50:0:0 hours)

This course is designed to help participants develop basic intercultural awareness and later competence for working in a variety of Canadian health-care contexts.

BHCA1103 - Medical Terminology for Health Careers

2 credits (50:0:0 hours)

This course focuses on medical terminology and the development of the communication skills needed in the health-care sector.

BIOL3300 - Biology 030

5 credits (125:0:0 hours)

Study cell division, molecular biology, genetics, population dynamics, reproduction and development, and the nervous and endocrine systems. Examine the effects of technology on humans.

BUSD1001 - Business Communications I

3 credits (45:0:0 hours)

This course focuses on the principles of effective business communication, both written and spoken. Specific topics include the writing process, improving grammar, writing a research paper, documenting with APA style, and preparing for public speaking. The process of revising and editing is emphasized throughout the course.

BUSD1002 - Microeconomics

3 credits (45:0:0 hours)

Students examine the interaction between individuals and firms in various types of markets. Topics include the fundamental principles of microeconomics; supply and demand; markets and welfare; government intervention; behaviour of the firm; market organization; and income distribution.

BUSD1003 - Business Math

3 credits (45:0:0 hours)

This course emphasizes the wide range of mathematical calculations that are commonly used in the business world. Topics include simple

interest, compound interest, future and present values, annuities, amortization, and bond valuation.

BUSD1004 - Introduction to Accounting

3 credits (45:0:0 hours)

This course provides an introduction to accounting procedures and financial statements and their underlying concepts and principles. Within this framework, accounting practice is integrated with the development of accounting information for effective decision making.

BUSD1005 - Business Communications II

3 credits (45:0:0 hours)

Students will study specific forms of business and employment communication, including business letters and memoranda, resumes, covering letters for job applications and interviewing, formal report writing, graphic design principles, and business meetings.

BUSD1006 - Principles of Accounting

3 credits (45:0:0 hours)

This course will further examine accounting procedures and their underlying concepts and principles. Students learn about additional standards and problems of valuation, income measurement, and disclosure.

Prerequisite: BUSD 1004

BUSD1007 - Business Computer Applications

3 credits (45:0:0 hours)

Learn from this practical introduction to software applications most commonly used in business. Develop a basic working knowledge of a suite of business software applications that includes word processing, spreadsheets, presentations, and database management.

BUSD1008 - Macroeconomics

3 credits (45:0:0 hours)

Students examine how the economy behaves at the aggregate level and how national income is measured and determined. Topics include an overview of macroeconomics; measuring gross domestic product, inflation, and unemployment; demand including the multiplier process; supply, business cycles, and long-term growth; money, banking, and monetary policy; inflation; interest rates; stagflation; deficits and fiscal policy; exchange rates and balance of payments; exchange rate policy; purchasing power, and interest-rate parity.

BUSD1009 - Human Resource Management I

3 credits (45:0:0 hours)

This course provides a high-level overview of the functions and responsibilities performed by human resource professionals in contemporary businesses. Topics include job analysis and design,

COURSE DESCRIPTIONS

recruitment and selection, legal aspects of HR, training and development, HR planning, performance appraisals, compensation and benefits, occupational health and safety and employee relations. A brief introduction to the Alberta Employment Standards Code is also included.

BUSD1010 - Business Communications I

3 credits (45:15:0 hours)

Focus on the principles of effective business communication, both written and spoken. Specific topics include the writing process, improving grammar, writing a research paper, documenting with APA style, and preparing for public speaking. The process of revising and editing is emphasized throughout the course.

BUSD1020 - Business Communications II

3 credits (45:15:0 hours)

Study specific forms of business and employment communication including business letters and memoranda, resumes, covering letters for job applications and interviewing, formal report writing, graphic design principles, and business meetings.

BUSD1040 - Small Business Management

3 credits (45:0:0 hours)

As well as examining the formulation of business plans, you will study the function of management concerned with organization, staffing, directing, and controlling. Explore the objectives for effective management, such as profit, service, personnel, and operation. Case analysis is used to integrate course material.

BUSD1050 - Business Math and Statistics

3 credits (45:15:0 hours)

Explore a range of mathematical calculations used in business. You will be introduced to simple interest, compound interest, annuities, amortization, sinking funds, statistical methods, and probability theory. Practical applications are emphasized in this course.

BUSD1090 - Introduction to Marketing

3 credits (45:0:0 hours)

Study the basics relating to the field of marketing. Learn the principles of product, price, promotion, and place, along with understanding customers' needs.

BUSD1110 - Introduction to Accounting

3 credits (45:30:0 hours)

Gain an introduction to accounting procedures and statements and their underlying concepts and principles. Within this framework, accounting practice is integrated with the development of accounting information for effective decision making.

BUSD1120 - Principles of Accounting

3 credits (45:30:0 hours)

Further examine accounting procedures and their underlying concepts and principles. Learn about additional standards and problems of valuation, income measurement, and disclosure.

Prerequisite: BUSD 1110

BUSD1150 - Introduction to Computers in Business

3 credits (45:30:0 hours)

Learn from this practical introduction to the software applications most commonly used in business. Develop a basic working knowledge of a desktop operating system and a suite of business software applications that includes file management, word processing, spreadsheet, presentation, and database management.

BUSD1380 - Organizational Behaviour

3 credits (45:0:0 hours)

The organization of human productive energy is the central focus of this introductory course. Themes include balancing tasks, relationship requirements, and the needs of the organization with those of the individual. Specific topics include perception, personality, values, attitudes, motivation, group behaviour, and teamwork.

BUSD1510 - Economics

3 credits (45:15:0 hours)

Examine the nature of economic problems and systems in relation to the following: functions of money, commercial and central banking, national income analysis, monetary and fiscal policy, and pricing under competitive and monopolistic conditions. Study selected topics in analysis and policy. Current economic problems are discussed throughout the course.

BUSD2000 - Seminar in Business Policy

3 credits (45:15:0 hours)

Through a seminar approach, explore the many ethical dimensions of business. This course includes a major group project for which class time is allotted.

BUSD2030 - Finance I

3 credits (45:0:0 hours)

Examine the objectives of financial management and the related role and responsibilities of the financial manager. The approach is practical in nature with references to the development of theories in finance. Using a corporate framework, explore the various sources of funds for a firm.

BUSD2070 - Personal Selling

3 credits (45:0:0 hours)

Become familiar with the principles, concepts, and terminology of personal selling. Examine the sales process, with particular attention to developing a relationship approach to the sales transaction. You will participate in a marketing project that will allow you to experience the process of prospecting, presenting, and closing the sale.

Prerequisite: BUSD 1090 or consent of the instructor

BUSD2090 - Marketing Strategy

3 credits (45:15:0 hours)

Using non-traditional methodology, student groups form businesses that research, implement, and carry out marketing activities for community charities. This ongoing term project emphasizes how various components of the marketing mix and the environment are integral to the process of strategic and operational planning. With a hands-on practitioner's point of view, you will analyze strategic marketing planning, product strategies, and pricing objectives. You will learn to handle conflict and co-operation problems, work with distribution systems, and navigate the integrated promotional mix.

BUSD2100 - Not-for-Profit Marketing and PR

3 credits (45:0:0 hours)

The solution to marketing problems rests in sound analysis of consumer behaviour. Using the case method, you will find a practical outlet for quantitative and qualitative consumer analysis tools. Cases will explore both goods and services marketing in both industrial and consumer environments.

Prerequisite: BUSD 1090 or consent of the instructor

BUSD2110 - Intermediate Accounting I

3 credits (45:30:0 hours)

Examine financial accounting topics in depth. Explore recent developments in accounting valuation and income determination and the related disclosure practices and reporting procedures, as recommended by professional accounting associations and applied in business today. The primary focus is on a comprehensive treatment of assets and liabilities. Special topics are introduced where appropriate.

Prerequisite: BUSD 1120

BUSD2120 - Intermediate Accounting II

3 credits (45:30:0 hours)

Continue the in-depth examination of financial accounting introduced in Intermediate Accounting I. Explore issues in accounting valuation and income determination and the related disclosure practices and reporting procedures, as recommended by professional accounting associations and applied in business today. Focus on the capitalization of Canadian corporations and the individual reporting problems associated with corporate income taxes, pensions, leases, and the

statement of cash flow. Discuss the application of accounting concepts to these special areas.

Prerequisite: BUSD 2110

BUSD2130 - Cost Accounting I

3 credits (45:30:0 hours)

This is the first of a two-part, in-depth course examining the concepts of cost and managerial accounting. Major topics include the following: cost-volume-profit-analysis, relevant costs and short-term decision making, responsibility accounting, standard costing and variance analysis, and product costing and cost flow.

Prerequisite: BUSD 1120

BUSD2140 - Cost Accounting II

3 credits (45:30:0 hours)

This is the second of a two-part, in-depth course examining the concepts of cost and managerial accounting initiated in Cost Accounting I. Topics include the following: cost-volume-profit analysis, relevant costing, and short-term decision making.

Prerequisite: BUSD 2130

BUSD2160 - Taxation

3 credits (45:30:0 hours)

Learn the basic principles of the Canadian income tax system, structure of the Income Tax Act, and the application of rules and procedures surrounding the determination of tax liability. Both individual and corporate taxpayers are considered.

Prerequisite: BUSD 1120 or consent of the instructor

BUSD2190 - Consumer Behaviour

3 credits (45:0:0 hours)

The solution to marketing problems rests in sound analysis of consumer behaviour. Using the case method, you will find a practical outlet for quantitative and qualitative consumer analysis tools. Cases will explore both goods and services marketing in both industrial and consumer environments.

Prerequisite: BUSD 1090 or consent of the instructor

BUSD2200 - Marketing Research

3 credits (45:0:0 hours)

Beginning with an introduction to the concept of market research, you will go on to study the ways in which companies use market research to make practical, cost-effective marketing decisions. In partnership with an organization, you will take a practical approach to learning the course material by designing and implementing a marketing research project. In addition, you will further develop

COURSE DESCRIPTIONS

teambuilding and leadership skills, as well as written and verbal communication skills.

BUSD2230 - Finance II

3 credits (45:0:0 hours)

Study the objectives of financial management and the related role and responsibilities of the financial manager. The approach is practical in nature with references to the development of theories in finance. The various applications of funds by the firm are explored in this sequential course using a corporate framework.

Prerequisite: BUSD 2030

BUSD2500 - Computer Applications for Accounting

3 credits (45:30:0 hours)

Explore software used for financial accounting. Through practical experience with accounting and tax software packages, become familiar with current programs and their capabilities. A review of relational database-management systems reveals the technology behind the most widely used accounting applications and a brief look at XML introduces newly emerging accounting technologies.

BUSD2550 - Computer Applications for Marketing

3 credits (45:30:0 hours)

Using popular business applications software, you will learn and apply sound principles of visual design. Term projects will include the production of promotional documents—e.g., web pages and brochures. In addition, you will learn the marketing applications of spreadsheet and database programs.

Prerequisites: BUSD 1090 & BUSD 1150

BUSD2620 - Accounting Information Systems

3 credits (45:0:0 hours)

Learn how to develop computer-based accounting information systems, and how such information systems support decision making at all levels of management.

BUSD2710 - Customer Service

3 credits (45:0:0 hours)

Prepare to focus on customer service. Learn the principles of customer service and relationship building. Also learn how to develop a positive philosophy of selling as determined by customer service principles and how relationship building, customer service, and selling interrelate.

BUSD3010 - Legal Relations

3 credits (45:0:0 hours)

Gain a general overview of the Canadian legal system, with emphasis

on underlying considerations of social policy. Analyze selected topics from the fields of tort and contract, while considering the nature, sources, philosophy, and policy objectives of the law.

BUSN1152 - Medical Terminology

6 credits (60:30:0 hours)

Study the language of medical terminology. Learn how to read and interpret commonly used medical terms, symbols, and abbreviations. Develop your understanding of rules, prefixes, suffixes, roots, combining forms, body systems, diagnostics, and drug classifications. Achieve fluency through practice sessions, quizzes, and exercises. Minimum pass mark of B- required to progress to BUSN 1154

BUSN1154 - Medical Orders

3 credits (45:0:0 hours)

Learn about and practise processing medical orders in a hospital setting. You will work with orders for admissions and discharges, transfers, diagnostic tests, medical treatments, medications, and pre-operative and post-operative treatments.

Prerequisite: BUSN 1152 with a minimum mark of B-

BUSN1156 - Business Communications Skills for Health-Care Professionals

3 credits (45:0:0 hours)

This course examines communication: what goes well, what goes wrong and, most importantly, why! Students explore how background, experience, and beliefs shape the way individuals communicate and how to adapt to changing conditions, people, and situations. Students also explore how to use problem solving and critical-thinking skills to resolve conflict within a team setting. Finally, students focus on how to communicate in writing, including writing business letters, emails, resumes, and cover letters.

BUSN1161 - Practicum for Unit Clerks

3 credits (0:0:150 hours)

This four-week practicum will give you hands-on practice in an active hospital unit or in a long term care environment.

Prerequisites: BUSN 1190, BUSN 1192, BUSN 1152, BUSN 1154, BUSN 1156, BUSN 1194 & BUSN 1165. Students must have a minimum of a C+ in both BUSN 1152 & 1154.

BUSN1165 - Keyboarding

1 credit (0:15:0 hours)

Develop your keyboarding technique and enhance your keyboarding skills while increasing your speed and accuracy.

BUSN1166 - MS Word

5 credits (50:30:0 hours)

Create a variety of professional business documents. Increase your proficiency and competency by using Word features such as character and paragraph formatting, columns, editing, tables, styles, and mail merge.

BUSN1167 - MS Excel

3 credits (15:30:0 hours)

Learn to work with spreadsheets using MS Excel software. Learn how to organize, design, and edit worksheets. Create formulas and functions (statistical, financial, database, and logical) for a variety of business applications and use footers, headers, formatting, and charts. Students must have a minimum grade of C to progress to BUSN 1180.

BUSN1171 - Business Office Procedures

3 credits (15:30:0 hours)

Develop skills in office procedures and organization. Study office ergonomics and customer service; learn how to process mail; carry out file-management procedures; learn to build travel itineraries, and develop skills in arranging and documenting meetings.

BUSN1173 - Business Communications I

3 credits (30:15:0 hours)

Develop the written and verbal communication skills required of a business professional. In this course, you will examine business writing and develop various letters and memos in a business context. Using critical thinking, you will further practise and perfect your communication skills through critical analysis, persuasive writing, summaries, and oral presentations. APA format is taught and practised throughout the course.

BUSN1178 - Databases and Presentations

3 credits (15:30:0 hours)

Learn to use the various functions of MS Access. Create queries, tables, forms, reports, and pivot tables. Learn to use MS PowerPoint, and create professional business presentations using the advanced features such as transitions, animations, and master slides. Continue to improve keyboarding speed and accuracy throughout the course.

BUSN1179 - Professional Relations

3 credits (15:30:0 hours)

Develop your employability skills in this course. Learn to prepare a professional resume and handle an interview situation. Develop work-related skills in team work, conflict management, problem solving and business ethics.

BUSN1180 - Advanced Excel and Outlook Foundations

3 credits (15:30:0 hours)

This advanced course builds on the MS Excel course and provides you with the opportunity to enhance your skills and productivity. You will learn to use features such as Macros, Scenarios, PivotTables, and Solver to automate tasks, improve efficiencies, and collect and analyze data. In addition to Excel, you will also learn about MS Outlook. You will learn to send and receive mail, schedule appointments, set up meetings, organize your contacts, and create tasks and notes.

Prerequisite: BUSN 1167

BUSN1184 - Work Experience for Administrative Professionals

3 credits (0:0:150 hours)

Practise your technical and employability skills in a real workplace setting.

Prerequisite: Successful completion of all courses in the Administrative Professional program.

BUSN1186 - Accounting Basics

3 credits (15:30:0 hours)

Review and apply math concepts to solve business problems, and learn the basic skills required for financial applications, bookkeeping concepts, and procedures. Learn the basics of how financial transactions are recorded using manual and computerized bookkeeping systems.

BUSN1188 - Event Management

3 credits (15:30:0 hours)

Develop skills in business event planning. Learn how to plan, design, implement and minimize the risks in planning a successful business event. Gain hands-on experience in designing and implementing an actual event.

BUSN1190 - Administrative Health-Care Procedures

6 credits (60:30:0 hours)

Learn the professional, clinical, and interpersonal skills required in a health-care setting. Students begin by examining the Canadian health-care system, including facilities and services related to health care. Students also explore health-care ethics and legalities, provincial and federal privacy legislation, as well as policies and procedures. Additional modules include electronic information management, organizational and time management, medical administrative skills, and basic clinical skills. Topics include telephone reception and etiquette, records administration, operating office equipment, ordering supplies, and maintaining inventory. Students are also introduced to basic health-care computer applications.

BUSN1191 - Introduction to Software Applications and Keyboarding

6 credits (45:45:0 hours)

COURSE DESCRIPTIONS

Get a solid introduction to basic computer skills. Learn and practise skills in Word, Windows, Excel, Outlook and Internet applications. Learn by instruction and practice in keyboarding skills. Increase your keyboarding speed and accuracy to meet industry standards.

BUSN1192 - Medical Applications

3 credits (15:30:0 hours)

Learn about specific medical software applications used to electronically manage information in a hospital setting. Acquire skills that will enhance your employment opportunities as a unit clerk in a health-care setting.

Prerequisite: BUSN 1152

BUSN1193 - Business Communications II

3 credits (15:30:0 hours)

Build on the skills you learned in Business Communications I. Study specific forms of business and employment communications. Learn to do business research and to document your sources using APA citation style. Learn basic graphic design principles for business communications.

Prerequisite: BUSN 1173

BUSN1194 - Introduction to Software Applications

5 credits (45:30:0 hours)

Practise intermediate computer skills in MS Windows using MS Word, Excel, and PowerPoint, as well as commonly used Internet browsers. Learn how to apply these skills in a health-care setting with workplace-relevant exercises and assignments.

BUSN1279 - Communications I

3 credits (45:0:0 hours)

Students develop their writing skills and learn to write paragraphs, essays, research papers, and business correspondence, with the emphasis on practical applications for writing.

BUSN1280 - Communications II

3 credits (45:0:0 hours)

Students learn to write and format a variety of business documents, such as letters, memos, proposals, instructions and procedures, and informal, semi-formal, and formal reports. The emphasis is on developing a practical approach to solving business communication problems. The course will consist of lectures, discussions, presentations, and individual and group assignments.

Prerequisite: BUSN 1279

BUSN1288 - Payroll Administration

3 credits (15:30:0 hours)

This is an introductory course in payroll. Topics include employment standards, designation of individuals as employees or contractors, record-keeping requirements, payroll calculations, taxable and non-taxable benefits, payroll journal entries, reporting requirements, and employee termination.

Corequisite: BUSN 1290

BUSN1289 - Introduction to Taxation

3 credits (15:30:0 hours)

This course is a study of current tax legislation as it relates to individuals. Students gain the knowledge needed to prepare personal income tax returns. Topics include the determination of various income sources, tax deductions, and tax credits used in calculating the tax liability of individuals.

Corequisite: BUSN 1291

BUSN1290 - Accounting I

3 credits (15:30:0 hours)

Accounting I introduces the concepts and applications of financial accounting. Topics include accounting concepts and principles, the recording process, preparing financial statements, internal control, and cash and receivables.

BUSN1291 - Accounting II

3 credits (15:30:0 hours)

Accounting II topics include inventories, capital assets, current liabilities, owner's equity in partnerships and corporations, analyzing financial statements, the statement of cash flows, and accounting information systems. Emphasis is on problem solving and the application of financial accounting to real-life situations. Students gain experience in maintaining a manual accounting system.

Prerequisite: BUSN 1290

BUSN1292 - Simply Accounting

3 credits (15:30:0 hours)

In this introduction to computerized accounting, students gain experience using Simply Accounting and basic knowledge of fully integrated microcomputer-based accounting system. Software modules include General Ledger, Accounts Receivable, Accounts Payable, Payroll, Inventory, Services, and Project.

Prerequisite: BUSN 1290

BUSN1295 - Work Experience

3 credits (0:0:150 hours)

Gain hands-on experience in this work experience placement in a suitable entry-level accounting role in industry, government, or public practice. Successful completion is subject to supervisor evaluation.

Note that this work is unpaid.

Prerequisites: BUSN 1290, BUSN 1288, BUSN 1279, BUSN 1310, BUSD 1050, BUSN 1291, BUSN 1292, BUSN 1289, BUSN 1280, BUSD 1510

BUSN1310 - Business Computer Applications

3 credits (45:0:0 hours)

This course begins with an overview of business computer applications used for file management (Windows), word processing (Word), spreadsheets (Excel), and presentations (PowerPoint). Each application is then examined in greater depth with business topics stressed in the examples.

CHEM3300 - Chemistry 030

5 credits (125:0:0 hours)

Study thermochemical changes, electrochemical changes, organic chemistry, acids, bases, and equilibrium

CLC1488 - Cree Language and Culture 10-3Y

5 credits (125:0:0 hours)

Increase your knowledge of the Cree language, develop your language skills, and deepen your understanding and appreciation of Cree culture. Develop listening, reading, speaking, and writing skills. Cree syllabics and Roman orthography will be introduced. Cree Language and Culture courses (10-3Y, 20-3Y, 30-3Y) must be taken in sequence.

CLC2488 - Cree Language and Culture 20-3Y

5 credits (125:0:0 hours)

Further develop your oral communications, listening, reading, and writing skills using broad-based themes. Expand your knowledge of Cree by studying a series of theme-related topics. Cree syllabics and Roman orthography will be used. This course follows the Alberta Education program of studies. Cree Language and Culture courses (10-3Y, 20-3Y, 30-3Y) must be taken in sequence.

CLC3488 - Cree Language and Culture 30-3Y

5 credits (125:0:0 hours)

Further develop and refine your oral communication, listening, reading, and writing skills as you explore a variety of themes. Expand your knowledge and appreciation of the Cree culture. Cree syllabics and Roman orthography will be used. Cree Language and Culture courses (10-3Y, 20-3Y, and 30-3Y) must be taken in sequence.

CMH2050 - Day Care 1

1 credit (25:0:0 hours)

Investigate the roles and responsibilities of a child-care worker, and develop communication and observation skills. Develop skills to assist in the physical, social, emotional, and intellectual development of children from birth to age six.

CMH3050 - Day Care 2

1 credit (25:0:0 hours)

Continue to study the development and care of children, focusing on the importance of play and guiding behaviour. Note: This course includes concepts that may be particularly sensitive to students, parents, or community members.

COMM1007 - Written Communication

3 credits (45:0:0 hours)

This course focuses on the development and practice of writing skills and forms of written communication required for success in educational and human services settings. Topics include an overview of the writing process, using correct grammar, developing writing strategies, writing essays, writing for business, and proofreading.

COMM1008 - Interpersonal Relationships and Communications

3 credits (45:0:0 hours)

Effective communication, including mindful listening, conflict resolution, non-verbal communication, managing emotions, and perception checking are critical for successful interpersonal relationships. This course will assist students to develop the strategies they need to communicate with others accurately and effectively, whether the relationships with others exist in a work place, a family, a friendship, or a classroom.

COMM1010 - Communicating Across Cultures

3 credits (45:0:0 hours)

This course uses real-life examples and practical tools to introduce students to the skills that they need to communicate effectively and achieve their goals in a culturally diverse classroom, community, and workplace. Students completing this course successfully will gain a more sophisticated set of skills and perspectives to support a positive climate for cultural diversity and an increased capacity for anticipating, recognizing, and resolving culture-based misunderstandings.

COMM1011 - Interpersonal Communication for Health-Care Professions

3 credits (45:0:0 hours)

Explore the fundamentals of communication and interpersonal relationships. Examine effective communication, barriers to effective communication, and specific communication strategies that can improve interactions with others. Learn theories related to communication climate, groups, teams, conflict, and conflict management.

COMM1015 - Communications for MDRT

3 credits (45:0:0 hours)

COURSE DESCRIPTIONS

This course provides students with the communication skills necessary for work as a medical device reprocessing technician (MDRT). Students will learn interpersonal, team-building, customer service, and intercultural communication skills. Students will also learn to write resumes and prepare for job applications necessary to obtain work as an MDRT.

COMM1020 - Interpersonal Communications

3 credits (45:0:0 hours)

Develop the skills you need to communicate effectively. Learn about body language, verbal tones, and written language. Increase your self-awareness and learn strategies for effective communications and conflict management in the workplace. Transfer: LEC

COMM1021 - Writing in Organizations

3 credits (45:0:0 hours)

Enhance your written communication skills. Learn how to prepare a variety of workplace communications such as letters, memos, emails, presentations, and reports using good sentence and paragraph structure, grammar, spelling, punctuation, and capitalization.

COMM1022 - Observation, Documentation, and Report Writing

3 credits (45:0:0 hours)

Learn how to gather and organize data and design and write a formal police report.

COMM1023 - Effective Presentations and Speech

3 credits (45:0:0 hours)

Learn how to prepare presentations. Learn and practise public speaking strategies.

COMM1024 - Observation, Documentation, and Report Writing in Human Service Careers

3 credits (45:0:0 hours)

Create accurate and appropriate documentation and records and learn to prepare reports using the documentation.

COMM1025 - Interpersonal Communications in Human Service Careers

3 credits (45:0:0 hours)

Learn about basic communications skills such as listening, interpreting verbal and non-verbal messages, and understanding the emotions of others. Discover the link between interpersonal communications and relationships. Increase your self-awareness so that you can better analyze and understand your personal communications style and that of others. Learn strategies for effective communications and conflict management in the workplace.

COMM1030 - Human Relations

3 credits (45:0:0 hours)

Explore human dynamics and ethics in law enforcement systems. Study the characteristics and practices unique to Aboriginal and other cultures that have direct implications for persons involved in the justice systems. Discover the link between interpersonal communications and relationships in law enforcement systems.

COMM1040 - Interviewing and Report Writing

3 credits (45:0:0 hours)

Learn about obtaining statements from complainants, victims, and witnesses. Role playing and video/DVD playback may be employed. Learn how to gather and organize data. Design and write formal law enforcement reports and deliver oral presentations as appropriate in the workforce for law enforcement.

COMM1100 - AUCT Communications

5 credits (125:0:0 hours)

Learn effective strategies to improve your reading and writing skills for greater success in post-secondary studies. Acquire strategies to move from an oral tradition to a written tradition as you prepare for the academic rigour of College or University.

COMM180 - Interpersonal Relationships and Communication Skills

3 credits (0:0:0 hours)

COMM181 - Fundamentals of Written Communications

3 credits (0:0:0 hours)

COMM2011 - Therapeutic Communication for Health-Care Professions

3 credits (45:0:0 hours)

Explore the importance of communication skills in developing caring relationships with clients and working effectively within the health-care team. Learn to vary your communication techniques and methods in different situations. Explore various concepts and principles of therapeutic communication and consider their implications for professional practice. Transfer: AU

Prerequisite: COMM 1011

COMP1000 - Introduction to Computer Applications

3 credits (45:0:0 hours)

Study the Windows operating system, Microsoft Word and Microsoft Excel. Learn how to use the Internet as a research tool. Learn how to use email as an efficient tool of communication.

COMP1003 - Basic Computer Skills

3 credits (0:45:0 hours)

This course provides learners with the skills they need to create the documents, spreadsheets, and presentations needed in college human services programs and employment in human services.

COMP1015 - Computer Skills and Communication

4 credits (0:60:0 hours)

Gain an understanding of basic computer applications that allow you to use email, search the Internet, and do word processing. If you already have basic computer skills, you will have the opportunity to explore other Microsoft Office Suite applications. Develop your communication skills using authentic materials related to your trade area of interest.

COMP149 - Basic Computer Skills for Human Service Workers

3 credits (0:0:0 hours)

COMP1900 - Computer Studies

5 credits (0:125:0 hours)

Develop basic computer and keyboarding skills. Learn the fundamentals of Windows, Word, Excel, the Internet, and email. Create and format Word documents and work with spreadsheets in Excel. Search the Internet for information, and use email to send and receive messages.

COSL1000 - Community Service Learning

4 credits (30:30:0 hours)

Engage with your community through experiential learning. Apply theories learned in the classroom to real-life service projects. Learners will explore basic concepts and skills of experiential learning, including community benefit and community-based research methods. Projects will pair learners with community organizations for mutually beneficial outcomes.

Prerequisite: COSW 1000

COSW1000 - Introduction to Community Support Work

5 credits (75:0:0 hours)

Learn the roles of support workers within diverse communities. Identify the skills, knowledge, and practices necessary to implement effective support interventions and service resources in the local community.

COSW1010 - Social Policy, Legislation and Government Systems

2 credits (30:0:0 hours)

Focus on developing an introductory working knowledge of laws, policies, and government service-delivery agencies related to the community support practice in Aboriginal, immigrant/refugee, and the disabled communities.

Prerequisite: COSW 1000

COSW1020 - Leadership, Team Building and Organizational Behaviour

3 credits (45:0:0 hours)

Students examine and apply best practices of leadership in team and organizing work. Attention will be drawn to best practices specific to working in Aboriginal, immigrant/refugee, and the disabled communities.

Prerequisite: COSW 1000

COSW1025 - Community Support Work Practicum

3 credits (0:0:150 hours)

Gain comprehensive practical experience as you apply previously learned theory and practice in working with individuals, families, communities, and organizations.

Pre-requisites - (COSW 1030 and COSW 1040) OR (COSW 1050 and COSW 1060) OR (COSW 1070 and COSW 1080) OR (COSW 1090 and COSW 1095)

COSW1030 - Helping Skills in the Immigrant and Refugee Context

3 credits (45:0:0 hours)

Learn the skills required to support new Canadians in accessing resources and community services in order to meet settlement needs and function effectively in their effort to integrate successfully as members of their communities.

Prerequisite: COSW 1000

COSW1040 - The Individual and Family in a Multicultural Context

3 credits (45:0:0 hours)

Focus on the role of the community support worker in serving immigrant families as they deal with challenges in such areas as parenting, parent-child relationships, spousal relationships, schooling, and role-reversals in the family. Learn the skills needed to assess, intervene, and support the individual and the family as they settle and integrate into their community.

Prerequisite: COSW 1000

COSW1050 - Aboriginal History, Identity and Culture

3 credits (45:0:0 hours)

COURSE DESCRIPTIONS

Examine the historical foundations of Aboriginal culture. Study the key events that have impacted Aboriginal individuals, families, and communities. Focus on the application of Aboriginal cultural awareness and knowledge of Aboriginal history to community support practice.

Prerequisite: COSW 1000

COSW1060 - Community Development in Urban and Non-Urban Aboriginal Communities

3 credits (45:0:0 hours)

Examine the concepts and lived realities of community and community development from an Aboriginal perspective. Focus on developing working knowledge and skills in organizing and building communities and resources in support of Aboriginal individuals and families in both urban and rural settings. Students learn to apply practice methods such as group work, community engagement, and organization.

Prerequisite: COSW 1000

COSW1070 - Disability I: Challenges and Needs of the Physically Disabled

3 credits (45:0:0 hours)

Focus on developing working knowledge and skills in supporting physically disabled individuals and their families. Develop your skills in interviewing, advocacy, supportive counselling, conflict resolution, information and referral, and case management.

Prerequisite: COSW 1000

COSW1080 - Disability II: Challenges of the Mentally Disabled and Those with Multiple Disabilities

3 credits (45:0:0 hours)

Focus on developing working knowledge and skills in supporting mentally disabled individuals and those with multiple disabilities. Learn how to build communities and locate resources that support disabled individuals and their families.

