

CareGivers Home Health Care is currently recruiting HCAS for pediatric positions. These positions require that applicants have successfully completed their HCA certificate. The agency will provide all additional training required; Pediatric training with Alberta Health Services for trach/g-tube care, as well as ventilator training depending on assignment, and any other client specific tasks that may be required).

HCA applicants must be available for overnight shifts (typically 8-10 hours in length), and have the compassion and the desire to work in the homes of parents with medically compromised children. HCAs are required to remain awake for the entire duration of these shifts to monitor the child's safety and wellbeing, and act if the child requires assistance/interventions overnight.

Pediatric client homes are located throughout St. Albert and Edmonton (North to South).

Applicants are welcome to submit their resumes via email to kdavis@caregiversgroup.ca. Only those selected for an interview will be contacted. We thank all applicants for their interest.
