

CareGivers Home Health Care is currently recruiting LPNs for pediatric positions. These positions require that applicants have an active LPN license with the CLPNA. The agency will provide all additional training required; Pediatric training with Alberta Health Services for trach/g-tube care, as well as ventilator training depending on assignment, and any other client specific tasks that may be required).

Daytime LPN positions are available at this time to provide respite care to clients while parents attend work/appointments/errands. Respite visits vary in length; 4-10 hours. Applicants must have the compassion and the desire to work with medically compromised children, interacting with the child and ensuring their safety and wellbeing.

Pediatric client homes are located throughout St. Albert and Edmonton (North to South).

Applicants are welcome to submit their resumes via email to kdavis@caregiversgroup.ca. Only those selected for an interview will be contacted. We thank all applicants for their interest.