Prerequisite: COSW 1000

COSW1090 - Emotional and Psychological Needs of Older Adults

3 credits (15:30:0 hours)

Older adults often experience increasingly limited access to their communities that results in their emotional and psychological needs being unmet. Learn about the resources available to assist older adults to maintain their independence and their emotional and psychological well-being.

Prerequisite: COSW 1000

COSW1095 - Physical and Social Needs of Older Adults

3 credits (15:30:0 hours)

Learn the skills required to support older adults as they interact with others in their daily lives. Tools will include person-centred activities and encouragement as a means of promoting older adults' physical and social well-being.

Prerequisite: COSW 1000

CPNB1001 - Canadian Practical Nursing Bridge I: Nursing Foundations

4 credits (60:0:0 hours)

Canadian Practical Nursing Bridge I: Nursing Foundations

CPNB1002 - Canadian Practical Nursing Bridge II: Workplace Readiness

7 credits (111:0:0 hours)

Canadian Practical Nursing Bridge II: Workplace Readiness

CPRT1000 - Community Support Worker Practicum

7 credits (0:0:298 hours)

Gain comprehensive practical experience as apply previously learned theory and practice to work with individuals, families, communities, and organizations. All work practice situations will occur in a human service organization or agency.

CREE1010 - Cree Language and Culture 010

5 credits (125:0:0 hours)

Increase your knowledge of the Cree language, develop your language skills, and deepen your understanding and appreciation of Cree culture. Develop listening, reading, speaking, and writing skills. Cree syllables and Roman orthography will be introduced. Cree Language and Culture courses must be taken in sequence.

CREE1020 - Cree Language and Culture 020

5 credits (125:0:0 hours)

Further develop your oral communications, listening, reading, and writing skills using broad-based themes. Expand your knowledge of Cree by studying a series of theme-related topics. Cree syllables and Roman orthography will be used. Cree Language and Culture courses must be taken in sequence.

CREE1030 - Cree Language and Culture 030

5 credits (125:0:0 hours)

Further develop and refine your oral communications, listening, reading, and writing skills as you explore a variety of themes. Expand

your knowledge of Cree by studying a series of theme-related topics. Cree syllables and Roman orthography will be used. Cree Language and Culture courses must be taken in sequence.

CRIS1040 - Crisis Intervention

3 credits (21:24:0 hours)

Explore the social issues of violence, abuse, and addictions. Learn basic crisis intervention skills, including first aid, suicide intervention, and applications to law enforcement.

CRIS2000 - Crisis Intervention Techniques

3 credits (45:0:0 hours)

Learn knowledge and skills that will help you to intervene to avoid crisis situations, deal effectively with critical situations that arise, and purposefully manage the aftermath of human emotions that crises often evoke. Learn a variety of crisis intervention techniques, focusing on how to maintain a calm, professional, and respectful attitude towards individuals in crisis. Explore both verbal and non-verbal communication techniques to use in dealing with crisis situations.

CSWN1000 - Community Support Work in Northern and Remote Communities

3 credits (45:0:0 hours)

Learn about the characteristics of Canadian rural, northern, and remote communities and the role of the community support worker. Discuss the impact of urbanization and industrialization on Aboriginal communities.

CTR1010 - Job Preparation

1 credit (25:0:0 hours)

Students develop successful employment search skills and a personal search portfolio.

CTR2010 - Job Maintenance

1 credit (25:0:0 hours)

Students acquire knowledge about workplace requirements, rights, and responsibilities and relate this knowledge to personal career and employment expectations.

DDSP1000 - Developmental Disabilities and Special Populations

3 credits (45:0:0 hours)

Examine the causes, characteristics, and methods of support for people with developmental disabilities and other special populations. Understand how this applies to multidisciplinary teams that support individuals identified with the "dual diagnosis" of mental illness and a developmental disability or belonging to another special population.

Prerequisite: MENH 1000

DEMC1000 - Dementia Care Education

3 credits (45:0:0 hours)

Learn the best practices in providing care and support to clients with dementia. Strategies for supporting the client's family will also be discussed. This requirement can be fulfilled with DEMC 1001 or Supportive Pathways.

DEMC1001 - Guiding the Journey: An Interactive Approach to Dementia Care

2 credits (30:0:0 hours)

Dementia does not just begin and end; it is a journey. As a caregiver, you have been given the privilege of guiding the journey of clients or loved ones as they travel the road through a complex and confusing disease process. This dynamic course is designed for caregivers in a variety of settings. You may be a member of the interdisciplinary team in a community care setting, or a family care provider. Caregivers at any level will benefit from this in-depth exploration of dementia and the scope of care required to treat this disease.

DEMC1011 - Dementia Studies

3 credits (45:0:0 hours)

This is a creative and dynamic approach to dementia care that is suitable for caregivers, both formal and informal, in a variety of care settings. Comprehensive information about dementia from diagnosis to end stage is discussed in a practical and interactive manner.

DHPP1000 - Introduction to Child Care and Child Development

12 credits (156:24:0 hours)

Learn about the importance of caregiving and the various roles and responsibilities the caregiver assumes. Study the physical, creative, intellectual, social, and emotional development of children through the early years. Use your knowledge of how children develop and learn in order to plan activities and choose play materials.

DHPP1001 - Food, Nutrition, and Health

4 credits (60:0:0 hours)

Develop an understanding of Canada's Food Guide as it relates to young children and the importance of a healthy diet to the well-being of children. Learn to plan and prepare nutritious snacks and meals and to use good hygiene habits in the day home.

DHPP1002 - Safety and Emergency Planning

4 credits (60:0:0 hours)

Learn how to plan a safe environment for children. Learn about government and licensing regulations, planning for health and safety in

COURSE DESCRIPTIONS

the day home, preparing emergency plans, performing risk assessments, developing safety rules, and completing accident and incident report forms.

DHPP1003 - Observation I

2 credits (15:0:30 hours)

Complete an observation placement in a child-care setting. Learn about professional behaviour in the child-care setting and observing and recording behaviour. Demonstrate reliable and responsible work habits.

DHPP1004 - Learning Through Play

4 credits (60:0:0 hours)

Gain an understanding of the value and the characteristics of children's play and its importance to children's development. Learn how to choose appropriate play materials and plan play experiences that create rich learning environments.

DHPP1005 - Literacy and Language Development

4 credits (50:10:0 hours)

Understand the development of literacy and language in young children. Explore the principles and milestones of language development. Learn to promote language development and to encourage the development of pre-reading and pre-writing skills.

DHPP1006 - Business of a Day Home

8 credits (120:0:0 hours)

Learn about the business aspects of owning and operating a day home, including keeping child-care and financial records, the advantages of working for a day home agency, and promoting your day home.

DHPP1007 - Communications for Day Home Providers

4 credits (60:0:0 hours)

Develop your skills in listening and using verbal and non-verbal communication. Learn about active listening, verbal communication, body language, and other non-verbal communication. Develop skills to communicate with and support families. Learn appropriate guidance strategies.

DHPP1008 - Program Planning and Implementation

5 credits (60:10:5 hours)

Use your knowledge and skills from previous courses to organize, plan, and implement programs for a safe, secure, and caring learning environment. Learn to plan for routines and transitions and to use community resources when planning.

DHPP1009 - Observation 2

2 credits (5:0:55 hours)

Complete an observation placement in a child-care setting. Learn about professional behaviour in the child-care setting, effective communication, and relating theory and learning to real-life experiences. Observe interactions between children and their caregivers.

DHPP1010 - Practicum I

2 credits (15:0:25 hours)

Demonstrate your skills and knowledge of best practices in child care in a supervised program. Plan and implement programs as part of your practicum placement. Write theme plans that encourage growth in the different areas of child development, and use the theme plans to develop daily and weekly plans.

DHPP1011 - Computer Training

5 credits (30:45:0 hours)

Learn basic computer skills related to your work in child care. Topics in this course include introduction to the computer, using the Internet, using Microsoft Word, and using electronic correspondence.

DHPP1012 - Professionalism and Ethics

4 credits (60:0:0 hours)

Study ethical behaviour in the field of child care. Learn to recognize child abuse and understand your obligations in the case of abuse. Learn about supporting children who have been exposed to family violence.

DHPP1013 - Preparation for Work

4 credits (60:0:0 hours)

Prepare to open your day home business. Earn adult, child, and infant first aid certificates, as well as adult, child, and infant CPR certificates. Learn to prepare a professional portfolio, finalize your resource kit, and prepare your home.

ECEP1000 - Employment Preparation eCampus

2 credits (30:0:0 hours)

Research career opportunities and learn to write a strong resume and cover letter. Develop effective interview skills.

ECEx1000 - Excel Introductory/Intermediate eCampus

2 credits (35:0:0 hours)

Learn the fundamentals of working with spreadsheets using MS Excel. Learn how to organize, design, and edit worksheets. Develop skills in basic computations and in calculating percentages, mark-ups, and simple/compound interest and other business applications. Create formulas and functions to perform rapid and accurate calculations. Use headers, footers, formatting, and charts to enhance the

appearance of your spreadsheet.

ECOL1000 - Outlook eCampus

2 credits (35:0:0 hours)

Send and receive, forward and reply to email. Handle email attachments and use cc and bcc properly. Create personal subfolders, address books, and distribution lists. Use Journals, Tasks, and Notes. Develop the skills necessary to manage and schedule appointments and meetings. Learn to use Outlook to communicate and collaborate across networks.

ECOS1000 - Office Supervisory Skills eCampus

2 credits (35:0:0 hours)

Learn the skills you need to be an effective supervisor. Enhance your value in the marketplace, increase your chances of promotion, or simply make your job easier. Topics include the supervisor's role and the management process, organizing and planning activities, problem solving and conflict resolution, assessment of staffing needs, staff training and performance appraisals, motivating staff and developing team-building strategies, and leadership qualities and traits.

ELA1104 - English Language Arts 10-2

5 credits (100:25:0 hours)

Write paragraphs, personal essays, and business letters. Learn how to edit and revise your writing. Read a variety of literary forms. Practise your communication skills and critical thinking skills. Represent ideas visually or through class presentations. Improve your reading and writing skills in preparation for English 20-2.

ELA1105 - English Language Arts 10-1

5 credits (100:25:0 hours)

Analyze short stories, poetry, drama, a novel, non-fiction, and a feature film. Use a step-by-step writing process to write personal and literary journals, paragraphs, essays, poetry, and scripts. Represent ideas visually or through class presentations. Learn editing and revising skills. Respond to literature using art, collages, music, or compositions. Improve your reading and writing skills in preparation for English 20-1.

ELA2104 - English Language Arts 20-2

5 credits (100:25:0 hours)

Continue studying the types of literature including short stories, novels, plays, and poetry. Learn to write expository, persuasive, and personal paragraphs and essays. Represent ideas visually or through class presentations. Study literature as well as cartoons, illustrations, and a feature film. Evaluate media, including advertising and propaganda. Develop communications skills. Improve your reading and writing skills in preparation for English 30-2.

ELA2105 - English Language Arts 20-1

5 credits (100:25:0 hours)

Build the foundations of literary theory, style appreciation, and analytical skills that are needed for English 30-1. Analyze short stories, drama, poetry, non-fiction, a novel, a feature film, and media. Create essays and reports. Represent ideas visually or through class presentations.

ELA3104 - English Language Arts 30-2

5 credits (100:25:0 hours)

Write paragraphs, essays, business letters, and speeches. Study a novel, short stories, poetry, drama, and a feature film. Evaluate TV news, advertisements, and cartoons. Represent your ideas visually or through class presentations. Learn the skills needed to pass the provincial diploma examination.

ELA3105 - English Language Arts 30-1

5 credits (100:25:0 hours)

Build on the knowledge you gained in English 10-1 and English 20-1 by studying short stories, non-fiction, poetry, drama, a novel, film, and media. Write essays analyzing the universal themes expressed in literature. Represent ideas visually or through class presentations. Fine-tune the skills you need to write the provincial diploma exam.

ELCC1000 - Child Growth and Development

3 credits (45:0:0 hours)

This course focuses on the development of children from conception to twelve years of age, including the physical child, the thinking child, the social child, and the whole child, as well as introducing atypical development. Students will study key theories and theorists in child development.

ELCC1002 - Introduction to Early Learning and Child Care

3 credits (45:0:0 hours)

This survey course focuses on understanding the goals and essential components of developing successful early childhood programs. By studying the role of early childhood professionals, students will gain insight into their own philosophy of early childhood education.

ELCC1006 - Play

3 credits (45:0:0 hours)

Students will develop an understanding of the role of play in a child's growth and learning. They will also learn about the role of the environment and the early childhood practitioner in enhancing children's play. This course focuses on the planning of inclusive and appropriate play environments, including indoor and outdoor play experiences. Students will explore a variety of play situations and materials used in child-care settings.

ELCC1007 - Literacy

COURSE DESCRIPTIONS

3 credits (45:0:0 hours)

This introductory course will provide students with an understanding of early literacy. Students will learn strategies that can be used to develop a child's interest and skills related to listening, speaking, reading, and writing that form the foundation of a language arts curriculum. Students will also explore the effective use of children's literature, storytelling, puppetry, and dramatic play and the importance of cultural considerations and individual differences.

ELCC1008 - Guiding Children's Behaviour

3 credits (45:0:0 hours)

This introductory course provides an understanding of children's behaviour in a developmental context, and the importance of realistic expectations of children in various stages. The social development of the young child will be examined in the context of positive guidance to support self-regulation. Appropriate strategies to help children to develop positive self-esteem and develop appropriate behaviour will be discussed. The prevention of behaviour problems through developmentally appropriate practices and interventions will be emphasized.

ELCC1010 - Appropriate Practice in Child Care

3 credits (45:0:0 hours)

Basic health, safety, and nutrition, observation and documentation, and appropriate practice with children across curricular areas are linked to practice through this seminar.

ELCC1015 - Practicum I

4 credits (0:0:200 hours)

This practicum is designed to provide students with an opportunity to apply acquired skills and knowledge from a play-based perspective in appropriate child-care settings under the supervision of the College practicum supervisor and a designated mentor.

Co-requisite: ELCC 1010

ELCC1020 - The Role of the Educator in ELCC Settings

3 credits (45:0:0 hours)

Working with diverse families and communities, the role of the educator in observation, documentation, the child's voice, and play and working as a team member are linked to practice through this seminar.

ELCC1025 - Practicum II

4 credits (0:0:200 hours)

This practicum provides students with an opportunity to apply their skills and knowledge of the role of the educator in appropriate child-care settings under the supervision of the College practicum supervisor and a designated mentor.

Prerequisite: ELCC 1015 Co-requisite: ELCC 1020

ELCC2001 - Sentence Structure and Human Services Vocabulary

1 credit (0:0:0 hours)

This course will cover two subjects: developing human services vocabulary and writing sentences. Because this is an integrated course, you will need to start using human services vocabulary in your writing and develop your own personal human services vocabulary dictionary. The course begins by focusing on the most basic vocabulary used in the field of human services and then builds to helping you express complex ideas and write sophisticated and descriptive sentences.

ELCC2002 - Verbs, Pronouns, and Punctuation

1 credit (0:0:0 hours)

Eliminating grammar and punctuation errors makes your writing easier to read. It also ensures that people will pay attention to what you are saying rather than to your use of punctuation and grammar. Grammar and punctuation errors can affect the meaning of your writing and distract your readers. This course examines various key concepts (rules) related to grammar and punctuation. You will learn to choose the correct verb form and tense (past, present, or future) and to master subject-verb agreement.

ELCC2003 - Writing Paragraphs and Basic Essays

1 credit (0:0:0 hours)

This course will focus on how to write effective, well-structured paragraphs. Students are introduced to the paragraph as a group of sentences that introduces, explains, defends, or expands one idea or main point. They learn to write paragraphs that have a main point or idea with background or supporting statements. They also learn how all the paragraphs in an essay or paper work together to support the main idea or point of the essay or paper.

EMPL1015 - Employability and Safety Skills I

4 credits (30:30:0 hours)

This course is designed to provide the basic knowledge and skill training that employees need to avoid injury at work. In addition, students will have the opportunity to earn certification related to job safety and complete activities related to employment preparation and awareness of on-the-job issues.

EMPL1020 - Workplace Culture

2 credits (30:0:0 hours)

This participatory, personal reflective course equips students with the effective communication and intercultural skills required to be successful in the Canadian workplace. Central to the delivery of this course is the infusion of culturally appropriate topics, employment-related critical incidents, and discussions.

ENGL1000 - Reading Enhancement

5 credits (125:0:0 hours)

If you have difficulty recognizing words, this course is for you. Learn how to recognize and pronounce words so that you can become a better reader.

ENGL1002 - English Fundamentals

5 credits (125:0:0 hours)

Improve your reading and writing skills by learning to comprehend and respond personally, critically, and creatively to literature and other texts in oral, print, visual, and multimedia forms. Learn to manage ideas and information and create oral, print, visual, and multimedia texts. Learn to enhance the clarity and artistry of communication and respect, support, and collaborate with others.

ENGL1007 - Communications 007

5 credits (125:0:0 hours)

In this course, students will improve and develop their foundational writing skills, as well as some of the other skills and competencies set out in Alberta Education's English Language Arts curriculum. This course will advance student knowledge in the main areas of study in the English Language Arts and continue to build a foundation for academic studies at the high school level.

Co-requisite: HUMN 1911

ENGL1008 - High School English Prep

5 credits (125:0:0 hours)

This course will prepare you for high school English language arts. Develop the skills that you need in reading, writing, listening, and speaking for success in high school ELA courses. Students entering this course must be reading and writing at a minimum Grade 6 level of proficiency.

ENGL1010 - Reading and Writing Connection

5 credits (125:0:0 hours)

Learn active and objective reading skills to prepare for reading expectations in the academic English Language Arts course route. Develop an understanding of essential components of critical writing. Practise writing both personal and critical responses to develop voice.

ENGL1011 - Critical Reading and Writing

3 credits (45:0:0 hours)

This course introduces students to formal and rhetorical writing practices at the post-secondary level, with an emphasis on literary analysis and close reading. Instruction and practice will be integrated with the study of literature drawn from a broad range of historical periods, cultural perspectives, social contexts, and literary genres (including fiction, poetry, drama, non-fiction articles and essays, news

media, and other cultural texts). Specific themes and texts will vary between sections.

ENGL1012 - Critical Reading and Writing: Poetry and Drama

3 credits (45:0:0 hours)

The literary content ENGL 1012 will vary from section to section, but students should expect to encounter works from two major forms: poetry and drama. All sections will include at least two long texts, such as plays. Texts will reflect a range of historical, cultural, and social contexts, with attention paid to representations of gender. Transfer: UC

ENGL1021 - English 010-1

5 credits (125:0:0 hours)

Analyze short stories, poetry, drama, a novel, non-fiction, and a feature film. Use a step-by-step writing process to write personal and literary journals, paragraphs, essays, poetry, and scripts. Represent ideas visually or through class presentations. Learn editing and revising skills. Respond to literature using art, collages, music, or compositions. Improve your reading and writing skills in preparation for English Language Arts 20-1 or English 020-1.

ENGL1022 - English 010-2

5 credits (125:0:0 hours)

Write paragraphs, personal essays, and business letters. Learn how to edit and revise your writing. Read a variety of literary forms. Practise your communication skills and critical thinking skills. Represent ideas visually or through class presentations. Improve your reading and writing skills in preparation for English Language Arts 20-2 or English 020-2.

ENGL1033 - English for Business

5 credits (125:0:0 hours)

English for Business is designed for students with business goals who are planning to enrol in Business Careers programs.

ENGL1107 - Prep for College Writing

5 credits (125:0:0 hours)

Prepare to write college level assignments by reviewing and practising paragraph and essay development. Practise writing effective compositions. Improve your understanding of sentence construction, punctuation, and mechanics.

ENGL1108 - Prep for College Reading

5 credits (125:0:0 hours)

Prepare for college-level courses by increasing your reading speed and comprehension, practising skimming and scanning strategies, and

COURSE DESCRIPTIONS

developing effective inferring and generalizing techniques.

ENGL1305 - English 30-1 Fast Track

5 credits (125:0:0 hours)

Create essays and reports. Represent ideas visually or through class presentations. Prepare to write the English 30-1 provincial diploma exam. Entrance is through initial placement at this level or the recommendation of your English 10-1 instructor.

ENGL1308 - English 30-1 Prep

5 credits (125:0:0 hours)

This course covers the material in English 10-1 and English 20-1, preparing you to enter English 30-1. Entrance is through initial placement at this level.

ENGL1309 - English 30-2 Prep

5 credits (125:0:0 hours)

Review materials taught in English 10-2 and English 20-2. Represent ideas visually or through class presentations. Learn the skills needed to pass the provincial exam. Entrance is through initial placement at this level.

ENGL1311 - English Preparation

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to improve their literacy skills in order to advance their education, employability skills, and career potential. Reading comprehension, writing skills, and basic interpretation skills are developed so that students are better prepared to transition into high school level humanities courses. Successful completion of this course allows progression to English 10.

ENGL1501 - English Preparation with an Aboriginal Focus Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to improve their literacy skills in order to advance their education, employability skills, and career potential. Reading comprehension, writing skills, and basic interpretation skills are developed so that students are better prepared to transition into high school level humanities courses. The course materials will include Aboriginal perspectives by studying Aboriginal authors and engaging in discussions which are respectful and reflective of an Aboriginal perspective. Successful completion of this course allows progression to English 10.

ENGL1502 - Essential Skills Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students functioning at GE 5–7 (CLB 4 and 5) to improve their Essential Skills for future upgrading and learning, the workplace, and the community. Working with soft and specific essential skills (as defined by Human Resources Skills Development Canada) the course covers reading, document use, numeracy, writing, and computer use.

ENGL1503 - English Preparation Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to improve their literacy skills in order to advance their education, employability skills, and career potential. Reading comprehension, writing skills, and basic interpretation skills are developed so that students are better prepared to transition into high school level humanities courses. Successful completion of this course allows progression to English 10.

ENGL1521 - English Preparation with an Aboriginal Focus Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to improve their literacy skills in order to advance their education, employability skills, and career potential. Reading comprehension, writing skills, and basic interpretation skills are developed so that students are better prepared to transition into high school-level humanities courses. The course materials will include Aboriginal perspectives. Participants will study works by Aboriginal authors and engage in discussions that are respectful and reflective of an Aboriginal perspective. Successful completion of this course allows progression to English Preparations or Humanities Prep.

ENGL1522 - Essential Skills Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students functioning at GE 5–7 (CLB 4 and 5) to improve their essential skills for future upgrading and learning, the workplace, and the community. Working with soft and specific essential skills, as defined by Human Resources Skills Development Canada, the course covers reading, document use, numeracy, writing, and computer use.

ENGL1523 - Humanities Preparation Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to improve their literacy skills in order to advance their education, employability skills, and career potential. Reading comprehension, writing skills, and basic interpretation skills are developed so that students are better prepared to transition into high school level humanities courses. Successful completion of this course allows progression to English 10.

ENGL1701 - Computer Writing

5 credits (0:125:0 hours)

Enhance your writing skills by organizing and developing your thoughts and ideas using the computer. Learn keyboarding, basic word processing, and editing techniques to assist you in the writing process. Learn the writing process, from coming up with and organizing ideas, writing paragraphs and essays to the final revision and editing stage of writing.

ENGL1901 - Strategic Reading

5 credits (125:0:0 hours)

Improve your reading comprehension and speed. Learn strategies to improve your understanding of what you read and your ability to retain information.

ENGL1902 - English Writing Essentials

5 credits (125:25:0 hours)

In this course, students will develop foundational writing skills, as well as some of the other skills and competencies set out in Alberta Education's English Language Arts curriculum. This course introduces students to the main areas of study in the English Language Arts. It provides a foundation for further academic studies by integrating the skills, competencies, and strategies needed for successful learning.

Co-requisite: ENGL 1904

ENGL1904 - English Reading Essentials

5 credits (125:0:0 hours)

In this course, students will develop essential reading skills, as well as some of the other skills and competencies set out in Alberta Education's English Language Arts curriculum. This course introduces students to the main areas of study in the English Language Arts. It provides a foundation for further academic studies by integrating the skills, competencies, and strategies needed for successful learning.

Co-requisite: ENGL 1902

ENGL1906 - Humanities Prep Flex

3 credits (60:15:0 hours)

Improve your reading and writing skills as you prepare for English Language Arts 10-1, 10-2, 20-1, 20-2, Reading 089 or English 089. Increase your word attack skills, reading speed, and research and analytical skills. Enhance your sentence, paragraph, and essay-writing skills using the five-step writing process. Improve your spelling, grammar, and vocabulary. Learn through individual, group, teacher-directed, and computer-assisted instruction.

ENGL1950 - English Language Arts with an Aboriginal Focus

3 credits (65:0:0 hours)

This course assists Aboriginal learners starting from a grade equivalent of grades 8 to 10 in reading and writing to prepare to take English Language Arts courses at the high school level. Course materials and resources will be chosen to reflect Aboriginal realities, culture, and worldviews, with the academic focus based on Alberta Education curricular outcomes in English Language Arts. Students successfully completing this course will be prepared to enter English Language Arts 10-1 or English Language Arts 10-2.

ENGL2201 - English 020-1

5 credits (125:0:0 hours)

Build the foundations of literary theory, style appreciation, and analytical skills that are needed for English Language Arts 30-1 or English 030-1. Analyze short stories, drama, poetry, non-fiction, a novel, a feature film, and media. Create essays and reports. Represent ideas visually or through class presentations.

ENGL2202 - English 020-2

5 credits (125:0:0 hours)

Continue studying the types of literature including short stories, novels, plays, and poetry. Learn to write expository, persuasive, and personal paragraphs and essays. Represent ideas visually or through class presentations. Study literature as well as cartoons, illustrations, and a feature film. Evaluate media, including advertising and propaganda. Improve your reading and writing skills in preparation for English Language Arts 30-2 or English 030-2.

ENGL2510 - Scientific and Technical Writing

3 credits (45:0:0 hours)

This technical writing course prepares students with the skills required for writing in a professional setting. Students will learn to produce documents reflecting different types of technical communication such as technical descriptions, proposals, reports, web pages, and instructional manuals. Students will also learn how to organize information effectively, write in a clear, concise style, rigorously edit their writing, and format and cite sources using APA style. Effective document design and use of graphic elements are also examined. Students will be required to deliver oral presentations. Prerequisites: 60% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent

ENGL2550 - Introduction to Composition

3 credits (45:0:0 hours)

The course has a strong focus on essay composition and analysis. The assignments are designed to encourage critical and analytical reading, thinking, and writing. This course also introduces and demonstrates the APA method of citation. Prerequisites: 60% in English Language Arts 30-1 or 70% in English Language Arts 30-2 or equivalent

ENGL3301 - English 030-1

5 credits (100:25:0 hours)

COURSE DESCRIPTIONS

Build on the knowledge you gained in English 10-1 and English 20-1 by studying short stories, non-fiction, poetry, drama, a novel, film, and media. Write essays analyzing the universal themes used in literature. Represent ideas visually or through class presentations.

ENGL3302 - English 030-2

5 credits (100:25:0 hours)

Write paragraphs, essays, business letters, and speeches. Study a novel, short stories, poetry, drama, media, and a feature film. Present your ideas visually. Make class presentations.

ENGL9089 - English 089

3 credits (75:0:0 hours)

Prepare to write college-level assignments by reviewing and practising paragraph and essay development. Practise writing effective compositions. Improve your understanding of sentence construction, punctuation, and basic mechanics. Prerequisite: Placement test or a permission letter from MacEwan College

ERCC1001 - Academic Upgrading Edmonton Remand Correctional Centre

5 credits (125:0:0 hours)

Academic Upgrading Edmonton Remand Correctional Centre

ESLG1037 - ESL Lab Support

4 credits (60:0:0 hours)

Learners will gain the communication skills they need to be successful in the practical nurse lab setting. Learners will practise skills in client documentation, therapeutic communication, and oral reporting. This course focuses on providing ESL support to PNDIEN students taking the accelerated PN courses.

ESLG1038 - PNDIEN Exam Skills

2 credits (30:0:0 hours)

Learners will work on skills required to be successful in the Canadian Practical Nurse Registration Examination.

ESLG1043 - Speaking Clearly

3 credits (50:0:0 hours)

Learn useful expressions, idioms, conversation strategies, and pronunciation tips in a highly interactive class. Practise skills in small-group discussions with an experienced instructor who will give you feedback and correction. This course is designed for high intermediate or advanced speakers of English as a second language. (CLB 5+)

ESLG1044 - Writing Clearly

3 credits (50:0:0 hours)

Develop your ability to write clearly, concisely, and correctly for a variety of purposes. Set specific goals for your own writing needs and work individually and in small groups to achieve these goals. This course is an excellent option if you are working during the day and you need to improve the quality of the writing you do at work. (CLB 5+)

ESLG1050 - Reading/Writing 50

6 credits (160:0:0 hours)

Improve your ability to read a wider range of instructions, schedules, charts, and directories. Develop your ability to read and understand longer texts. Learn to write short paragraphs, fill out more complex forms, and write sets of directions.

ESLG1070 - Reading/Writing 70

6 credits (160:0:0 hours)

Strengthen your reading and writing skills by focusing on reading comprehension, using context clues, and learning to read faster. Develop practical writing skills for further study or for the workplace.

ESLG1105 - Math Language Basics

3 credits (80:0:0 hours)

Study basic skills in place value, addition, subtraction, multiplication, and division. Use small and large numbers. Study the language of numbers (numeracy) and solve word problems in math.

ESLG1106 - Math Language Intermediate

3 credits (80:0:0 hours)

Study math skills and language skills relating to decimals, fractions, percentages, and proportions. Solve word problems in these skills.

ESLG1107 - Computer Competence Basic

3 credits (80:0:0 hours)

Learn basic file management and formatting and editing skills. Work through intermediate skills such as tables, columns, and multi-page documents in Microsoft Office (Word, Excel, and PowerPoint). In addition to becoming more proficient in your computing skills, you will also improve upon your English through computer-based projects. Learn to make use of the Internet and email while working in class.

ESLG1109 - Study Skills Basic

3 credits (80:0:0 hours)

Understand and spell 400 basic vocabulary words. Follow conventions of writing basic texts, including letter formation, line spacing, margins, titles, and indents. Write simple sentences correctly. Read easy formatted text correctly.

ESLG1110 - Study Skills Intermediate

3 credits (0:0:80 hours)

Understand and spell 200 new intermediate vocabulary words. Write sentences and paragraphs using correct formatting. Read and interpret correctly questions, directions, and formatted text. Plan your writing using mind maps.

ESLG1111 - Study Skills Advanced

3 credits (80:0:0 hours)

Practise working with indexes and other text organization tools. Learn citation, and improve your ability to work with reference works. Use standard spelling and formatting in increasingly challenging writing. Plan more complex writing tasks using mind maps and other organizational tools. Spell at least 200 new intermediate vocabulary words correctly.

ESLG1112 - Computer Competence Advanced

3 credits (80:0:0 hours)

Learn more advanced word-processing skills to help you produce more complex types of documents. Learn basic spreadsheet operations. Practise keyboarding to improve your typing speed and accuracy up to 20 wpm.

ESLG1113 - Interpersonal Communication

3 credits (80:0:0 hours)

Learn the vocabulary and speaking strategies you need to get your point across, persuade others, seek consensus, and resolve conflict. Improve your pronunciation and clarity in speaking. This course includes the culture of communications in various contexts in Canada.

ESLG1114 - Speaking Strategies

3 credits (80:0:0 hours)

This course covers stress, intonation, pronunciation, voice quality, speed of speaking, and the strategies that you need in order to make yourself clearly understood.

ESLG1127 - Practicum Training Workshops

2 credits (30:0:0 hours)

Gain confidence as you prepare for your practicum placement. Gain practice as you participate in specially designed interactive communicative and skill-based role plays, scenarios, problem-solving discussions, and interviews.

ESLG1128 - PNDIEN ESL Support

10 credits (144:0:0 hours)

This course provides support to PNDIEN students enrolled in the courses ENGL 2550 and SOCI 1000 in the second semester of the PNDIEN program. This course focuses on assisting students to develop the academic language skills they need to complete these courses

successfully and will also help them to improve the accuracy and fluency of their language skills to the level required for the CELBAN language test.

ESLG1136 - IELTS Prep

2 credits (50:0:0 hours)

Learn the structure of the International English Language System (IELTS) test, question types, and test-taking techniques. Enhance and improve your writing, listening, reading, and speaking skills through practice and content relevant to the IELTS test.

ESLG1150 - Effective Speaking for Nursing IEN

5 credits (70:0:0 hours)

In this course, students will have the opportunity to develop and improve the skills they need to communicate successfully with others in the PNDIEN program and with clients and fellow professionals in a Canadian health-care workplace setting. They will also improve in the areas of grammar, vocabulary, and pronunciation as they participate in activities that mirror the communication situations in the workplace. This course is designed to meet the goals and objectives of Canadian Language Benchmark Level 8.

ESLG1151 - Effective Writing for Nursing IEN

5 credits (75:0:0 hours)

Students will enhance their ability to communicate effectively, accurately, and fluently in writing. This course assists students to prepare to be successful in completing CELBAN writing tasks and also prepares them for the writing tasks they will have to complete as nursing students and, later, as LPNs in a Canadian health-care setting. This course is designed to meet the writing goals and objectives of Canadian Language Benchmark Level 7.

ESLG1152 - Effective Listening for Nurses IEN

4 credits (65:0:0 hours)

Students will enhance their listening skills and acquire the proficiency needed to prepare for success in both the PNDIEN program and the Canadian health-care workplace. This course will assist students to develop the listening skills they need to communicate with clients and with fellow professionals in a health-care setting. The course is designed to meet the goals and objectives of Canadian Language Benchmark Level 8.

ESLG1153 - Effective Reading for Nursing IEN

5 credits (75:0:0 hours)

Enhance your reading ability so that you can better complete the reading tasks that you will meet, first as a student and later as an LPN in a health-care setting. This course is designed to meet the reading objectives of the Canadian Language Benchmark Level 8.

ESLG1154 - Intercultural Communication for Nursing IEN

2 credits (30:0:0 hours)

Students will develop the intercultural competence and flexibility they need while working as nurses in a variety of Canadian health-care settings. Students will increase their understanding of cross-cultural incidents as they observe and interpret incidents and experiences with increasing accuracy. This 30-hour course will help students identify situations in which cross-cultural differences are likely to occur as they care for clients from other cultures and communicate with other health-care professionals.

ESLG1155 - Medical Terminology for Nursing IEN

4 credits (60:0:0 hours)

This course is designed to assist internationally educated nurses with ESL learner needs to learn the meaning, spelling, and pronunciation of medical vocabulary in English. Lay terms (including slang and idioms) are explored as well as the anatomy, physiology, and pathology associated with each medical term. The aim of the course is to enable students to excel in subsequent nursing courses and, eventually, in the workplace.

ESLG1156 - Effective Listening and Speaking for Internationally Educated Pharmacists and Pharmacy Technicians

4 credits (100:0:0 hours)

Improve your listening and speaking skills for use in the workplace and social situations. Practise your listening and speaking skills using authentic materials and case studies that integrate profession-specific essential skills and intercultural communication skills. You will also work on IELTS strategies to better prepare you for the exam.

ESLG1157 - Effective Reading and Writing for Internationally Educated Pharmacists and Pharmacy Technicians I

4 credits (100:0:0 hours)

Improve your reading comprehension and writing skills for use in the workplace and social situations. Authentic materials and case studies that integrate profession-specific essential and intercultural communication skills will be used. You will also work on IELTS strategies to better prepare you for the exam.

ESLG1212 - Integrated ESL CLB 2

3 credits (75:0:0 hours)

Develop CLB 2 speaking, listening, reading, and writing skills through content relevant to your needs as a learner. Build your language skills and confidence through active participation in skill activities. Topics vary depending on the needs and interests of learners.

ESLG1213 - Integrated ESL CLB 3

3 credits (75:0:0 hours)

Develop CLB 3 speaking, listening, reading, and writing skills through content relevant to your needs as a learner. Topics vary depending on needs and interests of learners.

ESLG1214 - Integrated ESL CLB 4

3 credits (75:0:0 hours)

Develop CLB 4 speaking, listening, reading, and writing skills through content relevant to your needs as a learner. Topics vary depending on needs and interests of learners.

ESLG1215 - Integrated ESL CLB 5

3 credits (75:0:0 hours)

Develop CLB 5 speaking, listening, reading, and writing skills through content relevant to your needs and goals as a learner. Topics vary depending on needs and interests of learners.

ESLG1216 - Integrated ESL CLB 6

3 credits (75:0:0 hours)

Develop CLB 6 speaking, listening, reading, and writing skills through content relevant to your needs and goals as a learner. Topics vary depending on needs and interests of learners.

ESLG1217 - Integrated ESL CLB 7

3 credits (75:0:0 hours)

Develop advanced speaking, listening, reading, and writing skills through content relevant to your interests, employment, and study goals. Topics will vary depending on needs and interests of learners.

ESLG1218 - Integrated ESL CLB 8

3 credits (75:0:0 hours)

Develop CLB 8 speaking, listening, reading, and writing skills through content relevant to your interests, employment, and study goals. Topics will vary depending on needs and interests of learners.

ESLG1230 - Integrated ESL CLB 1-2

3 credits (80:0:0 hours)

Develop low beginner speaking, listening, reading, and writing skills through content relevant to your needs as a learner. Build your language skills and confidence through active participation in skill activities. Topics vary depending on the needs and interests of learners.

ESLG1234 - Integrated ESL CLB 3-4

3 credits (80:0:0 hours)

Develop basic speaking, listening, reading, and writing skills through content relevant to your needs as a learner. Topics vary depending on needs and interests of learners.

ESLG1256 - Integrated ESL CLB 5-6

3 credits (80:0:0 hours)

Develop intermediate speaking, listening, reading, and writing skills through content relevant to your needs and goals as a learner. Topics vary depending on needs and interests of learners.

ESLG1278 - Integrated ESL CLB 7-8

3 credits (80:0:0 hours)

Develop advanced speaking, listening, reading, and writing skills through content relevant to your interests, employment, and study goals. Topics will vary depending on needs and interests of learners.

ESLG1288 - Integrated Child Care ESL CLB 3-4

3 credits (80:0:0 hours)

Study English while improving your skills as a child-care provider. You will practise your English listening, speaking, reading, and writing skills as you learn about the paperwork and procedures commonly used in daycares and some fundamentals of early childhood education.

ESLG1700 - Practical Nurse Refresher Language - Reading

2 credits (50:0:0 hours)

This course is designed to enhance the reading proficiency of second-language learners, enabling them to better prepare to meet the reading requirements of LPN programs and workplaces.

ESLG1701 - Practical Nurse Refresher Language - Writing

2 credits (50:0:0 hours)

This course is designed to enhance the writing proficiency of second-language learners enabling them to better prepare to meet the writing requirements of LPN programs and workplaces. Through task-based instruction, learners will develop the language skills and strategies needed for effective written communication.

ESLG1702 - Practical Nurse Refresher Language - Listening

2 credits (50:0:0 hours)

This course is designed to enhance the listening proficiency of second-language learners, enabling them to better prepare to meet the listening requirements of LPN programs and workplaces. The course will help learners develop listening skills and strategies required for effective communication in a health-care setting.

ESLG1703 - Practical Nurse Refresher Language - Speaking

2 credits (50:0:0 hours)

This course is designed to enhance the speaking proficiency of second-

language learners, enabling them to better prepare to meet the speaking requirements of LPN programs and workplaces. This is a highly interactive course in which learners will have an opportunity to practise their speaking skills in a nursing context.

ESLG1704 - Practical Nurse Refresher Language - Medical Terminology

2 credits (50:0:0 hours)

This course is designed to equip learners with vocabulary learning strategies as well as the meaning, spelling, and pronunciation of medical vocabulary in English. Slang and idiomatic expressions associated with medical terminology will also be taught.

ESLG1850 - Academic Enrichment for College/University

13 credits (320:0:0 hours)

CLB 8 Academic. Integrate the speaking, listening, reading, and writing skills required for entrance into post-secondary programs. Produce academic reports, give oral presentations, and take comprehensive summative tests. Interact with native speakers and improve your ability to handle non-ESL resources. Research academic and practical topics for your academic and career goals, and develop appropriate vocabulary.

ESLG1860 - English for Academic Purposes - Reading and Writing

6 credits (118:32:0 hours)

This course assists students to acquire the language and academic skills they need to succeed in post-secondary studies. Students learn to read critically, analyze thoughts and ideas in texts, manage ideas and information, and evaluate texts for tone, purpose, style, and effectiveness. Students learn to respond to texts in writing and develop the writing skills needed to write effective essays at the college level. Advanced grammar points and academic vocabulary are taught in this course. Students successfully completing this course meet the English language proficiency requirement in reading and writing at Olds College and Lakeland College. This course requires students to have completed high-school. A mark in ESLG 1860 is equivalent to the same mark in English 30-1 for meeting academic admission requirements for NorQuest programs.

Prerequisite: ESLW 8000

ESLG1861 - English for Academic Purposes - Listening and Speaking

6 credits (118:32:0 hours)

This course prepares students with the language and academic skills they need to succeed in post-secondary studies. Students practise and develop their listening and speaking skills. Classroom activities, presentations, and academic lectures will challenge students to express multiple perspectives in their speaking. Students will work on the skills they need to effectively participate in group work and class discussions and to take notes on academic lectures. This course

COURSE DESCRIPTIONS

requires students to have completed high-school.

Prerequisite: ESLS 8000

ESLG1862 - English for Academic Purposes - Vocabulary I

1 credit (25:0:0 hours)

In this course, students will learn academic vocabulary from the "Academic Word List" using reading, listening, and writing skills. The new academic vocabulary will be presented through a variety of academic texts as well as academic lectures and presentations.

ESLG1863 - English for Academic Purposes - Vocabulary II

1 credit (25:0:0 hours)

In this course, students will build on the second level of academic vocabulary from the "Academic Word List" using reading, listening, and writing skills. The new academic vocabulary will be presented through a variety of academic texts as well as academic lectures and presentations.

Prerequisite: ESLG 1862

ESLG1864 - English for Academic Purposes - Vocabulary III

1 credit (25:0:0 hours)

In this course, students will build on the third tier of academic vocabulary from the "Academic Word List" using reading, listening, and writing skills. The new academic vocabulary will be presented through a variety of academic texts as well as academic lectures and presentations.

Prerequisites: ESLG 1862 and ESLG 1863

ESLG1898 - English for Academic Purposes -Reading and Writing EAP II

6 credits (118:32:0 hours)

This reading and writing course provides students with the foundation of language and academic skills they need to succeed in post-secondary studies. Students work on reading critically, analyzing thoughts and ideas in texts, managing ideas and information, and evaluating texts for tone, purpose, style, and effectiveness. Students develop the skills and understanding of how to write effective essays at the post-secondary level. Grammar and academic vocabulary are taught in this course. This course is at a CLB 7/8 level. This course requires students to have completed high-school.

Prerequisite: ESLW 7000

ESLG1899 - English for Academic Purposes - Listening and Speaking EAP II

5 credits (93:32:0 hours)

This listening and speaking course provides students with the foundation of language and academic skills they need to succeed in post-secondary studies. Students strengthen their academic listening and speaking skills. Classroom activities, presentations and academic lectures will challenge students to express multiple perspectives in their speaking. Communication practice for participating in a post-secondary class discussion, group work, and class presentations will be done in class. This course is at a CLB 7/8 level. This course requires students to have completed high-school.

Prerequisite: ESLS 7000

ESLG1900 - English for Academic Purposes - Reading and Writing EAP I

4 credits (60:0:0 hours)

This course prepares students with the language and academic skills they need to succeed in post-secondary studies. Students learn to read critically, analyze thoughts and ideas in texts, manage ideas and information, and evaluate texts for tone, purpose, style, and effectiveness. Grammar and academic vocabulary are also taught in this course.

Prerequisite: ESLW 8000

ESLG1901 - English for Academic Purposes - Listening and Speaking EAP I

3 credits (45:0:0 hours)

This course prepares students with the language and academic skills they need to succeed in post-secondary studies. Students practise and develop their listening and speaking skills. Classroom activities, presentations, and academic lectures will challenge students to express multiple perspectives in their speaking. The students will work on the skills they need to effectively participate in group work and class discussions and to take notes on academic lectures. This course is at a CLB 8/9 level.

Prerequisite: ESLS 8000

ESLG2000 - Introduction to Public Transit

2 credits (50:0:0 hours)

Understand the role of transit operators, practise essential language skills and vocabulary pertaining to transit, and develop intercultural communication skills for the multicultural public transit workplace. Discuss and gain in-depth understanding of the daily activities and tasks of a bus operator. Enhance your knowledge about transit by completing modules such as "Introduction to Public Transit," "Inspecting Buses," "Following a Shift," and "Understanding Spare Boards."

ESLG2001 - Transit Workplace Communication

2 credits (50:0:0 hours)

Expand and improve your communication strategies through

interactive activities around public transit workplace settings. Practise your oral communication skills using scenarios from the transit work environment. Learn about workplace expectations as they relate to culture and language. Expand your vocabulary related to the transit workplace. Learn transit bus map-reading skills and knowledge of key landmarks. Improve your communication skills as you study modules such as “How to Handle Route Disruptions,” “Understanding Shift Changes,” “Finding Locations for Customers,” and “What To Do When You Cannot Find a Destination.”

Prerequisite: ESLG 2000

ESLG2002 - Customer Service Skills for Public Transit

3 credits (70:0:0 hours)

Improve customer services skills for the transit workplace. Develop and implement strategies and language for problem solving to deal with diverse and challenging workplace situations. Role-play how to approach potentially dangerous situations with disruptive customers. Discover and practise using appropriate language in a variety of situations and implementing different strategies and skills to maintain safety. Topics include “Customer Service Routines,” “Dealing with Disruptive Customers and Customer Complaints.”

ESLG2003 - Skills for Emergency Situations

3 credits (70:0:0 hours)

Apply basic communication and interpersonal skills to a variety of emergency situations in transit. Practise emergency protocols, describe road emergencies, rehearse a number of live-setting emergency scenarios, and complete accident reports. Topics include “The Transit Emergency Manual,” “Handling Road Emergencies,” “Bus Malfunction Emergencies,” and “Writing Emergency Reports.”

Prerequisite: ESLG 2002

ESLG2004 - Final Steps in Transit Preparation

4 credits (110:0:0 hours)

Acquire the skills to successfully complete the admission process for transit jobs. Practise daily interactions with other staff at garages, and learn strategies for talking to supervisors and the public in general. Understand how to deal with performance evaluations. Learn test-taking strategies and review a variety of pre-screening routines that comprise the public transit operators screening tests. Develop job interview skills. Learn about transit organization culture to achieve and maintain employment as a transit operator.

Prerequisite: ESLG 2003

ESLG2100 - Intercultural Communication for the Business Environment

2 credits (50:0:0 hours)

Develop basic intercultural competence for working in a variety of Canadian business environments. Explore the behaviour and

communicative norms of your first culture. Learn to analyze yourself and others with respect to cultural differences. Develop the necessary intercultural sensitivity and the ability to suspend judgment of others during critical intercultural encounters in the Canadian business environment.

ESLG2101 - Listening and Speaking for Success in a Business Career

5 credits (100:25:0 hours)

Improve your listening skills as you focus on note-taking, verbal instructions, participation in meetings and discussions. Listen for the main idea and details. Communicate comprehension of information. Develop oral communication skills for a variety of social and business situations. Select appropriate vocabulary to manage conversation in social interactions. Develop interpersonal competencies in social interactions. Learn strategies for intelligibility and clarity. Learn to participate in group and pair work and presentations and to produce presentations that are successful in a career studies or business environment.

ESLG2102 - Occupation-Specific Vocabulary Development for Business Careers

2 credits (50:0:0 hours)

Learn and retain a range of general and business-related vocabulary in order to read, write, speak, and understand effectively in a business career environment. Develop word-recognition skills. Use business terminology correctly in a variety of situations. Develop strategies for understanding new vocabulary and idioms from context. Learn advanced dictionary skills. Use a range of reference texts to improve accuracy in your vocabulary.

ESLG2103 - Reading and Writing Strategies and Development for Business Careers

5 credits (100:25:0 hours)

Develop the reading strategies, reading speed, and comprehension of business-related texts that you need for a career in business. Develop critical reading and thinking strategies. Develop exam-taking strategies. Interpret information presented visually in formats such as graphs, charts, and forms. Learn to write for business communication, and become more proficient at using Microsoft Office Suite. Improve your grammatical correctness in writing, develop editing skills, complete business forms, and improve your typing skills to at least 20 wpm.

ESLG2200 - Intercultural Communication for Health Professions

2 credits (50:0:0 hours)

This course is designed to help participants develop the basic intercultural awareness and competence related to nursing practice that they will need while working in a variety of Canadian health-care settings. Instruction in this essential skill begins in this course and continues to greater depth in the Practical Nurse Diploma for Internationally Educated Nurses (PNDIEN) program.

ESLG2201 - Speaking and Listening for Health Professions

5 credits (100:25:0 hours)

This course is designed to assist students to enhance their speaking and listening skills, so that they are better prepared to be successful in both health career programs and the Canadian health-care workplace. Students develop and improve their grammar, vocabulary, and pronunciation skills as they engage in interactive activities that mirror the communication situations that occur in the workplace. Students should be at a CLB 7 (IELTS 6) or higher.

ESLG2202 - Terminology for Health Professions

2 credits (50:0:0 hours)

This course is designed to assist students to learn the meaning, spelling, and pronunciation of medical vocabulary in English. Lay terms, including slang and idioms, and the anatomy, physiology, and pathology associated with each medical term are also explored. Students should be at a CLB 7 (IELTS 6) or higher.

ESLG2203 - Reading and Writing for Health Professions

5 credits (125:0:0 hours)

This course is designed to assist students to enhance their reading and writing skills, so that they are better prepared to be successful in both health career programs and the Canadian health-care workplace. Students should be at a CLB 7 (IELTS 6) or higher.

ESLG2210 - English for Health Careers - Intercultural Communication

3 credits (75:0:0 hours)

This course is designed to help second language learners develop the basic intercultural awareness and competence related to health career practice through various language-based activities. Students who take this course can expect to become more knowledgeable about foundational intercultural concepts and competencies.

ESLG2211 - English for Health Careers - Listening

3 credits (75:0:0 hours)

This course is designed to enhance the listening proficiency of second language learners, enabling them to better prepare to meet the listening requirements of health career programs.

ESLG2212 - English for Health Careers - Reading

3 credits (75:0:0 hours)

This course is designed to enhance the writing proficiency of second-language learners enabling them to better prepare to meet the reading requirements of health career programs.

ESLG2213 - English for Health Careers - Speaking

3 credits (75:0:0 hours)

This course is designed to enhance the speaking proficiency of second language learners, enabling them to better prepare to meet the speaking requirements of health career programs and workplaces.

ESLG2214 - English for Health Careers - Writing

3 credits (75:0:0 hours)

This course is designed to enhance the writing proficiency of second language learners, enabling them to better prepare to meet the writing requirements of health career programs.

ESLG2215 - English for Health Careers, Medical Terminology

2 credits (50:0:0 hours)

This course is designed to assist second language learners to learn the meaning, spelling, and pronunciation of medical vocabulary in English. Lay terms, including slang and idioms, and the anatomy, physiology, and pathology associated with each medical term are also explored.

ESLS1000 - Listening/Speaking 100

7 credits (148:32:0 hours)

CLB 1. Understand greetings and appeals for repetition and clarification. Follow simple spoken instructions and positive and negative commands and requests. Identify expressions used to attract attention and request assistance. Identify specific literal details such as numbers, letters, key words, and short expressions. Give instructions or directions of two to three words for basic, everyday activities. Use and respond to basic courtesy formulas.

ESLS1100 - Listening/Speaking 110

7 credits (148:32:0 hours)

CLB 1. Understand a greater range of greetings and appeals for repetition and clarification. Follow a variety of simple spoken instructions and positive and negative commands and requests. Identify expressions used to attract attention and request assistance. Identify specific literal details such as numbers, letters, key words, and short expressions. Understand daily routine interaction in class. Give instructions or directions of two to three words or phrases for basic, everyday activities. Make an effort to keep communication flowing, and show awareness of barriers. Use and respond to basic courtesy formulas.

ESLS1501 - ESL Intermediate Listening and Speaking Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows English Language Learners to improve their listening and speaking proficiency. Participants will improve their pronunciation, speaking fluency, and grammar as well as expand their vocabulary and

use of idiomatic language. Students will improve their confidence and competence in understanding instructions, identifying factual details, making and responding to apologies, regrets, excuses or problems. Students will practice their skills in role-plays and instructions will include making or cancel appointments, indicate partial comprehension, taking turns by interrupting, and adding comments supportive of others. Topics cover will be determined by the needs of students in the class.

ESLS1521 - ESL Intermediate Listening and Speaking Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format will help English language learners improve their listening and speaking skills. In this class, the students will gain confidence and competency in listening and speaking through the use of high-interest content. Intermediate-level grammar vocabulary and pronunciation strategies will be taught.

ESLS2000 - Listening/Speaking 200

7 credits (148:32:0 hours)

CLB 2. Identify basic courtesy formulas and introductions. Recognize problems in communication and appeals for repetition and clarification. Follow a range of basic daily instructions, commands, and requests. Identify a range of expressions used to request assistance, express and respond to a request, and express warnings. Identify specific literal details such as numbers, letters, time reference, places, key words, and short expressions in a dialogue. Give directions of one to two clauses, use courtesy formulas with familiar and unfamiliar people, and respond to questions and introductions.

ESLS2100 - Listening/Speaking 210

7 credits (148:32:0 hours)

CLB 2. Identify several basic courtesy formulas and introductions. Recognize problems in communication and appeals for repetition and clarification. Follow basic daily instructions, commands, and requests. Identify a range of expressions used to request assistance, express and respond to a request, and express warnings. Identify specific literal details such as numbers, letters, time reference, places, key words, and short expressions in a dialogue. Follow in-class presentations and instruction. Give directions of one to two clauses, use courtesy formulas with familiar and unfamiliar people, and respond to questions and introductions. Speak in a limited way on immediate and personal needs.

ESLS3000 - Listening/Speaking 300

7 credits (148:32:0 hours)

CLB 3. Identify verbal and non-verbal details of social exchanges, including styles of greetings, leave-taking, and introductions. Identify indicators of communication problems. Follow directions of two to four clauses relating to movement and position in space and to weights, measures, amounts, and sizes. Identify expressions used to

ask and grant permission, advise of danger, and ask for, offer, and accept assistance. Get the gist, key information, and important factual details in a story or description. Greet, introduce yourself and others, ask about others, and participate in casual small talk. Answer a phone, leave a short message, and participate in small, informal conversations.

ESLS3100 - Listening/Speaking 310

7 credits (148:32:0 hours)

CLB 3. Identify verbal and non-verbal details of social exchanges, including styles of greetings, leave-taking, and introductions. Identify indicators of communication problems. Follow directions of two to four clauses relating to movement and position in space and to weights, measures, amounts, and sizes. Identify expressions used to ask and grant permission, advise of danger, and ask for, offer, and accept assistance. Get the gist, key information, and important factual details in a story or description. Follow instruction and dialogue of more complex, faster speech. Greet, introduce yourself and others, ask about others, and participate in casual small talk. Answer a phone and leave a short message.

ESLS4000 - Listening/Speaking 4000

7 credits (148:32:0 hours)

CLB 4. Identify details and inferred meanings in stories, reports, forecasts, dialogues of small talk, and short phone calls. Follow instructions of four to five clauses presented sequentially, relating to movement and position in space, manner, frequency, and duration. Participate in conversations on familiar topics. Ask for explanations if required. Give sets of simple, everyday instructions and directions.

ESLS4100 - Listening/Speaking 4100

7 credits (148:32:0 hours)

CLB 4. Identify details and inferred meanings in stories, reports, forecasts, dialogues of small talk, and short phone calls. Follow instructions of four to five clauses presented sequentially, relating to movement and position in space, manner, frequency, and duration. Demonstrate comprehension when involved in conversations, dialogues, and classroom instruction. Participate in conversations on familiar topics. Ask for explanations if required. Give sets of simple, everyday instructions and directions.

ESLS5000 - Listening/Speaking 5000

7 credits (148:32:0 hours)

CLB 5. Identify details and inferred meanings in dialogues containing compliments, invitations, and offers and discussion of interests, likes, dislikes, and preferences. Identify situations and relationships between speakers. Understand a range of spoken instructions. Demonstrate comprehension of advice, suggestions, announcements, and commercials. Demonstrate an understanding of the gist, details, and some inferred meanings in description and narration. Give an extended set of simple instructions in sequence for daily routine activities. Participate in routine social conversation on familiar topics. Express compliments, congratulations, or invitations in small talk.

ESLS5100 - Listening/Speaking 5100

7 credits (148:32:0 hours)

CLB 5. Identify details and inferred meanings in more complex dialogues containing compliments, invitations, and offers and discussions of interests, likes, dislikes, and preferences. Identify situations and relationships between speakers. Understand a range of spoken instructions of more complexity. Demonstrate comprehension of inferred meanings in advice, suggestions, announcements, and commercials. Demonstrate an understanding of the gist, details, and some inferred meanings in description and narration. Give an extended set of simple instructions in sequence for daily routine activities. Participate in routine social conversation on familiar topics. Express compliments, congratulations, or invitations in small talk. Use the phone to communicate simple personal information. Speak on relevant, familiar topics for three to five minutes. Dialogues in this course more closely approach native speaker speed and vocabulary.

ESLS6000 - Listening/Speaking 6000

7 credits (148:32:0 hours)

CLB 6. Identify specific factual details and inferred meanings in dialogues containing openings and closings, making and cancelling of appointments, apologies, regrets, excuses, and problems in reception and communication. Understand a set of instructions presented in point form, where sequence must be inferred. Demonstrate comprehension of details and a speaker's purpose in suggestions, advice, encouragements, and requests. Respond to or extend apologies, regrets, and excuses. Make or cancel appointments, indicate partial comprehension, take turns by interrupting, add comments supportive of others, and avoid answering a question. Adjust levels of formality.

ESLS6100 - Listening/Speaking 6100

7 credits (148:32:0 hours)

CLB 6. Identify specific factual details and inferred meanings in dialogues containing openings and closings, making and cancelling of appointments, apologies, regrets, excuses, and problems in reception and communication. Understand a set of instructions presented in point form, where sequence must be inferred. Demonstrate comprehension of details and a speaker's purpose in suggestions, advice, encouragements, and requests. Identify the main idea, supporting details, statements, and examples in a descriptive or narrative presentation or in a group interaction. Respond to or extend apologies, regrets, and excuses. Make formal introductions. Make or cancel appointments, indicate partial comprehension, take turns by interrupting, add comments supportive of others, and avoid answering a question. Adjust levels of formality. Speak on relevant topics for five to seven minutes.

ESLS7000 - Listening/Speaking 7000

7 credits (148:32:0 hours)

CLB 7. Identify stated and unspecified details, facts, and opinions about situations and relationships of participants containing

expressions of and responses to gratitude and appreciation, satisfaction, complaint, hope, disappointment, satisfaction, dissatisfaction, approval, and disapproval. Understand sets of instructions related to simple technical and non-technical tasks. Understand simple directions on the phone, voicemail, and extended description, narration, and reports. Understand directives, requests, reminders, orders, and pleas. Participate in formal and informal conversations to solve problems and make decisions. Respond to and express gratitude, appreciation, complaint, disappointment, dissatisfaction, satisfaction, and hope. Hold the floor, resume after interruption, and change the topic.

ESLS7100 - Listening/Speaking 7100

7 credits (148:32:0 hours)

CLB 7. Develop and consolidate your language skills in listening and speaking and pronunciation in this course that focuses on the language and knowledge needed for careers, the workplace, and further studies. Identify details that are directly stated as well as details that are unspecified. Discriminate facts and opinions about situations, as well as the relationships of participants. Understand sets of instructions related to simple technical and non-technical tasks. Understand simple phone and voicemail directions. Understand directives, requests, reminders, orders, and pleas. Participate in formal and informal conversations to solve problems and make decisions. Respond to and express gratitude, appreciation, complaint, disappointment, dissatisfaction, satisfaction, and hope.

ESLS7800 - Advanced ESL Speaking

4 credits (100:0:0 hours)

This course helps English language learners improve their speaking skills. In this class, students will gain confidence and competency in speaking through a variety of interactive activities. Advanced-level grammar and pronunciation strategies will be taught.

ESLS7801 - Advanced ESL Listening

4 credits (100:0:0 hours)

This course helps English language learners improve their listening skills. In this class, students will gain confidence and competency in listening through the use of high-interest content. Advanced-level grammar and pronunciation strategies will be taught.

ESLS8000 - Listening/Speaking 8000

7 credits (148:32:0 hours)

CLB 8. Identify stated and unspecified details about mood, attitude, situation, and formality in discourse containing expressions of and responses to formal welcomes, farewells, toasts, congratulations on achievements and awards, sympathy, and condolences. Follow extended sets of multi-step instructions on technical and non-technical tasks for familiar processes or procedures. Identify stated and unspecified meanings in extended warnings, threats, suggestions, and recommendations. Evaluate the validity of a suggestion or solution. Identify facts, opinions, and attitudes in conversations about

abstract and complex topics. Use strategies to keep conversations going, speak to large unfamiliar groups, express sympathy formally, and respond to minor conflict by acknowledging a problem and suggesting a solution. Give instructions about a familiar technical or non-technical process or procedure, established by an expert or authority other than the learner. Students successfully completing this course meet the English language proficiency requirement in listening and speaking at Olds College and Lakeland College.

ESLS8100 - Listening/Speaking 8100

7 credits (148:32:0 hours)

CLB 8. Identify facts, opinions, and attitudes in conversations about abstract and complex topics. Follow extended sets of directions involving several steps in both a technical and non-technical context. Provide descriptions, opinions and explanations related to complex concrete and abstract ideas. Ask questions and analyze and compare information in order to make decisions. Use conversation-management strategies effectively. Students successfully completing this course meet the English language proficiency requirement in listening and speaking at Olds College and Lakeland College.

ESLW1000 - Reading/Writing 100

7 credits (148:32:0 hours)

CLB 1. Recognize a small number of sight words, decode simple words using phonics rules, get information from one-sentence modified text, follow one-sentence written instruction, use simplified maps, understand common traffic signs and symbols. Copy numbers, letters, and words. Convey a standard greeting on a greeting card. Fill in personal information on simple forms. Copy words accurately. Complete sentences in simple guided text.

ESLW1100 - Reading/Writing 110

7 credits (148:32:0 hours)

CLB 1. Use a sight word list and phonics to expand reading vocabulary. Read simple, adapted, one-sentence text with more confidence, and get information from text (who, why, where). Copy words and short sentences accurately and print legibly. Fill out simple forms independently. Address an envelope. Complete sentences in simple, guided text with one to two blanks per sentence using personal information.

ESLW1134 - ESL Intermediate Reading and Writing

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows English Language Learners to improve their reading and writing skills. In this class, the students will gain confidence and competency in understanding moderately complex texts, instructions of up to 10 steps, moderately complex forms and personal or business notes and documents. Students will improve their ability to write short compositions, fill out forms, and write personal or business emails. Intermediate level grammar points and vocabulary will be taught as well. Topics covered will be determined by the needs of the

students in the class.

ESLW1501 - ESL Intermediate Reading and Writing Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows English Language Learners to improve their reading and writing skills. In this class, the students will gain confidence and competency in understanding moderately complex texts, instructions of up to 10 steps, moderately complex forms and personal or business notes and documents. Students will improve their ability to write short compositions, fill out forms, and write personal or business emails. Intermediate level grammar points and vocabulary will be taught as well. Topics covered will be determined by the needs of the students in the class.

ESLW1521 - ESL Intermediate Reading and Writing Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format will help English language learners improve their reading and writing skills. In this class, the students will gain confidence and competency in reading and writing through the use of high-interest content. Intermediate-level grammar points and vocabulary will be taught.

ESLW2000 - Reading/Writing 200

7 credits (148:32:0 hours)

CLB 2. Understand an expanded range of short messages, including invitations. Follow one-sentence written instructions of up to four steps. Understand very short, basic, common forms, maps, and diagrams. Get information from very basic short texts. Print legibly and spell a short list of common words correctly. Address an envelope correctly. Fill out simple forms including numbers and currency figures. Copy phone numbers accurately, fill out an application form, and write a cheque. Complete a text with correct information.

ESLW2100 - Reading/Writing 210

7 credits (148:32:0 hours)

CLB 2. Use a longer sight word list to read a wider range of short, everyday social messages. Follow written instructions more independently. Understand a greater number of basic forms, maps, and diagrams. Get information from short, basic texts. Write simple sentences expressing personal information. Complete a wider variety of forms requesting personal information. Expand your list of correctly spelled words.

ESLW3000 - Reading/Writing 300

7 credits (148:32:0 hours)

CLB 3. Get information from short notes and letters. Follow common,

COURSE DESCRIPTIONS

everyday written instructions of up to five steps and instructional text. Find information in formatted text: forms, tables, and schedules. Get key information from simple, one-paragraph text. Begin to use a simple dictionary. Convey information in an informal note. Copy short text from a dictionary or schedule. Write two to three sentences to describe a personal or familiar situation.

ESLW3100 - Reading/Writing 310

7 credits (148:32:0 hours)

CLB 3. Get information from simple, adapted instructional text. Interpret sequence and location signals in text. Get information from a wider range of formatted text. Get the gist, key information, and important details from texts of one to two paragraphs. Use simple dictionaries, maps, and diagrams. Complete sentences by filling in two to three blanks per sentence. Write one to three complete sentences. Copy information from a dictionary, bus schedule, or set of instructions.

ESLW4000 - Reading/Writing 4000

7 credits (148:32:0 hours)

CLB 4. Get information from emails, form letters, flyers, instructional text, and a variety of formatted text. Get the gist and key details of simple, explicit text of two to three paragraphs. Write a short note expressing invitation, thanks, and regrets. Copy short text accurately to complete tasks or learn information. Write a short text about a personal or familiar situation or event. Write a short paragraph with topic sentence and three to four supporting sentences.

ESLW4100 - Reading/Writing 4100

7 credits (148:32:0 hours)

CLB 4. Use standard reference texts, read two-paragraph newspaper articles, and get information from notices and brochures. Follow common, everyday instructions of one to six steps and instructional text. Read with increasing confidence at the CLB 4 level. Write short letters expressing invitation, thanks, regrets, cancellations, and apologies. Copy definitions from two to three different sources and fill out simple forms. Write a short text about a personal or familiar situation, event, personal experience, and future plans, and explain reasons. Write a short note with a business message. Write a paragraph with a topic sentence and four to seven supporting sentences.

ESLW5000 - Reading/Writing 5000

7 credits (148:32:0 hours)

CLB 5. Identify factual details and inferred meanings in moderately complex notes, email messages, and letters, containing compliments, invitations, likes, dislikes, and preferences. Understand and follow instructions of 7 to 10 steps and moderately complex text. Demonstrate comprehension of descriptive or narrative text of two to three paragraphs on a familiar topic. Access and locate two pieces of information in CD-Rom ESL educational software. Use email to express or respond to invitations, updates, or feelings. Take phone

messages, voicemail messages or prerecorded information with five to seven details. Summarize in point form. Write a paragraph to narrate, describe, or explain reasons.

ESLW5100 - Reading/Writing 5100

7 credits (148:32:0 hours)

CLB 5. Consolidate and expand reading comprehension at the CLB 5 level, using a greater variety of texts, formatted text, and educational software. Make notes in point form from a pre-recorded audio prompt. Write a paragraph with a topic sentence, 5 to 10 supporting sentences, and a concluding sentence. Word-process, edit, format, and print text.

ESLW6000 - Reading/Writing 6000

7 credits (148:32:0 hours)

CLB 6. Identify details in moderately complex text, including advice, requests, specifications, cancellations, and apologies. Follow instructions of up to ten steps when sequence must be inferred. Demonstrate comprehension of one-page, moderately complex text on a familiar topic. Fill out moderately complex forms. Write notes regarding a business transaction. Write a three-paragraph composition with transitional and/or concluding sentences. Word-process, edit, format, and print text. Make notes of important ideas with some details from printed or handwritten text. Write personal messages in three formats: informal notes, short formal letters, and email.

ESLW6100 - Reading/Writing 6100

7 credits (148:32:0 hours)

CLB 6. Identify details in moderately complex social text, follow instructions when not in point form, locate information in moderately complex formatted text, demonstrate comprehension of a cycle diagram, flow chart, and time-line. Access, locate, and compare two to three pieces of information in an online database. Fill out moderately complex forms. Write notes regarding a business transaction. Write a three-paragraph composition with transitional and/or concluding sentences and 7 to 12 supporting sentences. Word-process, edit, format, and print text. Make notes of important ideas with some details from printed or handwritten text. Make notes of major points with some details from a pre-recorded audio prompt. Write personal messages in three formats: informal notes, short formal letters, and email.

ESLW7000 - Reading/Writing 7000

7 credits (148:32:0 hours)

CLB 7. Identify factual and inferred meanings in moderately complex text including expressions of appreciation, complaint, hope, satisfaction, and dissatisfaction. Follow written instructions of 10 to 13 steps on simple technical and non-technical tasks. Read and locate information in everyday instructional text and formatted text. Demonstrate comprehension of a moderately complex report or narrative of one to two pages. Access two to four pieces of information in online electronic references.

ESLW7100 - Reading/Writing 7100

7 credits (148:32:0 hours)

CLB 7. Develop and consolidate your language skills in reading and writing in this course that focuses on the language and knowledge needed for careers, the workplace, and further studies. Identify factual and inferred meanings in moderately complex text including expressions of appreciation, complaint, hope, satisfaction, and dissatisfaction. Demonstrate comprehension of a one-to-two page moderately complex report or narrative. Read everyday instructional texts and formatted texts in order to locate information.

ESLW7800 - Advanced ESL Reading

4 credits (100:0:0 hours)

This course helps English language learners improve their reading comprehension skills. In this class, students will gain confidence and competency in reading through the use of high-interest content. Advanced-level grammar points and vocabulary will be taught.

ESLW7801 - Advanced ESL Writing

4 credits (100:0:0 hours)

This course helps English language learners improve their writing skills. In this class, students will gain confidence and competency in writing through a variety of interactive activities. Advanced-level grammar points and vocabulary will be taught.

ESLW8000 - Reading/Writing 8000

7 credits (148:32:0 hours)

CLB 8. Identify main idea, supporting details, and inferred meanings in increasingly complex texts, including general opinion, assessments of situations, response to a complaint, and expressions of sympathy. Read and interpret graphic information such as flow charts and process charts. Read a greater variety of authentic and adapted texts including newspapers and magazines. Integrate three to four pieces of information contained in formatted text. Write emails with attachments. Make notes from pre-recorded and live presentations, make an outline of a reading, and write a summary of a reading. Fill out unadapted forms. Write short business letters. Draft an academic essay of three body paragraphs consisting of a topic sentence, 7 to 12 supporting sentences, and a transitional/concluding sentence. Rewrite to focus content, clarify structure, and improve mechanics. Word-process, edit, format, and print text. Students successfully completing this course meet the English language proficiency requirement in reading and writing at Olds College and Lakeland College.

ESLW8100 - Reading/Writing 8100

7 credits (148:32:0 hours)

CLB 8. Read increasingly complex texts, including general opinion, assessments of situations, response to a complaint, and expressions of sympathy. Identify the main idea, supporting details, and inferred meanings. Read and interpret graphic information such as flow charts and process charts. Take notes on live and recorded presentations,

outline readings, and write summaries of readings. Fill out unadapted forms. Write business letters and academic essays. Students successfully completing this course meet the English language proficiency requirement in reading and writing at Olds College and Lakeland College.

FAID1005 - Standard First Aid/CPR

1 credit (15:0:0 hours)

Learn standard first aid and CPR from a certified instructor.

FAMV1000 - Domestic Violence and Prevention

3 credits (45:0:0 hours)

Learn the skills needed to work with individuals and families affected by domestic violence. Learn about the cycle of violence, bullying and stalking. Understand the role of the Canadian Justice system and the community resources available to you.

FOCC1000 - Focusing on the Client

7 credits (105:0:0 hours)

Acquire a general understanding of the basic needs common to all human beings, the normal structure and function of the human body, normal development throughout the life cycle, aging, functional impairments and disability, and the special needs of the client and his family. Learn to focus on the needs of clients, and to recognize the unique needs of each individual.

Prerequisite: PCCA 1000

FSCC1001 - Academic Upgrading Fort Saskatchewan Correctional Centre

5 credits (125:0:0 hours)

Academic Upgrading Fort Saskatchewan Correctional Centre

GEDE1301 - Prep for GED English

5 credits (125:0:0 hours)

Develop your reading comprehension and writing skills to prepare to write the GED exam.

GEDM1301 - Prep for GED Math

5 credits (125:0:0 hours)

Develop the basic Math skills needed for your chosen field. Prepare to write the GED exam.

GEDP1000 - GED Prep

3 credits (75:0:0 hours)

Brush up on writing, literature, science, social studies, and math. You

COURSE DESCRIPTIONS

will receive instruction in basic math and geometry, essay writing, and grammar and reading.

GEDP1501 - GED Preparation Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to learn strategies to prepare for the GED exam. The course focuses on developing and improving writing, reading, science, social studies and math skills. Students also practice various GED assessment tests to help them feel more comfortable with a timed testing environment.

GEDP1521 - GED Preparation Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to learn strategies to prepare for writing the GED exam. Students focus on developing and improving their writing, reading, science, social studies, and math skills. Students also practise various GED assessment tests to help them feel more comfortable in a timed testing environment.

GEDS1301 - Prep for GED Social Studies/Science

5 credits (125:0:0 hours)

Learn key strategies and social studies and science vocabulary to prepare you to write the GED exam.

GPLM1000 - GED Prep/Life Management

5 credits (125:0:0 hours)

Brush up on writing, literature, science, social studies, and math. You will receive instruction in basic math and geometry, essay writing, grammar, and reading. Learn coping skills and how to live in a positive manner. Explore ways to lead a richer and more balanced life.

HCJP1610 - Human Relations and Ethics in the Criminal Justice System

3 credits (45:0:0 hours)

Explore human dynamics and ethics in various settings in the criminal justice system. Study the characteristics unique to various cultures that have direct implications for persons involved in the criminal justice system. Develop communication skills. Learn about body language, verbal tones, and written language. Increase your self-awareness. Learn strategies for effective communication and conflict management in the workplace.

HCS3000 - Workplace Safety Systems

1 credit (25:0:0 hours)

Students gain the attitudes, knowledge, and skills related to workplace health and safety and examine relevant legislation governing the

workplace.

HCS3010 - Workplace Safety Practices

1 credit (25:0:0 hours)

Students explore workplace safety principles and practices and apply these principles and practices to a variety of contexts.

HCS3060 - Pregnancy, Birth & Infant Care

1 credit (25:0:0 hours)

Students acquire the attitude, knowledge, and skills necessary for achieving and maintaining a healthy pregnancy and parenting a healthy child in the first year of life. Students focus on the impact of pregnancy on the physical, mental, and social well-being of the mother and newborn and examine the events of labour and delivery and the importance of post-natal care. Students gain an appreciation for practising a healthy lifestyle as it pertains to the individual, family, peers, and community.

HEAS1000 - Health Assessment

4 credits (30:30:0 hours)

Learn and practise procedures based on best evidence for obtaining a health history and conducting a physical examination on a healthy adult. Examine assessment findings for normal structures and functions of the human body. In the laboratory component of this course, apply your newly acquired knowledge. Practise obtaining a health history and demonstrate your physical assessment skills.

Co-requisite: ANPH 1002

HEED1000 - Health Education: Individual Health and Wellness

3 credits (45:0:0 hours)

Gain an overview of the physical, social, psychological, environmental, and spiritual aspects of personal health and wellness within the context of the community, the Canadian health-care system, and the global environment. Lifestyle choices are introduced as physical and social determinants affecting personal health and the health of others. Learn how to take responsibility for your own health and to advocate for the health of others.

HEED1101 - Health Education: Personal Fitness I

3 credits (0:45:0 hours)

Prepare for the physical demands of policing and security-related occupations; learn about physical activity and health and wellness concepts.

HEED1102 - Health Education: Personal Fitness II

3 credits (0:45:0 hours)

Prepare for the physical demands of policing and security-related occupations; learn about physical activity and health and wellness concepts.

HHC0042 - Child Development: An Introduction

3 credits (0:0:0 hours)

HHC0044 - Introduction to ELCC

3 credits (0:0:0 hours)

HHC0046 - Developing through Play

3 credits (0:0:0 hours)

HHC0048 - Guiding Young Children's Behaviour

3 credits (0:0:0 hours)

HHC0058 - Literacy and Curriculum in the Early Years

3 credits (0:0:0 hours)

HHC0317 - Introduction to the Role of the Educator in ELCC Settings

8 credits (0:0:0 hours)

HHC0340 - Developmentally Appropriate Practices in ELCC Settings: Practicum & Seminar

7 credits (0:0:0 hours)

HHC0341 - Introduction to the Role of the Education in ELCC Settings

7 credits (0:0:0 hours)

HLTH1001 - Computer and Employability Skills for Health Care Aide

5 credits (125:0:0 hours)

Gain basic computer skills, including Word, Excel and Internet Explorer, that will enable you to use computers in your training program or in the workplace. Develop the skills necessary to communicate effectively in hospital or clinical settings. Create a career skills portfolio, and explore ways to develop and extend your support network.

HLTH1002 - Essentials for Health Care Aide

5 credits (125:0:0 hours)

Spend time learning the specialized reading and vocabulary needed for the Health Care Aide program. Develop an understanding of health-care terminology and processes, and explore concepts about health and the responsibilities of health-care workers.

HLTH1100 - Surgical Instrument Processing I

5 credits (45:30:0 hours)

This course equips students to perform the core skills of an MDRT. Students will develop the skills necessary to perform technical functions with surgical instruments and medical equipment. This course focuses on equipment identification and classification, decontamination, and assembly.

Prerequisite: ANPH 1003

HLTH1101 - Surgical Instrument Processing II

4 credits (45:15:0 hours)

This course equips students with the necessary knowledge and processes to perform the core skills of a Medical Device Reprocessing Technician (MDRT). Students will develop the skills necessary to sterilize surgical instruments and medical equipment. This course focusses on sterilization, storage, and professional responsibilities.

Prerequisites: HLTH 1100 and ANPH 1003

HLTH1102 - Practicum for MDRT

8 credits (0:0:500 hours)

In this practice course, students will gain work experience through 500 hours of experience as a MDRT. The experience gained in this course prepares students to write the Canadian Standards Association (CSA) exam to qualify for certification.

Prerequisites: HLTH 1100, HLTH 1101, ANPH 1003, and BUSN 1156

HLTH2002 - Assisting with Medication Delivery

1 credit (6:12:0 hours)

This course will assist you to work safely within the legal roles and responsibilities of health care aides in this province. Assisting with medication delivery is a very challenging and highly responsible task. The theory and labs of this course will allow you to undertake this task with competence and confidence. This course is included in the HCA Preparation for Employment provincial standard as mandated by Alberta Health Services.

Prerequisite: HLTH 2001 OR HLTH 2014

HLTH2004 - Health Care Aide Integrated Practicum I

1 credit (0:6:34 hours)

Under the direction of a regulated health-care professional, students will work in a designated assisted living (DAL) site providing care and support for clients.

Prerequisite: HLTH 2003 OR HLTH 2013

HLTH2006 - Structure and Function of the Human Body

- Health and Chronic Illness

3 credits (39:0:0 hours)

In this course, you will study the 10 systems that make up the human body and discuss the milestones of growth and development across a lifetime. You will read about and discuss the most common of the chronic illnesses that you may encounter, and you will learn how to provide safe care based on best practices according to the clients' diagnoses, needs, and care plans. The information learned in this course will provide you with care strategies to support the client, the client's family, and yourself through the process of a client's dying and death.

Prerequisite: HLTH 2005 OR HLTH 2012

HLTH2010 - Health Care Aide Integrated Practicum II

5 credits (0:12:148 hours)

Under the direction of a regulated health-care professional, students will work in a continuing care setting providing care and support for clients.

Prerequisite: XHCA 1000 OR HLTH 2015

HLTH2011 - Working Safely and Effectively as a Health Care Aide

3 credits (40:5:0 hours)

Health care aides work in a variety of employment settings providing care that is safe, ethical, respectful, and based on the needs of the client. This type of care is referred to as client-centred care. This course focuses on the roles and responsibilities of the health care aide in meeting the standards of client-centred care. To meet the goals of client-centred care, the health care aide must be familiar with the provincial legislation that guides safe, ethical, and personalized care. In addition, the HCA must know how to work effectively as part of the health-care team. Knowledge of the employer's policies and procedures and job descriptions is also essential. This course provides the firm foundation upon which the knowledge and skills learned in all other program courses are built.

HLTH2012 - Communication in the Health-Care Environment

2 credits (21:9:0 hours)

Strong communication skills are an important part of being a successful health care aide in a health-care environment that requires competent verbal, written, and electronic communication skills. This course focuses on professional communication with other team members, clients, and client families; written communication including documentation in client records and report completion; and strategies for problem solving and handling conflict. Strategies for overcoming the challenges and barriers to communication between client and caregiver caused by disease and aging in the client will also be discussed.

Prerequisite: HLTH 2011

HLTH2013 - Providing Client Care and Comfort

4 credits (28:35:0 hours)

In this course, you will learn to support clients to maintain their independence and meet their care needs according to individual care plans. You will acquire the skills and knowledge you need to assist clients with daily grooming and hygiene and to assist clients to walk and use mobility aids and wheel chairs safely. You will learn several methods for carrying out client lifts and transfers, with a focus on client safety and comfort. Upon completion of the course, you will have excellent baseline knowledge of standards for meeting client nutritional needs and strict guidelines in safe food handling as set out in Alberta Long-Term Care Accommodation Standards.

Prerequisite: HLTH 2006

HLTH2014 - Meeting Complex Care Needs

3 credits (17.5:23.5:0 hours)

Building on the basic skills introduced in previous courses, this course gives students the opportunity to learn the advanced skills that health care aides need to support care activities such as ostomy care, respiratory care, catheter care, and tube feeds. In addition, accurate measurement of vital signs is demonstrated, practised, and assessed, and students will acquire the knowledge and skills required to provide safe active and passive range-of-motion exercises.

Prerequisite: HLTH 2004

HLTH2015 - Special Activities for Diverse Clients

3 credits (47:2:0 hours)

A central feature of this course is the extensive section on meeting the care and comfort needs of clients with a diagnosis of dementia. Students also learn about care strategies for assisting other diverse client groups such as clients with a mental health diagnosis and clients with developmental delays and physical disabilities. Health care aides employed by home care agencies may have the opportunity to provide care for infants and children, and this course provides the information and skills needed to assist with these care assignments.

Prerequisite: HLTH 2002

HPCW1000 - The Helping Process in Community Support Work

3 credits (45:0:0 hours)

Learn about the process of helping in human services. Helping is addressed through examining the qualities and values of the helper. You will apply communication theory and interviewing skills to case studies and role plays.

HPRT1003 - Health Care Aide Clinical Practice

5 credits (0:0:200 hours)

Apply your knowledge and skills in a clinical practice experience.

Prerequisites: PCCA 1000, RRHB 1000, FOCC 1000, BCND 1000, SCAE 1000, SCSF 1000 & DEMC 1000

HSS1080 - Leadership Fundamentals 1

1 credit (25:0:0 hours)

Students explore basic principles of leadership and evaluate their personal leadership characteristics and qualities. Students develop a plan for their personal growth as a member of a leadership team and examine the various behaviours, skills, and roles of team members that contribute to team effectiveness.

HSS1090 - Speaking and Presenting

1 credit (25:0:0 hours)

Students examine effective communication, public speaking, and presentation skills. Students develop and deliver a speech or presentation and apply the principles of effective communication to the evaluation of significant speeches.

HSS2080 - Leadership Fundamentals 2

1 credit (25:0:0 hours)

Students analyze characteristics, qualities, and styles of effective leadership. Students plan for personal and group leadership development and demonstrate effective teambuilding skills while participating as a member of a leadership team.

Prerequisite: HSS 1080

HSS3080 - Leadership Fundamentals 3

1 credit (25:0:0 hours)

Students analyze the function and development of a leadership team using Systems Theory, Systems Thinking, and Change Theory related to leadership. Students plan for the development of an effective team and demonstrate leadership skills while leading a leadership team.

Prerequisite: HSS 2080

HUMN1911 - Humanities Prep

5 credits (100:25:0 hours)

This course will advance student skills and knowledge in the main areas of study in the English Language Arts. The course continues to build a foundation for academic studies at the high school level, as students develop some of the skills and competencies set out in Alberta Education's English Language Arts curriculum.

Co-requisite: ENGL 1007

HUMN1912 - Humanities Prep 2

5 credits (100:25:0 hours)

Improve your reading and writing skill sets through discussion of a variety of topics in preparation for further academic studies or integrated training programs. Read a variety of texts. Learn the steps in the writing process.

ICJP1257 - Investigating Techniques

3 credits (45:0:0 hours)

Study the major theoretical concepts and approaches to serious crimes. Understand investigative techniques of hostage taking/barricaded person situations, child abuse, organized crime, counterfeiting, safe attacks, search techniques and conducting line-ups.

ICJP1750 - Interviewing

3 credits (45:0:0 hours)

Learn basic interviewing techniques. Focus on the structure and functions of various types of interviews and strategies and the positive interpersonal skills required by the perspective employee in the field of criminal justice. The emphasis is on interpersonal relationships, feedback, barriers to effectiveness, and paraphrasing. Learn about obtaining statements from complainants, victims, and witnesses. Role playing and video playback may be employed.

ICSW1000 - Introduction to Community Support Work

3 credits (45:0:0 hours)

Examine your own beliefs and values and their relationship to human services. Learn about human services with an emphasis on helping families in need and explore how human service agencies work.

ILIC1000 - Introduction to Law

Enforcement/Intercultural Communication

5 credits (125:0:0 hours)

Gain an overview of the criminal justice system and related careers. Prepare a current resume and develop personal goal statements. Intercultural communication requires motivation, knowledge, and skill. Uncover hidden cultural rules that govern communication, expectations, and assumptions. Learn techniques to build stronger multicultural teams and skills to get to the bottom of cultural misunderstandings.

INF1030 - Word Processing 1

1 credit (25:0:0 hours)

Develop skill in using basic commands and functions in word-processing software, including document editing and formatting and printing reports, correspondence, and tables suitable for personal use applications.

INF1050 - Database 1

1 credit (25:0:0 hours)

Master the basic commands and functions of database software, and demonstrate how this software can be used as a personal tool in data and information management.

INF1060 - Spreadsheet 1

1 credit (25:0:0 hours)

Use basic functions and commands in spreadsheet software for general data manipulation and personal record keeping.

INF1070 - Digital Presentation

1 credit (25:0:0 hours)

Develop basic skills with tools used for computerized presentations involving text, data, graphics, sound, and animation.

INF2020 - Keyboarding

1 credit (25:0:0 hours)

Enhance your occupational-level keyboarding competence for all keystroke functions, using unedited, edited, and straight copy material.

INF2050 - Word Processing 2

1 credit (25:0:0 hours)

Use Microsoft Word commands and functions to produce mail-ready reports and correspondence including letters, memorandums, and tables, all from rough draft copy.

INF2060 - Electronic Publishing 1

1 credit (25:0:0 hours)

Use electronic publishing software to produce documents such as signs, announcements, brochures, newsletters, or other business applications.

INF2070 - Database 2

1 credit (25:0:0 hours)

Use all commands and functions of electronic database software that support effective and efficient database applications.

INF2080 - Spreadsheet 2

1 credit (25:0:0 hours)

Learn advanced-level spreadsheet commands and functions to calculate and manipulate data and to prepare appropriate reports and printouts in text and graphic format.

INF3060 - Word Processing 3

1 credit (25:0:0 hours)

Develop occupational-level competence in the use of word-processing software commands and functions to produce mail-ready reports, correspondence, and tables, including the importing and merging of text, data, and graphics.

INFO1001 - Information Processing 1

5 credits (0:125:0 hours)

Using Microsoft Office, develop the word processing, keyboarding, spreadsheet, and presentation skills suitable for personal and business use applications. Gain skills in Word, Excel, and PowerPoint.

INFO1002 - Information Processing 2

5 credits (125:0:0 hours)

Continue to develop skills in more complex business applications using Word, Excel, Access, and more.

IVTH1010 - Infusion Therapy for Nurses

4 credits (45:15:0 hours)

This course prepares the licensed practical nurse by building upon previous nursing knowledge with practices based on best evidence in infusion therapy, intravenous therapy, subcutaneous infusion therapy (hypodermoclysis), care of central lines, medication administration, and blood transfusions. A laboratory component is included in which students apply new theory and practise nursing skills related to infusion therapy, including IV cannula insertion.

LAWC1000 - Criminal Law I

3 credits (45:0:0 hours)

Explore the evolution of criminal law and the history and structure of the Criminal Code. Examine basic constitutional law including the Canadian Charter of Rights and Freedoms. Learn about criminal procedure in preparation for more advanced courses.

LAWC1010 - Criminal Law

3 credits (45:0:0 hours)

Explore the evolution of criminal law. Examine basic constitutional law including the Canadian Charter of Rights and Freedoms. Examine the underlying principles of the Youth Criminal Justice Act.

LAWC1020 - Introduction to the Canadian Judicial System

3 credits (45:0:0 hours)

Explore the evolution of criminal law and the history and structure of the Criminal Code. Examine basic constitutional law including the

Canadian Charter of Rights and Freedoms. Learn about criminal procedure in preparation for more advanced classes.

LAWC1030 - Introduction to Security, Loss Prevention, and Investigative Techniques

3 credits (45:0:0 hours)

Learn about the development and implementation of comprehensive security programs. Explore the related topics of risk management, loss prevention, internal controls, and developing security countermeasures and loss-prevention techniques.

LAWY1001 - Young Offenders and the Law

3 credits (45:0:0 hours)

Examine the underlying principles of the Youth Criminal Justice Act and its application to young offenders.

LEAD2000 - Team Leadership and Professionalism

3 credits (45:0:0 hours)

Gain valuable knowledge and skills needed to become an effective leader. This course focuses on team leadership, resource management, and professional development.

Prerequisites: COMM 1011 & COMM 2011

LGS1030 - Relationship Law

1 credit (25:0:0 hours)

Student learn about laws affecting family members through the use of realistic scenarios and case studies.

LGS2040 - Aboriginal Law

1 credit (25:0:0 hours)

Students learn about the history of Aboriginal law and its development in Canada by examining cases and challenging issues.

LINC1114 - CLB 1 Listening and Speaking - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand individual greetings, introductions, and goodwill expressions; understand very short, simple instructions, commands, and requests related to immediate personal needs; understand expressions used to attract attention and to request assistance in situations of immediate personal need; understand very simple information about highly familiar, concrete topics. It will also help students learn to use and respond to basic courtesy formulas and greetings; give brief, simple, common, routine instructions to a familiar person; make and respond to simple requests related to immediate personal needs (such as asking for assistance, or for the time, a price, or an amount); give basic personal information in response to direct questions from a supportive listener; ask for basic

personal information.

LINC1118 - CLB 1 Listening and Speaking

8 credits (200:0:0 hours)

This course will help students understand individual greetings, introductions, and goodwill expressions; understand very short, simple instructions, commands, and requests related to immediate personal needs; understand expressions used to attract attention and to request assistance in situations of immediate personal need; understand very simple information about highly familiar, concrete topics. It will also help students learn to use and respond to basic courtesy formulas and greetings; give brief, simple, common, routine instructions to a familiar person; make and respond to simple requests related to immediate personal needs (such as asking for assistance or for the time, a price, or an amount); give basic personal information in response to direct questions from a supportive listener; ask for basic personal information.

LINC1124 - CLB 1 Reading and Writing - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand short greetings and simple goodwill messages; understand very short, simple instructions for common, familiar everyday situations; get information from very short, simple, common formatted texts (such as simple sections of forms, maps, diagrams, sales receipts, or common universal traffic signs and civic symbols); recognize names, numbers, and some basic details in very simple, short texts related to everyday situations and immediate needs. It will also help students learn to convey greetings or other goodwill messages by completing cards or other very short, simple standard texts; copy numbers, letters, words, short phrases, or sentences from simple lists or very short passages, for personal use or to complete short tasks; complete very short, simple or simplified forms that require only basic personal identification information; write a few words to complete a short, guided text or answer simple questions to describe a personal situation.

LINC1128 - CLB 1 Reading and Writing

8 credits (200:0:0 hours)

This course will help students understand short greetings and simple goodwill messages; understand very short, simple instructions for common, familiar everyday situations; get information from very short, simple, common formatted texts (such as simple sections of forms, maps, diagrams, sales receipts, or common universal traffic signs and civic symbols); recognize names, numbers, and some basic details in very simple, short texts related to everyday situations and immediate needs. It will also help students learn to convey greetings or other goodwill messages by completing cards or other very short, simple standard texts; copy numbers, letters, words, short phrases, or sentences from simple lists or very short passages, for personal use or to complete short tasks; complete very short, simple or simplified forms that require only basic personal identification information; write a few words to complete a short, guided text or answer simple questions to describe a personal situation.

LINC1214 - CLB 2 Listening and Speaking - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand greetings, introductions, requests, goodwill expressions, and an expanding range of basic courtesy formulas; understand short, simple common instructions, commands, requests, and directions related to immediate personal needs; understand expressions used to make and respond to requests and warnings in situations of immediate personal need; understand simple information about familiar, concrete topics. It will also help students learn to use and respond to courtesy formulas and greetings; give short, simple, common, routine instructions to a familiar person; make and respond to simple requests related to common everyday activities; give very simple warnings and cautions; give expanded basic personal information to a supportive listener; ask for basic personal information; give basic descriptions of concrete, familiar objects in a few short words or phrases.

LINC1218 - CLB 2 Listening and Speaking

8 credits (200:0:0 hours)

This course will help students understand greetings, introductions, requests, goodwill expressions, and an expanding range of basic courtesy formulas; understand short, simple common instructions, commands, requests, and directions related to immediate personal needs; understand expressions used to make and respond to requests and warnings in situations of immediate personal need; understand simple information about familiar, concrete topics. It will also help students learn to use and respond to courtesy formulas and greetings; give short, simple, common, routine instructions to a familiar person; make and respond to simple requests related to common everyday activities; give very simple warnings and cautions; give expanded basic personal information to a supportive listener; ask for basic personal information; give basic descriptions of concrete, familiar objects in a few short words or phrases.

LINC1224 - CLB 2 Reading and Writing - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand short greetings and other goodwill messages; understand short, simple, clearly sequenced instructions for common, familiar everyday situations; get information from simple formatted texts (such as simple forms, maps, diagrams, signs, labels, tables, and schedules); get basic information from short, simple business or service notices; understand the purpose and some basic details in very simple, short texts related to everyday, familiar, personally relevant situations and topics. It will also help students learn to convey an expanding range of goodwill messages (such as thanks, apologies, congratulations, get well wishes, goodbyes, and sympathy) by means of standard cards or guided notes; copy a range of information, from simple lists or very short passages, for personal use or to complete short tasks; complete short, simple or simplified forms that require only basic personal identification or familiar information; write a few words to complete a short, guided text or answer simple questions to describe a personal situation.

LINC1228 - CLB 2 Reading and Writing

8 credits (200:0:0 hours)

This course will help students understand short greetings and other goodwill messages; understand short, simple, clearly sequenced instructions for common, familiar everyday situations; get information from simple formatted texts (such as simple forms, maps, diagrams, signs, labels, tables, and schedules); get basic information from short, simple business or service notices; understand the purpose and some basic details in very simple, short texts related to everyday, familiar, personally relevant situations and topics. It will also help students learn to convey an expanding range of goodwill messages (such as thanks, apologies, congratulations, get well wishes, goodbyes, and sympathy) by means of standard cards or guided notes; copy a range of information, from simple lists or very short passages, for personal use or to complete short tasks; complete short, simple, or simplified forms that require only basic personal identification or familiar information; write a few words to complete a short, guided text or answer simple questions to describe a personal situation.

LINC1314 - CLB 3 Listening and Speaking - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand simple social exchanges, including styles of greetings, introductions and leave-taking; understand instructions and directions related to familiar, everyday situations of immediate personal relevance; understand expressions used in familiar everyday situations (such as requests, permission, and warnings); understand short, simple, descriptive communication about a person, object, situation, scene, personal experience, or daily routine. It will also help students learn to use a range of courtesy formulas and greetings in very short, casual, face-to-face interactions; give simple, common, routine instructions and directions to a familiar person; make and respond to an expanding range of simple requests related to everyday activities; give an expanding range of simple warnings, apologies and cautions; ask for and give information about immediate needs and some feelings related to common everyday activities; give simple descriptions of concrete objects, people, or experiences in a few short sentences.

LINC1318 - CLB 3 Listening and Speaking

8 credits (200:0:0 hours)

This course will help students understand simple social exchanges, including styles of greetings, introductions and leave-taking; understand instructions and directions related to familiar, everyday situations of immediate personal relevance; understand expressions used in familiar everyday situations (such as requests, permission, and warnings); understand short, simple, descriptive communication about a person, object, situation, scene, personal experience, or daily routine. It will also help students learn to use a range of courtesy formulas and greetings in very short, casual, face-to-face interactions; give simple, common, routine instructions and directions to a familiar person; make and respond to an expanding range of simple requests related to everyday activities; give an expanding range of simple warnings, apologies, and cautions; ask for and give information about immediate needs and some feelings related to common everyday activities; give simple descriptions of concrete objects, people, or experiences in a few short sentences.

LINC1324 - CLB 3 Reading and Writing - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand short, personal social messages within predictable contexts of daily experience; understand short, simple, clearly sequenced instructions for familiar everyday situations; get information from simple formatted texts; get information from short business or service texts; understand the purpose, main idea, key information, and some details in simple, short texts related to everyday familiar and personally relevant situations and topics; access simple standard reference texts. Students will learn to convey short, personal, and informal social messages on topics related to familiar everyday situations; copy or record a range of information from short texts for personal use; complete short, simple forms that require basic personal or familiar information and some responses to simple questions; write short, simple business or service messages. Write a few sentences to describe a familiar person, object, place, situation, or event.

LINC1328 - CLB 3 Reading and Writing

8 credits (200:0:0 hours)

This course will help students understand short, personal social messages within predictable contexts of daily experience; understand short, simple, clearly sequenced instructions for familiar everyday situations; get information from simple formatted texts; get information from short business or service texts; understand the purpose, main idea, key information, and some details in simple, short texts related to everyday familiar and personally relevant situations and topics; access simple standard reference texts. Students will learn to convey short, personal, and informal social messages on topics related to familiar everyday situations; copy or record a range of information from short texts for personal use; complete short, simple forms that require basic personal or familiar information and some responses to simple questions; write short, simple business or service messages. Write a few sentences to describe a familiar person, object, place, situation, or event.

LINC1414 - CLB 4 Listening and Speaking - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand short social exchanges containing introductions, casual small talk, and leave-taking; understand common, sequentially presented instructions and directions related to familiar, everyday situations of personal relevance; understand short communication intended to influence or persuade others in familiar, everyday situations; understand short descriptive or narrative communication on topics of personal relevance. Students will learn to use a range of courtesy formulas and some casual small talk in short, one-on-one or small group interactions; participate in very short, simple phone calls; give a set of simple, common, routine instructions and directions to a familiar person; make and respond to a range of requests and offers; ask for and give information about needs and feelings related to common everyday activities; give brief descriptions of personal experiences, situations, or simple processes, such as getting goods or services.

LINC1418 - CLB 4 Listening and Speaking

8 credits (200:0:0 hours)

This course will help students understand short social exchanges containing introductions, casual small talk, and leave-taking; understand common, sequentially presented instructions and directions related to familiar, everyday situations of personal relevance; understand short communication intended to influence or persuade others in familiar, everyday situations; understand short descriptive or narrative communication on topics of personal relevance. Students will learn to use a range of courtesy formulas and some casual small talk in short, one-on-one or small group interactions; participate in very short, simple phone calls; give a set of simple, common, routine instructions and directions to a familiar person; make and respond to a range of requests and offers; ask for and give information about needs and feelings related to common everyday activities; give brief descriptions of personal experiences, situations, or simple processes, such as getting goods or services.

LINC1424 - CLB 4 Reading and Writing - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand simple personal social messages within predictable contexts of daily experiences; understand short, simple, clearly sequenced instructions and instructional texts for familiar everyday situations; get information from simple formatted texts; get information from short business or service texts; understand the purpose, main idea, key information, and specific details in simple, short texts related to everyday familiar and personally relevant situations and topics; access simple standard reference texts. Students will learn to convey short, personal, informal social messages on topics related to familiar everyday situations; copy or record an expanded range of information from short texts for personal use; complete simple forms that require basic personal or familiar information and some responses to simple questions; write simple business or service messages; write a short paragraph to describe a familiar situation, event, personal experience, or future plan.

LINC1428 - CLB 4 Reading and Writing

8 credits (200:0:0 hours)

This course will help students understand simple personal social messages within predictable contexts of daily experiences; understand short, simple, clearly sequenced instructions and instructional texts for familiar everyday situations; get information from simple formatted texts; get information from short business or service texts; understand the purpose, main idea, key information, and specific details in simple, short texts related to everyday familiar and personally relevant situations and topics; access simple standard reference texts. Students will learn to convey short, personal, informal social messages on topics related to familiar everyday situations; copy or record an expanded range of information from short texts for personal use; complete simple forms that require basic personal or familiar information and some responses to simple questions; write simple business or service messages; write a short paragraph to describe a familiar situation, event, personal experience, or future plan.

LINC1514 - CLB 5 Listening and Speaking - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand the gist and some details in moderately complex common and predictable social exchanges; understand simple to moderately complex directions and instructions for generally familiar and relevant procedures; understand the gist and some details in moderately complex communication intended to influence or persuade in everyday personally relevant situations; understand information about familiar or relevant topics; understand descriptive or narrative monologues or presentations related to everyday, personally relevant topics or situations. Students will learn to participate in basic social conversations for some everyday purposes; participate in very short phone calls; give instructions and directions for everyday activities and processes; give and respond to informal requests, permission, suggestions, and advice; ask for and give information related to routine daily activities in one-on-one interactions; agree, disagree and give opinions in small group discussions or meetings; give presentations about sequences of events and incidents in the past, present, or future; or describe scenes, pictures or daily routines.

LINC1518 - CLB 5 Listening and Speaking

8 credits (200:0:0 hours)

This course will help students understand the gist and some details in moderately complex common and predictable social exchanges; understand simple to moderately complex directions and instructions for generally familiar and relevant procedures; understand the gist and some details in moderately complex communication intended to influence or persuade in everyday personally relevant situations; understand information about familiar or relevant topics; understand descriptive or narrative monologues or presentations related to everyday, personally relevant topics or situations. Students will learn to participate in basic social conversations for some everyday purposes; participate in very short phone calls; give instructions and directions for everyday activities and processes; give and respond to informal requests, permission, suggestions and advice; ask for and give information related to routine daily activities in one-on-one interactions; agree, disagree, and give opinions in small group discussions or meetings; give presentations about sequences of events and incidents in the past, present, or future; or to describe scenes, pictures, or daily routines.

LINC1524 - CLB 5 Reading and Writing - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand simple to moderately complex personal and public social messages related to a familiar context; understand simple to moderately complex, step-by-step instructions and instructional texts for multistep procedures related to everyday situations; locate and use one or two pieces of information from moderately complex formatted texts; get information from simple to moderately complex business or service texts; understand simple to moderately complex descriptive or narrative texts on familiar topics; interpret information contained in formatted texts; access and locate basic information from reference

sources. Students will learn to convey personal messages in short, formal and informal correspondence for a range of everyday social purposes; reduce short, factual, oral discourse to notes or messages; reduce a page of information to a list of important details; write short business or service correspondence for routine personal needs; complete forms requiring detailed personal information; write a paragraph to relate a familiar sequence of events or describe a person, object, or routine.

LINC1528 - CLB 5 Reading and Writing

8 credits (200:0:0 hours)

This course will help students understand simple to moderately complex personal and public social messages related to a familiar context; understand simple to moderately complex, step-by-step instructions and instructional texts for multistep procedures related to everyday situations; locate and use one or two pieces of information from moderately complex formatted texts; get information from simple to moderately complex business or service texts; understand simple to moderately complex descriptive or narrative texts on familiar topics; interpret information contained in formatted texts; access and locate basic information from reference sources. LINC1614 - CLB 6 Listening and Speaking - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand common social exchanges; understand moderately complex directions and instructions for technical or non-technical tasks; understand moderately complex communication intended to influence or persuade in everyday personally relevant situations; understand short group interactions and discussions on familiar topics; understand descriptive or narrative monologues or presentations on generally familiar and relevant topics. Students will learn to participate in routine social conversations for everyday purposes; give sequential instructions and directions for everyday activities and processes; give and respond to informal and formal suggestions and indirect requests; ask for and give information in some detail; express opinions, feelings, obligation, ability, and certainty one-on-one and in small group discussions or meetings; give detailed presentations about sequences of events and incidents in the past, present, or future; describe simple processes, or describe or compare things such as people or places.

LINC1618 - CLB 6 Listening and Speaking

8 credits (200:0:0 hours)

This course will help students understand common social exchanges; understand moderately complex directions and instructions for technical or non-technical tasks; understand moderately complex

communication intended to influence or persuade in everyday personally relevant situations; understand short group interactions and discussions on familiar topics; understand descriptive or narrative monologues or presentations on generally familiar and relevant topics. Students will learn to participate in routine social conversations for everyday purposes; give sequential instructions and directions for everyday activities and processes; give and respond to informal and formal suggestions and indirect requests; ask for and give information in some detail; express opinions, feelings, obligation, ability, and certainty one-on-one and in small group discussions or meetings; give detailed presentations about sequences of events and incidents in the past, present, or future; simple processes, or descriptions or comparisons of things such as people or places.

LINC1624 - CLB 6 Reading and Writing - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand moderately complex social messages, instructions, and instructional texts for multistep procedures, understand information from formatted texts, business and service texts containing advice, requests, or detailed specifications; understand descriptive or narrative texts on familiar topics; interpret information contained in formatted texts; access, locate, and compare two or three pieces of information from online reference sources. Students will learn to convey personal messages in short, formal, and informal correspondence for an expanding range of everyday social purposes; reduce short, factual oral discourse to notes or messages; reduce a page of information to an outline or summary; write short business or service correspondence for routine purposes, complete forms requiring detailed personal information; write one or two connected paragraphs to relate a familiar sequence of events, a story, a detailed description, or a comparison of people, things, routines, or simple procedures.

LINC1628 - CLB 6 Reading and Writing

8 credits (200:0:0 hours)

This course will help students understand moderately complex social messages, instructions, and instructional texts for multistep procedures, information from formatted texts; business or service texts containing advice, requests, or detailed specifications; understand descriptive or narrative texts on familiar topics; interpret information contained in formatted texts; access, locate, and compare two or three pieces of information from online reference sources. Students will learn to convey personal messages in short, formal, and informal correspondence for an expanding range of everyday social purposes; reduce short, factual oral discourse to notes or messages; reduce a page of information to an outline or summary; write short business or service correspondence for routine purposes, complete forms requiring detailed personal information; write one or two connected paragraphs to relate a familiar sequence of events, a story, a detailed description, or a comparison of people, things, routines, or simple procedures.

LINC1714 - CLB 7 Listening and Speaking - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand moderately complex social exchanges; directions and instructions for technical or non-technical tasks; communication intended to influence or persuade in situations related to personal or general experiences; short group interactions, discussions, and meetings on generally familiar topics; extended descriptive or narrative monologues or presentations about personal experiences, general knowledge, or familiar work-related topics, even when some information is presented out of sequence. Students will learn to participate in less routine social conversations for many everyday purposes; participate in routine phone calls; give instructions and directions for technical and nontechnical tasks, procedures, and processes; give extended warnings, suggestions, recommendations, or advice; express and qualify opinions and feelings; express reservations, approval, disapproval, possibilities, and probabilities one-on-one and in small group discussions or meetings; give presentations about moderately complex processes to tell stories or to describe, compare, and contrast in detail two events, jobs, or procedures.

LINC1718 - CLB 7 Listening and Speaking

8 credits (200:0:0 hours)

This course will help students understand moderately complex social exchanges; understand directions and instructions for technical or non-technical tasks; understand communication intended to influence or persuade in situations related to personal or general experiences; understand short group interactions, discussions, and meetings on generally familiar topics; understand extended descriptive or narrative monologues or presentations about personal experiences, general knowledge, or familiar work-related topics, even when some information is presented out of sequence. Students will learn to participate in less routine social conversations for many everyday purposes; participate in routine phone calls; give instructions and directions for technical and nontechnical tasks, procedures, and processes; give extended warnings, suggestions, recommendations or advice; express and qualify opinions and feelings; express reservations, approval, disapproval, possibilities, and probabilities one-on-one and in small group discussions or meetings; give presentations about moderately complex processes, tell stories, or describe, compare, and contrast in detail two events, jobs, or procedures.

LINC1724 - CLB 7 Reading and Writing - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand moderately complex personal and public social messages; understand moderately complex instructions and instructional texts for multistep procedures related to familiar tasks, which may be specialized or technical; locate and use three or four pieces of information from moderately complex formatted texts; get information from moderately complex business and service texts containing assessments, evaluations, and advice; understand moderately complex extended descriptions, reports and narrations on familiar topics; interpret information contained in moderately complex formatted texts; access, locate, and integrate information from online reference sources. It will also help students learn to convey personal messages in formal and informal correspondence for an expanding range of social purposes; reduce short oral discourse to notes; reduce a text of up to about two pages to an outline or summary; write business or service correspondence

COURSE DESCRIPTIONS

for a range of routine and less routine purposes; complete extended forms requiring detailed personal information; write two or three connected paragraphs to relate a familiar sequence of events, make a comparison, or provide a detailed description of a person, system, routine, or procedure.

LINC1728 - CLB 7 Reading and Writing

8 credits (200:0:0 hours)

This course will help students understand moderately complex personal and public social messages; understand moderately complex instructions and instructional texts for multistep procedures related to familiar tasks, which may be specialized or technical; locate and use three or four pieces of information from moderately complex formatted texts; get information from moderately complex business and service texts containing assessments, evaluations, and advice; understand moderately complex extended descriptions, reports, and narrations on familiar topics; interpret information contained in moderately complex formatted texts; access, locate, and integrate information from online reference sources. It will also help students learn to convey personal messages in formal and informal correspondence for an expanding range of social purposes; reduce short oral discourse to notes; reduce a text of up to about two pages to an outline or summary; write business or service correspondence for a range of routine and less routine purposes; complete extended forms requiring detailed personal information; write two or three connected paragraphs to relate a familiar sequence of events, make a comparison, or provide a detailed description of a person, system, routine, or procedure.

LINC1814 - CLB 8 Listening and Speaking - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand moderately complex social exchanges; understand extended multistep directions or instructions for technical or non-technical tasks; understand communication intended to influence or persuade in situations related to personal decisions or to work-related issues in their own field; understand group interactions about abstract and complex ideas on familiar topics; understand extended monologues or presentations on topics that are generally familiar and related to general knowledge or technical/work-related issues in their own field. Students will learn to participate in less routine social conversations for most everyday purposes; participate in brief professional phone calls; give instructions and directions for a broad range of technical and non-technical tasks, procedures, and processes; propose or recommend solutions to problems in a familiar area; give detailed information; express and qualify opinions or concerns; present solutions and options; indicate opposition or support for a stand in one-on-one interactions and small group discussions or meetings; give presentations to describe and explain structures, systems, or processes based on research.

LINC1818 - CLB 8 Listening and Speaking

8 credits (200:0:0 hours)

This course will help students understand moderately complex social exchanges; understand extended multistep directions or instructions

for technical or non-technical tasks; understand communication intended to influence or persuade in situations related to personal decisions or to work-related issues in own field; understand group interactions about abstract and complex ideas on familiar topics; understand extended monologues or presentations on topics that are generally familiar and related to general knowledge or technical or work-related issues in their own field. Students will learn to participate in less routine social conversations for most everyday purposes; participate in brief professional phone calls; give instructions and directions for a broad range of technical and non-technical tasks, procedures, and processes; propose or recommend solutions to problems in a familiar area; give detailed information; express and qualify opinions or concerns; present solutions and options; indicate opposition or support for a stand in one-on-one interactions and small group discussions or meetings; give presentations to describe and explain structures, systems, or processes based on research.

LINC1824 - CLB 8 Reading and Writing - 4 Credit

4 credits (100:0:0 hours)

This course will help students understand moderately complex social messages; understand extended, moderately complex, multistep instructions and instructional texts for established (set) procedures related to specialized tasks; locate, integrate, and use three or four pieces of information from moderately complex formatted texts; get information from moderately complex business and service texts containing proposals, recommendations, and statements of rules, regulations, or policies; understand moderately complex extended descriptions, feature articles, reports and narrations; interpret information contained in moderately complex formatted texts; access, locate, and integrate several pieces of information from relevant online reference sources. Students will learn to convey personal messages in formal and informal correspondence; reduce oral discourse about established procedures into notes that can be used to write instructions; reduce a text of up to about two pages to an outline or summary; write business or service correspondence for an expanding range of purposes; complete an expanded range of forms, including extended application forms and workplace forms with preset formats; write three or four connected paragraphs to relate a historical event, provide a detailed description of a phenomenon, explain a procedure, or express and analyze opinions on a familiar abstract topic; write a paragraph to explain information in a table, graph, flow chart, or diagram.

LINC1828 - CLB 8 Reading and Writing

8 credits (200:0:0 hours)

This course will help students understand moderately complex social messages; understand extended, moderately complex, multistep instructions and instructional texts for established (set) procedures related to specialized tasks; locate, integrate and use three or four pieces of information from moderately complex formatted texts; get information from moderately complex business/service texts containing proposals, recommendations and statements of rules, regulations, or policies; understand moderately complex extended descriptions, feature articles, reports, and narrations; interpret information contained in moderately complex formatted texts; access, locate, and integrate several pieces of information from

relevant online reference sources. Students will learn to convey personal messages in formal and informal correspondence; reduce oral discourse about established procedures into notes that can be used to write instructions; reduce a text of up to about two pages to an outline or summary; write business or service correspondence for an expanding range of purposes; complete an expanded range of forms, including extended application forms and workplace forms with pre-set formats; write three or four connected paragraphs to relate an historical event, provide a detailed description of a phenomenon, explain a procedure, or express and analyze opinions on a familiar abstract topic; write a paragraph to explain information in a table, graph, flow chart, or diagram.

LINC2032 - LINC Alternate Delivery Prep - 2 Credit

2 credits (50:0:0 hours)

Learn the English alphabet, numbers, and basic vocabulary. Practise basic personal questions, greetings, and classroom words. Study health and body language, and words for feelings, colours, and clothing. Use basic vocabulary in many different developmental activities.

LINC2034 - LINC Alternate Delivery Prep

4 credits (100:0:0 hours)

Learn the English alphabet, numbers, and basic vocabulary. Practise basic personal questions, greetings, and classroom words. Study health and body language, and words for feelings, colours, and clothing. Use basic vocabulary in many different developmental activities.

LINC2132 - LINC Alternate Delivery 1 - 2 Credit

2 credits (50:0:0 hours)

Share your personal experiences in English. Learn English vocabulary from the following themes: personal identification, numbers, money, time, directions, house and home, emotions, colours, weather, family, and clothing. Practise your listening and speaking. Learn to use basic grammar. Learn how to ask for help, answer the phone, talk to health-care workers, and use English for everyday needs.

LINC2134 - LINC Alternate Delivery 1

4 credits (100:0:0 hours)

Share your personal experiences in English. Learn English vocabulary from the following themes: personal identification, numbers, money, time, directions, house and home, emotions, colours, weather, family, and clothing. Practise your listening and speaking. Learn to use basic grammar. Learn how to ask for help, answer the phone, talk to health-care workers, and use English for everyday needs.

LINC2232 - LINC Alternate Delivery 2 - 2 Credit

2 credits (50:0:0 hours)

Learn to read a variety of texts. Improve your grammar and vocabulary for daily living and/or work. Use correct grammar structures and learn to write simple compositions and reports. Practise your reading, listening, and speaking skills.

LINC2234 - LINC Alternate Delivery 2

4 credits (100:0:0 hours)

Learn to read a variety of texts. Improve your grammar and vocabulary for daily living and/or work. Use correct grammar structures and learn to write simple compositions and reports. Practise your reading, listening, and speaking skills.

LINC2332 - LINC Alternate Delivery 3 - 2 Credit

2 credits (50:0:0 hours)

Discuss interesting topics based on real-life situations. Learn to use more challenging sentence structures when you speak and write. Improve your speaking by practising dialogues, playing language games, and giving oral presentations in class. Improve your comprehension by listening to the radio, watching films, analyzing the news, and reviewing assignments. Improve your reading by learning to identify the main ideas and to skim, scan, and predict vocabulary meaning from context. Learn to use correct structures, accurate spelling, and correct punctuation as you write messages, reports, and compositions.

LINC2334 - LINC Alternate Delivery 3

4 credits (100:0:0 hours)

Discuss interesting topics based on real-life situations. Learn to use more challenging sentence structures when you speak and write. Improve your speaking by practising dialogues, playing language games, and giving oral presentations in class. LINC3032 - LINC Comprehensive - 2 Credit

2 credits (50:0:0 hours)

This course is to meet the language learning needs of newcomers unable to attend full-time classes. The course can be a mix of face-to-face, synchronous, and asynchronous learning. Students are expected to study a minimum of 6 hours each week.

LINC3034 - LINC Comprehensive - 4 Credit

4 credits (100:0:0 hours)

This course is to meet the language learning needs of newcomers unable to attend full-time classes. The course can be a mix of face-to-face, synchronous, and asynchronous learning. Students are expected to study a minimum of 6 hours each week.

LINC3038 - LINC Comprehensive - 8 Credit

8 credits (200:0:0 hours)

This course is to meet the language learning needs of newcomers unable to attend full-time classes. The course can be a mix of face-to-

face, synchronous, and asynchronous learning. Students are expected to study a minimum of 12.5 hours each week.

LINC4044 - LINC American Sign Language (ASL) - 8 Credit

8 credits (200:0:0 hours)

Students in this class will be taught American Sign Language (ASL). This class will focus on expressive and receptive ASL skills (equivalent to speaking and listening). After learning ASL expressive and receptive skills, students will further their language development by focusing on English reading and writing skills.

LPNC1000 - Practical Nurse Refresher Challenge

9 credits (90:45:0 hours)

This is a challenge course comprised of up to 13 nursing courses depending on your credential assessment. You will be awarded advanced credits for those courses in which you demonstrate competence by achieving a grade of 60% or greater.

MAT1791 - Mathematics 10C

5 credits (125:0:0 hours)

Mathematics 10-C is the introductory course for high school mathematics. Topics include measurement, trigonometry, polynomial factoring, exponents, and relations and functions. This course prepares students to enter the -1 and -2 sequences of high school mathematics.

MAT1793 - Mathematics 10-3

5 credits (125:0:0 hours)

Mathematics 10-3 is the introductory high school mathematics course for the -3 sequence of courses. Topics include trigonometry, geometry, polygons, metric and imperial conversions, and financial math. This course prepares students to enter the workplace and trade-related careers.

MAT2791 - Mathematics 20-1

5 credits (125:0:0 hours)

The Math -1 route is designed to prepare students for post-secondary programs that require advanced math skills or calculus. Topics include sequences and series, trigonometry, quadratics, rational expressions, radical expressions, absolute value and reciprocal functions, systems of equations, and inequalities.

MAT2792 - Mathematics 20-2

5 credits (125:0:0 hours)

The Math -2 route is designed to prepare students for diverse post-secondary programs in health, arts, business, and technologies. Topics include inductive and deductive reasoning, properties of angles and triangles, trigonometry, radicals, quadratic functions, quadratic

COURSE DESCRIPTIONS

equations, and proportional reasoning.

MAT2793 - Mathematics 20-3

5 credits (125:0:0 hours)

The Math -3 route is designed to prepare students for trades or workplace training. Topics include slope and rate of change, graphical representations, surface area, volume, capacity, right triangle trigonometry, scale representations, finance, and personal budgets.

MAT3211 - Mathematics 31

5 credits (125:0:0 hours)

Study calculus and prepare for engineering or science-related programs at university or technical institutes. Work with functions, secants, tangents, derivatives, limits, curve sketching, anti-derivatives, areas, and integrals.

MAT3791 - Math 30-1

5 credits (125:0:0 hours)

The Math -1 route is designed to prepare students for post-secondary programs that require advanced math skills or calculus. Topics include trigonometry, transformations, exponential, logarithmic, polynomial, radical functions and equations along with permutations, combinations and the binomial theorem.

MAT3792 - Math 30-2

5 credits (125:0:0 hours)

The Mathematics -2 route is designed to prepare students for diverse post-secondary programs in health, arts, business, and technologies. Topics include logical reasoning, probability, and fundamental counting principle and rational, trigonometric, polynomial, exponential, and logarithmic functions and equations.

MAT3793 - Math 30-3

5 credits (125:0:0 hours)

The Mathematics -3 route is designed to prepare students for trade or workplace training. Topics include measurement, trigonometry, transformations, linear relations, linear equations, statistics, probability, finance, and personal budgets.

MATH1004 - Apprenticeship Prep Math

8 credits (120:0:0 hours)

Develop your practical math skills to the level required for Alberta apprenticeship.

MATH1005 - Core Numeracy

2 credits (48:0:0 hours)

Develop basic competency in various types of measurement. Perform

whole-number operations and use a calculator to check your work. Demonstrate the skills you already have, and add to your skill set. Make a plan for using compensating strategies as needed.

MATH1006 - Functional Numeracy

2 credits (48:0:0 hours)

Develop basic competency in counting, telling time, and handling cash. Perform whole-number operations and use a calculator to check your work. Demonstrate the skills you already have, and add to your skill set. Make a plan for using compensating strategies as needed.

MATH1007 - Prep for Practical Nurse Math

3 credits (75:0:0 hours)

This online math course is designed for learners planning to enter the Practical Nurse program. The course focuses on the math skills students need to be successful in the PN program and the health-care workplace.

MATH1008 - Math Works

4 credits (88:0:0 hours)

Develop basic competency in counting, telling and notation of time, handling cash, notation of money, and measuring and measurement notation. Perform whole-number operations. Use a calculator to check your work and to do money math. Demonstrate the skills you already have, and add to your skill set. Make a plan for compensating as needed. Consider the application of these skills to work and community life.

MATH1010 - Pre-Trades Math and Science

5 credits (125:0:0 hours)

Develop your practical math skills to the level required for Alberta apprenticeship. Learn the science skills you need to prepare for the technical instruction required in any trade. Prepare for the Trades Entrance Examinations levels 1-4.

MATH1019 - Essential Math Flex

3 credits (0:75:0 hours)

This is a whole numbers course. Concepts covered include whole number addition, subtraction, multiplication, division, and place value.

MATH1100 - Math Skills 1A

4 credits (88:0:0 hours)

Review numbers and learn place value. Practise adding, subtracting, and multiplying whole numbers. Solve word problems and learn math vocabulary.

MATH1101 - Math Skills 1B

4 credits (88:0:0 hours)

This course is a math refresher for those who know the basic facts. Review multiplication and division operations, and gain an introduction to fractions.

MATH1190 - Pre-Trades Math and Science

3 credits (65:0:0 hours)

This continuing education pre-trades course is designed for people who have submitted an application for apprenticeship and wish to improve their understanding of math and science, or those who have written the apprenticeship exam but scored between 45% and 65% on the exam.

MATH1200 - Math Skills 2

4 credits (88:0:0 hours)

Review whole numbers. Learn about fractions and decimals.

MATH1201 - Pure Math 30 Prep

5 credits (125:0:0 hours)

Prepare for Pure Math 30 and Math 31. Learn about polynomials (factoring, functions, and equations), linear functions, systems of equations, relations and functions, quadratic equations and functions, rationals, exponents, radicals, and trigonometry.

MATH1202 - Math Independent Study

1 credit (0:0:24 hours)

This individualized math program is designed for Adult Literacy students. Units of study may range from basic literacy math to pre-high school math. The units that each student takes will be based on that student's individual needs.

MATH1290 - Pre-Algebra 1 - 100

4 credits (100:0:0 hours)

Learn the basics of addition, subtraction, multiplication, and division of fractions and decimals. Review whole numbers, fractions, and decimals.

MATH1390 - Pre-Algebra Flex

3 credits (0:75:0 hours)

Learn the basics of ratios and proportions, percents, measurement, and graphing to prepare for academic math. This course includes signed numbers, equations, ratio, percent, proportion, and measurement.

MATH1490 - High School Prep Math Flex

3 credits (0:75:0 hours)

Prepare for Mathematics 10C. Topics include number systems, exponent laws, solving linear equations, word problems, polynomials

(operations), measurement, and a unit on shape and space.

MATH1501 - Pre-Trades Math and Science Preparation Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to focus on improving the math and science skills required to pass the apprenticeship exam. Students will also practice simulated trade exams to help them feel more comfortable with a timed testing environment.

MATH1502 - Pre-Algebra Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to study the math skills required for algebra based courses. Topics include integers, signed fractions and decimals, ratios, proportions and measurement. This course prepares students for further math studies in Apprenticeship, GED and High School Math Preparation.

MATH1503 - High School Math Prep Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to study the basic algebra skills required for high school mathematics courses. Topics include number systems, rational numbers, algebraic expressions and equations, problem solving, exponent laws, geometry and measurement. Successful completion of this course allows students to progress to Math 10C.

MATH1504 - Prep for Practical Nurse Math Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to enter into health related diploma programs. The course focuses on the required math skills needed to be successful in the PN program and the health-care workplace. Successful completion of the course meets the pre-requisite math requirement for the Practical Nurse Diploma program at NorQuest College.

MATH1505 - Essential Mathematics Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to study math concepts related to whole numbers. Topics include whole number addition, subtraction, multiplication, division and place value. Successful completion of this course allows students to progress on to Pre-Algebra.

MATH1521 - Pre-Trades Math and Science Preparation Foundations

COURSE DESCRIPTIONS

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to focus on developing the math and science skills they need to pass the apprenticeship exam. Students will also practise simulated trade exams to help them feel more comfortable in a timed testing environment.

MATH1522 - Pre-Algebra Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to develop the mathematics skills they need for algebra-based courses. Topics include integers, signed fractions and decimals, ratios, proportions, and measurement. This course prepares students for further math studies in Apprenticeship, GED, and High School Math Preparation.

MATH1523 - High School Math Prep Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to study the basic algebra skills required for high school mathematics courses. Topics include number systems, rational numbers, algebraic expressions and equations, problem solving, exponent laws, geometry and measurement. Successful completion of this course allows students to progress to Math 10C.

MATH1524 - Prep for Practical Nurse Math Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format assists students to prepare for entry into health-related diploma programs. Students focus on developing the math skills they need to be successful in the PN program and the health-care workplace. Successful completion of the course gives students the mathematics prerequisite needed for entry into the Practical Nurse Diploma program at NorQuest College.

MATH1525 - Essential Mathematics Foundations

3 credits (75:0:0 hours)

Delivered in partnership with community centres, this flexible learning format allows students to study mathematics concepts related to whole numbers. Topics include whole number addition, subtraction, multiplication, division, and place value. Successful completion of this course allows students to progress to Pre-Algebra.

MATH1903 - Essential Math

5 credits (100:25:0 hours)

Become familiar with basic math skills. Review operations with whole numbers. Study basic fractions, decimals, word problems, and math vocabulary.

MATH1904 - Pre-Algebra

5 credits (100:25:0 hours)

Study the math skills required for algebra-based courses. Topics include integers, signed decimals, signed fractions, ratios, proportions, percent, and measurement. Prepare for the Apprenticeship Prep program or the High School Prep Math course.

MATH1905 - High School Prep Math

5 credits (125:0:0 hours)

Study the basic algebraic skills required for high school mathematics courses. Topics include number systems, rational numbers, algebraic expressions, patterns and equations, problem solving, exponential laws, measurement, shape and space, graphing, and geometry.

MATH3301 - Math 030-1

5 credits (125:0:0 hours)

The Mathematics -1 route is designed to prepare students for post-secondary programs that require advanced math skills or calculus. Topics include trigonometry, transformations, and exponential, logarithmic, polynomial, and radical functions and equations, along with permutations, combinations, and the binomial theorem.

MATH3302 - Math 030-2

5 credits (125:0:0 hours)

The Mathematics -2 route is designed to prepare students for diverse post-secondary programs in health, arts, business, and technologies. Topics include logical reasoning, probability, fundamental counting principle, and rational, trigonometric, polynomial, exponential, and logarithmic functions and equations.

MATH3303 - Math 030-3

5 credits (125:0:0 hours)

The Mathematics -3 route is designed to prepare students for trades or workplace training. Topics include measurement, trigonometry, transformations, linear relations, linear equations, statistics, probability, finance and personal budgets.

MATH3310 - Math 031

5 credits (125:0:0 hours)

Study calculus and prepare for engineering or science-related programs at university or technical institutes. Work with functions, secants, tangents, derivatives, limits, curve sketching, anti-derivatives, areas, and integrals.

MATH9089 - Math 089

3 credits (75:0:0 hours)

Acquire the mathematical skills you need for college-level math

courses. Study simple algebra and equations, measurement, and percents. Review whole numbers, fractions, decimals, ratio, percent, and proportions. Study measurement and simple algebra and equations. Prerequisite: Placement test or a letter from MacEwan College.

MEDA1001 - Medication Administration: Intramuscular and Intradermal Injections

1 credit (15:0:0 hours)

Acquire the knowledge and skills to safely administer medications to clients who require medication or treatments via the intramuscular or intradermal route.

MENH1000 - Introduction to Mental Health

3 credits (45:0:0 hours)

Focus on the Alberta health-care system, the roles of the members of the mental health team, and the role of the mental health rehabilitation worker (MHRW). Learn about the clients' rights and explore ethical dilemmas and professional boundaries in the mental health workplace as they relate to the role of the mental health rehabilitation worker.

MHAD1004 - Recovery Practitioner Skills

2 credits (20:10:0 hours)

Develop knowledge and skills based on evidence-informed practice, guidelines and procedures that are required in the facilitating role of a Mental Health Recovery Practitioner. Develop knowledge and skills for working in a recovery-oriented practice environment with individuals experiencing mental health and/or substance use disorders. Emphasis will be on applying knowledge and skills needed for engaging with clients for the purpose of effective identification, assessment, preliminary diagnosis, referral, case planning, treatment and evaluation of client progress. These skills will be practiced in the lab.

MHAD1005 - Issues and Ethics

2 credits (30:0:0 hours)

Explore codes of ethics and professional standards from various disciplines within the context of caring for clients with mental health and substance use issues. Consider ways to collaborate on interdisciplinary teams to best support positive client outcomes. Examine rights and supports for client advocacy and self-advocacy.

MHAD1006 - Systems Navigation

2 credits (30:0:0 hours)

Examine the range and variety of public and private resources available to support individuals and families dealing with mental health and substance use issues. The role of worker-as-navigator will be explored along with advocacy methodologies and the challenges of practice in a regularly-changing environment.

MHAD1007 - Mental Health First Aid

1 credit (15:0:0 hours)

This course will provide you with certification from Mental Health First Aid Canada. Learn to recognize signs and symptoms of mental health issues, initiate responses when help is needed and support a person to get appropriate professional help. Find more details at www.mentalhealthfirstaid.ca

MHAD1008 - Non Violent Crisis Intervention

1 credit (15:0:0 hours)

This course will provide you with certification in non-violent crisis intervention from the Crisis Prevention Institute (www.crisisprevention.com). Learn physical and non-physical methods to manage disruptive behavior and maintain safety for yourself and others. Last resort skills to use in imminent danger will also be included.

MHAD1009 - Applied Suicide Intervention Skills Training

1 credit (15:0:0 hours)

This course will provide you with certification in Applied Suicide Intervention Skills Training (ASIST). This training is designed to help participants recognize and assess risk and intervene to prevent the immediate risk of suicide. (www.livingworks.net/programs/asist/).

MHAD1010 - Community Service Learning

1 credit (15:0:0 hours)

In this course, students will undertake a project of relevance and benefit to a community program or agency. Projects may include a survey or research project, an educational or preventative campaign, or an administrative services project.

Prerequisites: MHAD 1004, MHAD 1005, and MHAD 1006

MHNL1000 - Mental Health Nursing for LPNs

4 credits (30:0:0 hours)

Examine care based on best-evidence related to clients and their families as they adjust to changes in functioning associated with mental health issues and related treatments. Build upon previous knowledge and related theory in adapting the nursing approach to the care and health promotion of mental health clients and their families. This course places the learner in a two-day observation experience within a mental health environment.

MHRP1000 - Framework for Mental Health in Canada

2 credits (30:0:0 hours)

Learn about the effects of local, provincial/territorial and national health systems and social systems on the provision of services to individuals with mental health or substance use issues. Legislation relating to information privacy, mental health, substance use, criminal

COURSE DESCRIPTIONS

and family law, and the delivery of services will be reviewed. Initiatives to improve outcomes of individuals experiencing mental health or substance use crisis will be explored. Examine personal and professional ethical and regulatory frameworks for practice.

MHRP1001 - Mental Health and the Family

2 credits (20:10:0 hours)

Explore how mental illness affects family dynamics and ways in which the family can assist in recovery. The client's 'family' may be broadly defined. Health promotion, strengths-based approaches, and family-related social determinants of health are considered. A family's culture is highlighted in determining the best approach to helping. Practice assessment skills for clients and their families in the lab.

MHRP1002 - Effective Communication Approaches

2 credits (20:10:0 hours)

Build upon basic skills for effective communication with clients, families, communities, coworkers and interdisciplinary teams. The importance of communication in developing relationships will be emphasized, including the need for cultural sensitivity and competence. Goal attainment, problem-solving, psychoeducation and conflict resolution processes in communication will be practiced in the lab.

MHRP1003 - Practicum Placement

2 credits (0:0:120 hours)

This supervised practicum placement provides the opportunity to connect theory and practice in a mental health setting. Students will be placed within a community agency or institution to meet identified learning goals, experience a potential career path, and confirm or modify area(s) of interest.

Prerequisites: MHAD 1004, MHAD 1005, MHAD 1006, and MHAD 1010

MPRT1001 - Mental Health Rehabilitation: Practicum I

8 credits (0:0:240 hours)

During this six-week (30-day) practicum opportunity, you will be introduced to a mental health setting, as you work under the supervision of a mental health professional and learn the role of the MHR certificate graduate. Throughout this experience, you will demonstrate an understanding of assisting clients with activities of daily living and observing, reporting, and recording client behaviours. You will assist the team with treatments and procedures in accordance with the clients' care plans. Professionalism and team communication skills are emphasized.

Prerequisite: All Mental Health Rehabilitation certificate theory and lab courses

MPRT2001 - Mental Health Rehabilitation: Practicum II

8 credits (0:0:240 hours)

During this six-week (30-day) practicum opportunity, you will be introduced to a mental health setting and the role of the diploma graduate in providing services to clientele. Throughout this experience, you will work on leadership skills while continuing to demonstrate an understanding of assisting with treatments and procedures; attending to the personal needs of clients; providing health maintenance and hygiene services; observing, reporting, and recording client behaviours; escorting residents going to off-unit programs, activities, and appointments; and teaching daily living skills under the supervision of a mental health professional. Professionalism and team communication skills are emphasized.

Prerequisite: All Mental Health Rehabilitation diploma theory and lab courses

MRMA1000 - Math Refresher for Medication Administration

1 credit (15:0:0 hours)

Enhance your skills with this comprehensive review of basic mathematical calculations. Discuss the use of basic math calculations for medication administration, and review the formula for medication administration.

NASO1000 - Nasogastric Tube Insertion

1 credit (15:0:0 hours)

Acquire the knowledge and skills to safely insert, maintain, and remove a nasogastric tube. As well as the use of nasogastric tubes for oral medication administration and tube feedings, you will learn nursing assessments and the roles and responsibilities of the LPN in relation to nasogastric intubation.

NCOM1000 - Communications for Nursing

3 credits (45:0:0 hours)

Examine the fundamentals of communication and the development of interpersonal, therapeutic nurse-patient, and professional relationships with members of the interdisciplinary health-care team. Examine factors that influence our ability to communicate effectively and discover communication strategies that can improve our interactions with others. Discover the connections between effective communication, patient safety, and safe, high-quality care. Learn about theories related to communication climates, groups, teams, conflict and conflict management, and intimidation behaviour.

NFDN1001 - Nursing Foundations I: Introduction to Nursing

4 credits (45:15:0 hours)

This first nursing foundations course of the Practical Nurse diploma program introduces several concepts and processes that will be further developed and applied throughout the program. The course introduces the learner to nursing by exploring health care in Canada, the history of nursing, and the evolving role of the practical nurse. Values, ethics, legalities, and legislation that affect nursing practice in

Alberta are also introduced. The learner will relate the roles and responsibilities of the practical nurse to the direction of the professional association and standards of nursing practice. The nursing metaparadigm and nursing theory are explained as major concepts in nursing. Learners explore the holistic approach to client-centred care. Critical thinking skills are developed as the learner applies nursing knowledge to the delivery of safe, quality nursing care.

Co-requisites: HEAS 1000, HEED 1000 & NCOM 1000

NFDN1002 - Nursing Foundations II: Basic Nursing

7 credits (45:60:0 hours)

This second nursing foundations course builds on the theory and skills learned in Semester I, with a focus on the client and the nurse-client relationship. The primary purpose of this course is to prepare the student practical nurse for the continuing care practicum. Topics include the metaparadigm of nursing, safety, professionalism, and leadership, but the focus shifts from the applying these concepts to self to applying them to the client. Emphasis will be placed on using the nursing process, demonstrating critical thinking, applying the concept of self-care, and setting priorities. Students will develop nursing care plans tailored to client needs and will demonstrate effective documentation, mathematical calculations, communication, and client-teaching skills. In the lab setting, students will apply theory, practise skills, and competently perform the selected nursing skills required for the continuing-care practicum.

Prerequisites: HEAS 1000 & NFDN 1001 Co-requisite: PHAR 1000

NFDN2003 - Nursing Foundations III: Medical-Surgical Nursing

9 credits (45:90:0 hours)

This nursing course focuses on nursing care and related skills based on evidence-informed medical-surgical nursing practice. The learner builds upon previous nursing knowledge and related theory in adapting the nursing approach to the care of the medical-surgical client using the nursing metaparadigm and the nursing process. The learner continues to develop leadership skills through the experience of mentorship. A laboratory component is included in which learners apply theory and practise nursing skills related to medical-surgical nursing, including parenteral medication administration.

Prerequisite: NFDN 1002

NFDN2004 - Nursing Foundations IV: Maternity Nursing

3 credits (45:0:0 hours)

This course introduces the learner to the childbearing family and the practical nurse's role in promoting, restoring, and maintaining the health of the maternity client and her family. The learner will apply knowledge of the nursing process and the four concepts of the nursing metaparadigm to the care of the expectant family before, during, and after the birth of the baby. The learner will build upon previous nursing knowledge and related theory in adapting the nursing approach to the care and health promotion of the child-bearing family

and learn how assessment of family strengths, coping abilities, and life experiences are key to the practical nurse's role in health promotion. The learner will apply the collaborative interdisciplinary team approach to maternity care. New developments in maternal and newborn care will be examined as trends and issues in maternity care are addressed.

Prerequisites: NFDN 2003, NPRT 1001 & PSYC 1060 Co-requisite: SOCI 1000 PN Refresher Prerequisites: NFDN 2003 & PSYC 1060 PN Refresher Co-requisite: SOCI 1000

NFDN2005 - Nursing Foundations V: Pediatric Nursing

3 credits (45:0:0 hours)

This course builds on previous nursing knowledge and related theory and assists the student in adapting nursing care for pediatric clients and their families through the use of the nursing metaparadigm, nursing process, and growth and development theories. Theoretical concepts of assessment of the pediatric client related to growth and development are introduced. Pathophysiology, nursing care, communication, and health-teaching techniques specific to pediatric clients and their family are discussed.

Prerequisites: NFDN 2003, NPRT 1001 & PSYC 1060 Co-requisite: SOCI 1000 PN Refresher Prerequisites: NFDN 2003 & PSYC 1060 PN Refresher Co-requisite: SOCI 1000

NFDN2006 - Nursing Foundations VI: Community Nursing

3 credits (45:0:0 hours)

This nursing course examines family and community theory, assisting the learner to acquire the knowledge and skill required to promote the health and well-being of families within the community. The course emphasizes the importance of collaboration among the interdisciplinary health-care team, families, and communities to achieve safe, evidence-informed community nursing practice. The learner will build upon previous nursing knowledge and related theory in adapting the nursing approach to the care and health promotion of the family and community using a nursing metaparadigm and nursing process. Trends and issues in the care of families and communities will also be explored.

Prerequisites: NFDN 2003, NPRT 2101 & NPRT 2102 Co-requisite: SOCI 1000 PN Refresher Prerequisite: NFDN 2003 PN Refresher Co-requisite: SOCI 1000

NFDN2007 - Nursing Foundations VII: Mental Health Nursing

3 credits (45:0:0 hours)

This nursing course explores legal and ethical considerations and social stigmas related to mental health disorders. The learner will examine evidence-informed mental health nursing practice for clients and their families as they adjust to changes in functioning associated with mental health issues and related treatments. The learner will build upon previous knowledge and related theory in adapting the nursing

COURSE DESCRIPTIONS

approach to the care and health promotion of mental health clients and their families using the metaparadigm of nursing and nursing process. Trends and issues in mental health nursing will also be explored.

Prerequisites: NFDN 2003, PSYC 1060, SOCI 1000, NCOM 1000, NPRT 2101 & NPRT 2102 PN Refresher Prerequisites: NFDN 2003, PSYC 1060, SOCI 1000, & NCOM 1000

NFDN2008 - Nursing Foundations VIII: Transition to Graduate Nursing

3 credits (45:0:0 hours)

The final theory course of the program prepares the learner for the transition from student to graduate practical nurse. The learner will explore working within the parameters of a health-care organization, labour relations, and the professional association. The learner will also study concepts surrounding power, empowerment, contributing to successful teams, types of management and leadership styles, professional development, continued competence, lifelong learning, and quality improvement, all of which contribute to becoming a professional practical nurse in today's health-care field.

Prerequisites: NFDN 2004, NFDN 2005, NPRT 2101 & NPRT 2102 Co-requisites: NFDN 2006 & NFDN 2007 PN Refresher Prerequisites: NFDN 2004 & NFDN 2005 PN Refresher Co-requisites: NFDN 2006 & NFDN 2007

NPRT1001 - Nursing Practice I: Continuing Care Practice

5 credits (0:0:145 hours)

This nursing practice course provides opportunities for the learner to gain experience as a member of the interdisciplinary health-care team by providing safe, holistic, and evidence-informed nursing care in a continuing care setting, following the standards of practice for a practical nurse.

Prerequisites: NCOM 1000, PHAR 1000, NFDN 1002 & HEED 1000

NPRT2003 - Nursing Practice III: Focused Practice

3 credits (0:0:105 hours)

This course provides the opportunity for the learner to integrate program knowledge, skills, attitudes, and judgements into the role of the practical nurse in a specialized practice environment. The learner will apply accumulated knowledge and skills in a clinical experience involving three weeks of instructor-supervised or preceptored clinical practice in one of the following settings: community, rural, maternity, pediatric, or mental health.

Prerequisites: NFDN 2004, NFDN 2005, NFDN 2006, NFDN 2007, NFDN 2008, NPRT 2101 & NPRT 2102

NPRT2004 - Nursing Practice IV: Comprehensive Practice

4 credits (0:0:140 hours)

This final course of the program provides the opportunity for the learner to integrate knowledge, skills, attitudes, and judgments to make the transition from the role of student to that of graduate practical nurse. The learner will apply learned competencies during a four-week, preceptored clinical practice experience in which the student will assume the anticipated roles of a graduate practical nurse. The focus of this course is to provide a placement opportunity to allow students to integrate medical-surgical generalist nursing skills and abilities.

Prerequisites: NFDN 2004, NFDN 2005, NFDN 2006, NFDN 2007, NFDN 2008, NPRT 2101 & NPRT 2102

NPRT2005 - Preceptor-Supervised Clinical Practice

9 credits (0:0:264 hours)

This acute care practicum consists three weeks of clinical practice in a medical unit and four weeks in a surgical unit. This course may be taken in Edmonton or in your community, depending on the availability of appropriate health-care facilities.

NPRT2006 - Preceptor-Supervised Clinical Practice- Acute Care Medicine

4 credits (0:0:160 hours)

This acute care practicum consists of 4 weeks of clinical practice in an acute care medical unit.

Prerequisites: NFDN 2008, Current CPR Level C Health Care Provider Level, XBUS1017, XHLT1023, Updated Immunization record, Updated police information check

NPRT2007 - Preceptor-Supervised Clinical Practice- Acute Care Surgery

4 credits (0:0:160 hours)

This acute care practicum consists of 4 weeks of clinical practice in an acute care surgical unit.

Prerequisites: NFDN 2008, Current CPR Level C Health Care Provider Level, XBUS1017, XHLT1023, Updated Immunization record, Updated police information check

NPRT2101 - Nursing Practice II: Acute Care Practice - Medicine

4 credits (0:0:145 hours)

This practice course provides the learner with clinical experience as a member of the health-care team, providing safe, holistic, and evidence-informed nursing care to clients and families in an acute care environment, following the standards of practice for a practical nurse. This course includes four weeks of instructor-supervised clinical practice on an acute care medical and/or surgical unit and in combination with Nursing Practice III, meets the program requirements of eight weeks of placement in an acute care setting.

Prerequisites: NPRT 1001, NFDN 2003, PATH 1000 & PHAR 1000

NPRT2102 - Nursing Practice II: Acute Care Practice - Surgery

4 credits (0:0:145 hours)

This practice course continues to provide the learner with clinical experience as a member of the interdisciplinary team, providing safe, holistic, and evidence-informed nursing care to clients in an acute care environment, following the standards of practice for a practical nurse. This course includes four weeks of instructor-supervised clinical practice on an acute care medical and/or surgical unit and in combination with Nursing Practice II, meets the program requirements of eight weeks of placement in an acute care setting.

Prerequisites: NPRT 1001, NPRT 2101, NFDN 2003, PATH 1000 & PHAR 1000

NPRT2111 - Nursing Practice I: Continuing Care Practice IEN

4 credits (0:0:120 hours)

Gain experience as a member of the health-care team providing safe, holistic nursing care to clients in a continuing care centre through the application of the Neuman Systems Model, the nursing process, basic nursing skills, and therapeutic communication skills within the legal, ethical, and professional parameters of the practical nurse. This course involves three weeks of instructor-led clinical practice.

Prerequisites: HEED 1000, NCOM 1000, NFDN 1002, PATH 1000 & PHAR 1000

NPRT2112 - Nursing Practice II: Acute Care Practice – Medicine/Surgery IEN

6 credits (0:0:200 hours)

Gain experience as a member of the health-care team in providing safe, holistic nursing care to clients and families in acute care (medicine/surgery) settings through the application of the Neuman Systems Model, nursing process, medical/surgical nursing skills, medication administration skills (excluding IV push), and therapeutic communication skills within the legal, ethical, and professional parameters of the practical nurse. This clinical experience involves five weeks of instructor-supervised clinical practice.

Prerequisites: NFDN 2003, NPRT 2111, PATH 1000 & PHAR 1000

NPRT2113 - Nursing Practice IV: Comprehensive Practice IEN

3 credits (0:0:80 hours)

Integrate your program knowledge, skills, attitudes, and judgments as you gain an understanding of the role of the licensed practical nurse. Two weeks of precepted clinical practice will help you make the transition from a student to a graduate role.

Prerequisites: NPRT 2111 & NPRT 2112

NPRT2200 - Nursing Practice III: Comprehensive Practice

7 credits (0:0:245 hours)

This final clinical practice course of the program provides learners with the opportunity to integrate the knowledge, skills, attitudes, and judgments they must possess to make the successful transition from the role of student to that of graduate practical nurse. Applying the competencies they have learned in the program, students will assume and carry out the anticipated roles of the graduate practical nurse in a clinical setting.

Prerequisites: NFDN 2004, NFDN 2005, NFDN 2006, NFDN 2007, NFDN 2008, NPRT 2101, and NPRT 2102

NURS1040 - Applying Research to Nursing Practice

2 credits (30:0:0 hours)

In this course, you will learn about using nursing research to improve the quality of your nursing practice. Foundational research knowledge presented includes essential elements of the research process, ethical considerations associated with involvement in research, and selected features of qualitative and quantitative research.

NURS1501 - Workshop 1: Introduction to the Practical Nurse Refresher Program

1 credit (11:4:0 hours)

Workshop 1 will provide you with the resources to be successful in the program and gives opportunity to practise using those resources. You will be orientated to the practical nurse program, course materials, exams and assignments, and expectations. This is an opportunity to learn about the program and establish a support network.

NURS1502 - Workshop 2: Learning Styles and Assessments in the Practical Nurse Refresher Program

1 credit (11:4:0 hours)

Workshop 2 will provide you with an overview of the assessments used in the PN program including written assignments, multiple-choice questions, challenge exams, and lab demonstration assessments. It is an opportunity to learn about the way nurses are educated in Canada, and to prepare you for the evaluative process by learning about successful exam strategies.

NURS1503 - Workshop 3: Clinical Preparation in the Practical Nurse Refresher Program

1 credit (11:4:0 hours)

Workshop 3 will provide you with an overview of the clinical experience. It is an opportunity to learn about the expectations for success as a nursing student and to prepare you for the role of the PN in Canada. The focus of the clinical experience is to work as a member of the interdisciplinary health-care team and to practise patient-

focused care.

NURS1504 - Workshop 4: Preparation for Writing the Canadian Practical Nurse Registration Examination

1 credit (11:4:0 hours)

Workshop 4 will provide you with an overview of the Canadian Practical Nurse Registration Exam and will review successful exam strategies.

OTH3998 - Work Experience 35

5 credits (0:0:125 hours)

Following Alberta Education standards, each completed Work Experience level grants five credits towards a high school diploma (up to 15 credits). Choose from three types of work experience available, and start any time. These courses provide an excellent opportunity to explore career goals, network within a specific field, and establish a current employment record.

PACE1900 - Career Exploration and Life Management

1 credit (20:0:0 hours)

Develop job search and workplace survival skills. Discover your particular learning style and learn how to use this knowledge to improve your marks.

PACE1903 - English Reading and Writing Skills

2 credits (40:0:0 hours)

Learn to write clearly and accurately while improving grammar, spelling, and composition skills. Enhance your reading comprehension and vocabulary and develop reading skills that will be useful in any subject area.

PACE1904 - Math - PACE

2 credits (40:0:0 hours)

Improve your math skills to prepare for high school credit courses or to qualify for workplace skill training.

PACE1906 - Computer Basics - PACE

2 credits (40:0:0 hours)

Develop and improve the computer skills you will need in the workplace or for further academic studies. Work on your computer literacy, including email, Internet and keyboarding.

PATH1000 - Pathophysiology for Health-Care Professions

3 credits (45:0:0 hours)

Learn the pathological processes underlying diseases and disorders

that produce alterations in human physiologic function across the lifespan. Each pathological process is explained as a concept, and examined through examples of typical diseases and disorders. Gain a basic understanding of the diagnosis and management of the disease process associated with pathophysiologic dysfunction.

Prerequisite: ANPH 1000 or ANPH 1001 & ANPH 1002

PATH1010 - Pathophysiology

3 credits (45:0:0 hours)

This course focuses on the pathological processes underlying diseases and disorders. It gives learners a foundation for understanding the phenomena that produce alterations in human physiologic function across the lifespan. The course includes common disease entities as examples of pathological processes. Each pathological process is explained as a concept and illustrated by typical diseases and disorders. Disease is discussed in terms of manifestations, etiology, and complications. Learners will gain a basic understanding of the diagnosis and management of the disease process associated with pathophysiologic dysfunction.

Prerequisite: ANPH 1000 or ANPH 1001 & ANPH 1002

PCCA1000 - Principles of Client Care

3 credits (33:12:0 hours)

Learn the principles of effective communication, client safety, client comfort, and laws and ethical practices. This course will prepare you for client contact and safe client care.

PED2445 - Physical Education 20

5 credits (125:0:0 hours)

The aim of this course is to enable individuals to develop the knowledge, skills, and attitudes necessary to lead an active, healthy lifestyle.

PHAR1000 - Basic Pharmacotherapeutics

3 credits (45:0:0 hours)

Examine the physiological effects of drugs on humans, including therapeutic effects, side effects, adverse effects, and drug interactions. Study common drug classifications and selected medications, including herbal preparations, within each classification. Explore the pertinent legislation related to best evidenced in medication therapy.

Prerequisite: ANPH 1002

PHRM1000 - Introduction to Pharmacy Practice

3 credits (45:0:0 hours)

Explore the history of pharmacy practice. Discover the role and scope of practice of the pharmacy technician within the Canadian health-care system. Examine health promotion and primary health care in

relation to medication use. Explore the use of critical thinking in pharmacy practice. Learn the fundamentals of pharmacy practice related to drug development and manufacturing, drug stability, drug formulations and uses, and safe medication practices. This course also introduces you to lifelong learning through reflective practice and has a mentorship component.

PHRM1001 - Pharmaceutical Calculations

3 credits (45:0:0 hours)

Learn the application of arithmetic to pharmacy calculations. Examine units of measurement, pharmacy math, prescription pricing, calculation of medication doses, and those calculations used in the preparation of extemporaneous compounds and parenteral products.

PHRM1002 - Pharmacy Law and Ethics

3 credits (45:0:0 hours)

Examine the laws and ethics that govern health care, pharmacy practice, and the profession of pharmacy technician in Alberta. Learn the value of professionalism, the Code of Ethics, and the concept of self-regulated professions. Students will differentiate between personal and professional values and principles.

Prerequisite: PHRM 1000 Corequisite: PHRM 1020

PHRM1003 - Pharmacotherapeutics I

3 credits (45:0:0 hours)

Examine the physiological effects of drugs on humans, including therapeutic effects, adverse effects, and drug interactions. Study the drugs used to treat infections and various disorders affecting the nervous, respiratory, gastrointestinal, and urinary systems.

Prerequisites: ANPH 1000 and PHRM 1000 Corequisite: PATH 1010

PHRM1004 - Professional Practice for Pharmacy Technicians

3 credits (35:10:0 hours)

Examine the responsibilities of the pharmacy technician to the profession and the practice of pharmacy; explore the role of the technician with common self-medication products. Utilizing excellent patient-centred communication skills, learn to describe and demonstrate accurate and safe patient teaching for use of common devices and aids.

Prerequisites: COMM 1011, PHRM 1003, PHRM 1020, and PHRM 1030
Corequisite: PHRM 1013

PHRM1010 - Community Prescription Processing Lab

3 credits (0:45:0 hours)

Learn to use community dispensary software programs to accurately enter prescription information. Computer software practice

opportunities are provided for modification of drug and inventory information, as well as for updating patient and physician information.

PHRM1013 - Pharmacotherapeutics II

3 credits (45:0:0 hours)

Examine the physiological effects of drugs on humans, including therapeutic effects, adverse effects, and drug interactions. Study the drugs used to treat various disorders affecting the cardiovascular, musculoskeletal, and endocrine systems. Topical therapies, chemotherapy, and nutrition are also studied.

Prerequisites: PHRM 1003 and PATH 1010

PHRM1020 - Community Pharmacy Practice

3 credits (45:0:0 hours)

Learn about community pharmacy operations in relation to the roles of pharmacy personnel, security, technology, and contemporary issues in community pharmacy practice. Explore the application of federal and provincial legislation to community pharmacy services.

Prerequisites: PHRM 1000 and PHRM 1001 Co-requisite: PHRM 1002

PHRM1030 - Community Pharmacy Lab

6 credits (0:90:0 hours)

Gain practical experience in applying safe and accurate medication practices in community pharmacy environments. Develop a knowledge base of frequently prescribed medications and related dosage forms while mastering basic concepts of prescription dispensing, checking, inventory management, and patient interactions. Performance evaluation is based on evidence of the attainment of skills and demonstration of professionalism throughout the lab sessions.

Prerequisites: PHRM 1000, PHRM 1001, PHRM 1010 Co-requisite: PHRM 1020

PHRM1040 - Compounding Lab

3 credits (0:45:0 hours)

Gain practical experience in preparing a variety of extemporaneous compounds, including liquids, suspensions, emulsions, lotions, capsules, solutions, elixirs, ointments, creams, and suppositories. Learn how to competently calculate, weigh, and measure chemicals and complete records required in pharmacy practice.

Prerequisites: PHRM 1000, PHRM 1001, and PHRM 1010

PHRM2005 - Pharmacy Management

3 credits (45:0:0 hours)

Learn how community and institutional pharmacies operate as businesses. Explore the different components of pharmacy business operations including organizational development and performance

COURSE DESCRIPTIONS

management, merchandising, inventory management, purchasing, and patient payment systems. Examine federal and provincial legislation as it applies to pharmacy business practices.

Prerequisites: PHRM 1020, PHRM 2020

PHRM2006 - Medication Safety and Risk Management

3 credits (45:0:0 hours)

Examine safe medication practices and risk-management strategies designed to reduce the occurrence of medication incidents while supporting zero-tolerance for errors, effective reporting and disclosure, and the development of a just culture of patient safety in all pharmacy environments. Explore the medication reconciliation process and its impact on patient safety.

Prerequisite: PHRM 2020

PHRM2007 - Integrated Skills for Pharmacy Technicians

3 credits (15:30:0 hours)

Integrate theory and hands-on lab skills from throughout the pharmacy technician diploma program as you prepare for clinical placement in the program and a career as a pharmacy technician.

Prerequisites: PHRM 1004, PHRM 1013, PHRM 2010, and PHRM 2020
Corequisites: PHRM 2006, PHRM 2030, and PHRM 2040

PHRM2010 - Institutional Prescription Processing Lab

3 credits (0:45:0 hours)

Expand your knowledge in the use of pharmacy software programs. Practise order entry of prescriptions for institutionalized patients by entering the prescriptions according to simulated institutional health-care agency guidelines.

Prerequisite: PHRM 1030 Corequisite: PHRM 2020

PHRM2020 - Institutional Pharmacy Practice

3 credits (45:0:0 hours)

Explore the ways in which institutional pharmacy operations influence the work of pharmacy personnel and the function of drug distribution systems and pharmacy services. Study the issues that affect institutional pharmacy practice and the impact of technology and trends. Learn how federal and provincial legislation applies to institutional pharmacy services. In addition, you will learn about aseptic technique in the preparation of sterile products.

Prerequisites: PHRM 1002, PHRM 1020, and PHRM 1001

PHRM2030 - Institutional Pharmacy Lab

4 credits (0:60:0 hours)

Gain practical experience in applying safe and accurate medication practices in institutional pharmacy environments. Develop a

knowledge base of frequently prescribed medications and related dosage forms while mastering basic concepts of prescription dispensing and checking in a variety of drug distribution systems. Performance evaluation is based on evidence of the attainment of skills and demonstration of professionalism throughout the lab sessions.

Prerequisites: PHRM 1013, PHRM 2010, PHRM 2020, and PHRM 1040

PHRM2040 - Sterile Products Lab

3 credits (0:45:0 hours)

Apply your previous knowledge in the preparation of sterile products, including parenteral medication. Develop competency in the skills required by pharmacy technicians for sterile products: basic aseptic techniques, accuracy, record keeping, and strict adherence to protocol.

Prerequisites: PHRM 1013, PHRM 1040, PHRM 2010, and PHRM 2020

PHRM2201 - Community Practicum

5 credits (0:0:160 hours)

Gain practical experience applying the knowledge and skills of a pharmacy technician in a community pharmacy setting. Students are preceptored in a community pharmacy for four consecutive weeks (20 days/160 hours). Some evening or weekend shifts may be required.

Prerequisites: Successful completion of all course work and practicum requirements (Clear Criminal Record Check, Immunizations, CPR Requirement and Pre-practicum Assessments)

PHRM2202 - Institutional Practicum

5 credits (0:0:160 hours)

Gain practical experience applying the knowledge and skills of a pharmacy technician in an institutional pharmacy setting. Students are preceptored in an institutional pharmacy for four consecutive weeks (20 days/160 hours). Some evening or weekend shifts may be required.

Prerequisites: Successful completion of all course work and practicum requirements (Clear Criminal Record Check, Immunizations, CPR Requirement and Pre-practicum Assessments)

PHYS3300 - Physics 030

5 credits (125:0:0 hours)

Master concepts related to momentum and impulse, electromagnetic radiation, and forces.

PLSC1001 - Introduction to the Canadian Judicial System

3 credits (45:0:0 hours)

Examine the principles, practices, and philosophy of the Canadian judicial system with emphasis on the criminal trial process.

PLSC1005 - Security Management and Loss Prevention

3 credits (45:0:0 hours)

Learn about the development and implementation of comprehensive security programs. Explore the related topics of risk management, loss prevention, internal controls, and developing security countermeasures.

POLS1000 - An Introduction to Government and Politics

3 credits (45:0:0 hours)

This course introduces students to the central concepts political scientists use in attempting to explain government and politics. These include the (debated) ideas of "politics," "power," "state," "nation," "community," "regime," and "ideology." In addition, the course will introduce the basic sub-fields of political science, which are political theory, international relations, Canadian politics, and comparative politics. Finally, workings of modern western democracies will be considered.

POLS1010 - Canadian Politics: Institutions and Issues

3 credits (45:0:0 hours)

This course explores the development of Canadian political institutions and political issues in Canada. The student will learn about contemporary Canadian politics by examining the evolution of federalism, the Constitution, parliament, Aboriginal and minority rights, the welfare state, multiculturalism, and similar topics. The course focuses on teaching critical thinking and writing skills by testing normative and empirical theories against Canadian historical and contemporary evidence. Transfer: UC

PPRT1100 - Policing and Security Practicum

3 credits (0:0:120 hours)

You will be placed in a real-life work situation where you will have the opportunity to practise your knowledge and skills.

PPRT1101 - Law Enforcement Practicum

4 credits (0:0:240 hours)

You will be placed in a real-life work situation where you will have the opportunity to practise your knowledge and skills.

PPRT2001 - Physical Therapy Assistant: Community Practicum

8 credits (0:0:240 hours)

During this six week (30 day) practicum opportunity, you will be introduced to a community physical therapy setting and the role of the physical therapy assistant in providing therapy to clientele. Throughout this experience, you will have the opportunity to demonstrate therapeutic communication, positioning, mobility and modalities, the use of assessment tools, and exercise instruction under

the supervision of a physical therapist. Professionalism and team communication skills are also emphasized. Pre-requisite: All PTAD theory and lab courses

Prerequisites: All PTAD theory and lab courses

PPRT2002 - Physical Therapy Assistant: Hospital/Continuing Care Practicum

8 credits (0:0:240 hours)

During this 6 week (30 day) practicum opportunity, you will be introduced to an institutional physical therapy setting and the role of the physical therapy assistant in providing therapy to clientele. Throughout this experience, you will have the opportunity to demonstrate therapeutic communication, positioning, mobility and modalities, the use of assessment tools, and exercise instruction under the supervision of a physical therapist. Professionalism and team communication skills are emphasized. Pre-requisite: All PTAD theory and lab courses

Prerequisites: All PTAD theory and lab courses

PRTD1165 - PC Basics

2 credits (0:30:0 hours)

Learn about computer fundamentals with emphasis on skills training. Practical skills include basic Windows and file-management procedures.

PRTD1266 - Press and Bindery II

3 credits (0:45:0 hours)

Focus on colour reproduction. Explore colour theory as it pertains to the press and bindery areas. Apply this knowledge to printing and finishing projects using the lab equipment and quality control tools.

Prerequisite: PRTD 1187

PRTD1273 - Pre-Press II

3 credits (0:45:0 hours)

Through a series of learning activities, you will build the skills required to complete two projects. Learn about image resolution and file management, and how they relate to various output devices.

Prerequisite: PRTD 1173

PSYC1040 - Introduction to Psychology

3 credits (45:0:0 hours)

This course is the basic foundation course in psychology. It provides an introduction to the scientific study of behaviour and the mind. This course examines the evolution of psychology, research methods, descriptive statistics, the brain and behaviour, human lifespan development, sensation and perception, states of consciousness,

COURSE DESCRIPTIONS

conditioning and learning, and memory. Note: Students with credit in another introductory psychology course may not be eligible for credit in this course. Please check with the Program Chair.

PSYC1050 - Foundations of Human Behaviour

3 credits (45:0:0 hours)

Build on your introductory knowledge of the scientific study of behaviour and the mind. Focus on the study of cognition (thinking), intelligence and creativity, motivation and emotion, personality, health, stress, and coping, psychological disorders, therapies, and social behaviour. Note: Students with credit in another introductory psychology course may not be eligible for credit in this course. Please check with the Program Chair.

Prerequisite: PSYC 1040

PSYC1060 - Psychology for Health-Care Professionals

3 credits (45:0:0 hours)

This course introduces the scientific study of behaviour and human development. You will learn terminology and theoretical concepts common to psychology. You will learn about the dominant theories in psychology today and the scientific process. You will also learn about human development across the lifespan; processes of the mind including consciousness, learning, and memory, cognition and intelligence, emotion and motivation; and social behaviour. The concepts of stress and health and psychological health and illness are introduced. Note: Students with credit in another introductory psychology course may not be eligible for credit in this course. Please check with the Program Chair.

PSYC2010 - Developmental Psychology: Human Life Span

3 credits (45:0:0 hours)

Study the biological, cognitive, moral, emotional, and social changes that occur in an individual during the human lifespan. Transfer: UC

Prerequisites: PSYC 1040/1050 or equivalent

PSYC2353 - Psychology of Aging

3 credits (45:0:0 hours)

Examine historical theories of aging and the diverse cultural attitudes held worldwide towards aging. Discuss individual patterns of aging physically, socially, and economically. Survey support systems and individual needs assessments with a view to noting matching and mismatching needs and supports, as well as the costs and benefits to the individual and community.

Prerequisites: PSYC 1040 and PSYC 1050 or equivalent

PSYC2450 - Abnormal Psychology- Psychiatric Conditions and Interventions

3 credits (45:0:0 hours)

Acquire an overview of the common psychiatric conditions and their symptoms, causes, and treatment modalities. The role of the mental health worker as part of the multidisciplinary team working with clients with mental health disorders is addressed. You will discuss attitudes, stigma, and the influences of culture. Class readings, web-based learning, group discussions, and assignments help illustrate this material.

Prerequisites: PSYC 1040 and 1050, or PSYC 1060, or equivalent

PTMA1000 - Pharmacology Therapeutics and Medication Administration

6 credits (75:15:0 hours)

Enhance your knowledge as a licensed practical nurse and learn theory, nursing care, and skills based on best evidence related to pharmacology therapeutics and medication administration. A laboratory component is included in which students apply new theory and practise nursing skills related to medication administration. Medication calculations are computed and medication administration skills are evaluated.

READ1401 - Reading Level 4

5 credits (96:24:0 hours)

Read fiction, non-fiction, and functional selections to build your vocabulary and comprehension strategies.

READ1402 - Reading Level 4B

5 credits (96:24:0 hours)

Read fiction, non-fiction, and functional selections to build your vocabulary and comprehension strategies.

READ1501 - Reading Level 5

5 credits (96:24:0 hours)

Read fiction, non-fiction, and short stories to build your vocabulary and comprehension strategies.

READ1502 - Reading Level 5B

5 credits (96:24:0 hours)

Read fiction, non-fiction, and short stories to build your vocabulary and comprehension strategies.

READ1601 - Reading Level 6

5 credits (96:24:0 hours)

Read fiction, non-fiction, short stories, poetry, and a novel to prepare you for entry into academic upgrating.

READ9089 - Reading 089

3 credits (75:0:0 hours)

Increase your reading skills by practising skimming and scanning strategies, increasing your speed and comprehension, and developing effective inference and generalization techniques. Prerequisite: Placement test or a letter from MacEwan College

RHAB1001 - Introduction to Rehabilitation

3 credits (45:0:0 hours)

Learn the fundamental concepts and theories specific to rehabilitation and gain an introduction to the field of rehabilitation medicine. Examine the common practices and unique roles of physical therapy, therapeutic recreation, and occupational therapy, and explore the skills, roles, and traits of the therapy assistant.

RPRT1001 - Therapeutic Recreation: Practicum I

11 credits (0:0:320 hours)

During this practicum opportunity, you will be introduced to a therapeutic recreation setting and the role of a therapeutic recreation certificate graduate in providing recreation therapy to clients. Throughout this experience, you will have the opportunity to demonstrate an understanding of wellness through leisure, common client conditions, assisting clients, program session planning, and program implementation under the supervision of a recreation therapist. Professionalism and team communication skills are emphasized.

Prerequisites: All Therapeutic Recreation certificate theory and lab courses

RPRT2001 - Therapeutic Recreation Practicum II

11 credits (0:0:320 hours)

During this practicum opportunity, you will be introduced to a therapeutic recreation setting and the role of a therapeutic recreation certificate graduate in providing recreation therapy to clients. Throughout this experience, you will have the opportunity to demonstrate an understanding of wellness through leisure, common client conditions, assisting clients, program session planning, and program implementation under the supervision of a recreation therapist. Professionalism and team communication skills are emphasized.

Prerequisites: All Therapeutic Recreation diploma theory and lab courses

RRHB1000 - Roles and Responsibilities of the Health Care Aide

3 credits (33:12:0 hours)

Learn about the role and responsibilities of the health care aide and the role that HCAs play in the Canadian health-care system. Explore

the work of the HCA as a care provider, employee, and team member. Learn about the importance of maintaining your own personal health and well-being.

Prerequisite: PCCA 1000

SCAE1000 - Assisting with Specific Care Activities

3 credits (22.5:22.5:0 hours)

Acquire a basic knowledge of the specific care procedures that you may be asked to assist with in a variety of settings. Learn about your role in carrying out assigned tasks.

Prerequisite: BCND 1000

SCN1270 - Science 10

5 credits (125:0:0 hours)

Develop the attitudes, skills, and knowledge common to all sciences. Learn the key concepts of energy, matter, and change within the contexts of biology, chemistry, and physics.

SCN2231 - Biology 20

5 credits (125:0:0 hours)

The major science themes developed in this course are diversity, energy, equilibrium, matter and systems. The major concepts allow connections to be drawn among the seven units of the course.

SCN2796 - Chemistry 20

5 credits (125:0:0 hours)

The major science themes developed in this course are matter, change, systems, and diversity. The major concepts allow connections to be drawn among the four units of the course.

SCN2797 - Physics 20

5 credits (125:0:0 hours)

The major science themes developed in this course are change, energy, equilibrium, and systems. The major concepts allow connections to be drawn among the four units of the course.

SCN3230 - Biology 30

5 credits (125:0:0 hours)

Study cell division, molecular biology, genetics, population and community dynamics, reproduction and development, and the nervous and endocrine systems. Examine the effects of technology on humans. Prepare to write the provincial diploma exam.

SCN3796 - Chemistry 30

5 credits (125:0:0 hours)

COURSE DESCRIPTIONS

Study thermochemical changes, electrochemical changes, organic chemistry, acids, bases, and equilibrium. Prepare to write the provincial diploma exam.

SCN3797 - Physics 30

5 credits (125:0:0 hours)

Master concepts related to momentum and impulse, electromagnetic radiation, forces, and atomic physics. Prepare to write the provincial diploma exam.

SCNC1000 - Apprenticeship Prep Science

8 credits (120:0:0 hours)

Develop the science skills you need to write the Trades Entrance Exam for apprenticeship.

SCNC1001 - Apprenticeship Prep Science-Lab

6 credits (0:90:0 hours)

Apply scientific theory in a science laboratory.

SCNC1800 - Academic Science

5 credits (125:0:0 hours)

Strengthen your knowledge of the core areas in science. Develop problem-solving and decision-making skills. Learn key concepts in biology and chemistry.

SCNC3300 - Science 030

5 credits (125:0:0 hours)

Explore general topics in science that include the study of chemistry, biology, and physics. Topics include "Living Systems Respond to Their Environment," "Chemistry and the Environment," "Electromagnetic Energy," and "Energy and the Environment."

SCSF1000 - Assisting with Specific Care Situations

3 credits (39:6:0 hours)

Using a customer service approach, gain a basic knowledge of the challenges you will encounter and the care strategies you can use to support clients who need assistance with altered behaviours, dementia, palliative care, child care, and home care.

Prerequisite: SCAE 1000

SKIL1000 - Applied Mathematics and Document Use

2 credits (30:0:0 hours)

Read and complete authentic workplace documents such as shift schedules and pay stubs, develop essential numeracy skills, and then learn how these skills are applied in work situations.

SKIL1005 - Interpersonal and Intercultural Skills

2 credits (30:0:0 hours)

Learn to recognize the importance of selecting and utilizing coping strategies for communicating positively. Learn how to troubleshoot issues that interfere with employment. This course has the goal of preparing you to communicate effectively at work.

SKIL1010 - Job Safety Skills

1 credit (15:0:0 hours)

This course is designed to provide the basic knowledge and skill training that employees need to avoid injury at work. Topics include back safety, fire prevention, and fire safety.

SKIL1015 - Employment Preparation I

2 credits (0:30:0 hours)

Complete an employability assessment, begin the career-planning process, and develop an employment action plan. Update your resume and practise your job interview skills. Learn about the expectations of employers and the responsibilities of employees. Develop the skills you need to help maintain employment. You will have the opportunity to earn WHMIS and first aid certificates, as well as special certification appropriate for your career goal.

SKIL1020 - Computer Literacy

1 credit (0:15:0 hours)

This course will help you attain an introductory level of computer knowledge. Topics include file management, introduction to MS Office Suite, email, using the Internet as a career-research and job-search tool. You will have the opportunity to create job-search documents.

SKIL1025 - Job Skills

6 credits (0:90:0 hours)

Complete a set of normed, hands-on activities that are designed to improve essential job skills in one of nine industry sectors. Learn important telephone skills and complete projects related to job skills. Develop essential reading, writing, and document-use skills.

SKIL1030 - Work Experience I - S4E

7 credits (0:0:320 hours)

Develop your employment skills by learning marketable skills and exploring networking opportunities. Gain experience using current equipment and practices, and learn to use job-related vocabulary.

SKIL1035 - Work Experience II - S4E

7 credits (0:0:320 hours)

Consolidate your employment skills and/or revisit the career-planning

process. Continue to gain valuable work experience and skills with job-related equipment, practices, and vocabulary.

SKIL1050 - Literacy and Essential Skills Exploration

5 credits (75:50:0 hours)

Through learning and applying strategic academic approaches, learners will examine their own skills, aptitudes, and abilities and relate them to different job aspirations in Alberta. Learners will build a career portfolio to identify and prioritize transferrable skills and their applications to short-term and long-term career goals. Learners will also develop a personal portfolio in which they will identify current and potential barriers to their success and match these to resources and strategies to overcome barriers.

SKIL1051 - Study and Job Skills

3 credits (45:30:0 hours)

Learners will engage in building study strategies, computer skills, lifelong learning attributes, and hands-on practice of workplace skills. Through tasks in the lab, learners will be able to test a number of practical skills, and begin to learn to develop skills in the areas of working with others, manual dexterity, problem solving, job-task planning, decision making, and critical thinking skills. These study and workplace skills will be related to and aggregated into the learner's portfolio.

SKIL1052 - Essential Skills Preparation

5 credits (75:50:0 hours)

Learners begin explicit practice of lifelong literacy habits; for example, routinely reading the newspaper, communicating through email and social media. Learners will also learn the fundamentals of organization for learning and work. Reading, writing, document use, digital literacy, numeracy and thinking skills will continue to be developed based on the complexity levels outlined in HRSDC's Essential Skills framework.

SKIL1053 - Preparation for Humanities

5 credits (75:50:0 hours)

In Preparation for the Academic Upgrading Humanities Prep (grade equivalent 9) course learners will develop their reading and writing skills, digital literacy, study skills and metacognitive strategies in order to successfully transition into Academic Upgrading.

SKIL1054 - Communicating for Success

3 credits (45:30:0 hours)

Learners will be exploring the soft skills that are required for long term employment or further education. Learners will also continue to develop their Essential Skills of oral communication and thinking skills while developing their intercultural competences.

SKIL1055 - Preparation for Math and Science

3 credits (45:30:0 hours)

In Preparation for the Academic Upgrading Math and Science (grade equivalent 8) courses learners will explore foundational concepts, and key terms used in math and science in order to successfully transition into Academic Upgrading.

SKIL1150 - Reading and Writing - Introduction

4 credits (50:50:0 hours)

This course is designed to support learners in developing reading and writing skills in practical ways that can be used in work, learning, and life. Learners will develop learning strategies to read and write better in everyday, authentic literacy tasks designed to improve communication skills.

SKIL1151 - Applied Numeracy - Introduction

4 credits (50:50:0 hours)

Learners will work on basic applied math concepts as well as money math, measurement/calculation math and some numerical estimation. The course will focus on traditional math skills and these will be applied in documents and solving "real world" problems. Authentic tasks and materials will be drawn from career streams.

SKIL1152 - Learning for Life

4 credits (50:50:0 hours)

Learners have opportunities to increase their literacy skills by focusing on important topics that can be a cause of misunderstanding or stress in daily life. Learners complete four modules (each worth 1 credit) to complement areas of interest and address skill gaps. Module examples include "Health Literacy Topics," "Financial Literacy," "Navigating in Technology-Rich Environments," "Developing Social Capital," and "Citizenship Roles and Responsibilities."

SKIL1153 - LES Options - Introduction

2 credits (25:25:0 hours)

Learners have the opportunity to apply learned strategic approaches to improving literacy skills through a selection of two modules (each worth 1 credit). Module examples include "Creating a Writing Portfolio" and "Improving Digital Literacy."

SKIL1156 - Community Connections

2 credits (0:0:50 hours)

Learners use their acquired skills and knowledge to participate more actively in our community. In collaboration, the instructor and learner design a series of community activities to support the learners' personal and career goals identified in their portfolio. The activities will be designed for both learner and facilitator reflection and feedback.

SKIL1250 - Reading and Writing - Advanced

4 credits (50:50:0 hours)

COURSE DESCRIPTIONS

Learners will build on reading and writing skills to become faster and more efficient at work, in studies, and in everyday life. As reading and writing skills advance, learners will have the opportunity to work with a variety of texts to improve both practical, everyday skills and academic skills.

Prerequisites: SKIL 1150

SKIL1251 - Applied Numeracy - Advanced

4 credits (50:50:0 hours)

Students learn the language of mathematics, which will prepare them to enter Academic Upgrading mathematics courses such as NorQuest College's Pre-Algebra course.

Prerequisite: SKIL 1151

SKIL1252 - Communication and Collaboration

4 credits (50:50:0 hours)

Learners use strategies for communicating professionally at work and increase confidence in using these strategies. Learners choose four modules (each worth one credit). Module examples are Customer Service; Persuading; Influencing; Negotiating; Communicating for Safety; Decision Making; Clarifying; Conflict Resolution; Conversation Management; Clear Speech; and Talking with a Supervisor.

Prerequisite: SKIL 1152

SKIL1253 - LES Options - Advanced

2 credits (25:25:0 hours)

Students have the opportunity to apply learned strategic approaches to improving literacy skills through a selection of two modules (each worth 1 credit). Modules offered include "Writing a Children's Book" and "Effectively Using iPads for Research, Creative Writing, and Production."

Prerequisite: SKIL 1153

SKIL1256 - Community Leadership

2 credits (0:0:50 hours)

Learners build leadership skills and social capital through initiating activities in our communities. In collaboration, the instructor and learner design a series of community activities to enhance and demonstrate skill development, to further build the learner's portfolio.

Prerequisite: SKIL 1156

SKIL1310 - Gaining Skills for Academics and Employment

3 credits (65:0:0 hours)

In this course, students enhance their reading, writing, use of workplace documents, and numeracy, all essential skills required for the academic world as well as the workplace. Essential skills are the

skills that enable students to carry out life and work tasks. These skills will be developed using topics such as responding to a job advertisement, completing an application form, writing a memo, reading schedules, and much more.

SKIL1350 - Work Experience

10 credits (75:0:520 hours)

Combining third-party credentialing linked to specific employment tracks and workforce readiness, along with opportunities for facilitated work experience, learners explore the work environment while receiving support and mentoring from College staff. Learners integrate classroom learning with employer expectations and acquire the skills necessary to be able to transition to paid and sustainable employment. Learners are placed in positions related to entry, intermediate, or advanced level positions as defined by the LES Pathways program.

SKIL1401 - Success Skills 4

4 credits (60:40:0 hours)

Improve your oral and written communication skills for work, school, and home. Learn to use Microsoft Word and email.

SKIL1402 - Success Skills 4B

4 credits (60:40:0 hours)

Improve your oral and written communication skills for work, school, and home. Learn to use Microsoft Word and email.

SKIL1501 - Success Skills 5

4 credits (60:40:0 hours)

Improve your language development through project work, technology, and extension activities.

SKIL1502 - Success Skills 5B

4 credits (60:40:0 hours)

Improve your language development through project work, technology, and extension activities.

SKIL1601 - Academic Skills 6

4 credits (60:40:0 hours)

Improve your language development through projects, presentations, and discussions. Gain confidence in technology through the use of Microsoft Office applications and Internet research.

SKIL1602 - Introduction to Social Studies

4 credits (60:40:0 hours)

Increase your knowledge of Alberta's history. Understand Canada's geography and the authority of decision making. Participate in a global

perspective of shared values and traditions. Gain insight and knowledge that invites critical, creative, and historical thinking.

SOCI1000 - Introduction to the Study of Society

3 credits (45:0:0 hours)

Explore introductory sociology through the study of social relations, community, and society. Learn about the institutions of Canadian society, such as family, politics, ethnicity, education, and religion.

SOCI1002 - Addictions and Suicide Prevention

3 credits (45:0:0 hours)

Explore the issues of violence, abuse and addictions. Learn basic crisis intervention skills, including suicide intervention.

SOCI2373 - Sociology of Death and Dying

3 credits (45:0:0 hours)

This course examines the experience of dying and death through various socio-cultural contexts. Students will be exposed to theoretical and methodological issues in the study of death and dying. Questions relating to life and living as well as dying and death will be explored and addressed. The course highlights the importance of paying attention to the experience of dying and death that is common to all species and every culture. It exposes students to the reality of dying and death that is often denied in North American culture today. The course also seeks to demystify death by allowing students to see it as a common human experience thereby equipping students with the knowledge and skills necessary to begin to deal with dying, death, bereavement, and grief. Students will focus on the topics of aging, the dying process, death, bereavement, and grief as they relate to individuals and caregivers. Current North American practices regarding death will be explored, as well as cross-cultural interpretations of dying, death, and bereavement. The course also addresses ethical issues related to dying and death in contemporary North American institutions and communities.

SOIS1000 - Social Issues: Models and Practices of Helping from an Anti-Oppressive Perspective

3 credits (45:0:0 hours)

Study the concepts reflecting oppression and oppressed people from a historical and a current perspective and applied to human service models of practice. Students will use self-reflection and sharing of their own experiences to learn strategies to promote anti-oppressive policies and practices.

SOST1101 - Social Studies 010-1

5 credits (125:0:0 hours)

Explore multiple perspectives on the origins of globalization and its impact. Gain the necessary skills to progress to Social Studies 20-1 or Social Studies 020-1.

SOST1102 - Social Studies 010-2

5 credits (125:0:0 hours)

Explore historical aspects of globalization as well as the effects of globalization on lands, cultures, human rights, and quality of life. Gain the necessary skills to progress to Social Studies 20-2 or Social Studies 020-2.

SOST2201 - Social Studies 020-1

5 credits (125:0:0 hours)

Explore multiple perspectives on the origins and influence of nationalism on regional, international, and global relations. Gain the necessary skills to progress to Social Studies 30-1 or Social Studies 030-1.

SOST2202 - Social Studies 020-2

5 credits (125:0:0 hours)

Explore multiple perspectives on the origins and influence of nationalism on regional, international, and global relations. Gain the necessary skills to progress to Social Studies 30-2 or Social Studies 030-2.

SOST3301 - Social Studies 030-1

5 credits (125:0:0 hours)

Examine theories of politics and economics in democracy, socialism, capitalism, and fascism. Study European history since 1919 and the influence of Europe on the rest of the world. Research current affairs.

SOST3302 - Social Studies 030-2

5 credits (125:0:0 hours)

Write essays providing specific examples that support generalizations and explain issues. Use news magazines to access information about current affairs.

SOWK1010 - Introduction to Social Work

3 credits (45:0:0 hours)

Study the history of social work and its evolution as a profession as the foundation for understanding social work's current roles and practices. Learn about social policy, political structures, social issues, and practice with diverse client groups.

SOWK1020 - The Helping Process

3 credits (45:0:0 hours)

Focus is on the helping process, which is the essence of social work practice. Examine the qualities and values of the helper in the context of multicultural practice. Study communication theory, techniques, and interviewing skills. Apply theory and skills to case studies and role-play scenarios.

COURSE DESCRIPTIONS

Prerequisite: SOWK 1010

SOWK1023 - Social Work Field Education Laboratory I

2 credits (0:30:0 hours)

Develop and heighten your awareness of and readiness for social work field education. Learn reflectively and analytically through practice-oriented activities such as case studies, role plays, and agency visits to build skills and a value for professional ethics and competence reflective of the social work helping process.

Co-requisite: SOWK 1010, SOWK 1020, or permission of the Program Chair

SOWK1024 - Social Work Field Education Laboratory II

2 credits (0:30:0 hours)

Continue to develop and heighten your awareness of and readiness for social work field education. Learn reflectively and analytically through practice-oriented activities such as case studies, role plays, and agency visits to build skills and a value for professional ethics and competence reflective of the social work helping process.

Prerequisites: SOWK 1010, SOWK 1020, SOWK 1023; or permission of the Program Chair
Co-requisites: SOWK 1030, SOWK 1040; or permission of the Program Chair

SOWK1025 - Social Work Practicum I

5 credits (0:0:290 hours)

Apply previously learned concepts of social work practice in a practicum setting. Demonstrate knowledge and application of social work interviewing and assessment skills at a beginner level.

Prerequisites: SOWK 1023, SOWK 1024, SOWK 1010, SOWK 1020, SOWK 1030, SOWK 1040; or permission of the Program Chair

SOWK1030 - Assessment and Interviewing

3 credits (45:0:0 hours)

Build on theory and practice skills and integrate communication and interview skills with theoretical models and concepts to provide a framework for client assessment. Learn a systematic approach to effectively assess and intervene with clients.

Prerequisites: SOWK 1010 and SOWK 1020

SOWK1040 - Models and Practice from an Anti-Oppressive Perspective

3 credits (45:0:0 hours)

Study concepts that address oppression and oppressed peoples, from a historical and a contemporary perspective and apply these concepts to social work practice models. Explore issues associated with internalized dominance and oppression. Apply different theories and

perspectives to provide a framework for practice.

Prerequisites: SOWK 1010 and SOWK 1020 Co-requisite: SOWK1030

SOWK2010 - Community Development

3 credits (45:0:0 hours)

Examine the theory and definitions of community, community organization, and community development, as well as related concepts. Consider power and equity in relation to oppression, and apply models of intervention and strategies for change to diverse communities. Study the varied roles of the social worker in community practice and apply principles of community work.

Prerequisites: SOWK 1010, SOWK 1020, SOWK 1023, SOWK 1030, SOWK 1040 and SOWK 1024

SOWK2020 - Social Work with Groups

3 credits (45:0:0 hours)

Focus on the processes and dynamics of group work in social work practice. Explore the theoretical underpinnings of group work with an emphasis on skill development. Focus on identifying values and practices that differ across cultures and consequently impact group work. Examine a variety of group types, phases of group development, intervention techniques, and leadership qualities.

Prerequisites: SOWK 1010, SOWK 1020, SOWK 1023, SOWK 1030, SOWK 1040 and SOWK 1024

SOWK2023 - Social Work Field Education Laboratory III

2 credits (0:30:0 hours)

This course provides a forum for senior social work students to reflect upon and consolidate their learning from the Year 1 practicum experience and prepare for the Year 2 agency-based practicum in the spring. Drawing upon their previous practicum experience and a broader theoretical and conceptual knowledge base, students will have the opportunity to increase their skills and competence in advance of the Year 2 practicum.

Prerequisites: SOWK 1025 or permission of the Program Chair
Co-requisites: SOWK 2010, SOWK 2020, SOWK 2030; or permission of the Program Chair

SOWK2024 - Social Work Field Education Laboratory IV

2 credits (0:30:0 hours)

This course provides additional opportunity for senior social work students to reflect upon and consolidate their learning from the Year 1 practicum experience and prepare for the Year 2 agency-based practicum in the spring. Drawing upon their previous practicum experience and a broader theoretical and conceptual knowledge base, students will have the opportunity to increase their skills and competence in advance of the Year 2 practicum.

Prerequisites: SOWK 2023, SOWK 2010, SOWK 2020 and SOWK 2030; or permission of the Program Chair
Co-requisites: SOWK 2040, SOWK 2050, SOWK 2060, SOWK 2070; or permission of the Program Chair

SOWK2025 - Social Work Practicum II

5 credits (0:0:290 hours)

Apply previously learned theory and practice to work with individuals, families, groups, communities and/or organizations. Integrate practicum experience with classroom learning.

Prerequisites: SOWK 1025, SOWK 2023, SOWK 2024; or permission of the Program Chair

SOWK2030 - Social Work with Families

3 credits (45:0:0 hours)

Focus on the role of the social worker in assessing, intervening in, and supporting the family across its lifespan. Examine families as a unique social institution as well as from the student's personal experience. Explore the historical evolution of family member roles, functions, and characteristics.

Prerequisites: SOWK 1010, SOWK 1020, SOWK 1023, SOWK 1030, SOWK 1040 and SOWK 1024

SOWK2040 - Social Policy

3 credits (45:0:0 hours)

Study social policy and its relationship to and impact on social work. Discuss social policy concepts and apply them to a variety of Canadian policy issues and societal trends. Examine the benefits and disadvantages of established social policies from the perspectives of marginalized groups.

Prerequisites: SOWK 1010, SOWK 1020, SOWK 1023, SOWK 1030, SOWK 1040, SOWK 1024 and POLS 1010

SOWK2050 - Mental Health: A Multicultural Perspective

3 credits (45:0:0 hours)

Approach mental health from a holistic and multicultural practice perspective. Examine the traditional medical model of illness and non-traditional cultural practices in mental health. Explore common mental health disorders in relationship to different cultural groups.

Prerequisites: SOWK 1010, SOWK 1020, SOWK 1023, SOWK 1030, SOWK 1040, SOWK 1024, PSYC 1040 and PSYC 1050

SOWK2060 - Violence and Addictions: Issues in Social Work

3 credits (45:0:0 hours)

Examine in-depth two common abuse situations in contemporary family contexts: violence and addictions. Understand the cycle of

violence and its impact on families and communities. Identify addictive substances and behaviours, issues associated with power and control, and impact they have on diverse communities.

Prerequisites: SOWK 1010, SOWK 1020, SOWK 1023, SOWK 1030, SOWK 1040, SOWK 1024 and SOWK 2030

SOWK2070 - Social Work in Organizations

3 credits (45:0:0 hours)

Identify and understand the role of social workers as managers within many types of organizations. Learn the major functions of management and the importance of administration in organizations that provide social services. Examine attitudes and issues relevant to social work in light of the different responsibilities of the social work manager.

Prerequisites: SOWK 1010, SOWK 1020, SOWK 1023, SOWK 1030, SOWK 1040, SOWK 1024, SOWK 2010 and SOWK 2020

SSN1154 - Aboriginal Studies 10

5 credits (125:0:0 hours)

The course is based on perspectives and world views of Aboriginal peoples. It includes the study of traditions and history of Aboriginal peoples in Canada, and particularly in Alberta. Student learning outcomes provide opportunities to examine such topics as governmental structures, literature, the arts, and the sciences.

SSN2154 - Aboriginal Studies 20

5 credits (125:0:0 hours)

Study Aboriginal people from a Canadian and Alberta perspective. Expand your knowledge of policies, legislation, conflict, and cultural change. The four themes covered are "The Métis: Conflict and Cultural Change," "Treaties and Cultural Change," "Legislation, Policies, and Cultural Change," and "Schooling and Cultural Change." The course will follow the Alberta Education program of studies.

SSN3154 - Aboriginal Studies 30

5 credits (125:0:0 hours)

Study contemporary Native history and the ways in which Native society takes part in and is influenced by contemporary Canadian and world politics and commerce. Explore the development of pre-contact First Nation societies and Native self-government. Learn about world colonization and its effects on the world's Indigenous peoples.

SST1771 - Social Studies 10-1

5 credits (125:0:0 hours)

Explore multiple perspectives on the origins of globalization and its impact. Gain the necessary skills to progress to Social Studies 20-1.

SST1772 - Social Studies 10-2

5 credits (125:0:0 hours)

Explore historical aspects of globalization as well as the effects of globalization on lands, cultures, human rights, and quality of life. Gain the necessary skills to progress to Social Studies 20-2.

SST2771 - Social Studies 20-1

5 credits (125:0:0 hours)

Explore multiple perspectives on the origins and influence of nationalism on regional, international, and global relations. Gain the necessary skills to progress to Social Studies 30-1

SST2772 - Social Studies 20-2

5 credits (125:0:0 hours)

Explore multiple perspectives on the origins and influence of nationalism on regional, international, and global relations. Gain the necessary skills to progress to Social Studies 30-2.

SST3771 - Social Studies 30-1

5 credits (125:0:0 hours)

Examine theories of politics and economics in democracy, socialism, capitalism, and fascism. Study European history since 1919 and the influence of Europe on the rest of the world. Research current affairs. Prepare to write the provincial diploma examination.

SST3772 - Social Studies 30-2

5 credits (125:0:0 hours)

Write essays providing specific examples that support generalizations and explain issues. Use news magazines to access information about current affairs. Prepare to write the provincial diploma examination.

SWPR1025 - Social Work Practicum I

6 credits (0:0:350 hours)

Apply previously learned concepts of social work practice in a practicum setting. Demonstrate knowledge and application of social work interviewing and assessment skills at a beginner level.

SWPR2025 - Social Work Practicum II

6 credits (0:0:350 hours)

Apply previously learned theory and practice to work with individuals, families, groups, communities and/or organizations. Integrate practicum experience with classroom learning.

THPR2001 - Therapeutic Process I: Therapeutic Positioning and Postural Drainage

3 credits (30:15:0 hours)

Explore the fundamental concepts and theory related to therapeutic positioning and postural drainage. Learn about the importance of infection control, proper limb-handling techniques, and chest physical therapy techniques. Learn to position clients properly to promote client safety and comfort and prevent complications. Integrate your knowledge of functional anatomy and pathological alterations while learning the skills related to therapeutic positioning and postural drainage in a lab setting. Participate in hands-on lab sessions to practise learned techniques.

Prerequisites: ANPH 1000, ANPH 1004, RHAB 1001 & PATH 1010

THPR2002 - Therapeutic Process II: Therapeutic Modalities

3 credits (30:15:0 hours)

Explore the fundamental concepts and theory related to therapeutic modalities. Learn about the purpose of various therapeutic modalities in physical therapy treatment. Integrate your knowledge of functional anatomy and pathological alterations while learning the skills related to therapeutic modalities in a lab setting. Participate in hands-on lab sessions practising a variety of therapeutic modalities such as thermal therapy, cryotherapy, ultrasound therapy, and electrical therapy.

Prerequisites: ANPH 1000, ANPH 1004, RHAB 1001 & PATH 1010

THPR2003 - Therapeutic Process III: Therapeutic Assessment Tools and Joint Mobility

3 credits (30:15:0 hours)

Study the fundamental concepts and theory related to therapeutic assessment tools and joint mobility. Learn about active and passive joint range of movement. Learn how the goniometer and the dynamometer are used for measuring joint movement. Integrate your knowledge of functional anatomy and pathological alterations while learning the skills related to the use of specific assessment tools and joint mobility in a lab setting. Participate in hands-on lab sessions to learn how to assess joint mobility and provide range-of-motion exercises.

Prerequisites: ANPH 1000, ANPH 1004, PATH 1010 & RHAB 1001

THPR2004 - Therapeutic Process IV: Therapeutic Mobility

3 credits (30:15:0 hours)

Learn the fundamental concepts and theory related to therapeutic joint mobility. Integrate your knowledge of functional anatomy and pathological alterations that involve mobility issues while learning the skills related to mobility in a lab setting. Participate in hands-on sessions to practise the theory and practical skills needed for proper lifting and transferring techniques, gait re-education, mobility aids, and wheelchair operation.

Prerequisites: ANPH 1000, ANPH 1004, RHAB 1001 & PATH 1010

THPR2005 - Therapeutic Process V: Therapeutic Exercise

3 credits (30:15:0 hours)

Learn the fundamental concepts and theory specifically related to therapeutic exercise. Integrate your knowledge of functional anatomy and pathological alterations while learning the skills related to the use of therapeutic exercise in a lab setting. Participate in hands-on lab sessions to learn active and resisted exercises, balance and stretch exercises, cardiovascular and mechanical exercises, mat exercises, and individual and group exercises.

Prerequisites: ANPH 1000, ANPH 1004, RHAB 1001 & PATH 1010

THPR2006 - Occupational Therapy Assistant Foundations

3 credits (45:0:0 hours)

Explore the fundamental concepts and theory specific to occupational therapy that can be applied to various client populations. Take a closer look at the occupational therapy practice framework including key concepts such as frames of reference, clinical reasoning, and activity analysis, and how they relate to the occupational therapy process. Study basic concepts of teaching and learning, and how these concepts assist with the therapeutic process.

Prerequisites: ANPH 1000, RHAB 1001, & COMM 2011 Co-requisite: COMM 1011

THPR2007 - Occupational Therapy Assistant Skills

3 credits (30:15:0 hours)

Learn about assessment, treatment, and techniques used in the delivery of occupational therapy services. Explore adaptive devices in common service settings. Develop your hands-on fundamental skills in assisting an occupational therapist in providing treatment.

Prerequisites: ANPH 1000, RHAB 1001, PATH 1010 & THPR 2006

THPR2008 - Introduction to Assisting with Additional Therapeutic Interventions – Theory

3 credits (45:0:0 hours)

Expand your knowledge of additional therapeutic interventions that a physical therapy assistant may collaborate with in practice. This interdisciplinary-focused course will expose you to interventions by occupational therapy, therapeutic recreation, and speech-language pathology.

Prerequisites: RHAB 1001, COMM 2011, THPR 2016, THPR 2018, and THPR 2020 Co-requisites: THPR 2021 and THPR 2023

THPR2009 - Introduction to Assisting with Additional Therapeutic Interventions – Lab

3 credits (0:45:0 hours)

Gain practical skills in assisting with a variety of therapeutic interventions for clients, including occupational therapy, therapeutic recreation, and speech-language pathology.

Co-requisite: THPR 2008

THPR2015 - Therapeutic Cardiopulmonary and Preventative Care - Theory

2 credits (30:0:0 hours)

Explore the fundamental concepts and theory related to therapeutic positioning and postural drainage. Learn about the importance of infection control, proper limb-handling techniques, and chest physical therapy techniques. Learn to position clients properly to promote client safety and comfort and prevent complications.

Prerequisite: RHAB 1001 Co-requisites: ANPH 1004, PATH 1010, and ENGL 2510

THPR2016 - Therapeutic Cardiopulmonary and Preventative Care - Lab

1 credit (0:15:0 hours)

Participate in hands-on lab sessions to practise theoretical concepts learned in THPR 2015.

Corequisite: THPR 2015

THPR2017 - Therapeutic Range of Motion and Outcome Measures -Theory

1 credit (15:0:0 hours)

Study the fundamental concepts and theory related to functional outcome measures and joint mobility. Learn about active and passive joint range of motion, goniometry, manual muscle testing, muscle length testing, and other functional outcome measures.

Prerequisite: RHAB 1001 Co-requisites: ANPH 1004, PATH 1010, ENGL 2510, and THPR 2019

THPR2018 - Therapeutic Range of Motion and Outcome Measures - Lab

2 credits (0:30:0 hours)

Participate in hands-on lab sessions to practise theoretical concepts learned in THPR 2017.

Co-requisite: THPR 2017

THPR2019 - Therapeutic Mobility - Theory

2 credits (30:0:0 hours)

Learn the fundamental concepts and theory related to therapeutic mobility, including proper lifting and transferring techniques, gait re-education, mobility aids, and wheelchair skills.

COURSE DESCRIPTIONS

Co-requisites: RHAB 1001 and ENGL 2510

THPR2020 - Therapeutic Mobility - Lab

1 credit (0:15:0 hours)

Participate in hands-on lab sessions to practise theoretical concepts learned in THPR 2019.

Co-requisite: THPR 2019

THPR2021 - Therapeutic Modalities - Theory

2 credits (30:0:0 hours)

Explore the fundamental concepts and theory related to therapeutic modalities. Learn about the purpose of various therapeutic modalities in physical therapy treatment such as thermal therapy, cryotherapy, ultrasound therapy, and electrical therapy.

Prerequisites: ANPH 1004, PATH 1010, and RHAB 1001 Co-requisite: ENGL 2510

THPR2022 - Therapeutic Modalities - Lab

1 credit (0:15:0 hours)

Participate in hands-on lab sessions to practice theoretical concepts learned in THPR 2021.

Co-requisite: THPR 2021

THPR2023 - Therapeutic Exercise - Theory

2 credits (30:0:0 hours)

Learn the fundamental concepts and theory specifically related to therapeutic exercise including: active and resisted exercises, balance and flexibility exercises, cardiovascular exercise, and individual and group exercises.

Prerequisites: ANPH 1004, PATH 1010, RHAB 1001, ENGL 2510, and COMM 2011

THPR2024 - Therapeutic Exercise - Lab

1 credit (0:15:0 hours)

Participate in hands-on lab sessions to practise theoretical concepts learned in THPR 2023.

Co-requisites: THPR 2023, THPR 2016, THPR 2018, and THPR 2020

TPRT2002 - Pharmacy Technician: Institutional Practicum

5 credits (0:0:150 hours)

Expand your learning through this realistic experience of the roles and responsibilities of a pharmacy technician in an institutional setting.

Under the guidance and supervision of the assigned pharmacist or pharmacy technician, you will be given the opportunity to apply the academic knowledge and practical skills you have acquired during the program. During the practicum experience, you should demonstrate increased confidence and consistency in providing quality service. You will be assigned to an institutional pharmacy, primarily during daytime hours, for four consecutive weeks (20 days/150 hours). Some evening or weekend shifts may be required by the facility.

Pre-requisites: All Pharmacy Technician theory and lab courses

TRAN1001 - Financial Literacy and Numeracy I

3 credits (45:0:0 hours)

Develop your numeracy skills. This course will give you the foundation for money math, scheduling, budgeting and accounting math, measurement and calculation math, and numerical estimation. You will learn how to manage your finances and how to perform job tasks that require math.

TRAN1002 - Communication Technology

3 credits (0:45:0 hours)

Improve and develop your computer use and thinking skills. This course will give you the technical knowledge you need to share your thoughts and ideas electronically. You will also have the opportunity to develop critical thinking while on the internet. You will also have a chance to practice job tasks using different kinds of communicative technology.

TRAN1003 - Employment Preparation

10 credits (129:16:0 hours)

Look into various employment opportunities. Make the right career choice. Take part in applying for a job. Understand your rights and responsibilities as an employee. You can do all this when you develop your essential skills in reading text, document use, thinking, writing, computer use, and oral communication. This course will prepare you for employment.

TRAN1004 - Recreation and Community Living I

5 credits (16:59:0 hours)

Prepare for independent living and employment. In this course, you will have a mentor from the community whom you can talk to about work and life. You will take part in recreational activities on and off campus so that you develop a healthy and active lifestyle. You will also have a chance to be a volunteer. The essential skills that you will develop in this course are oral communication, document use, reading text, and thinking.

TRAN1005 - Human Relations I

6 credits (74:16:0 hours)

Learn how to communicate well and appropriately at work and in your personal life. The essential skills that you will develop in this course

are oral communication, thinking, and working with others.

TRAN1011 - Financial Literacy and Numeracy II

2 credits (30:0:0 hours)

Continue to develop your numeracy skills. This course will give you the foundation for learning about money math, scheduling, budgeting and accounting math, measurement and calculation math, and numerical estimation. You will continue to learn how to manage your finances and how to perform job tasks that require math.

TRAN1012 - Career Management

3 credits (30:15:0 hours)

Get to know and understand what employers expect of you as an employee. Learn about how you are expected to behave at work. Develop the essential skills of working with others, planning and organizing job tasks, oral communication, and continuous learning. You will have the opportunity to earn special certification related to your work such as WHMIS, first aid, and fork-lift training.

TRAN1014 - Recreation and Community Living II

2 credits (30:0:0 hours)

Continue to prepare for independent living and employment. In this course, you will have a mentor from the community whom you can talk to about work and life. You will take part in field trips, health and wellness activities, and classroom lab activities. You will also have a chance to be a volunteer. The essential skills that you will develop in this course are oral communication, document use, reading text, and thinking.

TRAN1015 - Human Relations II

3 credits (45:0:0 hours)

Continue to learn how to communicate well and to behave appropriately and follow social rules at work and in your personal life. In this course, you will learn how to communicate, think, and work with others in order to improve your understanding of your role and responsibilities as an adult. You will also learn how to have appropriate social conversations.

TRAN1018 - Work Experience I

5 credits (0:0:250 hours)

Explore the work environment and apply essential employment skills with support from NorQuest College staff. Acquire new employment skills relevant to your work placement.

TRAN1019 - Work Experience II

5 credits (0:0:200 hours)

Apply and develop the employment skills and essential skills you have learned in the program. You will have support from NorQuest College staff.

TRAN1040 - Finance and Life Management Skills I - TVP

3 credits (45:0:0 hours)

Learn the skills necessary to manage your finances, follow a budget, handle cash, and manage your time. Utilize vocabulary appropriate for financial situations and develop mathematical job-related skills.

TRDC1001 - Therapeutic Recreation: Program Planning and Implementation

3 credits (30:15:0 hours)

Explore the stages of program development, focusing on the key role of recreation therapy personnel in selecting and planning activities that meet client goals. Review program design and basic factors of activity selection. Learn how groups function, and gain valuable information about the various aspects of successful program implementation. Learn how to promote participation in group programs for clients with various needs.

Prerequisites: WELL 1000 & RHAB 1001

TRDC1002 - Therapeutic Recreation: Program Evaluation and Documentation

3 credits (30:15:0 hours)

Learn how therapeutic recreation programs and client responses are evaluated to ensure that quality service is provided. Study and practise documentation styles and guidelines for the therapeutic recreation professional in providing client and program-specific information to the health-care team.

Prerequisite: TRDC 1001

TRDC2001 - Therapeutic Recreation: Client Assessment

3 credits (45:0:0 hours)

Explore the therapeutic recreation assessment process that determines the client intervention plan. Study principles and tools of measurement, the use of valid and reliable assessment tools, and the process of developing agency-specific measurements. Practise leading effective assessment interviews and conducting systematic client observation as a part of the assessment process.

Prerequisite: Therapeutic Recreation certificate

TRDC2002 - Therapeutic Recreation: Program Design

3 credits (45:0:0 hours)

Learn how a recreation therapist systematically designs accountable intervention programs to allow clients to meet specific outcomes. Gain valuable practice in designing a variety of functional intervention, leisure education, and recreation participation programs with measurable and meaningful outcomes for your clients.

Prerequisite: TRDC 2001

COURSE DESCRIPTIONS

TRDC2003 - Evidence Based Program Planning and Facilitation Project

3 credits (15:30:0 hours)

In this course, you will work with a faculty advisor in designing an extensive term project that utilizes current research in therapeutic recreation facilitation techniques and/or interventions. In doing so, you will further your understanding of evidence-based practice, increase your research skills, and explore the practical application of research to program planning and facilitation.

Corequisite: TRDC 2002

UCBI1000 - Urinary Catheterization and Bladder Irrigation

2 credits (30:0:0 hours)

This course is designed to provide the LPN with the knowledge and skills required to safely insert, maintain and remove a urinary catheter as well as to safely care for a client requiring intermittent or continuous bladder irrigations. This course will also introduce the LPN to basic knowledge on caring for suprapubic catheters and the care of the catheter site of a client with peritoneal dialysis.

UTRN1001 - University/College Preparation

5 credits (125:0:0 hours)

This course assists students to grow and develop the skills they need to make a successful transition to post-secondary life. Students learn coping skills and study habits essential for applying themselves to the rigors of college or university academics. Students are mentored while developing familiarity with college and university environments through key contacts at the receiving institutions.

WCSA1001 - Wound Care: Using a Standardized Approach

2 credits (30:0:0 hours)

This course is designed for the LPN who wants to acquire advanced knowledge and skills in wound management in order to work in a leadership role applying the principles of wound healing in a variety of settings.

WELL1000 - Wellness Through Leisure

3 credits (45:0:0 hours)

Further your understanding of the field of therapeutic recreation and learn about the models of care in the therapeutic recreation process that guide service delivery. Discuss the Leisure Ability Model as a framework to service, with a focus on promoting a client's wellness through goal-oriented leisure activities.

WMST2010 - Women's and Gender Studies

3 credits (45:0:0 hours)

This course is a critical feminist examination of embodied lives in differing social locations. The course challenges the traditional dichotomies of mind/body, culture/nature, and public/private in the treatment of such topics as the feminization of poverty; sexualities, reproduction, and family life; violence against women; women and religion; masculinities; and culture and body image.

WORK1021 - Work Experience I - APR

8 credits (0:0:480 hours)

Explore the work environment while receiving support and mentoring from experienced College staff. Learn about the expectations of employers, and acquire the skills necessary to be successful in the career of your choice.

WORK1023 - Work Experience III - APR

8 credits (0:0:365 hours)

Explore the work environment while receiving support and mentoring from experienced College staff. Learn about the expectations of employers, and acquire the skills necessary to be successful in the career of your choice.

WRIT1401 - Writing Level 4

4 credits (80:20:0 hours)

Write notes, letters, journals, and short paragraphs while learning how to punctuate and use grammar correctly.

WRIT1402 - Writing Level 4B

4 credits (80:20:0 hours)

Write notes, letters, journals, and short paragraphs while learning how to punctuate and use grammar correctly.

WRIT1501 - Writing Level 5

4 credits (80:20:0 hours)

Work on sentence and paragraph structure to write narrative, descriptive, and informative paragraphs.

WRIT1502 - Writing Level 5B

4 credits (80:20:0 hours)

Work on sentence and paragraph structure to write narrative, descriptive, and informative paragraphs.

WRIT1601 - Writing Level 6

4 credits (80:20:0 hours)

Write descriptive, comparison and contrast, persuasive, and/or informative paragraphs. Learn to respond to works of literature.

YITX1001 - Foundational Reading

3 credits (63:0:0 hours)

Learn about title, main characters, setting, plot, and theme in literature. Identify the difference between fiction and non-fiction. Respond to text using personal experience and learn to express preference for different story genres. Develop skills in inferencing, identifying cause and effect and main ideas, and differentiating between fact and opinion. Improve your bank of sight words.

YITX1002 - Essential Reading

3 credits (63:0:0 hours)

Explore the concepts of character, plot, setting, conflict, and resolution in short stories and through a novel study. Learn to summarize and respond to readings on varying topics and of various lengths. Improve your ability to read and comprehend non-fiction texts by developing skills such as recognizing and identifying main ideas, details, and sequence. Learn to predict, question, infer, and use background information to better understand text.

YITX1003 - Critical Reading

3 credits (63:0:0 hours)

Learn to identify plot, conflict and resolution, climax, setting, theme, characterization, and point of view in various fictional short story selections. Explore the concepts of theme, prediction, background information, making connections, visualization, questioning, and figurative language through a novel study. Develop your ability to read and comprehend non-fiction texts by focusing on “cause and effect” and “compare and contrast” text structures. Improve your ability to distinguish between fact and opinion, identify the main idea, and understand irony and inference. Learn through individual, group, and computer-assisted instruction.

YITX1011 - Foundational Writing

3 credits (63:0:0 hours)

Improve the mechanics of your writing through instruction in capitalization, spelling, and punctuation. Express yourself through journal writing. Develop your ability to write grammatically correct sentences. Learn to write various types of short expository and narrative paragraphs.

YITX1012 - Essential Writing

3 credits (63:0:0 hours)

Develop your ability to plan, draft, and edit your writing. Learn to write various types of paragraphs including persuasive, descriptive, narrative, compare and contrast, and cause and effect. Improve your academic vocabulary, spelling, and grammar skills through individual and group instruction.

YITX1013 - Critical Writing

3 credits (63:0:0 hours)

Develop the ability to plan, draft, and edit your writing. Learn how to organize and support persuasive paragraphs. Understand how to use similes and write descriptively in narrative paragraphs and essays. Learn how to summarize effectively. Explore the structures of “compare and contrast” and “cause and effect” paragraphs and further develop your writing to three-paragraph or five-paragraph essays. Improve your academic vocabulary, spelling, and grammar skills through both individual and group instruction.

YITX1020 - Enhanced Language

1 credit (30:0:0 hours)

Improve your reading, writing, listening, speaking, and/or grammar skills through individualized instruction. Work both with an instructor and in a small group to develop skills essential to achieving your personal language goals. This course is designed for students whose math skills are significantly higher than their language skills.

YITX1031 - Foundational Skills

1 credit (16:0:0 hours)

Develop your communication and interpersonal skills while working as a member of a team. Explore themes that may include academic success, intercultural communication, employment, Canadian history and citizenship, and healthy living. Complete projects that develop your research, interview, and presentation skills. Enhance your computer skills and knowledge in word processing, presentation, and desktop publishing programs. Improve your physical health through field trips to the YMCA.

YITX1032 - Essential Skills

1 credit (16:0:0 hours)

Further develop your communication and interpersonal skills while working as a member of a team. Explore themes that may include academic success, intercultural communication, employment, Canadian history and citizenship, and healthy living. Complete projects that develop your research, interview, and presentation skills. Enhance your computer skills and knowledge in word processing, presentation, and desktop publishing programs. Improve your physical health through field trips to the YMCA.

YITX1033 - Critical Skills

1 credit (16:0:0 hours)

Continue to develop your communication and interpersonal skills while working as a member of a team. Explore themes that may include academic success, intercultural communication, employment, Canadian history and citizenship, and healthy living. Complete projects that develop your research, interview, and presentation skills. Enhance your computer skills and knowledge in word processing, presentation, and desktop publishing programs. Improve your physical health through field trips to the YMCA.

YITX1041 - YIT Math 1

1 credit (30:0:0 hours)

COURSE DESCRIPTIONS

Develop your mathematical ability through a modularized program developed by the instructor to meet your individual needs. Topics covered include whole number addition, subtraction, multiplication, and division.

YITX1042 - YIT Math 2

1 credit (30:0:0 hours)

Develop your mathematical ability through a modularized program developed by the instructor to meet your individual needs. Topics covered include a review of multiplication and division operations and an introduction to fractions.

YITX1043 - YIT Math 3

1 credit (30:0:0 hours)

Develop your mathematical ability through a modularized program developed by the instructor to meet your individual needs. Topics include fractions, decimals, integers, simple equations, ratios, proportions, percent, and measurement.

YITX1101 - Foundational Reading

6 credits (126:0:0 hours)

Learn about title, main characters, setting, plot, and theme in literature. Identify the difference between fiction and non-fiction. Respond to text using personal experience and learn to express preference for different story genres. Develop skills in inferencing, identifying cause and effect and main ideas, and differentiating between fact and opinion. Improve your bank of sight words.

YITX1102 - Essential Reading

6 credits (126:0:0 hours)

Explore the concepts of character, plot, setting, conflict, and resolution in short stories and through a novel study. Learn to summarize and respond to readings on varying topics and of various lengths. Improve your ability to read and comprehend non-fiction texts by developing skills such as recognizing and identifying main ideas, details, and sequence. Learn to predict, question, infer, and use background information to better understand text.

YITX1103 - Critical Reading

6 credits (126:0:0 hours)

Learn to identify plot, conflict and resolution, climax, setting, theme, characterization, and point of view in various fictional short story selections. Explore the concepts of theme, prediction, background information, making connections, visualization, questioning, and figurative language through a novel study. Develop your ability to read and comprehend non-fiction texts by focusing on “cause and effect” and “compare and contrast” text structures. Improve your ability to distinguish between fact and opinion, identify the main idea, and understand irony and inference. Learn through individual, group, and computer-assisted instruction.

YITX1111 - Foundational Writing

6 credits (126:0:0 hours)

Improve the mechanics of your writing through instruction in capitalization, spelling, and punctuation. Express yourself through journal writing. Develop your ability to write grammatically correct sentences. Learn to write various types of short expository and narrative paragraphs.

YITX1112 - Essential Writing

6 credits (126:0:0 hours)

Develop your ability to plan, draft, and edit your writing. Learn to write various types of paragraphs including persuasive, descriptive, narrative, compare and contrast, and cause and effect. Improve your academic vocabulary, spelling, and grammar skills through individual and group instruction.

YITX1113 - Critical Writing

6 credits (126:0:0 hours)

Develop the ability to plan, draft, and edit your writing. Learn how to organize and support persuasive paragraphs. Understand how to use similes and write descriptively in narrative paragraphs and essays. Learn how to summarize effectively. Explore the structures of “compare and contrast” and “cause and effect” paragraphs and further develop your writing to three-paragraph or five-paragraph essays. Improve your academic vocabulary, spelling, and grammar skills through both individual and group instruction.

YITX1120 - Enhanced Language

2 credits (60:0:0 hours)

Improve your reading, writing, listening, speaking, and/or grammar skills through individualized instruction. Work both with an instructor and in a small group to develop skills essential to achieving your personal language goals. This course is designed for students whose math skills are significantly higher than their language skills.

YITX1131 - Foundational Skills

2 credits (32:0:0 hours)

Develop your communication and interpersonal skills while working as a member of a team. Explore themes that may include academic success, intercultural communication, employment, Canadian history and citizenship, and healthy living. Complete projects that develop your research, interview, and presentation skills. Enhance your computer skills and knowledge in word processing, presentation, and desktop publishing programs. Improve your physical health through field trips to the YMCA.

YITX1132 - Essential Skills

2 credits (32:0:0 hours)

Further develop your communication and interpersonal skills while

working as a member of a team. Explore themes that may include academic success, intercultural communication, employment, Canadian history and citizenship, and healthy living. Complete projects that develop your research, interview, and presentation skills. Enhance your computer skills and knowledge in word processing, presentation, and desktop publishing programs. Improve your physical health through field trips to the YMCA.

YITX1133 - Critical Skills

2 credits (32:0:0 hours)

Continue to develop your communication and interpersonal skills while working as a member of a team. Explore themes that may include academic success, intercultural communication, employment, Canadian history and citizenship, and healthy living. Complete projects that develop your research, interview, and presentation skills. Enhance your computer skills and knowledge in word processing, presentation, and desktop publishing programs. Improve your physical health through field trips to the YMCA.

YITX1141 - YIT Math 1

2 credits (60:0:0 hours)

Develop your mathematical ability through a modularized program developed by the instructor to meet your individual needs. Topics covered include whole number addition, subtraction, multiplication, and division.

YITX1142 - YIT Math 2

2 credits (60:0:0 hours)

Develop your mathematical ability through a modularized program developed by the instructor to meet your individual needs. Topics covered include a review of multiplication and division operations and an introduction to fractions.

YITX1143 - YIT Math 3

2 credits (60:0:0 hours)

Develop your mathematical ability through a modularized program developed by the instructor to meet your individual needs. Topics include fractions, decimals, integers, simple equations, ratios, proportions, percent, and measurement.
